

{The Old man & The Dawn of Darkness}

In the beginning of the 60s, two young brothers were living together in a happy family, side by side with hope to live forever, and keep their names....IMMORTAL....

Years passed, they grown up, had places in wars, life and historic incidents, Their boys were meant to be strong, powerful and tough enough to deserve their names and their family name...ISAACS...

The Elder one got two children, the younger got a son and a daughter...

The elder brother's sons were destined to be the strongest of all time, the best of their kind, and the last of it too... They were twins, born together in one day... December 12th 1976, in a weather showing that the world was already afraid and rejecting them, with rain, thunder, and overrated coldness...

{The Monster & The Clown}

They had to be called by special names, they weren't like humans, or so was thought, one got the name of "Victor" and the other was called "Shawn"...both of them made a promise to be always there for each other...no matter what...

At the age of 16, they were called "The Brothers of Destruction", because of what they did to their teacher, who made fun of "Shawn", In his office they entered and shut the door tight...after 15 minutes of screaming, The brothers came out in front of everyone showing them the

teacher's EARS in their hands...After being suspended from school...their dad started to try so hard to tell them how dangerous they are, telling them "When are you two going to figure it out, we are not like them, they fear us, hate us, and envy us, we have to stay in the Shadows because they can't bear our power, they can't bear YOUR power".

Their father paid a lot of money to keep this a secret, the teacher thought that law will help him, unknowing the consequences of that move, at the end, his car burnt down as a warning, he insisted on what he was doing, by calling cops, thinking

they'll help him, 3 days later that teacher was found dead in a robbery incident in his apartment without a trace to the robber...or the killer...

{Bishop}

2 months later, on March 22nd 1992, they were driving well, learnt on the hands of a very dangerous man named "Bishop", an English guy who was said to be a gang-banger, dangerous enough to kill anyone in cold blood without fear of law, his gang was big, and protected by dangerous people, business men, politicians, military,

cops, and even the Mi6^[1] used to facilitate his work...dirty work...Among the years he got a lot of men working under his command, criminals or former soldiers in the government, at that time, it was under control only in "England" and "Europe"..

"The Brothers of Destruction" travelled to "England" and stayed there for a while, after their father gave "Bishop" authority to keep his boys with him, until things get in control again in "Egypt"...

For "Shawn", or "Joker" as he was called, it wasn't too much time to be

spent with "Bishop"...unlike "Victor", or "Frankenstein" as he was called, he used to be a friend to "Bishop", "Bishop" taught "Frank" everything, EVERYTHING, like driving, shooting, opening locked cars and doors, fixing cars, diving, making bombs out of anything around him, using any kind of weapons...no matter how heavy they are, and other things no normal criminal knows about.

One year later, on March 23rd 1993, both of "Frankenstein" & "Joker" have become more dangerous than ever, they became good drivers...HELL good...enough to compete in RACES...The

"Community"^{[1][2]} "Bishop" was a part of, were setting an illegal race of 3 stages:-

1) Regular

2) Advanced

3) Deadly

1) Regular races:- Race around a track in a special track to every car (NO crash), all about how good you are or how good your car is, and how fast it is...

2) Advanced races:- No special tracks for cars, everyone gonna have to do his best to win, crash IS allowed...

3) Deadly races:- NO rules at all, with tricks in cars [oil pipes, nails &

pins box, N₂O, black smoke, or fuel with flares] in addition to some obstacles, like [a hill of sand, ramps, rocks (small and big), stones & gravels, burning tires], all of that in your way.

During all races, there must be 12 competitors, all are best drivers, but there's only ONE who must prove that he's the Best of all Times...

{The Death of the Clown}

"The Brothers of Destruction" (B.O.D), were good enough to compete in such races, but there was one man, no one could defeat, nobody saw him

out of the car, ever, with dark glass, and used to be called "The Assassin", the "Community" used to put him in races to get rid of someone, or to make the competition...ON FIRE...

He used to show up in a "Dodge Charger R/T 1968" completely modified, while everyone in "Egypt" used to have 80s cars...on the "B.O.D" side, there were a "Renault 12 clone 1970" & "FSO Polonez 1978"...the "Renault" was driven by "The Joker", and its color was a mix between purple & green, and the "Polonez" was driven by "Frankenstein", and it was completely black...of course no names used, just names like (Frank, Joker,.....)...

"Frankenstein" was good enough to take out 4 cars, protecting "Joker" and himself, but he couldn't defeat "The Assassin" and for the first time, they got out equal, no winner...to solve this, there was a date for a tag team race, the winner team take the prize and the cars of the losers...and both "Frank" and the "Assassin" were made to choose the teammates... "Frank"-of course-chose his brother "Joker", while the "Assassin" chose someone called "The Crocodile"...he was driving a Green "Peugeot 504".

The race started by the "Deadly race", directly, "Frank" started with the "Assassin", "Frank" won..."Joker"

faced the "Crocodile", at the end of the track, "Crocodile" rushed by launching the N_2O early, "Joker" waited for 3 seconds and did the same, "Crocodile's" N_2O started to get burnt nearly all and "Joker" was that close to victory, so "Crocodile" managed and crashed the "Joker's" car, throwing him to one of the ramps, causing the car to roll over on its roof... "Frank" rushed to the destroyed car to rescue his brother, but it was too late to save him or to move him away from the burning car ...the car exploded in the face of "Frank" causing him serious burns in his face, the right side of his face was completely maimed...from the race

rules...there must be an assistant to the driver in every car [except for the "Assassin"]... "Frank" had one with him, her name was "Ivy"...she kept close to "Frank" after the accident...she loved him, and he loved her...she made him a special thing after he refused medical attention, she made him a metal mask made of steel...instead of the rubber mask of "Frankenstein" horror movies mask...

(The Joker's casket, the one he was buried in)

{Dawn of Evolution}

At the beginning of 1993, (before the accident), "Victor" created a legendary day, to be inherited to the generations, when everyone stand confessing all his work in the past year, or all his crimes, it was also the day when he & his old relatives decided to make "Evolution" a group of the family members, including [Frankenstein, Joker, Scorpion, Scareface, Undertaker, and Specter]... The original members of "Evolution"...

"Scorpion" got married, had someone to care for, and he travelled away... "Scareface" decided to retire, on year 2000 he got married too, "Undertaker" died in a drive-by... and "Specter" also got married and had kids to raise, and of course, "Joker" was dead too... leaving "Frank" alone... Before that split of "Evolution", they did enough bad things together, hurt some people, caused troubles everywhere they exist... but "Frank" had a target to hunt... the "Crocodile", since the accident... "Frank" disappeared, but the "Crocodile" was there... with the help of "Evolution", "Frank" found way to KILL his brother's killer... since that, he

travelled again to his old friend "Bishop"...where "Frank" made surgeries to return his lost face back, and it happened, only then "Bishop" knew that he and the "Joker's" death created A MONSTER...with no brakes to stop him, or slow him down...

{The First Job}

It was-like all beginners-a transporting job, for whatever package...It just must be closed, all you have to do, is to deliver the package to its destination safely...after some jobs like that, "Bishop" decided to put "Frank" in a bigger place in the

"Community", Jobs started to get harder, bigger, and as more jobs that pass, it just feels...good...

A 40 year old man called "Buchinsky", an English man with no family or friends, loves seeing people suffering...or dying...that guy started to deal with "Frank" after being told what happened with that (kid)...so he decided to add him to his crew of thugs..."Frank" started to become famous in "Egypt", famous with his power and cold blood, at that time, "Ivy" showed up again, joining "Buchinsky's" clan...

{Frankenstein's Love}

"Ivy"...or "Eve", her real name...was a young girl who lost her family in a car crash in "England", in 1990 she was just a whore, who sits next to a driver and help him with the car tricks, besides dancing, and all that...later, she was-for some reason-chosen to join the MI6 special men, that helped her to be everything she wanted to be, with no identity or physical existence..."Ivy" could do and commit any crime without being detected...After a lot of work on her body and skills, "Ivy" could be one of the most serious people in the

"Community"...she became capable of doing anything and everything...She became a Monster of some kind...she found "Frank" and was so glad to see him again, after being thrown away by the MI6 and forced to work for "Bishop"...

They worked as a team together, did a lot of jobs together, killed some people, stole a lot of precious stuff from people who can't be touched and places with the best security systems ever...She loved him the way she told him: "If you live, I live, wherever you go, I go, whatever you do, I do, you drive, I drive, you FIGHT, I FIGHT...and if you died

*"Victor", I'll die with you,
"Frankenstein'"..."*

{The End of an ERA}

In February 1997, the British army discovered a substance, they say, it can regenerate a dead cell that died with maximum time 10 minutes, a green fluid they called it the "Green Goo" but its results weren't so good, or wasn't successful, as they needed a catalyst or a coolant to solidify the fluid once it reaches the cells, because each time they tried to cool it up, it melts and die, killing the cell with it...so the project was

shut down for years and years... "Frank" was told to steel that thing for them at all costs, using all resources needed...

A month later, it was done with no blood shocking everyone using his girl's help and some close friends, but also for the shock, "Frank" hid it some place no one of them knew about and from the same very moment he started to write his own book... "Frankenstein: Spirit of Love and Rage", mentioning everything in it... **EVERYTHING**... except its place, at least not directly... and wrote on the cover "For my little brother's eyes only"...

{The Death & Life of Frankenstein}

"Frank" finished his legendary book in 334 pages of facts and quotes to the young boy...

In January 3rd 1994, "The Old Man" had another boy, also born in the coldness of winter and its rage by thunder and rain...he was called "Mark", but "Frank" saw that the name that fits him was "Cyclone"...as another name like his..."Frank" wrote his book cover after the "Cyclone" was born..."Frank" wrote it for him...for "Cyclone"...to let the small little boy

realize what war he'll face in the future...as if he was knowing... "Frank" at some point thought that this kid is gonna be like him, or maybe worse...

In 2 weeks of that birth of the "Cyclone", there was an injured crow in the balcony, it wasn't predicted from a guy like "Frank" to care, but he did, and helped it when the crow was okay to fly, it flew away... On the 2nd birthday of "Cyclone", it came to their balcony again, it felt safe enough to stand on "Frank's" shoulder, and ever since "Frank" was also named as "The Dead man Walking" and that crow was his only friend and pet...

In the late 1997, "Frank" was told that the "Green Goo" is not gonna be important, until it is, he will be asked for it...It helped to keep things calm a little bit...and for some time...

In November 23rd 1998, "Cyclone" was 4 years old, barely walking, his mom asked him to go and wake his big brother up...it was the hardest moment of that child's life..."Frank" was still breathing but heavily, "Frank" was DYING, it was the end...The kid didn't realize it, he did what his big brother told him to do, "Stay with me", young "Cyclone" did it, and it was the mistake of his life..."Frank" DIED, leaving a lot of

enemies and secrets behind... when their dad (The Old Man) entered the room he realized, but it was already late..."The Old Man" cried in a hysterical way, never before, never after...but his words to "Cyclone" lived and will live with him forever..."You let "Victor" die, what kind of evil are you? You should die, not him, you KILLED him, just like "Maria"... You are just a curse"...since that, the kid lost talking for months, until he talked again in a fight at school, his first one ever...he locked the a boy's head between the wall and the door, and shut it strongly 3 times causing cracks in the kid's skull telling everyone loudly: "You all don't

understand...you are all locked down here with me in this planet"...And it was the beginning of a new ERA, the era of the "Cyclone", and it started too early...

(The urn that contains Victor's ashes, according to his will to burn his body after death)

{Frankenstein's Immortality}

"Mark", or "Cyclone", had 2 uncles, both had boys and girls, after the death of "Frank" and the retirement of "Scareface", "Evolution" was over...

In year 2000, one of those boys, his name became "Rorschach" by time...he was 18 years old that time...he and the other boy, who was called "Bane" for his strong body, "Bane" was 15 that time, were like brothers...But "Rorschach" wanted to create something big...something that lives forever...so, thoughts went back

to the old group ... "Evolution", they represented "Evolution" together for a long time...

Among the years, people tried to see what "Frank" wanted to say through his book, and it was a mistake... In 2005, "The Old Man" tried to read some in it, he didn't understand, but he made an accident the next day, car crash... Before it, in 2001, "Frank's" mom tried to read in it some, she had a diabetic coma that needed weeks to rehab... Later in 2006, "Rorschach" found it, tried to read its first lines, but he understood nothing, but he wasn't away from the curse... he was hit by a car on his way

to college the next day...only the young boy "Cyclone" didn't get affected by it...giving "The Old Man" the idea to hide that book somewhere safe before anyone else gets hurt...When "The Old Man" said that to his brother, "Rorschach's" father, he just replied telling him: "This means that he's still with us watching his legacy and his living IMAGE on earth" looking at "Cyclone"... stating that "Frankenstein" never die...NEVER...

{Jacob's puppets}

During these years from 2004 to 2010, "Rorschach" & "Bane" have been working for the "Community" and their men, in exchange to some favors, the Boss that time was called "Jacob"...

"Jacob"...a Jewish guy from an English father & a French mother...a former police unit, corrupt one... was told to leave the police and the country before he got arrested and "Bishop" helped him out of there...he was in "France"...changed his name, and technically has no existence, In a

short time he collected his crew and chose his men to use in a lot of places around the world...Including "Egypt"...his intelligence and good negotiating...brought him a lot of friends & men...

From 2004 to 2006, "Jacob" was in charge of business for the "Community" in "Egypt", taking care of it, destroying any obstacle that might hurt or damage their business, by any means necessary...

"Jacob" used to use "Rorschach" & "Bane" to do things like that, small things, like delivering cash, drugs,

special stuff, whatever they are...they must be all closed packages...Their sisters were joining too, "Venom" & "Viper"...helping them with special stuff...Besides, "Rorschach" was alone with nothing to fear of or care about, a 22 year old man starting his life by power, and so does "Bane", but "Bane" wasn't that smart like "Rorschach", so, "Jacob" was talking to "Rorschach" always...giving him orders, and "Rorschach" calls him when a trouble happens...but like always, nothing is for free...but with all that, "Evolution" wasn't strong enough to take a life...

{Frankenstein's reborn}

In the late 2006... "Jacob" left "Egypt" to be managed by someone else... named "Sweet"... That guy, was a main part in the "Community" families, one of them, but he likes to do and see things himself... with his evil mind, he could kill and cause death everywhere he went to...(USA, France, England, Brazil, Mexico, Italy, Morocco, Japan,...and a lot other places)...

He kept using "Rorschach", but with limits because he knows that asking for more, will cost him an

operation...more than once he have been thinking of getting rid of "Evolution", but "Bishop" stood in his way always...

Among the years..."Sweet" have used "Rorschach's" good knowledge in communication, hacking into special calls, tracking special people, and all that shit...and used "Bane" to be a some sort of a powerhouse...as actually..."Bane" was a 5.7 ft. 180 lb. of muscles...Not that bad...

"Cyclone" was completely out of all that...he was still a young boy...until high school...when

*everything changed...for good...for
life...*

*In the beginning of the first
year of high school...it was still late
2010...he met a girl, normal and
common to him like anyone else...But
he's like his father...Loves
leadership...and like his
brother...Loves to be powerful, and
dominating...*

*He got a lot of enemies and few
friends, just 8 friends who were loyal
to him...his relatives "Evolution" from
2009, started to prepare him to be a
part of "Evolution", and to be also,
the living image of the immortal*

"Frankenstein"...as a try to create a new...MONSTER...That's why till late 2010, he became very strong and cold blooded...which gave him enough power to control those 8 young thugs, during the first year of high school he made his gang...or so was called..."N.W.O.", with special names & T-shirts for each member, "Cyclone" was no longer his name...it was the first time...He called himself..."Frankenstein"...

Frankenstein

{WAR # 1}

In January 28th 2011, when the revolution stroke, No cops, No peace, thugs everywhere in the streets robbing & killing people...

"The Old Man" thought that he was still young and stood with his son and the other youth in a try to protect their homes...and it was a fatal mistake...as a drive-by happened, took all men standing dead except one, "The Old Man" who was saved by his son, taking 3 bullets in his back and leg...costing the new "Frank" to fall in a coma for 3

months, with suspicion of his death, the only strange thing in this was that neither "Evolution" nor "N.W.O." were there to support their "Frankenstein"...but there was someone else...someone unexpected...the girl that he met during one of his lessons courses, that angel that cried too much for the Monster which was between life and death...Sacrificing everything, ignoring everyone, just to wait him to wake up, to see his eyes again, with tears, fear & prayers...That kind of unconditioned love, that he always needed...At some point in the 3rd month, doctors lost hope, and decided to raise ventilators off his system...his

mother, GAVE up on him, and said "Let him rest"...his father, asked for more time, but no acceptance from the doctors...The only one who refused badly, was that girl, "Hylaria", refused even by force, she left her family and stayed next to "Frank" for 5 days...Day & Night...sleeping on chairs & couch...she never gave up on the Monster...Because she loved him...

{WAR # 2}

He... "Frank"... Suddenly woke up,
and all he could see was that
"Angel's" eyes... "Hylaria"...

For all this time with no
move... It was hard to walk or to move
at all... She never left him, she stayed
with him, helping him, talking to
him, and telling him what he missed
from his lessons or courses... until one
day, the stupid Monster asked her:
"Why are you doing this?"... she
answered... "Because I LOVE you
fool"... It was all he needed to be a
regular human being... again...

After getting well, he decided to look for his shooters, hoping that they were still free, and it was the beginning of the free fall...

"Frank" called "Rorschach" & "Bane" to help him, they had nothing to do but to call "Buchinsky"... "Buchinsky", an English man of about 50, no family mentioned or friends...he got no place for second chances, and no room for mistakes... That's why working with him, was hard, dangerous...

In 3 hours... "Buchinsky's" men found the shooters... somehow... and gave them to "Frank" and "Evolution"... of course... it was logic for "Frank" to shoot them... they prepared a piece for him... and the moment came... "Rorschach" told "Frank": "Once this happen tonight, there will be no going back, everything will be different", it wasn't the first time for "Frank" to hear these words... because the "Angel" told him the same words "Do whatever you think is right, but don't do anything you will regret later"... She was right... The time came... and the pistol was given to "Frank", "Bane" said: "Are you sure you can do this? And live with it?" to

"Frank"...he didn't answer, and SHOT
the 2 thugs in the head...telling
everyone that "Frankenstein" didn't
die...

{The Immortal Frankenstein}

"Evolution" realized that they
need a third member, who can do
things they can't do...needed a
Monster with a dead heart...

"The Old Man" knew that "Frank"
isn't like any other mankind, unique
of some sort...so, he taught him
shooting well, and how to bear all

kinds of pain, "No matter what happens, find a way to rise, don't you ever fall" "The Old Man" continued "You are an Isaac"...

The first base, or job, after learning shooting and driving, was in "Cairo" somewhere, a package to be delivered to someplace from some other place...they were 4 bags, full of cash from that place they took it from, to some dangerous people in the desert... That was in the dawn of 2012... The shock was too hard to discover that 2 bags were full of white papers, the guys who should take their cash didn't like that, while actually "Evolution" were just

transporters, but that wasn't enough...they chased them until they reached the cars when "Frank's" role started...after hours of chase and gun fire, cops caught them, "Evolution" were found to be victims of an attack by some thugs..."Rorschach" talked to "Buchinsky" asking him about what happened, and why did he do this..."Buchinsky" told him: "Your job was to deliver 4 bags, you don't have any right to ask what happened or why...The other real 2 bags are split by fair to your and their homes, kid"...The other 2 bags were their commission for the job...[their... Evolution].

"Venom" & "Viper" started to feel the danger was getting massive, so, they left "Evolution"... "Rorschach" loved & married a girl, later had a little boy...so, he got someone to care for...unlike before...but he didn't retire...

The next job that put "Frank" deep into the game...was a delivery of new imported football balls, new enough that the leather's smell is still in it...not inflated...they reached to the harbor in "Alex" and on the way to "Cairo" they got ambushed by "Buchinsky's" men and taken to their warehouse, "Evolution" had to take the goods from that warehouse to

another in "Matrouh", they did it unknowing what's inside the heavy balls... Whatever, it's not important for "Evolution"... because at the end "Buchinsky" did his part of the deal which was catching some thugs who tried and did attacked "Bane" in the street and it was done for them when the package reached safely to its destination...

"Buchinsky" started to watch "Frank" and one day he asked "Frank" "What do they call you boy?"... The Monster said: "Frankenstein", "Buchinsky" said "You?... You are Victor Frankenstein's

brother?"... "Frank" said "Yeah, I'm his living image now, I Frankenstein"...

{N W O}

When "Buchinsky" asked for more serious jobs, he started talking to "Frank" instead of "Rorschach" but-of course-"Frank" didn't have to do anything unless there were some motivations...like exposing "Rorschach's" family to danger or "Frank's" own family, or... "Hylaria" the "Angel"...So, "Frank" had to find a crew of trusted guys to help...No one was better than his old gang..."N.W.O."

"N.W.O."... "Nothing Worth Over"... composed of 9 members: [Frankenstein, Clown, Pachinko, Blob, Wraith, Hyde, Sabertooth, Train, 14K]... all are symbolic names... they were of "Frank's" age, but their hearts were dead & cold enough to take jobs like that...

In summer 2012, there were some weapons that need to be delivered to some people in "Giza" from "Sinai", "Frank" was asked to make the delivery, no easy task, he just asked for "Bane" & "N.W.O."...

The operation started, a truck full of heavy weapons to be delivered on the road... "Bane" had his fears from the cops... while "Frank" was worried from something else, from an ambush by thugs... it happened, and the shipment was ambushed by thugs for real, they did their best but it wasn't enough there were 3 more guys with them as protection, besides to the driver, they called "Buchinsky" and he sent his men, who were watching them by a chopper, when the thugs saw the chopper, they thought they were cops, so, they ran away in the dark... but the damage was big... One died, "14K", and 3 injured, [Wraith, Sabertooth, Train],

of "N.W.O.", and 2 of the security members too...3 of the "N.W.O." guys lost their sane completely, [Clown, Pachinko, Hyde], and had to go to special hospitals for mental treatment, days later, "Train" died in hospital...it was the END of the "N.W.O."...since that...some of them were on drugs and died or got arrested because of it, and others just disappeared...since that time..."Frank" had to use the mask of the original "Frankenstein"...the metal mask, to hide his identity...and his face...

{WAR # 3}

Spring 2013, "The Old Man" asked "Frank" to come with him to someplace, to bring something from someone there...some place in "Al-Salam" where thugs live, or some of them at least... "The Old Man" told "Frank" to stay in the car, and he went to ask someone about the place...unknowing who he was gonna talk to...the guy was drunk, once he saw "The Old Man", he raised a knife to attack him...for the good luck, the thug's back was to the car "Frank" was in... "Frank" didn't hesitate, he found a Pepsi glass on the ground in

*a corner...he broke it on the ground
and scratched the thug's back...taking
"The Old Man" and speeding
away...unknowing if he died or
not...but the hit was enough strong to
kill...*

*That thug was one of someone's
boys...they used to call him..."The
Ghost"...a common criminal with a lot
of street rats^[3] under his
command...Days later, a phone call
came to "Frank's" home...Telling "The
Old Man" to be careful and warning
him badly...his son didn't care to
what may happen to him, but he
cared for "The Old Man's" fate...So, he
called "The Community's" man*

"Buchinsky" to take care of it, but he wasn't fast enough... The same night, "Frank" & "Rorschach" were going out with a friend to "Rorschach"...and a sudden drive by^[4] happened, "Rorschach" got hit in his back...near the SPINAL CORD...causing a some kind of a coma, a temporary one...the friend died...and "Frank" got a hole in his shoulder that caused him permanent pain... Before "Rorschach" fall down, he told "Frank" : "It's not your fault, it's the world which throws shit on you... Can you stand?" After a while of silence "Frank" said: "Yes, WE can"...and both men fall to the ground...

*"Whenever I fall, I'll find a way to
rise again"*

{Street Negotiations}

*"Buchinsky"...for some
reason...refused to help with
that...giving "The Old Man" no choice
but calling the cops..."Frank" had an
idea but he kept it for the right
time...when the time came to see some
suspects in a show, to identify any of
the shooters or the guy who attacked
"The Old Man" at "Al-Salam"
hood...when that time came..."Frank"
convinced "The Old Man" NOT to
identify them or that thug..."The Old*

Man" didn't understand, but he trusted his son and did what he said, a week later, The "Ghost" called again...saying that he wanna meet "The Old Man", "Frank" went alone, and told "Ghost" what happened and who saved his men, and saved him too...because if they fall, they won't fall alone, "Ghost" admired the move & said "Fine, you are above me by one step...I owe you one favor you ask"... "Frank" told him "Later...I'll need you later"...

On the other hand...from the beginning of summer 2011 to the beginning of autumn 2013, "Frank" and "Angel" were in complete love,

getting out together, talking every day, all day, she was his life, and he was all her life... When it was time to go to college, he had to go on the same path of his brother... to fulfill his dream and to create his legacy that he didn't have time to make...

{Farewell my friend}

In 2012, "Frank" used to have a very close and loyal friend, he was his best friend ever... he was called "Tony"... They were like brothers... maybe more, "Tony" died in a car accident... in a horrible way... by a child driving a truck... It destroyed

"Frank"... "Angel" did her best...but not for long...she left the country for a reason when "Frank" knew about, he cried the way he have never ever before, she tried not to let him know...but he knew...and as usual it was already late...In the late 2013, he had an info of her...DEATH...too, it was all he needed to leave the planet...She travelled because she was ill...VERY...

Since that time..."Frank" lost trust & hope in everyone...and returned back to street business...became a Monster again...with no friends, with no love, with nothing but RAGE...

{The Penguin}

After what happened, from the "Ghost", "Frank" stayed in the shadows for some time, during this time, one of the "Community's" men... "The Penguin", came to check things and how is everything, like every year, one of the favorite men to the "Community" goes to check on things in places like the middle-east or so...

"Penguin"... a fat, lazy, old man who cares about nothing but money & women... used to be a source of information for the C.I.A.^[5] when he

was young...Now, he's about 65 years old...and became a trusted person in the "Community"...

"Buchinsky" have never liked "Penguin", they had issues of their own...That was why "Bishop" asked "Buchinsky" to go back to "England" and "Penguin" to stay... "Penguin" knew the drill, and asked to see "Frank"...he knew that he was an "Isaac" and decided to test him...giving him straight orders to manage a way to get stuff out of "Port-Saeed's" harbor to "Suez"...without being stopped... "Frank's" position was different, he had to do it, because he wanted something in return, he did

it, and many times he was stopped by cops on the road...and God kept them away of him, because of his status...as a Christian...

"Penguin" was happy with that, "Frank" was told to ask anything...That time, "Frank" met a girl...another one...younger, in a different university with an insane mind...Nearly during the same time...he also met another girl in his college... "The Sound of Mind"...She became a very important friend in the Monster's life...she was of his age & academic year...

{Harley Quinn^[6] & The Sound of Mind}

"Frank" for some reason, started to get closer to that younger girl... who wasn't in his university... who was later called "Harley Quinn", due to her obsession with "Frank's" character...

One of "Quinn's" friends didn't like "Frank"... not even ONE bit... but he was coward enough to talk shit about him in his absence... "Quinn" was a part of a group of friends... about 8 boys and 4 girls... all of them were polite and good people,

That's what made him think that he was the boss, "Quinn" never liked him...

One day, "Frank" went to "Quinn" in her college, to see her, for some reason, one of "Quinn's" girlfriends in the group told "Frank" about what's happening around...as it was over the limit..."Frank" didn't rush, he asked him about what was said, he didn't deny...a fight started and ended before anyone realized what's going down, that boy lost 3 teeth and had a broken nose, "Frank" crashed his head on a table badly, even the table was cracked..."Frank" was taken by the security of the college to the

"Dean" and of course he discovered that he was a relative of a very respected PhD in the whole college... "Frank's" uncle, "The Old Man's" brother... who was still in service... his uncle got him out of that trouble with one condition... an apology to the boy and his friends, to avoid using law, he wasn't gonna do so alone... it happened in the existence of his uncle, "The Old Man", "Rorschach", security members, the "Dean" and his "Vice", were all there to make sure "Frank" won't kill him...

2 weeks later, he began to curse "Frank" to his friends... knowing that "Frank" was banned from getting in

there anymore...that was hurting "Quinn", but he just didn't care...then he started to talk about her after he was done with "Frank"... That shit reached to "Frank", somehow, he had to make a move...

During all that time, "Frank" became a good friend to the girl he met at the college..."The Sound of Mind"...She was wise, quiet and polite...loving people and life, social, good adviser...all qualities of a perfect friend..."Frank" trusted her, she earned his trust & respect...and later his LOVE too...he told her what happened with "Quinn", and she said "You don't have to trust the source of

the info, it might be someone who
wanna put you in trouble, ask her
first"... "Frank" was weak to her
opinions... He did what she told him
to do... but "Quinn" tried to hide or
lie, "Frank" was good enough to know
her lie... he knew her well... The next
day, "Quinn" called "Frank" and told
him to "Do something"... he couldn't
say no, but he couldn't use
"Penguin's" help with that silly
thing... But he still got someone
else... "The Ghost" who "Frank" didn't
witness against his men to the
cops... he agreed to help... he sent 2
boys to be under "Frank's" orders, and
it wasn't that bad, and fast too... they
burnt down that bay's father car, and

a message came to him from some private number...telling him to stay away of her or suffer more, with another warning message to his own father causing disturbance to the boy & his family, in 4 days...The boy called "Quinn" and told her his apologies and asked her to stop "Frank", in return she told him to avoid her and stop being a part of her friends...The boy agreed, days later, "Quinn" called "Frank" and asked to see him again...he agreed, and he ended everything with her, because, he thought, she couldn't stop him, or control his anger...and he wanted someone who can stop..."Quinn" couldn't do that...but

she would be someone "Frank" will never forget...NEVER...

{WAR # 4}

Operations in "Egypt" started to get bigger after June 30th 2013..."Penguin" was said to be one of several causes to all what happened...

One of "Penguin's" men, was called "Deathstiker", he wasn't so smart, but he was good in following his boss's orders...Since the 2nd revolution, this guy showed up, and ever since, lots of guns have been getting into the country, some of them are just passing...like [M4, MP5, AA12 Automatic shot gun, FNFS

2000, Glock, KSG Shot guns, m203 rifle grenade launcher, UZI Pistols,.....], or those used in "Egypt", like [AK 47, Sawed off shot guns, 9mm pistols,.....].

A bad day came, and "Rorschach" fought in the street with some guys...bad ones...because of a car crash in the street, they didn't like that move...they knew where he lives, and took the tires, or stole them, with no rocks to hold the car...leaving a paper with the address of their store..."Rorschach" called "Bane" and they went together with sticks, but however, these guys were waiting for them, with a lot of men, all armed, It

was a trap, and they fall in it... The thugs gave them one chance to call someone to save them or to say good bye... except the police... "Bane" called "Frank" and told him to get there and talk to them... as "Frank" knows how to talk to these kinds of people... Although his young age... but it was the only hope, "Frank" went to them and started the negotiations with their boss, who was very aggressive and angry... but it was solved, The man asked for their phones, money in pockets, any accessories in the car they came in, and 5000 LE for the damage they caused... and one of the men smashed some glass by a chair, That was the

best "Frank" could do...after some internal talking between "Evolution" members...they agreed to pay, by going to an ATM to get the 5000 LE...and it happened, 3 men went with "Rorschach" to get them...in 30 minutes...all was done...After going home..."Bane" refused to let go, and insisted on talking to "Penguin's" men...and he did it...but-of course-in exchange of a favor later...they had to agree, "Penguin" sent "Deathstriker" with some men to the place, and torn it apart...burnt the store and killed whoever stood in their way...and it was done...now it was "Evolution's" turn to do something for "Penguin"...An exchange, a bag for

another, so easy and simple... Gold bars in exchange of a weapon..."Evolution" took the weapon from "Penguin", delivered it to his guys in "Luxor" and took the gold bars, AND, some Pharonic artifacts... unexpected, but they had to take them... the trouble was, it was known that some artifacts were stolen... and "Luxor" was on fire and all hands on deck..."Frank" called "Penguin" and told him about the artifacts, in the time he didn't know about them, he told "Frank" to get everything he has back... during packing, a bar fall from "Bane"... no problem, gold never breaks... but it was BROKEN in pieces, their shock

was big...massive... The Nubians cheated them, There should be 24 bars, now they became 23 of fake bars, when they tried to find those Nubians...no one was found in their houses, "Frank" called "Penguin" again, but of no use, "Penguin" told "Frank": "Don't come back without the gold bars, the artifacts...you can keep them, but the bars must be here before nightfall"... "Evolution" knew that family name, the trick comes here...the Nubians found a better buyer for the gold bars, in exchange of getting 5 of their family members out of prison, the buyers were some police Brigades, they tried to have their weapon and their family

members out in the same time, smart, but not very...their homes are well known to the police, by drugs, weapons, and artifacts, "Evolution" went there again...and asked to see their big man, after hours from the first time, The same answer was said "The big man ain't here, he's still out", so they had to get in and plant the artifacts some another way, The police gave description to the stolen artifacts, they were the same as the ones with "Evolution", putting them in the outer hall wasn't a trouble for "Frank" he made it easily, the place was already too big...the men and servants were not everywhere, inside at least, tipping the cops and going

wasn't a very bad idea... it took down the whole family, the existence of one piece, means that all the artifacts were there, "Frank" went to see them again in the police station, to reach to a new agreement, they agreed to give "Evolution" the gold after getting out..."Rorschach" bought a similar statue, a fake one, and they bribed the officers to replace the real one with the fake statue...and the case was over on a mistaken call from someone unknown... The Nubians took it as a favor, but "Penguin" didn't...the gold reached to "Penguin", and he sent some men to finish some unfinished business between them...some of them died because of that betrayal...and

*the artifacts were for
"Evolution"... The Brigades went down
too...*

{Lola Ivanoff}

*In February 2014, after some
time of calmness... a strange call came
to "The Old Man", asking for a
special meet, from someone unknown,
and the same happened with "The
Old Man's" brother... "Rorschach's"
father... It was "Bishop's" brother, he
said: "There's too much going on since
we left your sons to rest from what
happened"... (The gun fire incident
and Luxor, That happened in June*

and September of 2013)...he continued "Penguin left and someone else is operating our business, that one needs to see "Frank" and "Rorschach" as soon as possible", and he gave them coordinates of the place they'll meet at..."The Old Man" thought that it might be a trap, and "Evolution" is of no use...but "Frank" insisted on going, "Rorschach" seemed suspicious about it and wanted to ignore it all...The time came, "Frank" went, "Rorschach" was late, so the men went to bring him, and they did, tied and beaten down, but can stand...

The new boss came out..."Lola Ivanoff", a late 30s woman, strong, tall, and charming, one of the "Community's" most trusted men, and most dangerous too, she was a good friend of "Ivy" and worked before with "Victor"...She doesn't got men, but she got plenty of friends because of her work in the "Russian Intelligences"...and the "Russian mafia" in equality...She was just missing a hacker and a driver...for her job in "Egypt"...

{WAR # 5}

That girl was strong enough to control a team of 7 men, plus..."Frank" and "Rorschach"...both men went back to get ready for the job, saying good bye to everyone they knew, or those who are important to them...a guy, looks to be a tourist, stole data from the "Russian criminal data base" for the "CIA"...he was important there were security from the police on him and his personal guard...who was a giant, about 7 ft. tall and 350 lb. weight at least, by somehow, "Lola" and her friends stole his laptop and i-phone, and here

was "Rorschach's" role to break all the codes and delete all the data...and it happened, but they should return everything to its place before he realizes that it was lost, "Lola" could keep him at the pool, by her talk and look, but no one took care of the guard, he saw the men, and a fight happened, That guard was strong, he knocked the 2 men who were going to put the stuff back to place, "Lola" had put a poison in the big man's drink, when the hit happened, he rushed to see what's up, he fall dead, his heart stopped, looks to be a heart attack, "Frank" was waiting with another man in a car, a "Dodge Charger 2012", The rest of the men

blew a bomb nearby, to distract the cops and cause panic to the other tourists, to facilitate the escape...the rest of men made it to escape like what was planned, "Lola" reached to the "Dodge" with "Rorschach" and another man, and they went away...to a special point, the other 2 men, went in their way leaving [Frank, Rorschach, Lola] in the car... That all took place in "Sharm EL-Sheik", on the high way to "Suez"... "Lola" asked to drive, and it happened, no cops stopped them, at "Suez", the other men took "Evolution" to "Cairo" and left... Job accomplished, with 2 lost men, but it doesn't matter to them of

course, "Lola" wasn't seen by "Frank" ever since...

{Croc}

"Sweet" came back to "Egypt" after a long time of disappearance in "Europe"...interested in the guy called "Frankenstein" and who he was...as he-like everyone else-heard stories and rumors, about the Immortal "Victor Frankenstein" and how strong he was...so he wanted to see his brother...and test his power, he asked to see "Frank", it happened, and to see his strength, he told "Frank" to shoot someone with cover on his

head...but there was one obstacle that stopped him from doing that... That girl "The Sound of Mind" (S.O.M.)...She told him too many times to stop doing what he was doing, and kept telling him that, until she understood why he couldn't stop, that thing only she knew about, to "Sweet", "Frank" had the choice to die or kill that guy..."Frank" chose to DIE...and told "Sweet": "I have been waiting for this moment a long time ago...do it fast", "Sweet" shot the guy dead...not "Frank", and told him "Never, you welcome death, you don't fear it...Death will give you peace, and I hate peace"...

The existence of "S.O.M." in "Frank's" life started to affect him...but she never felt that...All that was watched by a guy who looks serious, black, large in size, and got nothing to lose or to live for...The men used to fear him and respect his decisions...his street name was "Croc"...

"Croc" was "Sweet's" favorite guy, he knew, how to finish any job, he also, got some history with "Victor" in the past, "Sweet" told "Frank" to be ready at any time for a job, "Frank" asked him "Why shall I? I don't work for you"... "Sweet" replied "You will be forced to do what I say

or order you with, to keep her safe"...It shocked "Frank", but that's how things work in this world..."The Dark World'..."

{S.O.M. Love & false Brotherhood}

During 2014..."S.O.M." kept getting close to "Frank" and doing favors for him besides speaking with him...somehow no one ever did, except for his beloved "Angel"... "Hylaria"...that fooled him, it made him love her, but she never looked at him more than a friend who became a brother...the missing of sisters in the Monster's life made him

misunderstand her feelings towards him...that was his fault from the beginning, since "Maria's" disappearance from his life long time ago...

She rejected him, as a lover, but wanted him around as a brother and a friend...his sick twisted mind couldn't accept that, he kept loving her, and she knows, but she kept using him, in studies...by time, "Frank" discovered that she was using him, Although she said that she doesn't like that, what proved so, was that she never asked for "Frank", while others he have never expected, asked about his Life status^[7], after she

gave him a reason to stop, she took it away, he skipped too much things she did to him, because he loved her, but not for long, he started to look for someone else, seeking for the one who can stop him, seeking for the thing he couldn't find with "S.O.M."...LOVE...

{WAR # 6}

One morning, "Frank" went to his brother's old garage, and saw his car, The Polonez, with a hope to fix it one day and finish what he was born for...from "Frank's" point of view...and found out his brother's pet, The Crow, had made a nest for itself

*there, he knew it because once
"Frank" wore his bro's mask, it stood
on his shoulder...like old times...*

*For all these years, "Frank" kept
reading his bro's book, carefully, and
understood a lot of things, most were
advises to "Frank" from "Victor",
besides to some incidents he took
place in...that no man kind can
believe how they happened...*

*One day, a strange call came to
"Frank's" mom, from a private
number, threatening her with her
boy's life, and looks to have fun with
it...then he wanted to see him or meet*

him, "Frank" didn't want to walk in the blind, so, he gave "Rorschach" his mom's number and told him to track the number, after breaking the code of privacy...it happened, but still they had to meet him, the number was stolen and the privacy was house-made by a technician, in some trashy place in the suburbs, "Bane" didn't like it, and thought they should call "Croc"... "Frank" refused & wanted to go to the place, to find him, or find any info about who lives there, "Frank" went to see him, but nothing, later the same night, that guy called "Frank" and told him that he stole his book and mask from where they were kept, "Rorschach"

and "Bane" came back with info, The
guy is called in his hood
"Scarecrow"...and he's a regular
robber...not of the "Community's"
men level...

"Scarecrow" asked for money, a
lot of it, digging behind
him..."Evolution" found out that he
works on a beans cart...and that he's
on drugs...got behind bars^[8] because of
dealing and Do drugs shit...

There's only one who might
know someone like that..."The
Ghost"..."Frank" went to him and
asked about "Scarecrow"...after paying

some cash..."Ghost" revealed his place and where he keep his weed, as a safe house, "Evolution" made their way there...to "Scarecrow"...and for the shock, he was dead by an overdose drugs...the book was there...but the mask wasn't, he sent it to "Frank's" home earlier...to tell "Frank" that he knows him...but he didn't live for long anyway, "Evolution" kept their masks on and left...

However, the calls didn't stop, telling them that whoever died wasn't "Scarecrow"... "The Old Man" couldn't wait anymore...he called "Croc" and his boys finished it in hours, for real, but nothing is for free, as usual...

{Mrs. Frankenstein}

"Ivy" came back with a lot of power, powerful than ever before...She wanted to get introduced to "Frank", the brother of her lover, and to do a special job..."Ivy" asked to be side-by-side with "Frank", using the old metal mask that she made for "Victor", made her sure that it's the child "Victor" called "Cyclone"...

The job was a delivery, with betrayal, no swap, both packages must return back with them...all it needs in this job, a fast driver, a sniper, and a fast moving man to take

both bags and jump in the car... The driver was "Frank", the man who's fast to take both bags, was "Ivy", and the sniper was "AKA Deadshot", a former soldier in the "English" special forces, can shoot more than one target in 2 seconds...all hit from the first shot, have been cancelled from the service due to his seriousness...and because the army saw that he, and others, are unnecessary at the matter at hand...It happened so fast, "Ivy" was hit...she was strong enough to pull the bullet off her body by her hands, she became alright later, She got "Frank's" number and they became friends...

She started telling the young Monster, what the old Monster was doing, and what happened to the “Joker”...and a lot of details he have never thought, or imagined before...

{Cryonics}

“Penguin” came back for a special task...a container to be delivered from “Siwa” to “Matrouh” without damage...The trouble came in that, someone told others about the shipment...”Penguin” knew, but he didn’t know who was cheating him, so he made a plan, 2 decoy trucks and one real...the package was a solid

metal cube of 8 ft. high and 1000 lb. of metallic steel, needs a strong truck to be transported in.. "Evolution" was told to do that job, no one knew the plan except "Penguin", 2 security guys, thugs, a driver, and "Evolution" members..it was ok, when they reached "Siwa" and took the container, by time on the road, the shipment got ambushed, the attackers were well armed, and knew their job very well, they killed the security thugs, and blown off the container's back door by a high tech ropes and machines, the driver hid under the truck, "Evolution" hid under "Rorschach's" car-which was inside the container too-They got in and

melted one of the cube's sides...but it was empty...it was one of the decoys...the attackers were mad, and talking in Russian, after that, "Evolution" drove back with the driver of the truck to "Cairo", after burning the truck with its dead bodies in it...later, in the dawn, the real truck made it to "Matrouh", but on its way to "Italy" it never made it, it was stolen in the sea, after an attack, one of those who died was "Croc's" brother in law...

It was the first job for "Evolution" without "Bane"... That time, "Bane" was DEAD...

{WAR # 7}

Before the "Penguin's" job by 2 weeks, "Bane" & "Rorschach" were having fun at the shooting range, somewhere, and a bullet went wrong in the direction of some other guys, by mistake, "Bane" thought that the safe was closed, but it wasn't, they fought, and at the end the others said "We will find you and kill you both"... Days later, there was a threatening letter that came to "Bane's" home..."Frank" was called and after he arrived..."Evolution" was all there, one more time, The settlement was to go somewhere on the

“Red Sea”, away from “Cairo” to see what they can do, but it didn't happen, at the outer gate of the block, “Bane” saw them, only “Frank” was with him, “Rorschach” was still inside, once they saw “Bane”, they started shooting at them...” “Bane” pushed “Frank” to the glass, but away from the fire, and he took all the bullets, and died at once, “Frank” got hit, although “Bane’s” efforts, that’s why “Rorschach” asked for “Penguin’s” help...and “Penguin” asked “Evolution” for the Job in return...

{The Death of The Penguin}

"Croc" came back again, full of rage and anger, for his relative who died... "Penguin" could know the traitor, he was his man "Deathstriker"... "Penguin" set him up and killed him, but not enough for "Croc"... anger blinded him, he shot "Penguin" in front of his men... causing a fight, but it was handled soon, "Penguin" died, and "Croc" was called to get back to "England"... "Buchinsky" came back to set the mess down, and put an end to that disturbance that happened... but "Penguin's" men

refused to work for "Buchinsky", they already got troubles with "Buchinsky's" crew...So, they were left to go but watched carefully, and closely...

Some important people in the county, asked for some hits to the government in its resources to make it weak and need money from businessmen, to open their projects and factories by their own conditions...So, a lot of operations happened like burning the "Conference halls" and other damage to other places, electricity towers explosions, and too many different things, besides drugs and weapons...

The thing that "Frank" couldn't understand, was that these people, are not real, they are ghosts they live with fake names, no finger prints, or DNA analysis detected for them, no data base for any of them at all...their existence isn't declared or talked about anywhere, except in the International Intelligence halls...former government people or A-class criminals, restricted by the "Community's" orders...in exchange of money, and freedom...It's completely a world that doesn't work by "Frank's" rules...only "Victor" could handle them well, and say no without getting hurt...simply their men were of no

match with "Victor's" abilities...and power...

In "Victor's" book, he said, "I was walking in the street late at night...as usual, and 2 men from the mob tried to attack me, they were good, But I could kill them both alone"... "Ivy" said that "Victor" told her that he knew them before...they were former Marine soldiers in the US army...

"Buchinsky" asked for help...shit was heavy on him to hold alone, "Bishop" sent the worst assistant of all time, the main reason for what happened in "Libya", "Iraq", "Syria",

*and many other places in the world,
he knows how to make a peaceful
country fall in civil war...he was
called "The Goblin"...*

{The Goblin}

*"Goblin"...a Canadian-English
man, who loves to see the world in
WAR and on fire always, saying "If
there's no war...there's no peace, and
if there's no demons...there won't be
angels, if there's no illness...there
won't be medicine, that's why a
"Goblin" must exist, to organize this
process, else, it will be Chaos"...a sick,*

*twisted mind, but necessary for
business...*

*A sudden call came to "Frank"
from "Harley Quinn"...collapsed,
because her brother got robbed and
beaten in the street, asking for help,
"Frank" couldn't say "No", and asked
her for some details about the place
where he was robbed or how many
they were, or how they looked like,
what kind of scars they have in their
faces or bodies, if exist, and it
helped, some guys of "Buchinsky",
knew what to do, "Frank" took
"Quinn's" brother...and went to see
them, all thugs of the hood were
brought by "Buchinsky's" men, as if*

they were cops, wearing as a cop and talking rudely, was enough to make those thugs fear and not to fight back...they were known and whatever was stolen, returned back, his phone, wallet...it was a good plan by "Frank" to avoid showing the young boy any death, or to avoid exposing him to danger..."Goblin" knew about that, and asked about "Frank", and knew who he was, "Goblin" and "Victor" were not friends, and "Goblin" tried to kill him more than once, using a lot of ways and a lot of men, but he was smart enough to stay away of danger always, he used to fear "Victor"...

“Frank” was told from a personal friend of his, someone he listens to, to stop being “Frankenstein” and live normally...the trouble was, he couldn't have or find a reason to stop, or any kind of motivations to kill that Monster he created...besides to the existence of “S.O.M.” in his life, he cared for them, both, for “S.O.M.”, because he loved her, and that friend, because the only one whoever cared for him, was that one...That's why “Frank” refused to do another job for “Buchinsky”...So, they had to force him to do it..

{WAR # 8}

"Crossbones"...a first degree killer, professional, the best of his kind in what he do...attacked "Venom's" husband in the street, by crashing his car on the high way to "Suez", forcing him to stop, to see what's up, and he got beat badly in about 5 seconds or so, and speeding away... The same man, burnt "Rorschach's" wife's car completely...and turned a wedding ceremony into a funeral, by a car explosion that took a family of 4 persons dead, telling "Frank" & "Rorschach": "You're ours, you can't stop obeying us..." "Evolution'"...It was

found on car glass of "The Old Man's" car, and "Rorschach's" too...So, "Frank" agreed to do it for him, but to be his last...

"Frank" was promised by "Buchinsky" that he won't ask him for anything else, The job was simple, attacking a truck full of Chemical compounds needed for medical jobs in a some kind of a Medical factory, in "Cairo", coming from "Port-Saeed's" harbor...all what "Evolution" had to do... was to keep driving near the truck, it happened, but something unpredicted happened too...the truck's back got opened and 2 heavy machine guns started

blasting^[9] on them...And suddenly the truck took a some kind of a dusty road, during the shooting..."Rorschach" got hit...the crew on the operation wasn't big...just 4 men (Crossbones, Ivy, Frank, Rorschach) in 2 vans...with "Rorschach" down, he was aided by "Ivy" to hold on the pain...they made it to the truck again, in the middle of the desert, in the middle of the night, about 3 or 4 am...Plan {A} was, at a peaceful moment, without shooting, the vans drive backwards, back to back to the truck to take something special and pulling it from the truck & speeding away...or, Plan {B}, to stop the truck and steel it... which was

easier in this situation... Driving without lights, made it possible to pass the gunners, and give "Ivy" a better chance to go half-board from the van to the truck, it happened and she took control of the driver's cabin, driving left and right for couple of seconds, made the gunners lose control and gave "Crossbones" clearance to jump at the back of the truck, but he didn't... he shot the gunners instead, and told "Ivy" to stop the truck, after loading the 2 vans on the container... they all left..."Frank" was driving that van all the time..."Rorschach" was hell tired, "Frank" took him to a hospital after telling "Rorschach's" father, and

“The Old Man”...the truck wasn't full of medical equipment...it was full of a new prototype weapons... later, “Frank” knew they were new experimental cryogenic weapons... new kind of weapons that will change the face of war forever...

{The Poison}

3 months later...”Rorschach” became ok, and he thought that it's over, so did “Frank”, unknowing what the “Goblin” was planning for them...”Buchinsky” didn't like the idea of “Evolution's” retirement, so he thought that they should die, as they

know too much...and he let "Goblin" handle that..."Goblin" wasn't a known face to "Frank" or "Rorschach", so in the North-Coast, "Frank" & "Rorschach" were sitting together in a coffee shop...and some stranger, a foreigner, ordered drinks for them on his account, he was "Goblin"...after 9 hours, they started to feel bad, pain in the heart & limbs, and general weakness...by time..."Rorschach" fall too tired, and everyone packed to go back to "Cairo"...nobody noticed "Frank's" tiredness, he could hide it, and kept his pain undiscovered, The drinks were poisoned with a very strange kind of a made up poison...no

medicines helped "Rorschach"...he was getting worse, "Rorschach's" uncle could find some doctor from "Germany" when he was there, they were friends, he asked for his help, The doctor said "Make him come here, and let me examine him"...he was sent to "Germany" with his parents, wife and kid..."Frank" wasn't there...The "German" doc didn't know what's that thing, it was totally new on him...

They took a sample of his blood and told his family to take him back...his existence was of no use, and coldness was hurting him, besides, staying in "Germany" was too

expensive and nobody knew how much time needed to make the cure...and once a cure is detected, it will be sent with the doctor himself to see its effect and check his condition...17 days later, a cure was ready to use, but wasn't tested on humans before and its side effects were so dangerous...So, "Frank" volunteered to have it tested on him and revealed that he was ill too...on the same night, "Goblin" called "Frank" and told him that it was him who did it to him...a slow, torturing death to end "Evolution" once and for all...

{The Cure}

The "Germans" found and set their cure ready, and it was tested on "Frank"...nothing happened...nothing physical was waited, but mental, The cure kills the poison, slowly, and rise the intense up to maximum making anyone calm to lose his calmness and burst in rage for nearly nothing...or for no reason at all...causing overrated anger, "Frank" couldn't stay for experimental tests...he got studies and college...

During that time, a trouble happened with "S.O.M." and he was trying to help her, he wasn't appreciated by her, as usual, it made him unstable, and lose temper because of anything, even from her, he was noticed by his father..."The Old Man"...

By time, he was getting more and more angry, from silly things, and so did "Rorschach"...till he beat his wife because she broke a plate...showing that the cure was hurting them...not healing them, until they needed more of it, its effect was gone, and they started to feel the same pain again in the heart and

limbs, it was the time when "Goblin" called "Frank" again, and told him to do one simple job to earn his cure, a normal delivery of some cash to some people, from a warehouse on the highway to "Alex" to another place in "Alex"...the guy who took the cash and had the cure, was "Ivy", she didn't know, and "Goblin" didn't know that "Frank" & "Ivy" were friends, The box had one injection with enough dose for one patient only..."Frank" was very tired and his heart started to get slow & heavy...and so did "Rorschach", "Goblin" gave "Frank" a choice between his life, or "Rorschach's", one life and the other die, or both dead..."Ivy" managed,

opened the tube and with one half...injected "Frank" and told him to hurry to "Rorschach"...it was strong, it helped him to drive to "Cairo" and give him some immunity to kill the poison in his blood...not enough to kill it completely, but to keep them alive for longer time..."Frank" reached "Rorschach" and gave it to him in a new injection, and he got better soon...

{Goblin's death}

"Goblin" knew about "Frank's" survival, and knows the promise "Buchinsky" made...so, he found a way to let "Bishop" ask "Buchinsky" to get back to "England"...and leave "Goblin" to manage the operations, by that time, "Crossbones" was caught by the "Russian" police in "Moscow" after "Goblin" set him up, and fall behind bars...

"Frank" wanted to catch the "Goblin" or to kill him, before he hurt anyone else of those "Frank" love, like "S.O.M." or his special

*friend or anyone else...including
"Quinn"...*

*He asked for "Ivy's" help...and she
agreed, but 2 men only were not
enough take down "Goblin's" crew,
they needed more...the "Penguin's"
men, were mad of what happened to
their boss and worked alone, they
were called by "Ivy", and somehow
she convinced them to join them to
kill the "Goblin"...*

*Somewhere in "Sinai"...there
were some new cryogenic weapons to
be checked by the boss, who was
"Goblin" that time, who trusts*

nobody, and went by himself, he was waited and hunted by "Penguin's" men and "Ivy"...when the fire started, "Deadshot" started shooting all the cars tires and anyone getting out, but "Goblin" used one of the men as a shield and went to hide behind one of the cars trying to drive and run, "Frank" was waiting him, and attacked him...the fight started, but "Goblin" won, and throw him on some iron bars, "Frank" fall by his back and couldn't keep going with the fight, "Goblin" jumped in one of the cars, by somehow, "Deadshot" got him from inside the car...blown his head off, and it was the end of a very important man in the mob...regardless

*to the consequences of that move,
"Frank" felt powerful...and FREE...*

I. FRANKENSTEIN

{ПЦЦВНУ^[10] Lola}

"Ivy"...after what happened to "Goblin"...disappeared for a while..."Frank" found her, somehow, and asked what happened, and why wasn't she answering his calls...She looked pale, and worried, more than ever...

Words came from "Russia" that "Crossbones" died in prison, looked afraid or shocked from whatever he saw, with no scars or signs of struggle, as if he suicide, weird, in the same week, "Carlito", one of the most dangerous guys in "Mexico", was in

*“Russia” for business, went to “Lola”,
the made love together before, he
looked bad, drunk, and was
cracking^[11] badly, as if it was
Doomsday and his turn to face “God”
came...he told her things and
incidents that doesn't add up or make
sense, and told her about a list that
her name was on, as if he was
warning her, 2 days later, he died,
he was thrown from the top of a
building, with signs of a fight this
time, a week later, “Lola” was found
shot in her head, in her bedroom,
with only her underwear, with no
sign of fighting back, with wine on
the table next to her bed, one of her
crew was accused of the murder, and*

got imprisoned...and died in there the same way "Crossbones" died with, hanged from his throat, by the end of the month..."Lola's" crew was all, dead, or disappeared...That made "Ivy" nervous, and worried, these guys kill, they can't be killed that easy, and a lot of powerful names started to die in strange ways, in a short time, all around the world...

"Buchinsky" was back, with one subject in mind, "The Green Goo", and finding it, it was that thing "Victor" stole for them, years ago, and no man knows where it was, not even "Ivy"... "Buchinsky" got no time to waste, gave "Frank" a limited time to

deliver it, or get ready to accept one more friend to die..."Frank" got some friends who don't deserve death, good people, including one who could find way to carve a smile on his face in the worse conditions, besides understanding, and wisdom, She was a girl, might be a doctor one day, he called her "Phoenix"...for some reason, she was on top of the list of assassination of "Frank's" friends...He looked everywhere, EVERYWHERE, without a trace, "Ivy" tried to help, as she knows how it looks like, but still nothing...

A streak of assassinations started again, with a surprise, the "Assassin", got killed in a race, by someone called "The Shadow", the last thing anyone in the career ever thought of happening...

{Linkin}

“Jacob” got killed, from inside his crew, a rocket launcher launched its rocket from nowhere to “Jacob’s” car, tearing it in pieces, in “USA”...

“Buchinsky” went there to see what happened, as in “San Diego”, law isn’t too much strict... leaving his man in “Egypt”...”Linkin”...

“Linkin”...a real monster, a first degree killer, used by some governments to do things they can’t get caught doing...

“Rorschach” started to feel bad again, the sample of cure, wasn't enough to kill the poison completely...So, “Frank” asked “Ivy”:
“What should we do?”...she said that she'll manage, After digging, she knew from some men the place where “Linkin” kept some samples of the cure, she tried to steal some of it, but she got caught, and-of course-
“Linkin” doesn't like that, but he looks for benefits from every situation...”Frank” was called by “Linkin”...and told him that “Ivy” is in danger, unless he do another job, with him in person, “Frank” agreed at once...

An Arabic Prince came to "Sharm EL-Sheik" with his personal car, a "1967 Ford Mustang" with a 1200 HP engine, N₂O, metallic internal doors, Hydraulics, Smoke cans, oil tubes, and a box of nails & pins, and bullet proof glass...a Monster, used for races...The car was to be delivered to "Port-Saeed", they were waited and welcomed by guys who want the ride for themselves, not "Linkin's" men...and a chase started, somehow and using the tricks in the car, "Frank" & "Linkin" escaped death and made their delivery safe, which impressed "Linkin"...and he kept his promise with him and let "Ivy" go with the cure, enough to save

both members of "Evolution"... Later on, "Frank" knew that the car doors and roof were full of drugs...

{WAR # 9}

"Frank" was still asked for the "Green Goo" jar by "Linkin"... He said that people were talking about some radiations in "Al Areesh", so "Linkin" took "Frank" and "Ivy" to see what they can see... The cops were in control of the place, no one was in or out, later, it was found to be nothing, so the crew was moving back, leaving 2 men in the place, to keep an eye on anything, and

everything... On the way back, in the middle of darkness, a modified "Dodge Ram" showed up from nowhere taking the Procession apart, 3 "Jeeps" and a "Land Rover", the "Land Rover" was "Linkin's" car, the others were "Linkin's" crew... The "Ram" driver was very good... he suddenly stroke one of the "Jeeps" in the side-back and made it roll over, The other 2 cars made a block, drove side-by-side, no space to pass the and "Linkin" speeded away, but that didn't stop him, his front Bumper was heavy and strong, he located himself behind both cars and crashed them, making drivers lose control, one got on the other side of

the road to meet a truck, the other fall in the thick sand and couldn't move, leaving "Linkin", "Frank" & "Ivy" alone, "Ivy" was smart, and told "Frank" to jump of the car, she jumped, but "Frank" didn't have the chance, The "Ram" was fast and stoke their side-back, and made them roll over, like the first car, "Linkin" as a driver, was hurt badly, although the airbags, and couldn't move, the "Ram" driver stopped and got out of it...A guy with a black skull face mask, looks metal too, "Frank's" mask saved his head from certain death, the black masked man shot "Linkin" and pulled "Frank's" mask but left him alive, "Ivy" shot at him, he ran

to his car too fast than usual, but before he leave he told "Frank" "The age of Frankenstein is over, and the ERA of the Shadow begins" and speeded away...in the shock of "Frank" & "Ivy"...

{The Shadow's Power}

Operations in a lot of places in the world STOPPED, because of that "Shadow"...He sniped "Sweet", murdered different members of the "Community" in very strange ways without a trace or evidence that might lead to him, "Croc" was ordered to go to "Egypt" to see what happened to "Linkin", with "Buchinsky" who secured himself very well...

The only missing part in that, why did "Shadow" take "Frank's" mask??...a week later, "Frank" asked

to see "Buchinsky" to give him the "Green Goo", once he got inside and stood face to face with "Buchinsky", "Buchinsky" noticed that he was taller and bigger in size, "Frank" opened the bag, and pressed on a remote button, at once, the electricity box supplying the store with light...blown off, when it's dark, it gave clearance to "Frank" to kill "Buchinsky", and it happened, "Buchinsky" got slaughtered by "Frank", and "Frank" disappeared...While in the same time of the call that reached "Buchinsky" from "Frank" earlier, another call reached "Frank"-the real one-from "Buchinsky", or so was thought,

ordering him to meet "Croc" at some place as soon as possible..."Frank" went to meet "Croc", no one of them got anything to say, "Ivy" already made a new mask for "Frank" instead of the old one that "Shadow" stole... That fake meet was made to prove to them that "Frank" was innocent and it was the "Shadow"... "Croc" could understand, and was given the charge of everything, and was told to use every resource he had to catch the "Shadow"...

{The Shadow's visit}

On June 18th 2015, The "Shadow" visited "Frank", in his home, when he was alone, and told him that he killed those who deserved death, and that "Frank" shouldn't be in his way, or "Frank" will Perish, a kind of warning, later the same day, he called "Frank" and told him to deliver "Ivy" to him...to be killed, but "Frank" didn't do so, he called "Croc" and told him the "Shadow's" location, "Croc" sent a lot of men there, and the disaster was big, That "Shadow" was expecting that, he fixed some statues putting

masks like his on their faces, and black cloths like his, holding machine guns remotely controlled by him, every time he makes one shoot, "Croc's" men start shooting at it and destroys it, like robots, everywhere in the place, one by one, most of the men were killed or injured, so they pulled back and left, even on the way to the cars outside, they got shot heavily, ending the fight with only 2 survivors of "Croc's" men, terrified, injured, tired, and hallucinating...

"Rorschach" found his mask, after being lost, hanged on his apartment's door, he used to keep it in his car, one day later,

"Rorschach's" phone detected high frequencies in his car, unusual, it happens when there's something like a transmitter, or wireless radio device, searching hard, The transmitter was found, in the mask, as small as a pin's head..."Frank" hired 2 mechanics he knew, and talked to "Ivy"...to fix the Monster car^[12] of "Frankenstein", it was the only weapon they had, to make the "Shadow" get down to their level, "Frank's" mask was back, after "Buchinsky" was killed, "Shadow" sent it back to "Frank's" home in a package, with a Joker card written on it "Thank You"...later, another transmitter was found in the mask,

just like "Rorschach's"...as a try to reach "Ivy" and "Evolution"... "Ivy" worked on the car with the other mechanics, in a continuous 24 hours of hard work, the car was perfect for use...

{The Shadow's death}

{WAR # 10}

Using the transmitters,
"Shadow" knew that "Evolution"
were together in an old factory in "6
October"... There were 4 members on
the job...(Frank, Ivy, Rorschach,
Deadshot)... "Deadshot" held a place
with a perfect shooting
position..."Evolution" & "Ivy" were in
there waiting him, hours later, he
arrived, once it happened it went
dark he mocked them saying: "You
think darkness is your ally, but you
merely adopted the dark, I was BORN
in it, MOLDED by it, I didn't see the

light until I was already a man, By then it was nothing to me but blinding", and he caught "Rorschach"... Then "Frank" and "Ivy" showed up in the car, and speeded away, "Ivy" was right, "Shadow" was interested in them more than "Rorschach", he didn't care much for "Rorschach", he just fall in "Shadow's" way..."Frank" & "Ivy" were the targets... So, he left "Rorschach" and speeded after them in his "Ram", at some point "Ivy" opened the box of nails & pins, and it took his tires down, he stopped his car by angel 90°^[13] on the road, he was ready, he took out a rocket launcher to shoot "Frank" and "Ivy",

here comes "Deadshot's" role, shot his legs and arms, his head was protected by the mask, and he was wearing a body armor, "Frank" rotated by the car and launched the N_2O towards "Shadow", he reached him in a second, "Shadow" didn't have time to move over, and because of his injuries, "Frank" crushed "Shadow" between both cars, the "Polonez" and his "Ram"... "Shadow" died at once... "Ivy" took off his mask, to see who he was, and here was the shock, It was "Victor", "Mark's" brother, the original "Frankenstein", it was the worse shock in the young "Frank's" life, he killed his big brother, just like his parents have always accused

him in the past, and all his life, just like "Maria"... "Ivy" collapsed for a while, but she kept her strength, and talked to "Frank", "To destroy evidence, burn them" she said..."Frank" & "Rorschach" agreed...he was already dead, and his body was burnt years ago, as he asked before, he wanted this when he dies, his body burnt, with the cars, and it was over, the Nightmare was over, with "Rorschach's" words: "Violent lives, end violently"... "Ivy" left "Egypt" and told "Frank" that she'll try not to come back again, as she didn't want to remember any of this again, with the promise that no man on earth will know anything about

“Victor”...Ever since, everyone remembered “Frank’s” name always:

“Frankenstein, Frankenstein, the Shadow killer, the Monster from HELL”

“Rorschach” retired...ending up with “Frank” alone...as usual...

{Braga}

After the "Shadow's" death, the "Community" started their jobs again..."Frank" didn't know if he did the right thing about killing the "Shadow" or not...

A new representative was sent by "Bishop" to handle business in "Egypt"...his name was "Braga"...

"Braga"...a former "FBI", known for his corruption and sick mind of Paranoid, He came to "Egypt" trying to maintain order to streets, and get

the thing that others didn't have time to get, the "Green Goo"... "Braga" called "Frank" and asked him to get that evil thing for him... it wasn't with "Frank", so he started to search for it again... "Frank" had some friends, or men, to help him, but it was in vain, he couldn't find it anywhere he knew, leaving only one place he have never thought of, his old aunt's apartment...

She was "Frank's" mother's sister, "Victor" loved her so much, and used to tell her things in the 90s... He kept it with her and told her that he doesn't want anyone to know about it, and hid it for him all these

years, She left her home, and was put in a hospital, an old Age Home, she became above 70, with no husband or child, and the flat was owned to someone else, but whoever was the owner, he didn't notice it, it was hidden under the ceramics of the balcony, which he didn't change...her apartment was in the first floor, so it was easy to dig under the ground...

{The Green Goo}

"Blake"... "Braga's" brother... a lunatic, used to do everything by power, he was told to make "Frank" talk, about the "Green Goo", as "Braga" thought that "Frank" is hiding it, so, "Blake" made his move...

"Frank's" position was strong, he got some guys to watch his back, unlike before, most from "Buchinsky's" crew, by recommendation from "Ivy", So, "Blake" tried another thing, he knew about the special info "Rorschach"

gathered and kept with "Frank", long time ago "Rorschach" was ordered to do so, "Blake" asked for them in return of leaving him and his family to live, "Rorschach" asked "Frank" about them, "Frank" wasn't late and brought him everything, unknowing what's happening, as "Frank" was busy looking for the "Green Goo"...because when he went to his aunt in the hospital, and talked to her about it, as he didn't do before, and she told him everything...

"Rorschach" went to deliver his info, to "Blake" who was having some bad intentions, however, the meet was ambushed by thugs, they

were the "Penguin's" men...still making troubles with the "Community", and destroying some business, Some of the info was broken or lost, the info was sensitive...VERY...a lot of important people in the country are involved in a lot of business with the "Community", "Braga" wasn't happy with that, So, he called "Frank" warning him and "Rorschach" to give him his info and compound^[14], or someone will die...

{The Hunt}

“Frank” suspected that the attack was planned by “Blake”, so he sent someone to investigate about it...”Blake” figured it out, and killed “Frank’s” man...

Threats kept going, until the time for “Venom” to give birth...on the way to a hospital in an ambulance...an attack happened it lasted for one second, looks like an accident, a crash between a trash truck and the ambulance, the crash was strong enough for “Venom” to lose her baby...and “Rorschach’s” father

in law, was attacked in a drive-by, but he survived somehow, declaring that "Blake" wasn't joking, and that he unleashed the hunt on "Evolution"...

Days later, "Frank" had to prepare an operation to get the "Green Goo" without falling in troubles with the flat owners, a week of surveillance was enough to know everything about that family, even their phones were hacked by "Frank"...at the perfect time, The operation started, all they needed were 10 minutes to get in, get the stuff, and move out...A fake attack was made on the neighborhood by

armed thugs, made to look like some Islamic terrorists are making troubles, that distraction was great, besides to the apartment empty that time, it helped "Frank" and the others to do it well, and leave, once it was done, the thugs pulled back and left, the "Green Goo" was with "Frank", finally...

{The Comedian}

*During that time,
"Rorschach" was gathering his lost
info again, with the "Green Goo",
"Frank" found a paper, written by
"Victor" years ago, he knew about it,
That evil green poison, was a project
by the "British" & the "German"
governments, in the early 90s was
made as a try to make resources
infinite, resources like [fossil fuels,
uranium, tin, gold, silver, even
plants] never die or get consumed, or
finished, as long as the resources in
some places in the world are infinite,
there will be no need for oil from the*

middle-east, no fighting for nuclear heads, or food in "Africa", with endless types of weaponry, giving immortality to earth, which will attract the attention to human immortality...

Reading this by "Frank" made him shocked, he talked with "The Old Man", who was called later, and that time, "Dr. Frankenstein", and showed him the writings written by "Victor", "Dr. Frank" told "Frank" to hide or destroy it, which was impossible, that thing doesn't get affected by fire or heat, and whatever is added to it, doesn't change its characteristics, forcing "Frank" to find a suitable place to hide it...

One day later, one of "Frank's" friends told him that "Braga" and "Blake" got killed, poisoned, after that a "Smiley face" was sent to "Frank's" BBM with "Frank's" friend name and picture, from a strange PIN..."Frank" warned his friend but it wasn't enough, he was found hanged from his throat in his apartment, looks to be beaten badly, later on, "Frank" received a message from the same PIN, that another friend of "Frank's", one of the dearest ones to "Frank", will be killed, with a signature this time, "The Comedian"...

(The Smiley face Comedian used to threaten Frank with)

{Paige}

“The Comedian” sent “Frank” and told him to give him the info “Rorschach” was told to give “Blake”, it was a good chance in “Frank’s” point of view, but not for “Rorschach”, he thought it might be a trap, “Frank” was told by “Comedian” that he knew “Joker” before, and that they were friends,

attracting "Frank's" attention, as "Frank" wanted always to know about his brothers, and a chance, if possible, to kill "Comedian" as he killed his friend and some other men of "Frank's", and trying to kill another friend of "Frank"...So, to protect those "Frank" love, he saw that he must kill "Comedian"...It was a risk he had to take...

"Paige"...An American common criminal, with a better attitude and brave, dead heart, she went to "Egypt" to watch "Frank's" back, according to "Ivy's" orders, she saved "Frank" from certain death in that meeting...

“Comedian” told “Frank” to get the info “Rorschach” gathered and meet him somewhere quiet in “Cairo”, “Frank” went with some men to meet “Comedian” and it was shocking, he got men, his own, they were expecting “Frank” and started suddenly to shoot at everyone, “Frank’s” men died, and a strange thing happened, smoke spread in the place, blinding everyone, suddenly “Frank” was injected with a drug in his neck to sleep, it was “Paige”, she saved him from certain death, she also assured “Frank” that “Comedian” doesn’t work with the “Community” or “Bishop”... Later, “Frank” met “Rorschach” and told

him what happened, "Rorschach"
said "As long as he knows your
brother, he won't leave us... your
brothers have been always a curse to
all of us"...making "Frank" fight with
him...again...

{Frankenstein VS Rorschach}

Among the history, "Frank" and "Rorschach" have never been on the same page, they hated each other, "Rorschach" sees that "Frank" and his brothers, are bringing troubles to him and his family, "Frank" have always been the main subject, although his age, and used to envy "Rorschach" for what he has, a family and some people who care about him...or so he believe...

Their fights reached to blood sometimes, they never fought in any place without destroying everything,

one day "Rorschach" made everyone in the family think that "Frank" forced him pay money to some people to let them go, while actually "Frank" did his best to avoid paying cash...or as few as possible in a fight that "Rorschach" started from the beginning, and HE was the one who asked for "Frank's" interference, and told "Bane to call "Frank"...without "Frank" that time, both "Rorschach" and "Bane" could have died..."Bane" was alive that time...

And other fights, most because of "Frank's" brothers, he used to curse them, and "Frank" used to beat him hard because of that, as to

“Rorschach” everything was smooth until “Frank” showed up and joined “Evolution”... “Rorschach” used to envy “Frank” too, as “Rorschach” wanted to be tough like “Frank” and his brothers, as his body was weak and can't hold much beating or bear much pain, to him “Frank” was a Monster, in size and actions, he wasn't that smart like “Frank”...that doesn't mean that he was clean, however, “Frank” thought of getting rid of him, but he couldn't break “Dr. Frank's” orders to him, to take care of his cousin, because he was an “Isaac” too... “Frank” had to stand down...

“Frank” have never been good with groups, or teams, he have been on his own, with no friends, doubting everything and everyone, that's why he couldn't be a friend to “Rorschach”, or even a good man with “Quinn's” friends, or “S.O.M.'s” friends, or even his own friends, present, past, or future ones...he just must be ALONE...as a newly friend of his has told him...

{Mind Games}

In the early morning of July 20th 2015, the "Comedian" sent a video to "Frank" and "Rorschach" of a burning body, with a message: "Say hi to Bane HAHAHA", which made both men rush to the cemetery and check his grave, and the "Comedian"

was right, the body wasn't there, and the casket was broken, and an evil Smiley face was carved on the casket, there was [Frank, Rorschach and his father, Dr. Frank]... They all agreed on telling NO one about that, and the grave guards were paid to stay silent... "Dr. Frank" gave orders to "Evolution" to DO something...

"Frank" asked "Paige" to help him to catch or kill the "Comedian", but she cleared things up for him, "Comedian" was a lunatic ghost, he can't be caught, he strikes like Thunder and disappears like Smoke, wanted in a lot of countries, and his existence is doubted by a lot of

people, They think that he's just an idea and that the "MI6" was planning and manufacturing his existence to make everyone, and every agency around the world to be careful to what they say and do, especially the "SVR RF^[15]"...Always using different ways of communication with his men, who were not the same in each country, and when he's done, he used to kill them, or make them kill each other, leaving no trace, "Frank" asked "Paige": "Then? Shall I wait him to kill me?"...She said: " Not exactly, wait for his next call, or message, and we'll see what he'll tell you, and make a move according to it"...During

that time, a package arrived to "Frank's" home, a present box, with a card written in it: "Hello, brother"...the box had "Victor's" skull mask, dirty and shit, but it was a shock to "Frank"...as no one knew about that, but his cousin "Rorschach", "Ivy" and "Deadshot"...

3 days later, "Rorschach's" wife received pictures of her at work, of her husband and their son in school and club, and pictures of her parents too, in singles or while they were together in a lot of places, with the same evil Smiley face in an envelope, forcing "Rorschach" to hand "Frank" the data he gathered, and telling him

that he's out, and won't involve himself anymore, meaning that "Rorschach" was DONE...

{The Comedian's Disappearance}

On July 29th 2015...all that time, "Comedian" didn't contact "Frank" except once, making fun of him, else, not even once, "Paige" called "Frank" and told him to go and meet her in their safe house in "Ras Seddr"...somewhere on the Red Sea, she was there with some guys, her friends, she showed "Frank" equipment he have never thought that they exist, one of them was a

signal hacker... Hacking radio stations of anyone even cops, getting any new signal or surrounding ones in minutes, and locating them too, she used it and tracked some of the "Comedian's" men and knew where they made camp, and told "Frank"... There were 3 more men with "Paige" [Copperhead, Azazel, and Cain], with "Frank", they became 5 men to take down the "Comedian's" crew, they were 10 men in an abandoned store in "Sinai's" desert...

“Copperhead”...an assassin who knows how to kill in silent way, without attracting attention, without a trace or mistakes...

*“Azazel”...Powerhouse, weapon-devil, knows everything about weapons, and how to make from anything a gun...**ANYTHING**...*

“Cain”...Computer genius, and hacker, used to work for a lot of agencies around the world, lately, used to work with “Bishop” as he pays better than any government agency...

*A crew "Ivy" chose them to help
"Frank", she trusted them, and
"Frank" trusted her...*

{WAR # 11}

*The operation was HARD, the
"Comedian's" men were on their
guard, 3 entrances, with 2 men on
each, 1 on the roof, and the others
were inside, as if they were preparing
for some kind of a Siege..."Cain"
could detect their places from their
wireless-devices they were using, that
"Cain" could disrupt their
devices..."Frank's" crew had to move
fast, "Frank" shot the guy on the roof*

top, with a sniper rifle, easy to use, opening the 3 entrances for "Paige", "Copperhead", and "Azazel" to take down the men on the entrances, they made it, all took 1 minute and 20 seconds, as "Cain" said, the other men inside, "Paige" thought of catching 1 or 2 of them to know where's their boss, agreed by the crew, one smoke grenade was enough to catch them all alive...

After some talk, "Paige" made sure that they know nothing about their boss, for real, but they told her about why he disappeared all that time...He was said to be in "USA"...trying to steel something

special, to help him catch anyone, what it was, they didn't know, but "Cain" knew, or at least took a guess, and it was right later, the "USA" was working on a piece of technology to help them catch terrorists and criminals all over the world, in minutes instead of decades, looks like "Comedian" wants it or got ordered to get it, it was completely a higher level than "Frank", so "Paige" told him to stand down, and wait...In return "Frank" gave her the info that "Rorschach" gave him, as a try to throw some weight off his head..."Paige" travelled to "USA" to dig behind "Comedian" in July 30th 2015, leaving her crew to watch

“Frank”, Totally, even his phone number, e-mail, Facebook, BBM, everything that might be used by the “Comedian” to reach “Frank”...

{The Comedian's Identity}

After 5 days, on August 5th 2015, “Ivy” called “Frank” again and told him some info about the “Comedian”, his name was “Edward Shaw”, a 52 year old former agent in the “MI6”, brother of the “Goblin”, whose name was “Charles Shaw”, the one that “Frank” killed before, or so was said, “Edward” was a very

powerful man, Can do anything to anyone at any time...anywhere...

The English government saw that he must be in control, and watched, but that wasn't possible, that guy was a ghost, By his power and intelligence thought that he can disappear and show up whenever he wanted, using his new name, "Comedian", his brother and him were not close, "Edward" knows that his bro wasn't a good guy, and that he was mentally sick, so, he used some help to vanish himself and his bro from existence...using their third brother's help, but he was covered well, "Ivy" couldn't know who their

third bro was, but she said that he must be "M16" or an army member...

"Edward" never liked to have special men on his side, in case they got caught, he'll be in trouble, so he used to hire men everywhere he went to, and get rid of them later, smart enough to hide his face behind a Smiley face mask, and a nick name, besides that he already knows about 10 languages, perfectly, making him too hard to realize his nationality..."Edward's" last operation, or appearance, was in 2007, in "China", ever since, he disappeared until 2015, to take his brother's revenge from the crew who

*took his brother out...headed by
"Frank", But he started with the
possible obstacles..."Braga" &
"Blake"...*

*"Ivy" got these info from the
international criminal data base in
"USA"... "Paige" got it for her, showing
"Frank" what kind of trouble he fall
into..."Frank" asked "Ivy" about
"Edward's" relation to his brother,
"The Joker", but she couldn't find
any past records mentioning "Joker"...*

{Bishop's offer}

"Bishop" shocked "Frank" with a special call, offering him a special help to get the "Comedian", "Frank" replied "I saw what happened to your men...How will you help?", "Bishop" answered "Let me get this straight to you boy...I lost too much men because of that pig, "The Shadow", and a lot of business got damaged, I won't lose any other man of mine, and you, you killed that "Shadow", you will find way to kill that one too, especially when your head and everyone's head is in danger, everyone you love"..."Frank"

asked for the proposition, "Bishop" said "I got a piece of technology lately from them^[16], they borrowed it officially from "USA"... We'll use it to find "Edward"...and you will kill him with "Ivy" & "Deadshot" only...no more men...I'm giving you an opportunity to hunt him, instead of being the hunted", "Frank" replied "Why shall I do that or listen to you? I can wait him, and he'll show up to me one day"... "Bishop" laughed and said "How's that working with you? How's your cousin "Venom"? or "Rorschach's" wife? How about the dead body of your cousin "Bane"...How's your shoulder from that bullet? Of course besides to your

friend who's in the ground now, It doesn't seem that you're in control of the situation, besides, where's the "Green Goo"?" "Frank" didn't answer, "Bishop" continued "You got 3 days until we use the machine and find "Edward", later on, don't blame me of what's gonna happen to you, or to any of your beloved family or friends, I give you "Edward", you give me the "Green Goo"..." The only thing that made "Frank" relax was that he became sure the "Comedian" isn't "Shawn", as he had his fears and the existence of a rotten dead body in "Joker's" casket, wasn't enough prove that the dead body belongs to

“Joker”...his brother...The offer was accepted...

On August 9th 2015, the “Comedian” sent “Frank” again...and told “Frank” that he came back to finish the Job and kill him, “Frank” told him “You asked for the info “Rorschach” gathered, I got them, I’ll give them to you, and every important info you don’t know, and myself on them, in return of leaving “Rorschach””...the “Comedian” laughed...”Frank” wrote to him his name, “Edward”, making him accept to meet him in person...

{The Deal}

“Frank” went to the place “Edward” told him, in order to reach to an agreement of some sort, “Frank” was there, but he wasn’t alone, he got “Paige’s” crew with him, unseen, “Frank” wanted to give “Edward” the “Green Goo”, he did so, and told him “This will make you famous” he didn’t know what it was, “Bishop’s” men were on their way, “Frank” kept talking “Your job is to kill me and my family, it’s like catching rainbow with gloves, My death is yours too, I won’t die here alone”...”Edward” replied “That’s a silly joke from a

fallen clown, how will you kill me if you are alone?"... "Frank" told him that "Bishop's" men are on the way, and will kill him, at that moment, "Paige's" guys opened fire, and so did he, but he was alone, as he didn't want his men to know his identity as well, so he went alone, but he got time to escape, with the "Green Goo", but without the information he wanted, anyway the data wasn't the ones he wanted, "Frank" already gave it to "Paige", moments later he escaped, and "Bishop's" men arrived..."Ivy", "Deadshot" and "Paige"... "Frank" dealt with the others [Copperhead, Azazel, and Cain] on saying that "Edward"

shocked them with a fast attack, took the package, after seeing the others, he escaped fast, it was convincing to "Paige" & "Deadshot", but not to "Ivy" who knows "Frank" well...of course, "Bishop" was in rage, he lost everything, that wasn't good for him, "Frank's" plan was giving "Edward" what "Bishop" wanted, and "Edward" want "Frank's" head, so, "Bishop" will keep "Frank" safe, until then, "Frank" may find a way to kill "Edward", by himself or using someone's help, and throwing that green jar away from him, and it will be "Bishop's" responsibility to get it...not "Frank's"...one day later, he told "Ivy" the plan..."Ivy" told

*"Frank" that they can trust
"Deadshot" & "Paige" about the plan,
they were told by her later..."Frank"
& "Ivy" dealt on something to be told
to "Bishop" by "Ivy"...she told
"Bishop" what "Frank" told her that
night he met the
"Comedian"... "Frank" was useless to
"Bishop" but he still need him to be
a bait for
"Comedian"... "Edward"...but
"Comedian" wasn't that stupid, he
disappeared again, giving "Frank"
some time, "Ivy" was ordered by
"Bishop" to take care of business in
"Egypt", she became an important
member now, not just one of the men,
that was great for "Frank"...ever since,*

*“Paige” started to get close to
“Frank”... But not for long...*

*On August 11th 2015, the
“Comedian” called “Frank” again,
shocking, too early, but he asked for
the info “Frank” has, again, in a
warehouse on board...”Frank” called
“Ivy” and told her what happened,
she was surprised by that, but she
told “Frank” to go, she prepared the
crew and followed him, “Cain”
added a little camera and an ear-
piece to “Frank’s” mask, besides to the
detective vision... Once “Frank”
reached there, he was called by
“Edward” and he told him to use
another ear-piece to be in contact*

with him, once "Frank" entered the door was shut behind him, and the tricks started, "Edward" put "Frank" in a tangle, "Frank" had to go with the tricks, to get out of there... The first trick was a pond of water with electricity, no way to go through it, or around it, only a wire tight well over the water, "Frank" had to hang on it, and reach the other side and turn the power off the room... it happened, hardly, in the water, there was a key for a closed door, "Edward" told "Frank" to use it to open the closed door, done, on the other side there was a surprise, railways used in "Dream park" or places like that, with trains on them... one of these

trains was posted on the door
"Frank" came from, it ran towards
him, he found a time to get away
from its way and the train crashed
the door and the wall destroyed to the
other side, the 2 more trains on the
other railways, and they started
throwing flares and fireworks
horizontally, "Frank" fall on the
ground, but some flares fall on
"Frank" causing some burns... later,
"Comedian" talked to "Frank" and
told him to go through another
door...there was another surprise for
"Frank", every door he opens it get
closed behind him, without an
ability to be opened, the other door
was up stairs, behind the door once it

was opened an automatic machine gun shot at the door, the door itself saved "Frank" from being shot, but he had to find a way through that door, using the detective vision, "Frank" could see the electrical system controlling the gun, "Cain" told "Frank" what to do to break the codes, and cutting some wires helped, the gun was deactivated and "Frank" made his way through, to the last trick, huge bombs triggered with strings, sensitively loose, any touch was gonna pull a string and an explosion would have happened, with a surprise, a "Dodge Challenger", posted on a brittle part of the wall, easy to be penetrated by a

human shoulder, "Comedian" talked to "Frank" and told him "What do you think of my bombs? Looks pretty and glorious, isn't it?"..."Frank" couldn't talk, "Comedian" continued "The car keys are somewhere in the chamber, find it before the timer goes off", the bombs were also connected with a timer, which started once "Comedian" stopped talking and a screen showed a clock ticking... The detective vision in "Frank's" mask was programmed by "Cain" to find car keys, which are special than any other metals, program's search and "Frank's" careful looking, could find the key in 3 minutes, and the timer was set on 5 minutes, the choice was,

wait for death or jump to it, "Frank" chose to take his chances and jump with the car, it happened, using the car in the jump, with the worse accident ever...the bombs exploded, "Ivy" and "Paige" pulled "Frank" out of the car, which was on its roof already, with 7 broken ribs, a reversed direction to his knee, cracked arms, plus to some dislocated cartilages and shoulder...Besides to the burns in his body...one of the "Comedian's" men got his info from inside the place earlier, during the time "Frank" was passing the tricks, "Frank's" friends didn't see or notice anyone, because they were very busy with "Frank", as no one of

them, even "Ivy", ever saw anything like that or met anyone like "Edward", the "Comedian"... "Ivy" managed to return back his dislocated cartilages, shoulder and knee, but the burns and scars were fixed some another way, a small chamber "Ivy" uses for her wounds, with water vapor and something else with it, could in 10 minutes heal all the burns and scars in "Frank's" body, but still the bones need more time..."Paige" looked so worried...

{Paige's Knight}

By time, "Frank" started to get attracted to "Paige", and so did she, that 25 year old girl who got no known family and no friends except "Ivy", she liked, loved, the Monster "Frankenstein", she tried with him a lot, and he wanted her, but their situations and positions weren't stable, as anyone of them was exposed to death, and "Frank" had some issues with love... Since "S.O.M.", "Quinn", and the "Angel"... he started to feel that he was rejected by everyone, and who gets close, just die, he loved "Paige", and she deserved a

better life, she wasn't like "Ivy", she was normal, 5.5 ft. tall and about 130 lb. with a fitness body, her body wasn't like "Ivy's"...but she was tough too, with all that attraction and love, "Frank" always got something that stops him, the normal life, represented in a girl "Dr. Frank" told him to hunt, because her dad was thought to be someone important for "Frank's" future...but he liked her, somehow, he liked her mind and manners, a normal human being, pure of "Frank's" dirt, just like "S.O.M.", "Quinn" & "Angel", the difference was "S.O.M." used and kept using "Frank", "Quinn" wanted "Frank" to keep being a monster, and

he didn't want that, because his power & evil can't be controlled or stopped by her passion, he saw that he can't hang on with a girl like "Paige" too...She's propagating much, no stability and always in danger, totally different life, and "Frank" wanted someone to quit for, to give him a reason to live, he didn't know if that girl "Dr. Frank" told him to hunt, was the one who can pull him away of all of that, or she's just like the others, because she can't use him in studies, and he intended not to tell her about his life...pure acceptance or pure rejection, after "Paige" knew that she can't be with "Frank", she was sad, but kept being with

him...and kept her love for him in her heart, and "Frank" kept looking up to that girl he was ordered to hunt, as he wanted a chance with her, her name was "Y.M."...

{Jonathan Shaw}

On September 2nd 2015, "Edward Shaw" was discovered dead in "South Africa", looks to be a drowned man, with no face to recognize, and the "DNA" analysis revealed that he's...nobody...It was "Bishop's" man, "Croc", he knew "Edward's" location, after a long gang chase around the world, between

“Edward” and “Croc”, who was getting strong by time, but the trouble was that he sold the “Green Goo” to some Americans, as he told “Croc” when he was caught, but he refused to tell “Croc” who they were, until he died of beating... Later, it was discovered that he was lying, he gave it to his big-bad-brother, “Jonathan”, who decided to hunt them all for his brother, “Edward”...

“Jonathan Shaw”... A 58 year old man, a former British military officer, got a lot of relations in the British army & the “MI6”... The tool that “Bishop” used to find “Edward” with, returned back to “USA” after

the first failure in "Egypt" to punish "Bishop", but he did the job and caught "Edward"... But "Edward" died before he tells "Croc" where's the "Green Goo" or who did he sell it to, "Jonathan" knew about it, as he was in service when it was stolen from "England" in 1997, and he was with others looking for "Frankenstein", until "Edward" brought it to him and told him where he got it from..." Jonathan's" investigations started from that moment, he left his bro, and went to "Egypt" as a tourist, looking for "Frank", it didn't take too long, unknowing that the real robber died, "Jonathan" found "Frank" and caught him, "Frank" didn't

understand or knew "Jonathan", "Jonathan" realized that "Frank" was too young, and from his ID he could know that he was 3 years old when the job happened in 1997, but they talked, "Frank" told him everything he needs, since "Victor" and until his brothers, "Goblin" then "Comedian", "Jonathan" wasn't touched by "Goblin's" death, as if he thanked "God" for his death, as "Goblin" was a half-brother to "Jonathan" & "Edward", for some reason "Jonathan", the big bro, didn't like "Goblin", "Charles Shaw", he knew that criminality was in his blood, and "Jonathan" thought that he corrupted his own

brother's mind, "Edward", and made him insane like him..."Frank" asked "Jonathan": "When you find "Bishop", what are you gonna do with him?"..."Jonathan" answered "What he deserves", creating a new villain to "Bishop", a harder one than "Edward"...

{WAR # 12}

"Ivy's" guys were watching "Frank" all that time, and listening too, as "Cain" put a transmitter and a tiny microphone in his phone and watch, so, "Ivy" knew about that meet, and what was said, "Jonathan"

didn't tell "Frank" his name or who he was, all he said was that he and "Edward" were brothers, so "Frank" wanted to have a step on "Shaw", "Jonathan", so he asked "Ivy" to tell him everything about "Shaw", "Shaw" gave "Frank" a phone to call him when a job is about to happen, "Ivy" wanted to start war, so, she had a simple delivery of weapons, in guitar boxes, she used that, and asked "Frank" to call "Shaw" and tell him about the job, and its location, and when it would take place, and that an important member of the mob^[17] will be there, "Frank" felt worried about her, but she told him to trust her...He did what she said exactly,

“Shaw” wasn’t late, he arrived with some of his own boys, former soldiers who ended their time in military service, and volunteered to serve their country, they were “Shaw’s” crew, of 7 or 8 men, “Ivy” wasn’t there, but one of her crew was there, and took a picture of “Shaw’s” face and sent it to “Ivy”, “Croc” was there, to make sure everything works well, feeling victorious that he’s the one who killed the “Comedian”, then the attack happened, 2 teams shooting at each other, but “Croc” shocked everyone with 2 guitar boxes in his hands, and launching a heavy shooting from the guitars arms, like they were machine gun cannons or

so, that move ended the struggle with 3 deaths on "Shaw's" side, and about 5 on "Croc's" side, and several injuries, "Frank" was watching everything, he didn't know that "Ivy" was talking about "Croc", he thought that she was talking about herself...one of "Croc's" men fall injured in the leg, and they had no chance to get him, so "Croc" and his men left him behind, "Shaw" took him...

On September 10th 2015,
"Frank" called "Shaw" and told him
"How's that hit Shaw?"..."Shaw"
didn't answer, he was shocked, as
"Ivy" could gather information about

*"Shaw" from his picture she had,
"Frank" continued "I can introduce
you to someone from inside, who
wanna help to get rid of
Bishop"... "Frank" was talking about
"Copperhead" & "Deadshot", as
"Frank" & "Ivy" got a plan to attract
"Shaw" to their side with his
resources and power, as "Ivy" and her
crew were not the best in the mob,
"Ivy" was watched by the
"Community" and "Bishop", while
the others weren't, and neither was
"Frank", he was watched by "Paige",
one of the crew, a friend, not a
foe... The plan was, to show that guy,
"Shaw", that "Bishop's" men are
dangerous and many, and only 8*

men weren't enough, and direct attack was a bad idea, and that he needs men from inside, men like "Ivy" and her crew, to pave the way for him, as "Bishop" was untouchable, forcing "Shaw" to accept working with them, because the English government refused the operation, so he was working by himself, no backup for him, or someone to watch his back, so, in order to have his revenge for his bro & for his dead men, he had to work with "Frank" & "Ivy"...

"Ivy's" deal was...She'll help "Shaw" to catch or kill "Bishop", in return, the "Green Goo's" case will

stay in the dark, with no suspects, nobody to be blamed, and offering protection for her and her crew from the "Community", the protection included "Frank" too, "Shaw" didn't have to trust her, or her men, but he lost 3 of his brave boys, and others were injured, and soon his cover will be blown, because the info "Ivy" got about him, was too easy for "Bishop" to get, and "Shaw" got a family in "England"...so, he had to agree to her terms...Good plan by "Ivy"...

{WAR # 13}

Temporary "Croc" thought that the attack on him was by the "Penguin's" men, So, he was enough and asked "Bishop" to stay in "Egypt" to take them down himself, "Bishop" agreed, "Frank" knew through "Paige", and she already warned "Penguin's" men... "Frank" told "Shaw" about that upcoming fight, "Penguin's" men were the bait, to trap "Croc", and it succeeded, as "Croc" thought that he was going to shock them by his attack, but he was waited, after a long fight, "Croc" fall in "Shaw's" hands... "Croc" didn't

know him, and "Shaw" didn't talk, he shot "Croc" dead... Later, "Shaw" wrote a report to the English army officials, telling them that he caught the "Green Goo's" robber, and that he killed him too, he took advantage of the situation, and said that "Croc" was "Frankenstein" they were looking for all these years, and sent them all the info he had from "Ivy" as confessions from "Croc", and all about "Bishop", avoided mentioning the "Community", as they were really untouchable, and he wanted praise, not a clash with the "Community" families, Just "Bishop" as an international criminal, without talking about "Ivy" or her crew, or

even their help, so that nobody will doubt "Shaw", the English pride, giving reasons for "Croc's" death that he tried to escape, so he had to shoot him, and as long as nobody knows "Croc", no family or friends and no files at all, it was easy to prove that "Croc" was "Frankenstein", besides to "Shaw's" position in the army, puts him as a trusted person, so no one will dig behind him, or his reports... On September 15th 2015, "Bishop" was a public wanted thug, and soon, all his special men in "England" became wanted people too, with known faces, ever since, "Bishop" lost contact with the "Community"... They sold him, they

had to, "Bishop" went on the run, and "Ivy" disappeared with her crew for some time, as "Shaw" told them..."Penguin's" men shattered, and some of them thought that they can blackmail "Shaw", The English Interpol in "Morocco" caught some of them, and they became wanted too, as member of "Bishop's" clan... The "Green Goo" returned back to the English army, secretly, and "Victor" completely disappeared from the picture... That time, "Frank" executed his brother's [gun, ring, black skull mask] in a try to hide evidence that "Victor" was "Frankenstein", because he was seen in "England" this year he stole the "Green Goo", with the

ring in his finger by cameras in
“London” airport...So, it was a way to
keep things the way “Shaw”
planned...

{The Last Deal}

Days later, “Shaw” called
“Frank”, and asked for a meeting in
a public place, “Shaw” thanked
“Frank” for all what he did to help
him to catch “Bishop” and end his
crusade, plus returning back the
“Green Goo” to the right hands, as he
claimed...But “Frank” said “You
didn’t catch Bishop yet, don’t be so
happy by exposing him, I want you to

do me a favor"... "Shaw" said "I'm all ears" smiling, "Frank" said "I want real identities, passports and jobs with you for Ivy and her crew"... "Shaw" said "What are you talking about? Impossible", "Frank" continued "I gave you what you have never thought of finding, and Ivy gave you Bishop, they deserve a better life now, and that's all I ask"... "Shaw" refused, here came "Frank's" threat "Ok then, I'll tell the whole world that you have been lying, and a corrupted army officer, by telling the world that, I Frankenstein, and I can also prove that I am Victor not Mark, with documents, blowing off your work, and also proving that Bishop is

an innocent man too, later, you and I knows, you'll rotten in prison'..."Shaw" was surprised with what he was hearing, but couldn't answer with anything that time except "I'll see what I can do for them'..."Frank" told "Shaw" to hand him the passports and "Frank" will give them to "Ivy" and the others...

5 days later, a package arrived to "Frank's" home, the passports, and an official letter to invite them to work for the secret service, signed by "Shaw" and other military and government members and the Minister of Defense himself, plus to bank accounts with a lot of money for

them, to start over, for each one of the crew, "Paige" was in continuous contact with "Frank", he told her about the package and told her to give it to "Ivy", inside it, there was a letter to "Ivy" from "Frank" telling her what happened, "Paige" didn't ask what's inside the package, she wasn't used to ask... They were very happy with what they saw and read, but "Ivy" felt grateful, and that she owes "Frank" something, maybe her life, because she saw how "Frank" was going to risk everything, and putting his future on the line for her and her teammates, they all travelled using their legal passports to "London", home for "Ivy",

“Deadshot”, and “Copperhead”, went there to work with “Shaw”, who was told to return back to service after he retired of the army work, at least until “Bishop” get arrested, the M16 service of course, as many “English” officials dream of..”Ivy” saved “Frank’s” life before, Now, he gave her one...

{Farewell Evolution}

On October 1st 2015... There was an early & urgent family meeting, to discuss what happened in the past months, where everyone make his confessions, to "Dr. Frank" and his elder sister, everyone was expecting "Evolution" to declare the disasters of the past months of the year, and "Rorschach's" retirement, or a probable retirement of "Evolution"...

When "Frank" had something to say, he cut a promise, that no one of the family will ever be in danger again, and that he's no longer

“Frankenstein”, and that he’s out of street business once and for all this time...Although everyone was surprised and amazed by “Frank’s” determination this time, but everyone was happy with what they were hearing...Summer was over, but they were in “Sharm EL-Sheik” after the meeting was over, “Frank” asked for a ride alone for some time...”Venom” was looking at him, and looked at her husband and said “You can’t kill what won’t die”...”Rorschach” followed “Frank” in his car, and stopped side by side with him on a cross-roads red light traffic, “Rorschach” said “Hey, you think you can leave without saying good

bye to me fool?", he was joking,
"Frank" looked at him and smiled,
there was a quarter mile or a little
bit more to the end of the road, the
good bye "Rorschach" meant was one
last race...At the end, "Rorschach" &
"Frank" shook hands and "Frank"
told him the advice he have always
wanted to hear "The most important
thing in life and will always be, the
family, your family, hold on to
them...We have been living our life a
quarter mile at a time, I think that's
the only thing that made us brothers,
you, me, and Bane"... "Rorschach"
replied "No matter what you do, or
where you go, or whoever you hurt,
you and Bane have always been my

brothers and will always be, and wherever I go whether a quarter mile away, or half way across the world, you'll always be with me and you'll always be my brother, Frankenstein, or shall I say Markenstein?"... "Mark" smiled, and both men drove in separate ways, one who got a family to take care of...and the other had a life to build, as "Markenstein" the Human, not as "Frankenstein" the Monster, ending the myth of "Evolution" and its "Monster from Hell"...FOREVER...
