

## {The New Stage of War}

*After a huge war between [India, Ukraine & Africa] against “Johar Khan” and others, “Frank” & the “Sentinels” could catch him and sent him to the “Frankenstein” prison in “England”, no easy task, “Silver” almost died and “Floyd” lost his motorcycle, besides to a lot of damage to “Frank’s” suit... Despite all that, the “Sentinels” fame kept rising fast among the different intelligence around the world especially the “SVR” & “CIA”...*

*“Ivy” & “Rose” were mad with “Frank” because his actions there were very aggressive and violent, he used to tell them that this was what he’s good at “This is what I do, this is what I’m good at, I FRANKENSTEIN AND I MUST*

*BE FEARED", "Rose" was worried about what was happening with him, "Ivy" knew that there was something he was hiding, something bothering him very much, she talked to him saying "I know you're worried about what Nicole & Undertaker did, she was pregnant for 3 months and will give birth next February, too early, and the child doesn't look normal at all I know, but I got this don't worry", she was right, "Nicole's" child was growing too fast and looked very weird in sonar shots, that was worrying "Frank" because he was confused about what will happen after she gives birth, what would be her destiny?! Especially that she hated "Frank" so much and he never cared for her, then something unexpected happened that changed everything...*

*“Shaw” told “Silver” & “Ivy” to stand down for sometime, because the Russians shocked the world and the “NATO” with a top secret written report, demanding the “NATO” & “Britain” to deliver the “Sentinels” to the Russian authorities to face inquiries about what they did and to face accusations with robbery and destroying public properties and endangering people’s lives in “Moscow”, besides to civilian casualties... These accusations were gonna finish the “Sentinels”, the “NATO” didn’t reply to the Russian request, “Shaw” traveled to “Moscow” on a try to solve the situation, the Russian government sent its orders to the “SVR” & “FSB” to hunt the “Sentinels” down SECRETLY, “Ivy” knew that “Viktoria” was told to handle this case, it was hard for her to*

hunt "Frank" but she had to, it was her duty... "Frank" returned to "Egypt" and was told that "Frankenstein" had to stay in the shadows for sometime till he wasn't wanted officially anymore, "Paige" didn't understand why should they care for what the Russians wanted, "Ivy" didn't care for what the Russian government wanted but her concern was putting "Viktoria" on the job, especially that she knew "Frank's" identity, besides to the idea that "Viktoria" was a higher level agent than the "Sentinels" agents, "Ivy" found a way to call her but it was in vain, "Viktoria" told her that she can't say no to direct orders even if she had to hunt down her friends... This was something "Frank" never faced, he faced thugs, mercenaries, gangs, mob men, dealers, but he never faced secret

*agents like "Viktoria", that wasn't concerning "Frank", what worried him was his family in "Egypt" and in "England"...*

*"Viktoria" asked to have a team with her in this job, it wasn't usual for her, but she knew that she was going for a fight against one of the most dangerous teams in the world, her request was rejected but she was allowed to collect a team of some enhanced criminals or thugs to aid her if she wanted, she started looking for some special men for the job, her choices were unique but not terrifying...*

## {Viktoria's Monsters}

*In 1997, there was a pirate who used to sail in the "Baltic" sea and sometimes in the "Atlantic" ocean, he was well known by the British navy and was chased for years, he was caught by the Russian navy in the "Baltic" sea in 2007 and was kept in highly secured prison near "Moscow's" boards with his crew but not for long, he was transported to the "Cave" prison after killing a prisoner with a piece of window glass in a regular prisoners fight, he was sent there alone to be locked up in a solitary cell for life, his name was "Hector Roberts" or "The Pirate" as cops and other prisoners used to call him in prisons...His crew were kept away from each other in different prisons, except 2 of them were*

*kept together in the prison "Hector" left, they used to have special names in the past, "Hook" & "Popeye"...*

*"Viktoria" went to see "Hector", he was imprisoned for years, besides to the idea that he was 51 years old, but he was in perfect shape, except his left eye, she offered him his freedom in return of helping her with that job, he hesitated at the beginning but he agreed when "Viktoria" agreed on joining his men, "Viktoria" didn't let him choose except 2 men of his old crew the most trusted ones, deal was made, "Viktoria's" crew became 4 members [Hector, Hook, Popeye & herself] but she still needed more... Years ago, "Viktoria" used to work with a Swedish computer man, he was an Electronics engineer used to*

be called "The Bee"... "Viktoria" didn't leave the "Cave" prison with just "Hector", she had her eye on someone special, a girl used to be called "Quiet", she was a perfect sniper, "Viktoria" offered her freedom and a job, "Quiet" had nothing to lose so she agreed... There was still a need to add someone who can stand face-to-face with "Frank", there was a guy who got 'tree' disease, he got long arms and legs looking like a tree and they were hard enough to hit "Frank" strongly, "Viktoria" added him in return of free treatment after the job was done, the guy was poor and the disease was killing him so he had to agree, they used to call him "The Tree"...

*“Viktoria” saw that her team was ready for a war against the “Sentinels”, so she started moving... “Silver” was in “New York”-“USA”, “Viktoria” got all the Russian facilities to travel anywhere secretly at anytime, she knew his location and decided to start with him, she went there with [Hector, Hook & Popeye] only, [Quiet, Tree & Bee] were left in “Russia”... “Silver” was out with his wife, “Viktoria” sent “Hector” and his friends to attack him and she went to his apartment and broke in, she did this to try to hack in “Silver’s” laptop to see any info about the “Sentinels” location in the world, she couldn’t find anything too valuable, “Silver” noticed “Hector” and his men, “Hector” wanted “Silver” to notice him, “Hector” and his men were regular fighters, but “Silver” was*

a well trained soldier, although  
"Hook's" hook and "Popeye's" knife,  
but "Silver" could beat them with his  
bare hands till "Hector" ordered his  
men to run, before leaving he looked at  
"Silver" and said "I'll see you again"  
and disappeared among people... When  
"Silver" and his wife went home,  
"Silver" knew that there was a break  
in, there was no one inside, "Viktoria"  
left before "Silver" and his wife  
arrived home, he called his  
department and reported what  
happened with him in the street and  
the break in, he called "Shaw" and  
informed him, "Shaw" wasn't  
surprised telling him that it was  
"Viktoria" and that she started moving,  
at once "Silver" asked to travel to  
"England" and ordered everyone to  
come for a meeting in the "NATO's"

base in "England", everyone came including "Frank" & "Paige"... "Silver" traveled with his wife and asked "Ivy" to secure her and keep her someplace safe, "Ivy" sent her to the "Frankenstein" mansion with "Paige", "Agent X" & "Jenny" with heavy security... "Jenny" was in her final stage of pregnancy and was said to give birth in a month or maybe less, "Hylaria's" twins still needed more time, but the fact that they were kept in a chamber that looked like a mother womb made her okay to join the fight, just like "Paige", they talked for long about who would wait and take care of things and who should go with "Frank" in this new kind of war, they agreed on "Hylaria" to join the fight and "Paige" would wait in "Wales", "Frank" refused strictly at the beginning, he was very

worried and didn't want to lose her, but "Ivy" convinced him that they were gonna need her with them, he agreed because he was always weak to "Ivy's" thoughts... In December 2016, the "Sentinels" gathered their equipment and cars then traveled to "Russia", it wasn't understood at first by the crew, but "Shaw" ordered "Silver" & "Ivy" to go there and wait for his orders... "Frank's" golden suit was broken and got some serious damages since the job against "Johar Khan", but that wasn't a trouble, the "Sentinels" with other engineers worked on creating a new suit for him, it was made of 'Graphene' material which was lighter in weight and stronger than all kinds of steel with a new mask having the same properties but also made of Graphene... "Floyd" built a

*new motorcycle with 1 mini-gun in the front and 2 missiles, besides to the tricks<sup>[1]</sup>, "Electrocutioner" made a new project, electrical sticks able to cause an electrical shock enough to kill, the sticks were made to engage together to be 1 long stick, that weapon was gonna be used by "Floyd" as a hand-to-hand weapon... The "Twin" was added to the crew, but with some modifications, he could use 3 claws for each hand but not only that, the claws were kept in his arm when needed, he got a chip in his brain connected to the claws inside his arms, it was developed by "Cain", the chip sends orders to the claws to get out of his hand when needed to be used, and to return back inside his arm when he wanna pull them back...*

## {The Wizard}

*After the attack on "Silver" in "USA", "Viktoria" had a surprising visit from a crow, the crow had a letter written hanged in its leg, it wasn't shocking to "Viktoria" as if she saw things like that before, when she pulled the letter from the crow's leg, it flew away, but it seemed she wasn't pleased with what she read, then she took her men and traveled back to "Moscow"...*

*The "Sentinels" reached "Moscow", in a special jet, "Anton" welcomed them, "Arrow" doubted him "Why would the Dmitry brothers help us? We shouldn't trust them" "Floyd" confirmed "Arrow's" words, but "Ivy" assured them that the "Dmitry"*

brothers won't betray them, she was right, "Anton" considered them real friends and called them 'Russia's Saviors', he was alone because he didn't wanna involve his brothers in troubles with his officials, he prepared a safe house for them and a safe line to call him on it when they need him because he wasn't gonna be with them, whatever the "Sentinels" were up to, it was their payback...

"Viktoria" and her men arrived "Moscow", they went to their place but "Viktoria" went to the letter sender...She went to a gallery shop, where weird antiques and statues were said to be for sale, that place was owned by a British man used to be called "Rumplestiltskin"- "Rumple", he wanted to see her because she owed him

*a favor and it was time for payback... He used to do what anyone asks him to do in return of a favor, and who refuses helping him or goes back in a deal with him he used to kill him somehow no man ever knew but that was rare, most of his assassinations were by using others he helped, he was feared by everyone, even "Viktoria"... "Rumple" gave "Viktoria" her impressive strength and huge body structure, she used to be regular and fit when she was young, she saw "Rumple" in a show when she was a young agent, she was ordered to watch him with other agents secretly, he knew them since day one, he appeared to them in an impressive way that made them look at him with fear, he was in his shop and suddenly red smoke appeared and he appeared next to their car, there were 2 men and*

*“Viktoria”, “Rumple” waved with his hand and suddenly “Viktoria’s” colleges turned to skeletons, then he told her to follow him “You seek power and strength, follow me if you wanna be tough and famous fast, or you’ll never see glory in your life, dearie” he was right, if she left or reported what happened, no one was gonna believe her and maybe she was gonna be accused of killing them, so she followed him to his shop, he cursed her and made her body grow instantly with amplified power, even stronger than men, that deformation made her attract some attention to her because among years she was getting better so fast and used to survive delicate situations by her power which was a mystery to everyone, people thought that she wasted a lot of time in a gym,*

that's why she was called "The Iron Witch", "Rumple" & "Viktoria" used to work together sometimes, she needed him when she wanted to find someone fast or needed a way to finish a job fast, and he used her to cover his tracks and she could hide him from the British agents for years, when he needed her, he used to send her a crow with a letter, he was known to be 'The most dangerous wizard in the world'...He asked to see her because he got a trouble, 3 months ago, his son was imprisoned because of drunk driving, he was with his sister in a nightclub, he lost control while driving and crashed, he wasn't hurt badly, but his sister was hurt badly and was kept in a hospital, her condition was delicate and soon she fall in a coma, "Rumple" wanted "Viktoria" to get his son out but it was

*impossible without attracting attention, she promised him that his son would be treated well and that she would transport his daughter to a better hospital, but "Viktoria" had an idea... "Viktoria" said "I can't just get him out like that, I can recommend the prison's warden to make his guards take care of him and keep him out of troubles inside, but I need some help from you"* to "Rumple", he replied "You are already paying your debt, making you a perfect agent had a high price dear" she said "I think you asked for me, I didn't come to you, and as much as I know you, you won't call me if you had another way to solve your problem" he didn't reply for a while then he asked for her request, she said nothing but one word "Frankenstein..." and before she could continue he

interrupted her "The monster from hell, the Shadow killer, the Undertaker's slayer, indeed I know him" "Viktoria" was shocked by that, but "Rumple" and the "Isaac" family had a long history together, he told her that he would send 2 of his students with her, she asked for his personal help, but he told her that what she had to offer wasn't enough for his personal help, she agreed and went to the 2 addresses he gave her and assured her that his men would agree to help her...

"Kensei Chao" & "Black Skin", 2 freaks in looks and acts were added to "Viktoria's" team, she took them and introduced them to the rest of the team, later on they were called "Revolution"... "Ivy" knew where "Viktoria's" men camped via some

*thugs, "Silver" saw that attacking them must be very effective, because an attack was a declaration of the "Sentinels" existence in "Moscow", "Ivy" confirmed...*

## {Inferno #1}

Everyone went for the job, [Frank, Ivy, Silver, Rose, Floyd, Arrow, Twin, Deadshot, Hylaria & Sonya] “Electrocutioner” was left in the hideout, he was watching the situation by satellites and was ready to help them by any means.. “Deadshot” took his position with a new special rifle, “Silver” & “Arrow” could make it to the store’s roof, “Ivy” & “Twin” took positions at 1 side of the building, “Floyd” & “Rose” had another side, “Hylaria” & “Sonya” had the third side and “Frank” took the front, before attacking, “Deadshot” shot the “Revolution’s” cars’ tires, then the attack started by a bullet in the air, attracting attention and a try to split them up, “Viktoria” knew the trick

and told them to stay together, then the power was off, the "Sentinels" had night vision goggles to see in the dark, something the "Revolution" wasn't having, "Hector" told his friends to split up and attack whoever they see outside instead of waiting inside, they did it but they were faced by the "Sentinels", then "Frank" stormed the place, "Silver" & "Arrow" got in from 2 windows and started shooting, "Quiet" saw "Arrow" & "Silver" through their weapons flares, so she shot them and hit them both but not severe hits, "Frank" was shocked by seeing the "Tree", although he didn't see "Frank" due to the darkness, but "Frank" didn't wanna hurt him, so he told him to stop moving and give up, when "Tree" heard "Frank's" voice he attacked him, "Viktoria" flashed flares to light the

place, when that happened, the "Sentinels" had to get in, "Ivy" & "Twin" got in, "Ivy" looked for "Viktoria" and found her, they hesitated at first then they attacked each other in a savage fight, "Twin" wanted to catch "Hector", but "Chao" stopped him and their fight was hard, because "Chao" realized that he wasn't fighting a human, "Bee" hid because he wasn't a fighting member, "Hylaria" saw "Black Skin" and was shocked that there was someone else with complete body paint like her then they fought, but "Hylaria" lost the fight although she was a perfect fighter, but "Black Skin" wasn't a normal human, when "Frank" saw that he screamed "NO LET HER GO" and threw his shield towards "Black Skin" but she was fast and flexible enough to avoid it, the toss was

*strong enough to hit the wall and got fixed in it.. "Sonya" kept "Popeye" in control after she caught him with "Hylaria" at one of the store's exits, "Rose" held "Hook" but he could escape from her, "Silver" took "Arrow" and pulled back to "Deadshot" who aided them as much as he could, "Floyd" fall in a fight with "Quiet" who was a good fighter, "Frank's" fight with the "Tree" was hard because the "Tree's" limbs were long and strong, but in a moment "Frank" punched him in the face, it made him dizzy for a moment and fall down, then something unexpected happened... Time got frozen and everyone was still suddenly, except "Frank", he was the only one who was moving and aware, when he saw his friends still without motion, he tried to contact "Electrocutioner" or "Silver"*

but nothing, then someone appeared behind "Frank" and started talking "You never saw anything like this before, right?" to "Frank", it was "Rumple", "Frank" didn't know him so he was ready for anything saying "Identify yourself" "Rumple" replied "Here they call me Rumple, but that doesn't concern you, what concerns you is what you need" "Frank" didn't reply but he seemed confused, "Rumple" continued "You wanna keep your family safe and happy, but you know you can't do that, you're just a monster, you can't live your life as a normal man, you need someone to take your mantle, to endure your misery, to carry your bloody legacy..." "Frank" interrupted him "Enough, what are you up to?!" "Rumple" smiled saying "You still blame yourself for Victor's

death, maybe Rorschach's too, you wish you can go back by time to fix things up, but you can't" "Frank" asked him "Can you?!!" "Of course not, but I know a way to bring the dead back to life, only if they're in the underworld, I think both of them are down there, but you gotta choose well, because you can't use this more than once" "Frank" didn't understand "Did you know Victor well?" "Frank" said, "Rumple" replied "Indeed I knew him, I taught him magic, and I made him who he was, you wanna know what happened since 1998 to 2015 but you can't find answers, I can help you with that" "Frank" was interested and agreed asking him what he should do, "Rumple" told him that they needed to talk somewhere else, but before that "Frank" told him that he want his

*crew to be safe, "Rumple" waved with his hand and all the "Sentinels" members disappeared from the place and appeared back in their hideout, "Frank" & "Rumple" disappeared from the place and appeared in "Rumple's" shop where he told him everything about "Victor's" history and the "Undertaker's" too, their origins and what happened to them and what they did...*

## {The Shadows Origins}

Once "Frank" & "Rumple" were alone in the shop, "Frank" said "Tell me everything you know about Victor", "Rumple" started "Victor Frankenstein was my first student, the first kid I taught and he was the best one of them all, your brother was determined to kill his brother's killer, the Crocodile, but he couldn't reach him easily, he needed help and his girl wasn't as powerful as she is now, I wasn't wanted in England yet and I was free to propagate anywhere as much as I want, I had a friend in Egypt who needed a magician for a special show in the circus, it was Christmas and everyone wanted to have fun, Victor was there to make a delivery with the Undertaker, a clown noticed them and told my friend,

*I asked them to let me handle this and I did, but when I saw Victor I had a feeling that he wasn't just a thug, I screwed their deal and cops caught them, then I appeared to them in the jail cell in the police station, I offered them to work for me instead of being imprisoned and of course they agreed, but Victor wanted his vengeance, I promised him that and I stuck with it, when I got them out, Undertaker left, Victor stayed with me and I started teaching him dark magic and how to control it..." "Frank" interrupted him saying "Why would you come to a country like Egypt to make a show in Christmas? You could have made a 100 show in England with more money, that doesn't make any sense" "Rumple" replied "I'm a collector, I collect and seek magic everywhere on earth, the*

only 2 places with the most powerful magic on earth are Egypt & Peru, the Pharaohs were the first humans to use magic, 'The Book of The Dead' was written centuries ago and it was written in centuries too, full of spells, it spoke about time traveling and that there are 8 places in the world where time changes through a gate but you go back by time to the country's civilization, in Egypt you go back to the Pharaohs, in Peru you go back to the Incas, some of these gates are in some of the 7 wonders of the ancient world, one is the Bermuda Triangle and other ancient places, all of them take you back except the Bermuda gate it takes you forward by time randomly, but not less than a century, Victor knew about that and wanted to get in a gate taking him far away back by time''

*“Frank” asked him “Why did he wanna do that?” “Rumple” replied “Because he thought that there was a way back there to change his family’s destiny” “Frank” figured out from “Rumple’s” words that the Pyramid was one of the time gates, “Victor went back by time through the Pyramid to change our destiny, then he came back to our time, when did he do that?” “Rumple” replied “He had to know how to use and control magic, I helped him with full power, then it was time to go...In 1994, Victor & Undertaker talked about that for a long time, they knew that Bishop was gonna get rid of Undertaker, Undertaker didn’t believe it in the beginning, so Victor told him that he must be considered dead, so they made the trick of the Undertaker’s death, then his own death in 1998*

using The Transported Man magical trick, they went to Italy where I was waiting them according to the deal between me and Victor, he made a new deal with me, I help him to go back by time in exchange of helping me to get the thing that I didn't have in the past"

"Frank" asked "And what's that?"

"Rumple" said "Immortality, but of course there was a price, the immortality gave me more power and less opportunities to die, but there was a trouble Victor knew there and when he came back here, he didn't tell me, but he paid the price too"

"Frank" asked him "What price are you talking about?!!!"

"Rumple" replied after a while saying "Our powers were perfect and more powerful, but there was something wrong, our powers were engaged with things we couldn't get rid

of, Victor knew how to avoid that, but he could escape from me and joined his uncle in Russia...2 years ago when I became wanted, I made it here in Russia and covered myself well, Victor never knew I was here, but I kept my eye on him and his uncle” “Frank” was astonished “How couldn’t you know how to get free from these ‘things’ whatever they are? I mean why didn’t he tell you? And why didn’t Victor kill me with magic??” “Rumple” smiled saying “That’s why I need your bro back to tell me what I don’t know, about how couldn’t I free myself from it, because Victor prevented anyone from writing anything about the human immortality in any papyrus or on any wall, he fought in wars there to keep that info a secret, although he sent a message to the Egyptian king that time

with the info or formula and told him that thing's location in a map, in fact Victor never trusted anyone, so he warned him from another war coming against those who don't want this<sup>[2]</sup> to be known, but for some reason the message wasn't received by the king and Victor disappeared for years, before you ask, I don't know where did he go, then he showed up in our time and joined the Undertaker, their start was harsh but it was remarkable" "Frank" was confused, the "Sentinels" were trying to contact him but he didn't reply to them, "How was their start? How did they build the Shadows??" "Rumple" said "They were working in a circus, Victor was a magician, Undertaker was his ingenieur and tricks designer, they took their time to learn, then they

*started making friends and getting close to gangs, when they became known, they escaped the circus and the Shadows appeared as a small gang on the criminal map, you think he tried to kill you, but in fact he tried to save you and his girl, by killing everyone who might cause damage to you and your family, then it was just a matter of time until you join the Shadows, he didn't use magic on you because he didn't wanna risk showing you his glory and power then you go and tell your father or anyone else, but you killed him and stuck his daughter in this war and yourself in this mask forever" "Frank" was mad feeling guilty "HOW CAN I FIX THIS?" "Rumple" told him that he was gonna tell him how to raise "Victor" but not before he knows how strong "Frank" was and*

said "But I gotta warn you, magic always comes with a price" then "Rumple" waved and teleported "Frank" from the shop to the hideout with the "Sentinels", who were very worried and shocked...

"Ivy" had a delivery somewhere out of "Moscow", she told the "Sentinels" to prepare the backyard for a huge chopper landing and told "Silver" to join her, they did what she asked... "Hylaria" never stopped asking "Frank" what happened and where did he go and how did they appear in the hideout suddenly, the team was very confused and "Arrow" was in shock, "Frank" told them that he was gonna wait for "Ivy" to come and tell them everything, telling them was a risk "Frank" had to take, he asked

*“Electrocutioner” to collect every available info about a guy named “Rumple”...In 2 hours, “Ivy” & “Silver” arrived in a Jet, like a spaceship or something, it was the “Sentinels” new transport plane, with a giant clamp from outside lifting the “Beast” war truck, it was a classified project in the British air force, the first piece was allowed to be used by the “Sentinels” according to “Shaw’s” request, “Silver” was the pilot in the team and he was the only one to fly it, this was impressive to the crew...*

## {The Skeleton}

*“Electrocutioner’s” researches around a guy named “Rumple” were in vain, no records or database mentioned that name... “Frank” was expecting that and asked everyone to listen to him, he had a lot to explain and say... “Frank” told the crew what happened with him and what he heard from “Rumple”, some of them didn’t believe what they heard, others were confused and others were just shocked, “Ivy” knew who “Rumple” was, she heard about him and knew that he got a son and a daughter, she told them that he wasn’t loved by the “Community” & “Bishop” but they used to avoid him as much as possible until they found a way to involve him in a murder case, but he could*

*disappear without a trace for years enough that she thought he died, "Frank" demanded "Rose" & "Hylaria" to return back to "England", but they refused strictly, to them, they were digging behind "Victor's" case for sometime, this was some progress, to "Frank", he thought that they just wanna be on his side, "Hylaria" figured out why was the map leading to "Dr. Frank's" villa, "Victor" hid something there and protected it with magic, "Rose" already knew that "Victor" was the one who bought the land and built the villa, the area was abandoned that time, that was why he used to race and do dirty jobs at a very early age to pay for the land and building the villa... "Silver" didn't believe what "Frank" said but he got no explanation for what happened to*

them when they were fighting  
“Revolution” in that store, specially  
when they found their cars and  
equipment with them as if the  
“Sentinels” never left their hideout,  
which forced “Silver” to stay silent..

“Electrocutioner” could know  
everyone of the “Revolution’s” crew, he  
could have satellite images for each one  
of them, “Ivy” gave him “Rumple’s”  
real name and told him to dig behind  
him again.. “Viktoria” paid “Rumple”  
a visit knowing that he was behind the  
“Sentinels” disappearance from their  
place suddenly without a trace, she  
asked why did he do it but he didn’t  
tell her the truth, “Rumple” knew that  
“Viktoria” couldn’t do what he needed,  
he wanted “Victor” to rise again and he  
wanted to know how to set his

*immortality free from the 'Thing' he talked about, not only that, but he got a bigger plan that made him feel that he needed his 'Best Student'... On December 23<sup>rd</sup> 2016, the "Sentinels" were preparing themselves to move to "Madrid" where a huge trouble happened, "Anton" was with them to help, "Rumple" appeared in the middle of the "Sentinels" which shocked everyone, "Arrow" shot "Rumple" with an electric arrow but "Rumple" caught it by his hand and said "No need for violence, I'm not here for a fight", "Frank" told everyone to stand down and asked "Rumple" "What do you want? Why are you here??" "Rumple" replied "I know that you told them what I told you, but now I am here to tell you what I didn't tell you when we were alone" "Frank"*

didn't speak but he seemed astonished, "Rumple" continued "I told you there's a way to rise someone dead from the underworld, but I didn't say how..." then he turned to "Rose" and said "Are you interested to see your father dearie?" "Ivy" interfered "Leave her alone, Rumple, whatever you're saying has nothing to do with her seeing her father, you want him back, why?" "Rumple" replied "You should be supporting the idea, you killed your husband and the father of your children with their uncle's aide, you're as guilty as he is, helping in this might reduce your pain and guilt" "Ivy" didn't reply, "Frank" asked him "How can we do something like that?" "Rumple" replied "Simply there's a very old gate between the underworld and this world, it's in the Himalayas,

*the gate got a special old key, legends say that it exists in Spain, but you gotta hurry” “Frank” asked “Hurry!! Why?”*  
*“Because the mercenary who you’re going after down there, is also looking for it and knows about the gate, who knows who’s he gonna raise” “Rumple” replied, “Ivy” said “Feeling guilty isn’t enough for us to do such a dangerous thing, and who knows what’s your take in this” that was a wrong way to talk to “Rumple”, he waved with his hand and a baby’s clothes appeared in his hand, “Frank” knew them as soon as he saw them in “Rumple’s” hands, they were belonging to little “Victor”, then he said “I don’t wanna do this, but don’t push me to do something you’ll all regret” “Silver” & “Floyd” were behind him, they tried to attack him, but he waved with hand again then*

everyone was frozen in his place with no ability to move but they were aware, "Rumple" went close to "Frank" and said "Sorry kid, I didn't want it to get that far, now if you don't wanna do it because you're guilty, then you'll do it to avoid being guilty, again" then "Rumple" disappeared and everyone was released, it was a bad meeting, but it made them know what their target in "Spain" was after...

Hours before "Rumple's" visit, "Shaw" called them and told them to travel to "Madrid" because a dangerous mercenary was seen in "Spain", he was an American mercenary who used to have most of his dirty jobs in "Mexico" or south states in "USA" and sometimes in "Cuba" and "Central America", he used to have his small army which was

*funded and equipped by unknown sources, he wasn't known by any other names except "The Skeleton"...*

### {The Key}

*On December 25<sup>th</sup> 2016, the "Sentinels" reached "Madrid", it was Christmas and people were celebrating and happy, but it was also easy for thugs to do their jobs too... The "CNI"<sup>[3]</sup> were alerted by the "MI6" and they welcomed the "Sentinels", "Ivy" knew someone in "Spain" who could help them in the country and facilitate things for them there, a woman named "Anastasia"... The "Skeleton's" existence in "Spain" was worrying, specially when the "Sentinels" knew what he was after, "Rumple" didn't tell the "Sentinels" where was the 'key'*

*exactly, that's why they needed the "Skeleton" alive at all costs, that sensitive info wasn't told to "Anastasia", all she knew was that there was a mercenary who should be caught before a terrorist attack happens, that was enough for her...*

*When "Rumple" left the "Sentinels" in "Russia", he went to "Black Skin" and told her that the "Sentinels" were on their way to "Spain", he saw that the "Sentinels" can get the key, but they'll use it for their own interest and maybe they won't use it at all, so he needed someone who could take it from them, he made her tell "Viktoria" and the "Revolution" members and say that street thugs said so, "Viktoria" wasn't late, after making sure of the info, "Viktoria" asked for a jet to*

*“Madrid” as soon as possible, the next day, “Revolution” were in “Spain” one day before the “Sentinels”, once they arrived “Black Skin” saw the Christmas celebrations and said “May this Christmas be as dark as I am” with a low voice, “Viktoria” heard her but she didn’t understand or comment, she thought that “Black Skin” was body painted, she didn’t know what happened to her... “Viktoria” knew that the “Sentinels” arrived and sent someone to watch them and tell her where would they camp...*

*The “Skeleton” was seen in “Toledo”, not so far from “Madrid”, the “Sentinels” decided to go there using their cars, “Anastasia” cleared the road for them and reported to “Toledo’s” PD<sup>[4]</sup> and told them to help as much as*

*they can, she went with them to the fight...*

*The "Skeleton" was prepared and got a lot of men and they were armed well, he was gonna move from his location to another place or maybe to do something big no one knew, the "Sentinels" caught them up on the road, the crew was [Frank, Ivy, Silver, Floyd, Rose, Hylaria, Deadshot, Twin, Sonya, Electrocutioner, Arrow & Anastasia] distributed on the "Sentinels" cars, "Floyd" was using his motorcycle, "Rose" was driving one of the armored "Jeeps" with "Arrow" on her side who was ready with his bow and special arrows, "Sonya" was driving another "Jeep" with the "Twin" next to her, "Anastasia" was driving with "Deadshot" next to her and he*

was ready for any shooting, "Ivy" was driving the "Ram" with "Silver" in the back ready with his jetpack, and "Frank" was driving the "Beast" with "Electrocutioner" on his side, it was the second time for "Frank" to drive the "Beast", so "Ivy" told "Hylaria" to drive the "Chevy" and follow them without engaging in the fight, "Frank" didn't know that because if he knew he wouldn't have agreed for "Hylaria" to drive alone... The "Skeleton's" convoy was composed of 8 "Jeeps" and a black "Lamborghini", that car was very special, the fight started and it was difficult because the "Sentinels" were outnumbered, but the "Beast" truck was an upper hand, but the "Lamborghini" was armed and was loaded with tricks, it was obvious that the "Skeleton" was driving this car,

after a long car chase, the "Sentinels" could eliminate 5 cars, then "Frank" shot the "Lamborghini" more than once but its armory was very strong, then it shocked everyone with 2 back-guns and shot at "Frank's" truck, it didn't affect the truck but it was very strong enough for "Frank" & "Electrocutioner" to feel it, for everyone's surprise, 4 modified "Hummer" cars and a weird truck joined the fight from behind the "Sentinels", it was the "Revolution", "Frank" knew when he saw the weird truck because it was "Viktoria's" armored truck, her men started attacking the "Sentinels" cars, "Frank" crashed "Viktoria's" truck and took her off the asphalt road down the hill and told everyone to stay together "Stay on track together, I'll take Viktoria away"

*“Silver” landed with his jetpack on the “Lamborghini” and tried to stop it, “Hylaria” went down the hill behind “Frank” & “Viktoria” after she noticed a “Hummer” car went down the hill after them, driving down fast and crashing wasn’t easy, “Frank” was done, he gave the wheel to “Electrocutioner” and he got out to jump on “Viktoria’s” truck, it was a bad idea but he did it, only then he noticed the other “Hummer” car, “Hector” was driving it, “Frank” told “Electrocutioner” to get rid of it, he shot it and stopped it, the road was taking the convoy to the “Toledo Fortress”, it was at the highest area of the city, the “Lamborghini” got rid of “Silver” and his jetpack was broken too, then the car sped away with maximum speed and no car in the convoy could follow it, “Ivy” took*

*“Silver” in the “Ram” and joined the others.. On the other side, “Frank”, “Viktoria”, “Electrocutioner” & “Hylaria” were stopped by something extremely weird and terrifying, “Viktoria” was shocked by seeing huge rocks in front of her, so she hit the brakes strongly, “Frank” was thrown forward to fall between the rocks with no injury, “Electrocutioner” shot “Viktoria” by the “Beast’s” heavy cans and they were enough to break down her truck but she was okay, “Hylaria” arrived and rushed to check on “Frank”, but what happened and what they saw was unbelievable, the rocks started moving and one of them attacked “Frank” who was between them, “Electrocutioner” was in shock but he used the “Beast” and shot the one which attacked “Frank”, then 2*

others tried to get to "Electrocutioner" to attack him but they were slow, "Frank" fought back but when he noticed "Hylaria" he told her to leave but she yelled at him saying "NOT WITHOUT YOU, LET'S GO" he left the moving rocks and ran to her in the "Chevy", before they leave "Frank" looked at "Viktoria's" truck, all he could see was the rocks destroying her truck and no sign of her in the place, "Frank" rode the "Chevy" with "Hylaria" and "Electrocutioner" followed them and they sped away from the rocks to the main road... The "Lamborghini" reached the fortress with 2 "Jeeps", they could escape the fight with the "Sentinels" who were busy with the "Revolution", the "Skeleton" was driving the "Lamborghini" for real, when he

arrived there, he got out of the driver's seat and the man next to him drove instead of him to the back of the place, with one of the "Jeeps" the other one, contained 4 armed men, he waved to them to follow him, it looked like he knew where he was going, to make things worse, 2 minutes later reinforcements came to him to secure the place and prevent anyone from getting in, after some car chase between both sides, "Revolution" left the "Sentinels" suddenly, "Floyd" saw that they should follow them, but "Ivy" saw that finding the "Skeleton" was their priority, "Anastasia" used the radio and reported about the "Skeleton" to the local police, who reported his existence in the "Toledo's" fortress, the police tried to stop them but the "Skeleton's" thugs were armed well, the

*“Sentinels” rushed to the place as fast as they could and a new fight started there... “Frank” knew that the ‘key’ was inside this place...*

## {Inferno #2}

The "Sentinels" arrived, the place was seized by the mercenaries, "Anastasia" talked to the Chief of police in "Toledo" who was already there at the place, the place was empty, there were no tourists in, it was 12:00 a.m., "Silver" thought of calling a strike force from the "NATO" and storm the place, "Arrow" thought of sneaking in from all possible entrances and exits, "Ivy" suggested giving her a chance to sneak in alone, "Frank" said "Enough talking, I'm going in with Anastasia" "Hylaria" wanted to get in with him but he refused strictly, "Ivy" saw that it was dangerous for her to get in with them, "Anastasia's" presents was to help "Frank" in the place, she knew the place from the inside very well,

*“Anastasia” agreed and understood,  
“Rose” & “Hylaria” were so worried...*

*The “Skeleton’s” men were breaking  
a special wall in a special chamber,  
“Electrocutioner” used the satellite  
imaging to see the place and locate the  
mercenaries positions in every corner  
in the fortress, it was  
helpful... “Deadshot” shot thugs on one  
of the towers, “Frank” & “Anastasia”  
got in the place through that tower,  
“Anastasia” guided “Frank” to that  
chamber, they ran in troubles with the  
thugs all the way but they made it  
there, the chamber was secured well,  
“Frank” dealt with them but the  
“Skeleton” got in a secret room where  
the ‘key’ was and wanted to get to the  
open area in the middle of the fortress  
but “Frank” faced him, “Skeleton’s”*

men tried to attack "Frank" but he killed them and told the "Skeleton" to hand the key to him and give up, then some thugs shot at the chamber when they saw "Anastasia" who was covering the chamber's exit, the shooting distracted "Frank", "Skeleton" said "Will you kill me for that key or save your girl?" then he looked from the chamber's window and shot a flash in the sky to a chopper, it came from a distant and throw a rope ladder, "Skeleton" caught the ladder and the chopper started to fly away, "Frank" took "Anastasia" and used the grapnel gun and followed the "Skeleton", on the other side, "Silver" brought a strike force from the "NATO" and started storming the place when he heard gunfire from the inside, it was known that "Frank" was in, then they saw

*“Frank”, “Anastasia” & “Skeleton” hanging from the chopper, the “Skeleton” was pulled up then the thugs were gonna shoot “Frank” & “Anastasia” but the chopper’s shooters were under “Deadshot’s” sight, he took them out but didn’t have a clear shot on the “Skeleton”, “Frank” & “Anastasia” made it to the chopper’s base, he told her to hang on then he made it on board “Skeleton” tried to kick “Frank” out but he didn’t fall, after some struggling inside, “Frank” took the key and punched the “Skeleton” in the face making him lose conscious for a while then he took “Anastasia” and jumped off the chopper, but before he jumped, “Skeleton” woke up and said “I’ll show the whole world that Frankenstein is just a myth, you’re nothing*

*Frankenstein”, “Frank” hugged “Anastasia” and jumped, he fall on his back on a car, he got his shield on his back which protected him and her, the impact was strong enough to destroy the car completely, “Ivy” and the others made it to them, “Anastasia” fainted but she was okay...*

*The “Skeleton” wasn’t found, his pilot could take him to safety, but there were big questions the “Sentinels” had no answers for, why would a mercenary like “Skeleton” risk being seen and chased for a key to open a gate to the underworld to get someone out of there? what was he after or what was his plan? who was he gonna raise?? these were questions with no answers, but “Frank” saw that “Rumple” was*

*hiding a lot of info about the "Skeleton"...*

*The key was with the "Sentinels", they knew that the "Revolution" were there and probably would attack them again, besides to the "Skeleton" who wasn't caught, so they had to move fast... "Frank" saw that they didn't know the gate's location, only "Rumple" knew where it was, but "Frank" knew that every info from that guy comes with a price, so he told the team to split up in 2 teams, one was [Ivy, Rose, Floyd, Deadshot & Sonya] who were gonna get someone who was good with mountains and prepare for the others arrival in the "Himalayas", the other team was [Frank, Hylaria, Arrow, Silver, Twin & Electrocutitioner] who were on their way to "Moscow" to talk to "Rumple"*

*and ask him about the gate's location or ask for a map or something, "Frank" had a feeling that they were gonna clash with "Viktoria" and her men in "Moscow" but he had to go there, on the way to "Moscow", "Frank", "Hylaria" & "Electrocutioner" had something to talk about...*

*"Frank" & "Hylaria" were not shocked by what they saw in "Toledo", but "Electrocutioner" was confused, specially that they told no one about what happened, not even "Ivy", "Electrocutioner" called "Frank" & "Hylaria" to talk privately, they told him that what they saw was something abnormal and that they can't tell anyone about these moving rocks, "Electrocutioner" wasn't okay with hiding something like that from the*

team, but "Frank" insisted on keeping that away from the others at least for the present time, to avoid distraction... "Frank" and his friends arrived "Moscow", "Electrocutioner" could know where was "Rumple's" shop, "Frank", "Arrow" & "Silver" went to this shop, "Frank" told them to wait him in the car, "Arrow" told him to be careful... "Frank" went in with his suit on, "Rumple" was expecting him, "Rumple" started "I think you got the key, otherwise you wouldn't be here now" "Frank" asked him about the gate's exact location in the "Himalayas", "Rumple" told him and gave him a map then "Frank" asked him "Why did you tell Viktoria where we were going? About Spain" "Rumple" didn't deny "Because I know that you won't hand the key to me, so I had to

hire someone who would, Viktoria's team has a lack of harmony, they're disconnected and disordered unlike you and your people" "Frank" replied "So you want the key for yourself not for us as you told Rose!" "Rumple" said "I was gonna raise Victor myself, I'm not sure that you'd do it, you listen to them and they might convince you not to do that" "Frank" said "You said that magic comes with a price, what's the price of using this gate?" "Rumple" didn't reply for a moment then he said "Well, all you should know is that it won't be opened unless there's a sacrifice, sacrifice yourself or someone else it doesn't matter, what matters is to keep the balance in the world, you bring someone from the dead, fine, but someone from life has to replace the dead one in hell" "Frank" told him

that he won't sacrifice himself for "Victor" specially if "Rumple" want him alive, but he had an EVIL idea "Hey, what if I got someone to replace the dead but she's pregnant?! What will happen?" "Rumple" said "This will be a great trick, the mother won't die at once, she'll die once she gives birth to her child, but she must use the key and open the gate herself" "Frank" didn't reply for a moment then he said "That won't work then" "Rumple" knew what "Frank" was referring to, he was talking about "Naomi", "Rumple" said "There might be a way, but it was never tried before, get anything that has her DNA, then put it between your hand and the key, maybe it works" that meant that "Frank" had to travel to "England" and bring anything that has "Naomi's" DNA, or even some hair

of hers, but for a moment he realized that "Naomi" was "Ivy's" daughter and she won't be okay with that, so "Frank" told "Rumple" that he won't do it and it was a sacrifice he couldn't afford, "Rumple" said "Then you're useless" then he waved with his hand and both men disappeared, they appeared in another man's apartment, he was huge in size then "Rumple" looked at him and said "Kill him" in Russian then he looked at "Frank" and said "Now you must kill to survive, otherwise you have no chance against him boy" then he disappeared, leaving "Frank" and that guy alone in the flat, "Frank" told him not to do anything he would regret, then suddenly the man turned into petrified wood, that kind of wood too hard to be broken, it was a shock to "Frank" to see someone like that then

*the fight started, "Frank's" suit saved him many times, that guy was very strong and wasn't affected by electricity because he was just like a giant wooden puppet...After minutes of fighting, "Frank" told "Electrocutioner" to send his location to "Silver" & "Arrow", he did it although he didn't know or ask how did "Frank" get there, "Silver" & "Arrow" sped to him, "Frank" called for help because cops were on their way, civilians saw the fight and reported it as a regular fight, "Frank" wanted "Silver" & "Arrow" to stop the cops from getting involved, the wooden man was very strong and nearly invincible, although he was a little bit slow and stupid...It wasn't too long until the "Sentinels" members came with "Anton" who stopped the cops from interfering, using the shield and some*

*skills “Frank” could beat the wooden man down without killing him, seeing him by “Arrow” made him amazed and shocked, “Frank” wanted to take him to talk to him and find out what “Rumple” might be planning, but it was impossible, getting the “Sentinels”-specially “Frank”-out of there without being seen wasn’t an easy task for “Anton”, they had to leave the wooden man, later on, they knew that he used to be called “Pinocchio”...*

## {A Journey To Death}

"Ivy" met her friend who got a lot of experience with mountains, she was an American woman called "Mary", "Ivy" trusted her with the journey... "Frank" thought about what "Rumple" said, then he made his mind to go to "England", "Silver" & "Arrow" didn't understand and asking "Frank" was in vain, he decided to do what's necessary because he knew that "Rumple" had to be stopped and there's no one on earth could stop a guy like that except one man, "The Shadow", "Victor Isaac"...

"Frank" was welcomed by "Agent X", she took him to the "Frankenstein" prison's medical center, where "Naomi" was locked, based on what he asked, she didn't expect that request, she

*thought that they were going to “Wales” to see the family, he told her that he was gonna do that later, he went without telling “Hylaria” a thing about that journey, he knew that she would never let him do that, she was mad but she had to travel with the others to the “Himalayas” and meet the rest of the crew..*

*“Frank” & “Agent X” went to “Naomi”, he went to her room and asked to be alone with her, “Agent X” wasn’t comfortable with that but she did what he said, he had nothing to tell “Naomi” he was saying anything and looking around for any rag or anything that may has her DNA, then she told him that she wanted to sleep, it was a good chance to get some hair of hers, but he couldn’t do that without*

waking her up, so he needed someone who could do that without being noticed by "Naomi", "Agent X" was that one...She did what he asked her to do, only when she made sure that "Naomi" was asleep, she thought that "Frank" was gonna need it to make more tests for her and his child, he confirmed and told her not to tell anyone, "Agent X" brought some hair from "Naomi's" head to "Frank" while she was asleep... "Frank" & "Agent X" traveled to "Wales" on a hurry, he wanted to travel again to the "Himalayas" as soon as possible, "Silver" already told "Frank" that he was gonna pick him up with the special Jet from "Wales" when "Frank" arrives there, he had some hours with his son, "Paige", "Jenny" & little "Mark", who used to be happy when he

sees "Frank", "Silver" arrived with "Hylaria" who was very angry and slapped "Frank" on his face many times till he held her strongly and calmed her down, "Silver" fueled the jet and prepared it for a journey to the "Himalayas", "Frank" didn't tell "Hylaria" what he was planning and that was madding her more, "Silver" didn't care or thought that "Frank" would tell them in the right time...

"Silver", "Frank" & "Hylaria" traveled to the "Himalayas"- "Kathmandu", the "Sentinels" had a place where they could hide the jet and camp, "Chen" helped them with that and asked to join them in their journey, this was refused at the beginning but "Chen" told "Ivy" that she fall in love with

*“Frank” and wasn’t gonna let “Frank” go for a journey where no man went and returned back without her, this was shocking to “Ivy” and told “Chen” not to tell anyone about her love to “Frank”, not even “Frank” himself, “Mary” didn’t believe that there was something up there and said that these were just legends and people were just getting lost on the mountain, “Chen” believed in legends and magic, later “Frank” knew why... “Ivy” agreed to let “Chen” join them, “Arrow” was worried and thought that increasing the crew’s number was gonna increase the probabilities of getting lost from each other, “Ivy” didn’t listen to him...*

The journey started the next day of "Frank's" arrival with "Silver" & "Hylaria", the team was [Frank, Hylaria, Rose, Floyd, Ivy, Silver, Arrow, Twin, Chen, Mary & Electrocutitioner] "Deadshot" & "Sonya" were ordered to wait with the jet and their stuff in that place with some Indians "Chen" hired, "Ivy" told her to get men to secure the place, she was expecting "Viktoria" and her crew to attack... Once they got in, "Chen" told them "Once we get in there, we'll see wonders and magic that might hunt our fears or worries, don't fell in your fears and stay close to the group" "Mary" was helpful all the way to the cave's entrance on the mountain, but she was like them at that point, they had to stick to the map "Frank" had from "Rumple", he left it with "Frank" thinking that "Pinocchio"

would kill him, "Mary" & "Hylaria" were reading it well and understanding its directions and symbols...After some walking inside, troubles started, "Frank" started to see illusions about "Victor", "Rorschach" & "Undertaker" but he could handle it hardly, "Hylaria"-who got troubles with her memory-started to have flashes from the past and about her mom, all of them had illusions and bad past flashes, then human skeletons started to be formed around them, then they attacked the crew, they were brittle and weak, beating them was easy, especially the "Sentinels" were not explorers, they were fighters and armed well, when they were done with them, "Chen" told them that they should move fast, "Silver" confirmed with excitement...As more as they

*moved forward, as more as they saw dead skeletons and experienced more tricks, after nearly 3 hours of facing dangers and weird creatures which were easy to be dealt with because of the "Sentinels" weapons, the gate was found, it was terrifying and got a lot of demon looked rock statues, there was a lower level in front of the gate, a one step down, the time came and it was thought that "Frank" was gonna open the gate with the key, "Frank" looked at the "Twin" and asked him to do it, everyone was surprised except "Chen", she knew that whoever opens the gate wasn't gonna be alright, so she said "Listen to him, legends say whoever opens the gate gets ill badly and die" "Hylaria" talked to "Frank" "We don't have to do this, his death wasn't your fault and Rose doesn't blame you or*

Ivy..." he interrupted her saying "We must do it, I must do it, trust me"

"Frank" handed the key to the "Twin", who looked astonished, then "Frank" opened his mask and took his hand shaking it saying "Just in case something bad happened to you, I have to admit, I never faced a worse enemy than myself, you and me are one for real, Mark" "Frank" put his mask on, then he left "Twin" and took a step backwards clearing the way for him, "Frank's" emotional goodbye to the "Twin" was a trick, he stuck "Naomi's" hair in "Twin's" right hand, "Twin" held the key with his right hand and opened the gate, but the gate wasn't a door, a special part of the gate was deepened inside and suddenly a black thick fluid came out, "Twin" backed off fast, then the fluid filled the lower

level, when it was filled, it was time for the wish, "Frank" said "I wish Victor Isaac comes back to life" the ground shook under their feet a little then the fluid started to increase and started to form a human shape until it formed a complete body, then the fluid fall from the head to the feet then it vaporized, it was "Victor" for real, his face and head were halved just like he was in the past, "Victor" opened his eye and saw "Frank", once he saw him he said "Mark!! Is that you?!" everyone was gazing in shock and amazement, "Rose" was confused, she didn't know how should she feel, happy or afraid, anyway, "Victor" didn't know her, he never saw her before although he knew about her existence but he couldn't get to her, because she have always been a military student and used to be an

orphan before "Ivy" could admit that she was her daughter to keep her safe there in the British army, away from "Bishop" and all the dangers of "Ivy's" life, all what "Victor" have known was that he got a baby girl her name was "Nicole", when he found her and made her one of his men, he was the one who called her "Naomi"...Once "Victor's" resurrection was complete, "Naomi's" hand was marked with the same mark on the key, a special triangle inscribed in a circle form, it was the mark "Rumple" mentioned...After the moment of shocking and amazement, the crew decided to move out, when suddenly the demon looked statues started moving and attacking the crew, they dealt with them too, no easy task, this time "Mary", "Floyd" & "Electrocutioner" got injured, but

*“Mary’s” injury was worse, “Victor” helped them because he was attacked too, but he got no magic which was very weird to “Frank” but he understood later, the “Sentinels” started pulling back, “Chen” took a small packet out of her bag, it looked to be dust, but it was a kind of magic, she told “Victor” that it was a transporting spell, which means casting it makes them leave one place and appear in another with no need for a magician or a wizard but she must be knowing the spell and say it right, she told “Victor” who already knew it well, he yelled “GATHER AROUND ME IN A CIRCLE WE’RE LEAVING” the “Sentinels” did what he said, then he casted the spell on them all and they disappeared from the site and appeared somewhere else on the mountain, they got no more dust to*

*transport somewhere else, "Silver" called "Sonya" to make the jets autopilot fly it to their location because "Mary's" injury was too bad for walking, besides to "Floyd" & "Electrocutioner", the jet arrived in 5 minutes, everyone went on board, on their way back to the camp, "Mary" wasn't so lucky, she passed away...*

*"Ivy" was focusing on "Victor", like everyone else, but she asked "Chen" about the spelled dust she had in the cave, "Chen" said "The people who lived in Kathmandu gave it to me when they knew that I was going to that journey, they told me that this was gonna be the only way out for us when we're done, they used to give it to everyone who went there but no one knew how to use it and no one made it*

back ever”, “Victor” noticed “Twin” and saw that he looked exactly like “Frank”, so he asked the “Twin” “Who are you kid? You are not my brother and you got no soul, how could you be just like him?!” “Frank” interferred saying “He’s a clone of me, created by our uncle, Undertaker, he made him to kill me, but now he’s with us” “Victor” didn’t focus on that point much and asked about the “Undertaker”, “Frank” told him what happened to him and mocked him saying “Didn’t you meet him down there<sup>[5]</sup>?” “Victor” looked at him with anger “What’s there is shocking and you should never know about it, not now, only when you’re gone and when that happen, no one will get you out of there like you did with me, no one is gonna put his hands in that filth” “Frank” replied “I don’t

*care and I'll show the underworld that there's only one immortal in this world, ME" "Rose" separated between them and told them that it was not the right time to fight together...*

*"Victor", "Frank", "Ivy" & "Rose" had to talk about a lot of things, they reached the place where they camped, "Deadshot" & "Sonya" aided "Floyd" & "Electrocutioner" and saw that the crew were not okay, "Deadshot" used to know "Victor", they worked together once before and used to hear a lot about the monster, "Sonya" was shocked by "Victor's" look and his face... "Ivy" took "Victor", "Frank" & "Rose" away from the others and started talking "There's too much to talk about, let me start with where did you go and what happened to you when you left your*

*family in 1998??” “Victor” replied  
“I’ll tell you everything when you tell  
me who’s she!” “Ivy” looked at “Frank”  
& “Rose” then “Rose” replied “Father,  
didn’t you know me?” and she hugged  
him strongly, he was astonished then  
he hugged her too...*

## {The Shadow's History}

*“Chen” knew “Victor” before, not as “Victor” but as the “Shadow”, she knew about him because he did a lot of jobs in “China”, he was wanted by the Chinese Intelligence and was followed for years, “Victor” didn’t recognize her because her look and body changed by time, “Chen” couldn’t do or say anything for 2 reasons, “Victor”-the “Shadow”-was already announced dead, “Chen’s” physique got bigger and stronger than what should be, the Chinese Intelligence excommunicated her because of her big muscles, so she had no power to arrest him, but she had enough time to help them whenever they needed... “Silver” knew “Victor” and saw his face before, but he used to see his face without the face*

*distortions, he never knew that "Victor" was maimed, "Silver" and his old crew were after "Victor" in 2013 & 2014, but "Silver" was pulled back when his officials knew that "Victor" went to "Russia", the war between "Silver" & "Victor" took place in "Italy" & "Germany" mainly besides to other countries, but when "Victor" made it to "Russia", the Americans pulled their men back and arranged with the "SVR" but it wasn't too long until "Victor" died in 2015, "Victor" almost killed "Silver" more than once and "Silver's" brother lost his eyes because of "Victor" besides to killing one of "Silver's" men, but "Silver" didn't say or reveal anything... "Hylaria", "Floyd" & "Electrocutioner" were afraid of "Victor's" look, "Hylaria" was already afraid of him according to what she*

*read and knew about him the past months...*

*“Victor” started talking “In the 90s, Undertaker fall in troubles with Bishop, I was coming up in the criminal world, Bishop decided to get rid of Undertaker and put me instead of him as his man in Egypt but that was a big lie, there was someone else already but I never knew who he was, he was very smart and covered his tracks very well, in 1994, I met a magician, a wizard, he was different than any man I ever saw...” “Frank” interrupted him saying “Rumplestiltskin” “Victor” continued “The man who changed my life, he taught me tricks and the 3 traditional acts, but I saw his powers and what he could do, I asked for more, for magic, he*

taught me more in return of doing what he asks me and I agreed, when Bishop wanted to finish the Undertaker, he wanted to see if I would be his man for real or not so he ordered me to kill Undertaker, using the tricks I learned, I could do the job and send Undertaker out of the country to Italy and make it look like he died, I finished my business in Egypt and wrote my cipher book for you, although it took years, I killed the Crocodile and his friends, besides to some jobs here and there, I had some money to live good, I wrote the book so that you can understand the reality one day, but I see that you still don't" "Frank" was astonished "What should I understand?" "Victor" ignored the question and continued "After going to Sicily, Undertaker and I met some Arab guys who were working

*with some Italian thugs, it was our only way to earn money fast, Undertaker already worked with them for sometime and was trusted by them, it wasn't too long till I earned their trust too, I was wearing a mask always, that's why they called me the Shadow, because no one saw my face, Rumple found me there thinking that I ran away from him, I told him what happened and asked for help, he didn't have to trust me so he had to make sure that I wasn't playing games with him, he made me do many jobs using magic besides to killing others, I did everything he said, these jobs were not only in Italy, some took place in Germany, Austria, Hungary and other countries, but I couldn't propagate with my maimed face, so he casted a spell on me that made people see me okay with*

my full face, but in fact I was still maimed but only me and anyone with dark magic could see my real face, that magical trick helped me to move normally all these years... Undertaker didn't know Rumple well, all he knew was that Rumple was some kind of a magician who was gonna help us in return of our services, the Americans sent their men to hunt us down, years later, Rumple sent us to Russia in a hand wave, there we worked with Rumple in circuses and other hired theaters for a year... During these years we had a lot of friends, gathering them and making others made us build the Shadows fast, then Undertaker decided to launch a war against the Community and Bishop, I used to have a friend or a student in fact, he was the closest friend to me..." "Ivy" interrupted

him saying "Zof, that's why he came alone to exact vengeance on us" "Victor" said "Don't tell me you killed him!!" "Frank" said "No we didn't, he's locked where he belongs, forget him" "Victor" didn't reply, "Rose" asked him about the pharaoh thing, he replied "How did you know about that?" "Frank" told him that he got in the pyramid and told him everything, "Victor" didn't seem shocked by what he was hearing, then he said "This is very complicated, your minds won't take it" then he put his hand on "Frank's" shoulder and continued "Only you can understand, maybe not now but sooner or later you will" "Frank" replied "What makes you so sure that I will know?" "Victor" said "Because I know you will, Frankenstein"... "Chen" left, "Victor" asked to go to a specified place

in "Russia", "Ivy" told the crew to get ready to travel, "Silver" wasn't okay with that and told "Ivy" that they shouldn't trust him, but "Ivy" didn't listen to "Silver"... The crew used the jet and made it to "Russia", where "Victor" wanted exactly, on the way, "Frank" told "Victor" that "Rumple" was planning for something big, and it was him who told the "Sentinels" how to raise him, "Victor" told "Frank" that if "Rumple" was planning for something and wanted to raise him that meant that there's something "Rumple" couldn't do and he wanted his best student to do it for him or a disaster would happen, "Victor" promised "Frank" that nothing bad would happen...

On January 14<sup>th</sup> 2017, the crew reached to their destination in "Russia", "Victor" took them to a very weird place, full of terrifying statues and strange stuff, it was underground, then he asked for [Frank, Ivy & Rose] to follow him in some kind of a chamber while the others wait, "Silver" & "Floyd" weren't okay with that but "Ivy" convinced them to wait and assured them that nothing would happen, "Victor" took them to a dark hall with a lockup then he opened a safe and took his ring out, which was a shock to "Frank" because that ring was exactly like "Victor's" old ring, "Frank" thought that he destroyed that ring in "Egypt", but the one destroyed was a fake one, "Victor's" ring wasn't just a ring, it was "Victor's" source of power without it he was powerless, he put it

*in his right hand ring-finger and a pulse hit the place and the fire torches on the wall lit up, then he went to the lockup and opened it with the ring, inside it there were a lot of weapons, clothes and tools, but they were special weapons for special uses, "Victor" showed them these weapons because he wanted them to see these things, no one else knew about that place, not even "Undertaker" or "Zof", "Victor" chose some weapons and other stuff and told them that they were ready to go for a fight against "Rumple" then the whole crew went back to "Anton's" hideout..*

*"Viktoria" found a way for "Rumple's" son to get out of prison, by replacing him with someone else, "Rumple" helped her by magic and the job was done, "Rumple's" son was out*

with him, his daughter was said to be getting better, these were good news for him, but "Viktoria" needed his help in return, he had to agree this time within limits... "Rumple" sensed "Victor's" existence in "Russia" right after he used his ring, "Rumple" warned "Viktoria" that "Victor" was back, she was in shock and didn't believe at first, but "Rumple" showed her that he was alive using his own magical glass ball, "Viktoria" asked for his help but he refused, telling her that a magical fight wasn't for free, he wanted a new identity and a new house to live in away from any known place by the British, "Viktoria" couldn't promise him anything that time but she told him she was gonna try, "Rumple" told her that he would wait till she cut a promise... This time,

*“Revolution” were gonna attack the  
“Sentinels” in their safe house,  
“Rumple” told her where they were  
camping, but they were gonna need  
“Rumple” and there was no time to  
waste, so “Viktoria” got a plan...*

### {Inferno #3}

*“Victor’s” clothes were weird and mostly black or dark red with a black long coat, he fixed his face using magic which was impressive to everyone, “Ivy” told “Rose” to make a new mask for her father in order to hide his identity, because he was well known and everyone knew that he was dead...*

*“Rumple’s” daughter, named “Emma”, got better enough to go home, “Rumple” took her to an apartment where her brother was hiding and cured her using magic, “Viktoria” was following them and knew where “Rumple’s” son and daughter were hiding, “Rumple” knew that he would see “Victor” soon and he won’t be friendly, so he casted a protection spell*

on the apartment to prevent anyone who's not welcomed from getting in to them, "Rumple" left his kids for some time, a car came and "Frank" came out of the passenger's seat, he went to see "Rumple's" boy, he knocked the door with a gun in hand, "Rumple's" son opened, "Frank" didn't talk or waste time, he shot "Rumple's" son in the head killing him, "Emma" saw that but "Frank" didn't hurt her and left, he got in the car and the driver sped away, "Frank" took off his mask, it wasn't him but it was "Viktoria" and the driver was "Hector", her plan was to force "Rumple" to join the fight in person and guarantee his alliance with her, so she made this trick to make him know that "Frank" killed his son, this was all "Viktoria" needed to rattle "Rumple's" cage, "Emma" told

her father, he teleported her to his shop with a hand wave, she told him what happened and described the killer to her father, he knew that it was "Frank" according to the mask descriptions, so he decided to hunt "Frank" down...

"Rumple" appeared to "Revolution", "Viktoria" acted as if she didn't know anything and asked him what did he want, he didn't reply to that but told her to prepare themselves for a big fight, and he brought his man "Pinocchio", who was released because he was thought that he was defending himself in his apartment against a robber, "Pinocchio" was there to take care of "Frank", "Rumple" didn't trust "Tree's" power, in 4 minutes "Revolution" were ready for a war, they were [Viktoria, Hector, Hook, Quiet, Chao, Black Skin,

*Popeye, Tree, Pinocchio & Rumpel]*  
*“Bee” was left in their hideout with satellite imaging... The “Sentinels” were not ready for a fight, then suddenly “Revolution” & “Rumpel” appeared in the place and the fight started, “Rumpel” was looking for “Victor”, “Frank” jumped in his suit and got out to the fight where “Pinocchio” was waiting for him, “Hook’s” hook was poisoned so “Floyd”-who faced him-had to be careful, “Arrow” & “Chao” had unfinished business, “Black Skin” & “Hylaria” had their hand-to-hand combat, “Viktoria” & “Ivy” had their brawl, “Deadshot” had a gun-to-gun fight with “Quiet”, the “Twin” was strong but the “Tree” was taller and got long wood limbs making things harder for the “Twin”, “Rose” faced “Popeye” who wasn’t a big deal to*

her, "Silver" had a knife-to-knife fight with "Hector" who was using a big knife, the big fight was between "Victor" & "Rumple", "Rumple" said "You are here because I want you here, but now I'm not here for you, I'm here for HIM" and pointed at "Frank", "Victor" replied "To get to him you gotta go through me first, your real duel is with ME" then "Victor" made 2 fire balls in his hands and throw them on "Rumple" quickly, "Rumple" stopped them and suddenly moved from his position to "Victor" in less than second, too fast to be seen, and hanged "Victor" from his throat saying "You're fighting on the wrong side my boy, you should be with me to finish what we started years ago, it's happening now" "Victor" replied "Whatever happened was your legacy to endure, the idea of having kids in

*different intervals of time was a big mistake, now I'm alive and no one replaced me..." then "Victor" hit him and waved with his hand throwing "Rumple" away in the air and continued "You screwed things up among history, now I'm gonna fix them and go back home" then "Victor" raised his hands and 2 golden pistols appeared in his hands and shot "Rumple" but he raised his hand and stopped the bullets, "Deadshot" lost the fight to "Quiet" who was younger and more flexible, "Electrocutioner" saved him and punched her with his gloves, the electric shock took her down, "Tree" throw "Twin" close to "Rumple", "Twin" attacked him with his claws and was shocked to see "Rumple" healing himself then he waved with his hand pushing "Twin" away,*

*“Victor” was noticed that he wasn’t getting hurt although he was stabbed by “Hector’s” dagger after injuring “Silver”, “Victor” helped “Silver” and healed his injury, “Ivy” & “Viktoria” exhausted each other and no one of them could beat the other, but “Ivy” had a feeling that “Viktoria” wasn’t just tough, she had a feeling that her power was artificial like hers, she didn’t know that “Viktoria” was one of “Rumple’s” mutants and “Viktoria” didn’t know that “Ivy” was artificially strong, “Frank” speared “Pinocchio” and went through a wall... During the fight, lights went out and smoke grenades were thrown in the place from the windows, it all happened quickly, “Rumple” disappeared, a crow flew to “Victor” and landed on his shoulder, as if the crow whispered to him telling*

him what's happening, "Victor" yelled "TAKE COVER" then soldiers attacked from the roof shooting at everyone and the door was blown off and other soldiers attacked, the "Sentinels" & "Revolution" took cover as fast as they could, "Hook" died, "Frank", "Twin" & "Victor" didn't hide, they weren't hurt and tried to fight back, "Chao" who was very special, got small knives, and started to use them on the attackers according to the shooting sounds, he didn't miss any of his targets and made good use of darkness, "Electrocutioner" took care of the thugs who cut the power out, he fixed it and returned the power to the place, "Victor" killed some soldiers using his golden pistols and magic, then they stopped shooting but kept their guns pointed at them then "Skeleton" got in saying "Where's the

*Shadow? There you are, I have been looking for you and your mentor<sup>[6]</sup> for 2 years, I think you already know why, he promised that he'd give me powerful heart and brain enough to endure my little experiment in exchange of a lot of money, I paid but still didn't get my organs, WHERE ARE THEM SHADOW?"*

*"Ivy" was confused, "Frank" said "You was gonna raise him, you 2 got unfinished business together" "Victor" said "Even if I gave you the heart and brain, your operation won't work, the rest of the organs won't take more than the power it can endure, any damage in them will make the heart and brain useless..." "Skeleton" interrupted him "You care about my organs and leave what's gonna happen to me, you might be untouchable, but they are" then "Skeleton" told his men to pull back*

*and went away... During the talking "Viktoria" looked at her men as if she wanted to tell them to move out, "Pinocchio", "Chao" & "Black Skin" had their way, "Hylaria" & "Arrow" noticed them but they ignored them, everyone was hurt or tired, only "Hook" didn't go anywhere because he was dead, "Popeye" & "Hector" escaped once the firing started...*

*The "Sentinels" had to move from their location, it was spotted, the team was in mess already, "Silver" thought that "Victor's" existence was getting them in a war they weren't involved into, "Ivy" & "Rose" refused the idea of leaving "Victor", the others were confused, "Frank" thought that "Revolution" were not the real task*

*“Shaw” sent the “Sentinels” for, later on they knew that “Frank” was right..*

### *{The Unholy Creation}*

*“Frank” told “Victor” that there was too much to talk about, “Victor” wasn’t okay with telling them anything but he had to say something... “Victor” started “Couple of years ago, the Skeleton came to Rumple asking for creating human life, giving a soul to a dead body, there are 2 things magic can not do ‘Returning the Dead & Creating Love’, Rumple said that to him but he offered him something else” “Victor” stopped talking, “Frank” asked him “What thing Victor?” “Victor” replied “There’s a very powerful heart, the oldest and strongest till now, it was said that it belongs to*

one man who lived through different intervals of time, someone who went through every reincarnation with the same heart and soul, Rumple told Skeleton to make a body and prepare organs then he gave Skeleton the heart's location in return of money this time, not favors, Rumple didn't trust Skeleton, he told him where to find the heart, but didn't tell him the risks..." "Hylaria" asked "Whose heart is it? And where is it now??" "Victor" didn't reply, "Ivy" said "It's YOUR heart" everyone got shocked, "Victor" said "This time I was alive and Rumple wasn't gonna risk getting rid of me this time, he was wanted and I was a powerful person in my gang, he needed me and needed the money, so he took the money and told Skeleton everything and reported him to

*Viktoria, who chased him for a long time till I died” “Rose” asked him “Why did you wanna kill Mark & mom?” “Victor” replied “I didn’t wanna kill them, I wanted to take them with me, in fact I wasn’t gonna give any of them any time to think, that’s why I told Mark to get away of my way, I was hunting the Community and shrinking the ground under his feet, Skeleton was working for the them, probably still, but I don’t know what’s he gonna do or why” “Frank” said “But we knew something valuable tonight, we knew that Skeleton was gonna raise you, and Rumple made us raise you so that he can deliver you to Skeleton and finish the deal, but he told Viktoria about our destination and location in Spain, maybe he wanted her to bring him the key and he was gonna do the*

job in the Himalayas” “Victor” said  
“Impossible, Rumpel won’t sacrifice his  
life for me” “Ivy” didn’t understand  
“What are you talking about? You  
mean that whoever opens the gate,  
replaces the reincarnated one!” “Victor”  
replied “Indeed, but-as we all  
know-clones don’t have souls to die,  
this way, you tricked nature, but not  
for long” “Hylaria” said “You knew  
this, didn’t you?” to “Frank”, “Frank”  
didn’t reply asking “Victor” “How  
would nature realize that there’s an  
underworld breakout without  
replacement?” “Victor” said “The  
world will notice the unbalance,  
nature will take its vengeance by  
taking lives in natural disasters,  
disasters humans won’t be able to  
predict or face” “Hylaria” yelled at  
“Frank” “WHAT DID YOU DO??”

*“Frank” told her to calm down and that everything would be alright..*

*The “Skeleton” knew that there was a way to make a human being, a perfect one...In 2013, “Skeleton” was in “Germany” in an operation, there was a ball in a hotel, it was a charity ball a businessman was opening a charity for Syrian refugees, in the ball there was a scientist, a genius woman, she was a surgeon in the past then her researches around the genetic enhancements made her an important scientist in the career, the “Skeleton” heard about her but she wasn’t his target, he was there to kill the businessman who made the ball... Things got worse and she fall in the “Skeleton’s” way with other civilians, “Skeleton” decided to take*

*them in case things gone too intense with the cops as hostages, she saw how he looked, then she offered him a special help in return of a lot of money and resources, he wasn't interested in the beginning but when he heard from her, he liked the idea...She made a discovery and had a way to make dead cells live again, even dead organs, she ran some tests on some animals organs, she thought that if a very high current intensity passed through a dead body in excess of a special chemical compound and some electrical conductive jelly fluid there might be a chance for that body to change its state from death to life again in presence of enough fresh blood, the chemical compound was the "Green Goo", she offered her discovery to the British government but it was refused because*

there were no human organs could endure the necessary power, her recent tests failed to impress the British, "Skeleton" agreed to help her only if she made him a super soldier, she agreed and started working using "Skeleton's" resources... The body was complete and its strength was unmatched to any human, but the heart was weak, there was no heart strong enough to take this power, because the heart was gonna nearly take most power, so "Skeleton" went to "Rumple" asking for help using magic, both men had some deals in the past, the scientist name was "Martha"...

After "Victor's" death, his strong heart stopped and died, "Victor" told his brother and the others that special organs like his heart do not die, they

die in one body and get reincarnated in a newly born child, "Victor" told them that he could find the heart and whoever had it inside him in order to be secured, but "Frank" thought that this wasn't gonna be a good move, he saw that "Rumple" was watching them "Rumple is watching us, maybe listening too, he knows what you said that's why he wanted you alive, because he can't find the heart or the brain and he knows that you can find them, let the organs problem aside, if they could find the ones who had these organs, Rumple wouldn't have helped me raising you, the Skeleton can't find them too, otherwise he wouldn't have went to Rumple from the first place, we gotta keep that case cold for now"

"Frank" said to "Victor", "Ivy" & "Rose" confirmed "Frank's" words, "Victor"

*agreed on putting the organs case aside and focus on something else, on how to prove "Frank's" innocence from killing "Rumple's" son...*

*"Victor" decided to use magic to find out what happened, but he couldn't do that without his stuff, he told "Ivy" that he was gonna go to "England" on his own and wanted them to wait him somewhere where "Rumple" can't reach them, she refused leaving him but agreed on sending the rest of the team where "Victor" said, the "Sentinels" prepared what they needed and "Victor" waved with his hand taking everyone and everything to his special hideout, it was a place which was protected with a protection spell, it was okay to stop anyone with dark magic like "Rumple", but it wasn't*

*gonna stop any normal human from getting in or out, the "Sentinels" could handle any human, but they couldn't handle a guy like "Rumple"... The crew were in "Ufa"- "Russia", some place where people used to know who's a foreigner and who's Russian, so "Victor" casted a shape shifting spell, it didn't change their looks in each others eyes, but whoever saw them there saw that they were Russians and speaking Russian, the spell made them hear Russian language as English and made them speak English and be heard as if they were speaking Russian, "Silver" wasn't okay with "Victor" away of his sight, "Frank" wanted to go with him too like "Ivy" but "Victor" refused any interference not even "Ivy" "Then how will we know that you're coming back?!" she said to "Victor", he replied*

*“No guarantees, you need me, and if I wanted to disappear I would have disappeared and no one of you could have stopped me, I will come back, you just sit tight here”, “Arrow” called “Anton” and thanked him for helping them without telling him any details... “Victor” wasn’t too powerful like he used to be, so he needed a way to travel to “England” fast, so he had to call back his old carriage... “Victor” used a spelled dust and activated it, then a carriage and 2 winged fire horses appeared, they looked like those pharaonic ones on the temples walls, “Victor” rode his carriage and flew to “England” it didn’t take him except 2 hours of flying, he wanted to meet someone there, an old friend...*

*“Victor” arrived “London” unnoticed, he went to an illegal race club where his man was, “Victor” saw him but he didn’t see “Victor”, “Victor” went to him and told him that they should talk, that guy was a thug who used to steal, rob and race using magical tricks and used to win, his meet with “Victor” wasn’t friendly, when he saw “Victor” he waved to his fellow thugs and asked “Victor” joking “We all thought that you died, Shadow, what are you doing here without your mask and men?!” “Victor” asked him about someone else, the thug didn’t tell him and told him that he got no power anymore as his gang was down, then he told his friends to take “Victor” out of the club after beating him, “Victor” dealt with the thugs with his bare hands, they were not less than 10 men,*

when the thug saw that he ran away, "Victor" teleported himself and caught the thug, after some harsh talking and torture, the thug told "Victor" what he wanted to know, "Victor" killed him and disappeared... He was looking for a woman he loved years ago, she was a witch and had magic, "Victor" didn't find her in her old place, that's why he had to go to that thug, she was his girl before she knew "Victor", she used to love "Victor" and help him, she lived in a flat in the Jews hood, he appeared to her and once she saw him she kissed and hugged him, her name was "Monica"... "Monica" had the magic of memory manipulation and dream walking, which means that she could get in someone's dreams while sleeping or get in his memories and mind while awake, it was a way to find out what

*happened in the crime scene where "Rumple's" son died, "Victor" didn't want her to get him in someone's memory he wanted her to put him in the situation which meant that he was going back by time in a flashback, this was very hard and a huge risk but only "Monica" could do that although she never used this ability but "Victor" convinced her to do it and he would be okay... "Monica" prepared "Victor" and started the journey back by time and in the situation but she warned him of interfering in the incidents although he couldn't be seen or heard there, he went back by time and saw what happened and saw "Viktoria" taking off "Frank's" mask in the car with "Hector" who was driving, "Victor" could know who was behind the mask, but he had to give "Rumple" an*

evidence, his words were not gonna be enough this time, when he woke up he asked "Monica" what should he do to show what he saw to someone else, she gave him a magical mirror and moved her hand on it 2 times and placed it on his head, then she said "This mirror now has whatever you saw in the incident, activate its magic and it will show you or anyone else what you saw, but be careful and don't break it, otherwise it will lose its magic and all your trip would be gone for nothing" to "Victor", he thanked her and went away... On his way, he was stopped by a guy he knew long time ago, a creature who used to work for "Rumple" when he was in "England", the creature was a vampire, he was eating regularly but he used to eat meat half cooked or uncooked at all, besides to drinking

animals blood which was denser than human blood, he was called "The Vampire"... The creature was waiting "Victor" out, he didn't want to fall in a fight against the witch, "Victor" left "Monica" and was on his way to find an abandoned place to call back his carriage, but he knew that he was followed then "Vampire" showed up, "Victor" said "You won't dare standing in my way unless someone pushed you" "Vampire" replied "Yeah, it have been a long time Victor, I have always known that you shouldn't be the boss's #1 student, now this comes to an end", although "Victor" could use his magic but he saw that the "Vampire" wasn't worthy, he put the mirror aside then they fought like men and the fight was savage, "Victor" beat him down and

*killed him, it wasn't easy but it wasn't the worst fight "Victor" fought in...*

*"Revolution" on the other side collapsed, "Hector" & "Popeye" left, "Chao" & "Black Skin" went to "Rumple", "Hook" died of course, leaving "Viktoria" with "Quiet", "Bee" & "Tree", this meant that "Viktoria" had to find others to continue the chase, this was gonna give the "Sentinels" some time to rest and focus on the "Skeleton"...*

*When "Victor" was finished with the "Vampire", he knew that "Rumple" knew that he was in "England", "Victor" called a crow and tied a piece of paper in its leg and whispered to it with the location then the crow disappeared, he sent it to "Rumple"*

asking for a meet, "Rumple" was paranoid and didn't trust "Victor", so he sent a 'Harpy' creature to bring "Victor" to someplace he knew in "Plymouth"- "England", "Rumple" teleported himself there and waited, "Victor" didn't know that the 'Harpy' was gonna take him to "Rumple", when he felt its existence he told it to show itself, it appeared to him, it looked like a woman with big wings and falcon's feet she was tall and huge in size, she told him that "Rumple" agreed to see him and sent her to take him, "Victor" agreed to go with her, when he saw "Rumple" he said "Rumple, listen to me, Frank didn't kill your boy, it was your girl Viktoria, she made a mask like my brother's mask and did it to make you join her" "Rumple" was intending to kill

*“Victor”, using the power of telekinesis, “Rumple” caught “Victor” from his throat and said “You’re trying to save the kid who killed you that’s your problem, but now it’s my boy, I used my magical glass ball and saw him myself” “Victor” told him to activate the mirror and see the truth, “Rumple” released him and activated the mirror and saw the whole situation, till “Viktoria” took off “Frank’s” mask and rode a car with “Hector”, “Rumple” was in rage not because of what he saw, but because he promised “Viktoria’s” mother that he would be always there to help her whenever she needs, that time, “Rumple” & “Viktoria” had some troubles years ago, he surprised “Viktoria” with a visit to her home where she used to live with her mom, he told her mother that he was one of*

*“Viktoria’s” officials, the woman was ill and asked “Rumple”-who she thought to be a good General and paid her a visit expressing the government’s care for its best agents-to take care of “Viktoria” and help her as much as possible, “Rumple” wasn’t devoid of emotions, he promised her that he’d always help “Viktoria” whenever she needs, that visit was a threat to “Viktoria” that time, “Rumple” never backed down on his deals or promises, so he had an idea “Okay, the spell isn’t an illusion I can feel that, but now we gotta make a bloody deal, I’ll leave you and your bloody-fool brother to live in return of Viktoria dead, but remember if you failed, there won’t be a reason to fear failure, but you’ll have a reason to fear ME, how’s that deal Victor?”*

*“Victor” replied “Not enough, I want*

*you to tell me what's the Skeleton really after, and how can we stop him?"*

*"Rumple" didn't care much for "Skeleton" and thought it would be a good chance to let "Victor" & the "Sentinels" get rid of him, so he told "Victor" what he needed "Skeleton's monster was a dream he had, he wanted to create a super soldier out of a dead body because he couldn't create one out of a living human being, he saw that what I do was a some kind of science and that there was nothing called 'magic', but his tries to create life out of death went to nothing, every scientist or doctor he hired or forced to work for him failed to do what he wanted, a lot of biological scientists and doctors were said to be dead in accidents recently but in fact they were with him and he gave them everything*

they needed to do the job but their failure was rewarded with real deaths, till he met that woman who changed everything” “Victor” asked “Who is she? What did she do??” “Rumple” replied “Her name is Martha, a biological scientist, she was reported dead in Germany last year, but she’s alive with the Skeleton, she had some researches and discoveries around giving life to dead organs, Skeleton knew about her somehow and kidnapped her, his attack on us in Russia means that they’re in the final stage and looking for the final 2 pieces of the enigma” “Victor” said “The closer you look, the less you see, they won’t see the bloody big picture as long as they’re looking for the Skeleton and not for what he’s after” “Rumple” said “Indeed, the world strongest brain that can take the

*electrical power without getting damaged and the smartest one too besides to the heart will make this soldier the strongest and the smartest on Earth” “Victor” told him that “Skeleton” won’t care about that brain any sooner, “Rumple” said “If that’s right then he must have found it or maybe he knows who has it” “Victor” asked “How can we know who are the heart and brain’s owners?” “Rumple” said “I thought you already know, it’s not gonna be easy, you’ll need your special tools, you know where are them?” he was talking about “Victor’s” stuff [sword, shield, spear, golden mask, gold vest, dagger & the magical Eye of Sight] “Rumple” continued “I’ll tell you what to do, but when you are there, you’re on your own...Are you sure you can do that?” “Victor” replied “I’m*

*back taking souls and digging holes,  
indeed I can'...*

### *{The Crime at The Rosewood Hotel}*

*“Rumple” told “Victor” that there was a man in “China”, he wasn't thought to be a wizard, he was a priest but he was somehow in contact with the other side, but only the good souls, besides to getting demon souls out of humans and sometimes healing people, “Rumple” knew him and both men were not friends at all, the priest used to be called “Wang”... “Wang” wasn't Christian but he believed that dark magic was a devils act and should be stopped, he was concerned by hearts and knew that there was a very special heart that used to be reincarnated among time from the first man<sup>[7]</sup>*

*created till the present time, a power that gave the heart's donor all qualities of perfect human, bravery, kindness, love and more good qualities, these might exist in any man, but these qualities were usually accompanied by some jealousy, greed, envy and other bad qualities, this was the difference between this heart and any regular heart, this heart was pure of any dark qualities and somehow was immunized against any dark quality of the world, besides to its strength biologically, it used to be the strongest heart any doctor saw in history, every doctor saw it buy checking the donor's health for any reason used to say "Your heart is very special, unlike any heart I ever checked"... "Victor" knew that this heart wasn't his at all, he was never born with it, he was born with*

*hate, vengeance & rage, he was never loving and kind...Among history, "Victor" used to be in every occasion, every war, every crisis that ever happened on the planet he was there witnessing it or changing it, he used to hear about that heart but he never cared...*

*"Wang" knew a lot about that heart, as if it was his study, he also had a way to find the present donor, but helping "Victor" who was one of "The Dark One's" favorite students wasn't expected, it was a risk "Victor" had to take, but before that, he could locate where were his equipment and went to take them, he thought they were in a museum or something like that, but he was shocked to find them in "Frank's" mansion, he teleported himself inside*

where his stuff existed and started taking them, "Cain" saw him in the CCTV and reported him to the security, "Paige" went to check it out but when she saw "Victor" she knew him and told everyone to stand down, "Victor" didn't tell her anything except that he was gonna need his stuff but didn't tell her where he was going, "Victor" used to know her when she was a little girl, "Paige" sent to "Ivy" and told her what happened, "Ivy" got worried because of that move... "Victor" used his carriage and traveled to "China", he had only one in mind who might be able to help him talk to "Wang", "Frank's" Chinese girlfriend, "Chen"...

*On February 16<sup>th</sup> 2017, "Ivy" could know somehow where the "Skeleton" was using her sources, he was in "China", the "Sentinels" didn't know that "Victor" was there, "Silver" saw that they should attack him there before anything happens and alerted the Chinese Intelligence, "Frank" agreed to his opinion, but he saw that he should leave someone behind to wait for "Victor", "Rose" was logically the one for that, "Floyd" asked to stay with her and "Ivy" agreed.. "Ivy" called "Chen" to welcome the team, she did it, but she didn't meet "Victor" yet, "Chen" reported what the "Sentinels" told her to the Intelligence, they started digging behind him and could know that he was somewhere where a murder took place in "Rosewood" hotel, one of the garage cameras spotted him, he wasn't*

anywhere in the building except the garage, 2 men in black were seen in the place and it was obvious that they weren't Chinese, observing their moves showed that they went in the room where the murder happened then took their way to the garage and to that car "Skeleton" was in, no one was gonna care about that case unless the hotel's CCTV spotted the "Skeleton", "Frank" thought that they should take a look at the scene, so [Frank, Silver, Chen, Electrocuter & Hylaria] went there, the rest of the team were in the hideout "Chen" prepared for them... The crime scene was very messy with 2 dead bodies, a male and a female, the male was the manager of the China Merchants Bank, the female was just a whore, it was obvious that the male victim was the target, but there was

*something that didn't add up, the bodies looked like they were killed several days ago while the "Skeleton" and his men were seen in the place the night before the hotel's call to the police, for 4 days the room wasn't opened and no one answered the housekeeping, the sign of 'Please Don't Disturb' prevented the housekeeping from getting in, then the men in black opened the room's door with one of the hotel's swipe cards, they took 18 minutes inside and got out with no fingerprints other than the victims, probably they were looking for something and caused the mess in the room, the bullet which killed the male victim was from a low height trajectory indicating that the shooter was short or sitting on a chair, the bitch was killed by another weapon, a revolver, the*

*angle of shooting-according to "Frank's" plastics analysis and the gun powder-was even lower indicating that whoever killed her was laying on the ground, "Could it be the male victim??" "Silver" asked, "Frank" replied "Probably, we can't be sure yet", there were some blood trails on the floor indicating that the male victim was dragged to where he was found, the blood belonged to him, this meant that there might have been 2 shooters, the interference of "Skeleton's" men destroyed a lot of evidence, it was obvious that they cleaned the place from fingerprints and who knows what else they did to the scene or what did they take, "Hylaria" noticed that the window's glass was broken and on the floor, which meant that the killer attacked from the window and didn't*

knock the door or break in, if so, how did the killer made it to the roof with a gun without being noticed by the hotel's security personnel or cameras or workers or even guests, "Silver" solved that by telling them that he could have parachuted on the hotel's roof from a chopper where no camera to spot him up there, there was a Chinese detective there she had an interesting note, it wasn't clear due to the mess but she noticed, the television, table and a mirror were broken, why would the "Skeleton's" men break them unless they were broken and destroyed in a fight, although the male victim didn't have any signs of assault or fightback, but her note was very interesting, in "Hylaria's" opinion, she thought that there was someone already in the room probably before the victims get in then

*another shooter joined the party from the outside, the shooters weren't on the same team so they fought, the guy who came from the window shot the target who was the male victim and left from the window after hurting the other shooter badly enough to leave him on the ground, when the bitch tried to escape or scream the guy on the ground killed her by putting a pillow in front of his revolver to make it a silencer and shot her, but how did he leave?... The detective told them how did anyone get in or out from the window without any need for a chopper or a parachute, the hotel used to have a window cleaning lift, workers used to ride it from the roof and start cleaning windows from up to down, this was the only logical way to get in the room from the window, "Frank" said "The shooters didn't fight,*

*otherwise we could have found any DNA or blood trails that doesn't belong to the victims, one was in the room before the victims, he killed the target and maybe when he tried to kill the bitch, the other shooter broke in from the window, looks like the fight didn't take more than seconds then whoever won shot the bitch with the revolver, then he took him in the window lift, the Skeleton is involved, one of the shooters was his man, maybe he was told what happened and sent others to clean the place"... "Victor's" trail to "Chen" led him to the hotel and the "Sentinels", "Victor" was astonished to see "Frank" and the others there, "Victor" used one of his crows and tied a paper in its leg telling them that he was there watching, "Hylaria" used to hate crows and think that they bring*

bad luck, when she saw it on the window and heard its voice she tried to make it go away but "Frank" told her to back down, he got close to it and saw the paper, when "Frank" pulled it off the crow's leg it flew away, "Frank" read it and told the others that "Victor" was in "China" and wanted to see "Chen" and told him where to send "Chen" to meet him, "Frank" agreed but he told her that he wanted to join her, but "Hylaria" told him that the "Skeleton's" case was intense and they needed him, "Chen" confirmed her words, he agreed and told "Chen" to be careful, she went away and recommended the detective to stay with them, she was "Chen's" cousin and the only one who spoke English, "Electrocutioner" said "Alright let me see if I'm following, we got a shooter

who killed the male victim, an assailant who attacked the shooter and killed the bitch, probably he took their cell phones and money, unless the Skeleton's men took them and cleaned the place from any fingerprints or DNA, right?" "Silver" confirmed his words, but all that left them with nothing that might lead them to the "Skeleton", "Electrocutioner" was ordered to dig behind the male victim, his emails, calls and anything that might lead them to something...

The "Twin" wasn't with them, actually they sent him to "Egypt" to take "Frank's" place there, "Sonya" was with him there, "Frank" had exams in his college so they sent the "Twin" to finish "Frank's" exams, he did the job well, no one doubted him,

not even his mother although “Dr. Frank” noticed, “Frank” wasn’t so clever and he wasn’t following the college and his studies well, the “Twin” was a robot, whatever was recorded in the “Twin’s” memory helped giving “Frank” the best grades in that semester but it didn’t attract anyone’s attention...

“Chen” met “Victor”, “Victor” told her what “Rumple” told him, she heard about “Wang” but never met him, she knew a younger priest and thought he might help, “Victor” didn’t like the idea of telling that priest everything so he said “Okay as long as he’s gonna help, but all he should know is that the guy with the special heart is in danger and you wanna save him before a huge trouble happens” “Chen”

confirmed... "Victor" didn't know why did "Rumple" warn him and told him that he was gonna need his stuff, but he kept his caution, "Rose" & "Floyd" found "Popeye" by chance, he didn't know them because of "Victor's" spell, they caught him and beat him down, he didn't know them at all and they didn't tell him who they were, after some interrogation he told them where "Hector" was but he didn't know anything about "Viktoria", "Floyd" called "Ivy" and told her what happened, she told them to move from where they were and report "Hector" & "Popeye's" location to "Anton" and he would take care of them, he did it after taking "Rose" and going away... "Victor" appeared to "Ivy" and told her what happened, he removed the spell from everyone except "Rose" & "Floyd" who

*were still in "Russia"... The "Sentinels" left the crime scene with the detective who got shocked to see that the "Sentinels" looks changed in a blink, for their good luck no one saw that but her, "Frank's" look didn't change because he was wearing his suit and mask all the time, he calmed her down and asked her to keep that a secret..*

## {China Merchants Bank}

Checking the male victim's emails, "Electrocutioner" found a message that revealed some things, he read it to the others, its subject was about misappropriation, he was leaking money out of the bank in a clever way without being discovered, his last job was sending money to a private account, he sent a message to an email with a strange name, "Mime", it wasn't obvious who was he, but his replying email was very weird and not from "China", he was warning the bank's manager from the "Skeleton" and threatened him from working with him... The manager's laptop had a pdf file containing confessions revealing his dirty work but it looked like he didn't know who was the guy by the

name "Mime" but he said that this guy and the "Skeleton" were covers for others, they were dealing with him and he was leaking money out for them for 3 years then he decided to stop, but it wasn't an option as it seems, the last deal between them didn't happen and that was pissing the "Mime" off because it was a very huge deposit, the biggest one in their deals together, it was gonna cause huge troubles to the Chinese economy, "Frank" said "This means one thing..." "Hylaria" interrupted him "Means that the so called Mime is gonna rob the bank soon" "Frank" confirmed her words, "Silver" called the Chinese detective and told her to seal the place and secure it, she wasn't late and went there with a huge police force but it was too late, the bank was attacked and robbed

*already but the robbers didn't leave yet, they were preparing themselves to leave in a school bus leaving a surprise for everyone, bombs were planted everywhere inside the bank even the employees and workers had grenades in their hands, the grenades and bombs were ready to blow remotely, the "Mime" told his men to hold their fire then he said "I was gonna call you guys, you made me a favor by coming, now these bombs in their hands and in the whole place are ready to blow everyone sky high, so all I need from you to do is to pave my way to the airport, when we pass the Chinese boards I'll throw the trigger to you and of course I don't have to warn you of following us" this was too dangerous "Frank" told "Hylaria" to leave but she refused, the police had to let the "Mime" pass with his men in*

*the school bus, while leaving he was laughing loudly, reminding "Frank" of every psychopath he faced starting by the "Comedian" passing by the "Clown" and ending by "Adrian", the police tried to contain the situation and made a huge cordon around the bank and cleared all buildings and streets leading to it, "Ivy" and the others arrived but they didn't find "Frank" & "Hylaria", he took her in a car and went to the airport, he didn't know how to go but the GPS helped them, "Frank" was intending to get on board of the plane and have his chances to stop that thug, but the "Mime" deceived them, in a tunnel underground, there was a trash truck waiting for them down there, the "Mime's" men transported the money from the school bus to the trash truck*

*in trash bags, they were 48 big bags full of American dollars and many other currencies, billions, the bus continued its route to the airport but it was loaded with other bags, there was no one in there but there were mannequins statues inside with clothes looking like what they were wearing, the bus driver left the bus and walked away when he reached the airport, "Frank" & "Hylaria" used another way there, chasing the bus wasn't a wise idea, the "Mime" could have triggered the bombs if he noticed that he was chased, once they saw the bus, "Hylaria" noticed that no one in the bus was moving, cops were ready for anything surprising, no one but the driver left the bus and got caught later, "Frank" decided to go there and check it out, "Hylaria" tried to convince him not to go but he*

*assured her that it was gonna be okay, "Frank" knew that there were no humans in the bus, his detective vision showed him that whoever was there got no vitals or heat emission which meant that they were just statues, "Frank" walked there slowly, when he reached there, he called his friends saying "We are all being tricked, the Mime isn't in the airport, the bus has enough RDX explosives to take the Chinese International Airport off the map"...3 minutes later, an explosion happened in the hotel where the murder happened, in the room where the crime took place exactly, as if he wanted to say that he was behind that murder, then in the same time, the explosives experts found out that the bombs in the bank were just fireworks and toys, the explosives experts could deactivate the*

*bombs in that school bus at the airport, during that mess the "Mime" was gone... The bus driver was Chinese man, a paranoid schizophrenic and a former patient in a mental asylum, the kind of mind the "Mime" attracts, nothing useful to be known from him...*

*"Electrocutioner" made some investigations around that guy, his acts in the bank were very weird, the employees testifies and footage were even more terrifying than the incident itself, they said "The security system was off suddenly, then mimes appeared, they got in as if they were here for a show or something like that, it was very strange, then suddenly they shot the security with silenced pistols and in seconds we were alone with them, then they handed us grenades ready to blow,*

*4 of them started planting bombs in every corner and other different places around the place, in 10 minutes max they were ready to move and on their way out you came, all this time no one of them said a word”, “Frank” saw that a new way of criminality he should face, but “Hylaria” surprised everyone by refusing the idea of hunting the “Mime”, she thought that he wasn’t their target and they should focus on the “Skeleton”, “Ivy” understood her point while no one else did not even “Frank”, “Hylaria” thought that “Frank” shouldn’t be facing psychopaths anymore because she saw that they were affecting his mind and spirit by their twisted minds, “Ivy” understood her point and confirmed her words telling them that the “Mime” could wait and they should focus on*

*the "Skeleton", "Silver" agreed to that although he thought that both "Skeleton" & "Mime" were working together...*

*Time came for "Naomi" to give birth, she gave birth to a girl, a very weird child, she had a longer backbone and vertebral column enough to get out of her body and look like a long tail, besides to 2 very small and weak fangs and a snake looking eyes, even her skin was like snakes, the girl could be said to be a snake-girl, for everyone's surprise, "Naomi" was okay and in good health, far away from being dead, she was sent back to her room, when she was alone, a dark figure appeared from the room's corner, it was a 'Soul Collector' it was there to take her in the bargain made by "Frank" in the*

*“Himalayas”, when she saw it she screamed and called for help, “Paige” was there she hurried to check her with other doctors, “Naomi’s” body was blue and smelt rotten even her eyes were white and looked to be dead for weeks or more although she was alive minutes ago, this was terrifying to everyone... “Paige” sent “Ivy” the updates, “Ivy” was shocked to hear her daughter’s death, she told “Frank” & “Hylaria”, “Frank” didn’t seem to be shocked or sad, “Hylaria” cried and hugged “Ivy” who cried for the second time as much as “Frank” knew, he didn’t know that she was gonna be sad, he analyzed that his brother would be mad too, but he said nothing and told “Ivy” that “Naomi’s” freak daughter would be raised well by them...*

*“Victor” & “Chen” went to “Wang”, he told her to talk to “Wang” alone, “Wang” was very powerful and experienced, he would know that “Victor” was a magician and maybe things would be screwed, that was “Victor’s” point, but “Wang” knew him and heard about him years ago, “Chen” confirmed and the priest she knew introduced her to “Wang”... “Victor” noticed a newspaper with “Frank’s” photo in it, he read about this and knew what happened in the China Merchants Bank and saw a photo of the “Mime” when he was talking to the police and the “Sentinels” on the front door of the bank, someone photographed him and sent it to the press, “Victor” could read the Chinese paper because he was taught how to speak Chinese by the “Undertaker”...*

## {The Monster of The Alps}

“Wang” was expecting “Chen”, once she got in he said “Chen Han, I was expecting you, I know what you’re here for, he wants to know how to find the ones with the chosen heart and brain” “Chen” wasn’t shocked “He won’t hurt them, whoever they are, they’re in big danger and need to be secured” she said, “Wang” replied “I know the Shadow won’t hurt the chosen ones or use them, but I’m afraid from the one who sent him here” “Chen” didn’t understand, he was talking about “Rumple”, “Victor” didn’t trust “Chen” much, his golden eye was allowing him to see the meeting between her and “Wang” and to hear them too, “Wang” gave her an old piece of paper like a map and said “This is the map to a compass that leads

*to the chosen ones, starting with the heart and ending with the brain”*  
*“Chen” asked “Starting and ending! What do you mean? There are more organs like that heart and brain??” he replied “When the first man sinned, his special organs were distributed on his sons and grandsons, the powers in these organs never die, when these organs are together in one dead body it will live and there won’t be any chance to stop him or kill him, no man or weapon would be able to put him down and every religious belief those humans have will vanish and immortality will happen, a new species of humans will appear by time and evolution will be catastrophic, the compass will lead the Shadow to the organs, he must find them or the consequences will be unbearable”*

*“Chen” was afraid when she heard that, she left him and went to “Victor”, she told him what she was told thinking that he didn’t hear or see anything, when she gave him the map he disappeared... The map was of the “Alps” mountains in “Europe”, “Victor” had to go there and follow the map directions, it was weird to “Victor” because he didn’t know that there was magic there, “Victor” intended to go there on his own then “Ivy” appeared in his way, he wasn’t expecting her, she told him what happened to “Naomi”, “Victor” was surprised but not touched and that was weird even to him, but it was logic because when “Victor” came from death, he came back with his body and mind but not with his heart, he got no heart because he was already dead... “Victor” told “Ivy”*

*to be strong then he told her what happened with him, "Ivy" was strong and told him that they were going with him to the "Alps", "Victor" was against the idea but "Ivy" insisted strictly forcing him to agree, "Rose" & "Floyd" arrived to "China" where the others were with a surprise for "Victor", they made a blue metal mask for him but with 2 eyes this time, "Victor" & "Ivy" went to the others and told them what happened, "Electrocutioner" scanned that area on the mountain, it couldn't be seen by regular satellites because it was off 'Google Earth', but the "M16's" satellites uncovered it...*

*"Electrocutioner's" searches around that mountain showed them something unexpected, there was a huge warehouse or hideout in an old camp,*

but that was on the surface, underground there was a wide research lab, this place on the mountain was owned by "Germany" during WWII, after the war was over the place was abandoned but the satellites indicated that the place was still active, "Frank" said "This must be the Skeleton's camp, this place is where he's making his creature, we gotta attack this place" "Victor" confirmed, "Silver" thought that they should have a good plan first and report it to "Shaw", "Ivy" told him that they could do that on their way there, 3 hours later, the team was on their way there using the Jet... The "Twin" & "Sonya" were gonna meet the others there, "Twin" finished "Frank's" exams and was available...

The blueprints of the camp showed the "Sentinels" that the place was surrounded well, the "Skeleton's" men made a siege that could hardly be broken, "Hylaria" said that she could sneak in the camp and make an opening for the others, this was refused strictly by "Frank", "Victor" said "Stop it, we storm the place, they won't be expecting an attack" it was refused in the beginning but when they couldn't find any other way, they agreed to "Victor's" idea... The "Twin" & "Sonya" parachuted on the coordinates given to them by "Electrocutioner", when the "Sentinels" arrived these coordinates, "Twin" & "Sonya" were already there securing the landing area for the others... The "Sentinels" reached the location and the crew started moving, they had no cars except the motorcycle

with them, so "Victor" brought his carriage to be a moving vehicle to transport whoever needs transportation, the team moved with their weapons and tools ready, [Frank, Deadshot, Twin, Floyd & Silver] weren't on board of the carriage, "Deadshot" went to find a suitable place for shooting, "Frank" & "Twin" were on the run and would attack on foot, "Silver" was in the air with his jetpack and "Floyd" was on his motorcycle... The attack started, when the soldiers saw them they launched the alarms screaming "IT'S FRANKENSTEIN, WATCH OUT" and started shooting at them, "Deadshot" started shooting the soldiers on the surveillance towers, "Frank" & "Twin" attacked whoever they saw, "Victor" protected the carriage with a protective spell to

protect the carriage and its passengers from the soldiers' bullets, the soldiers were shocked by seeing the carriage and the fire horses, their confusion made them soft targets to the "Sentinels", "Victor" stopped then [Ivy, Rose, Electrocutioner, Arrow, Hylaria & Sonya] started spreading in the place killing everyone they see, "Victor" joined them with his golden sword and shield, every soldier was focusing on "Frank", "Twin" & "Victor" and they were killing a lot of soldiers with no hesitation, violently with no mercy, "Hylaria" saw the 3 of them with their backs to each other, it was epic but terrifying, "Skeleton" was inside, he ordered his men to go and kill the "Sentinels" saying "The NATO sent their freaks to catch me, but I know I got better men, they came on their feet and

*we're gonna send them back in body bags, no surrender" the men were excited and all went out to attack the "Sentinels", "Ivy" made it to the lab, "Silver" & "Arrow" seized control over the east wing, "Deadshot" changed his position and shot more soldiers, "Rose" & "Floyd" called for help in the west wing, "Victor" teleported himself to their location to help them, it took him a minute to kill them all violently, "Frank" decided to break in through the front gate, he told the "Twin" to secure the front behind him, "Skeleton", "Martha" and some more soldiers were on their way to a chopper with a casket, "Electrocutioner" & "Sonya" fall in a tangle and asked for help, "Victor" appeared between them and the soldiers, he just waved with his hand and the soldiers turned to dust,*

*"Skeleton" caught "Hylaria", "Ivy" reached the chopper and saw "Hylaria" but the soldiers were more in number, "Frank" showed up and shot the soldier who was catching "Hylaria", she fought back and "Ivy" joined the fight, then "Skeleton" caught "Hylaria" again and pointed his gun to her head, forcing "Frank" & "Ivy" to stop, the rest of the soldiers rode the chopper then he followed them, when they were all ready to fly, he shot "Hylaria" in the back, "Frank" & "Ivy" ran to her and the "Skeleton" escaped, "Hylaria" was wearing her vest and the bullet didn't penetrate it to her back, "Silver" wanted to find the chopper and try to take it down, but it was refused by the team, they already lost "Brandon" because he did the same thing, "Victor" reminded them with what they were*

there for, the compass leading to the chosen ones, "Frank" thought of splitting up, but "Electrocutioner" told them that going back to the jet and turning it on will give the "Skeleton" enough time to disappear between the mountains and the jet was too big to fly between mountains, it was a risk no one could afford... The lab underground was full of dead human bodies and animals too, it looked like they were doing experiments on other animals with containers full of the "Green Goo" compound and other weird fluids, besides a lot of things showing that whoever was working there was a freaking crazy surgeon, "Frank" decided to take everything and study the "Martha's" theory in order to find a way to stop this, "Victor" took advantage of the "Sentinels"

*distraction and disappeared, he wanted to find the compass and use it alone, he had a feeling that this was dangerous above them...*

*The map took "Victor" for a mile away from the camp, there was a cave where no magic works in, "Victor" didn't know that, the compass was guarded for centuries by one immortal creature used to look like the cave's rocks, its body was of rocks, about 12 ft tall and 1500 lb weight or more, an indestructible thing that killed anyone who tried to get that compass, used to be called "The Abomination"...*

*In "Russia", "Rumple" collected his men [Pinocchio, Black Skin & Chao] besides to a new guy, he was like a snake, got a snake skin and his blood*

*was poisonous, a bite or a scratch from his teeth or nails were like a 10 cobra snakes bites, that's why he was called the "Cobra", he was sent by "Rumple" to kill "Wang", "Cobra" successfully killed him although he had magic but he couldn't save himself...*

*In the "Alps" mountains, "Victor" could pass the cave's security traps and regular guards, these guards weren't humans, they were hanged skeletons with shields and swords, human shaped rocks, skeleton centaurs and others, "Victor" ran through them all without effort, then he saw the "Abomination", he never heard of it and didn't know that it was alive, he thought that it was just the rocks form, when he tried to get close to it, the monster moved and stood up, from its*

*moves "Victor" analyzed that it wasn't too long since it moved, someone made it to that place before him but it seemed that no one was successful, then the monster roared, its roar was high enough to be heard by the "Sentinels" in the lab, "Rose" was scared "What's that sound?!" "Frank" replied "Victor..." "Ivy" said "We gotta find him, whatever that thing is he'll need help", "Silver" told them that he'd check the area around the camp, "Electrocutioner" tried to scan the area but it was too hard to find anything because the mountain was covered with snow and finding any cave wasn't easy, "Victor" couldn't use magic because the cave was banning dark magic, the fight between "Victor" & "Abomination" was unfair, the monster was very huge in size and*

strong, but he discovered a weak spot in the monster, in the wide hall, the monster was strong and unbeatable, but he couldn't get out of that hall, it was gonna get hurt or die if it got out, when "Victor" was thrown out of the hall, the monster followed him to the hall limit then it stopped and returned back to its seat and sat down where it was sitting but it was looking at "Victor" on the other side, "Victor" realized that he must get it out of the hall, there were other routes around the place, he went through one as a try to find anything useful, his shield fall from him in the hall with the monster but he got his sword and dagger... All the way, "Victor" have been seeing dead bodies and they were rotten or dead in a savage way, indicating that they were dead recently, they were not civilians or

regular people, they were soldiers and that was expected, the "Skeleton" knew about the compass and tried to get there more than once, the "Sentinels" analyzed that because "Arrow" found maps and blueprints of a mysterious place unlike the camp or anywhere close to the area with many passages, there were weapons inside the cave but they were useless in this place, after walking in a passage for 10 minutes, "Victor" was shocked by seeing an old paper next to a skeleton remains and a feather pen, looked like whoever wrote this paper wrote it centuries ago, "Victor" read it although it was written in old German language, it was a description for a secret tunnel to get in the hall without attracting the monster's attention, as it was focusing on the main entrance only, the tunnel

led directly to an area of the hall too close to a chamber, no one could pass the monster to that secret chamber, "Victor" noticed it but couldn't pass the monster, "Victor" thought it might be a diversion or a trick, but he had to take the risk, he found that tunnel and crawled in to its end, at the end he was in the hall for real, but he had to move very slowly to avoid attracting its attention, he could do it and found the rock opening the chamber's door according to the paper's description, opening the door and the friction between the rocks made enough noise to make the monster wake up and attack "Victor" but the monster was slow and "Victor" was flexible and could get in before the monster catches him, the compass was inside, but it wasn't the only thing in this room, there were

many human skeletons everywhere in the place, meaning that he wasn't the only one who could see and know about the tunnel, the paper which led him to the tunnel and the chamber disappeared from his pocket, only then he knew that it was a twisted magical trick, but he got what he was there for, all he had to do was to figure a way out of there, the thing many people couldn't do... The "Sentinels" found the cave, but fear hit them "Someone gotta stay here at the entrance to secure it, I can do that" "Silver" said to the others, "Floyd" said "Rose is gonna stay with you" but "Rose" refused and an argument started, "Hylaria" was worried about "Frank" "You shouldn't get in there, whatever that thing is we're not sure that your suit can overcome..." "Frank" interrupted her

*“Forget it, I’m going in but you’re not and I mean it this time” “Hylaria” argued with him about that, “Ivy” finished the argument and named the team getting in and the security team at the cave entrance, [Frank, Ivy, Arrow, Floyd & Twin] were gonna get inside, [Rose, Hylaria, Deadshot, Electrocutitioner, Silver & Sonya] were gonna stay at the cave’s entrance, “Frank” was against the idea of “Ivy” getting in with them but she said that these were orders, then another roar was heard from inside, “Victor” was stuck inside, he couldn’t get out because the monster was in rage and completely out of control although it couldn’t destroy the chamber or get inside due to its large size, but it didn’t stop or calm down, the “Sentinels” ran in fights against the same skeleton*

guards and traps, "Floyd" was injured, but his injury wasn't too bad, "Ivy" handled it for him, it wasn't too long to reach the hall where the monster was, they didn't need the map although there were many passages, but the monster's roar was getting louder by time meaning that they were moving in the right direction... They reached the hall and saw the monster, when "Frank" saw it he was in complete shock just like the others, they started to shoot at it and "Arrow" shot it with explosive arrows but nothing hurt it, then it ran to attack them but when they returned back from the hall entrance the monster stopped, "Victor" saw them and yelled "WHAT ARE YOU DOING HERE? GET OUT I CAN'T STOP IT AND YOU WON'T, GET OUT OF THERE" "Frank" yelled back

*"NOBODY KILLS YOU BUT ME,  
THERE'S ONLY ONE BLOODY  
MONSTER IN THIS WORLD, ME" "Ivy"  
calmed "Frank" down and told them  
that they should work together to defeat  
that monster, it was 1 and they were 5  
in number besides to "Victor", "Ivy's"  
plan was to spread in the place and  
cause disturbance to the monster,  
giving "Victor" clearance to get out, the  
others agreed but "Floyd" was gonna  
shoot from the entrance due to his  
injury, "Frank" & "Twin" were gonna  
move faster than "Ivy" & "Arrow", "Ivy"  
was gonna focus on getting "Victor" out  
to the entrance, the plan worked and  
the monster was busy with "Frank" &  
"Twin" who were moving fast besides to  
the shooting from "Floyd" & "Arrow",  
"Victor" & "Ivy" made it to the hall  
entrance "Frank", "Twin", "Arrow" &*

*"Floyd" hardly retreated, "Twin" got serious damages and so was "Frank's" suit but they made it out, on their way out they faced some skeleton guards but they weren't troubles to "Victor" & "Ivy"... "Ivy" called "Silver" and told him to go and get the jet to them as soon as possible, he used his jetpack and flew to it, 5 minutes later, "Frank" and the others reached the cave's entrance, they were chased by more skeletons but "Rose" and the others at the entrance covered them, 2 or 3 minutes more, "Silver" arrived and throw ropes to them, "Floyd" tied his motorcycle, "Rose" and himself and got up to the jet, "Hylaria" & the "Twin" got up in 1 rope, during the departure something unexpected happened, the monster broke the magical hall entrance and tried to catch up with them, the cave*

was shaking as if there was an earthquake, "Victor" was out of the cave so he got his magic back, he casted a protection spell allowing no one in or out of the cave, not even the skeletons, when the monster came to the cave entrance he hit the spell wall as if it hit a rock wall, it was the only way for them to move to the jet safely, but the monster's strength was breaking the magical wall slowly, they all made it on the jet, "Silver" thought of saying good-bye to that ugly monster, he shot the monster with every gun and missile in the jet, the cave collapsed on it and it wasn't seen by them then they flew away, they thought that they killed it but in fact they were wrong but who cares, they won't go there again... "Victor" used magic to heal the

*crew's injuries, it was fantastic and amazing to them...*

*"Jenny" gave birth to her & "Frank's" little boy, she was okay and the baby was in good health, "Jenny" & "Frank" dealt on calling the boy "Ercole" which means "Hercules" in German language... "Frank" was thrilled...*

## {Inferno #4}

*“Rumple” was watching everything with his magical ball, he wanted “Victor” to do this for him, that’s why he told him about “Wang”, because he could never get that map from him, and to let “Victor” & the “Sentinels” take the risk of everything and get the compass, he had an idea to raise his dead son, the gate of hell in the “Himalayas” needed a replacement and he wasn’t that kind of people to sacrifice himself, not even for his own son, so he thought of the “Skeleton’s” idea, to collect the chosen organs and put them in his son’s dead body and somehow he was gonna excite the organs and nerves thinking that he was gonna give his son life... That’s why he*

*collected some of his mutants and prepared himself well...*

*The "Sentinels" flew to "London", "Silver" & "Ivy" had to report what happened in "Russia" & "China" to "Shaw", "Victor" asked to take a look at his book and "Frank" agreed... The "Twin" had serious damages and had to be fixed, "Victor" talked to "Frank" "This is just the beginning, the real fight is coming, Rumple won't stand down for too long, besides to the Skeleton and the clown from the China Merchants Bank" "Frank" replied "Leave the Skeleton and the Mime to us, you take care of the wizard" "Victor" agreed to his brother's deal...*

*“Shaw” had a long meeting with “Ivy” & “Silver” then he asked to see “Frank” in private, when they met “Shaw” told “Frank” that he wanted to show him something, then he took him to a special place then to a secret elevator and went down somewhere very interesting, like a huge workshop where the best engineers in the world were working on inventing modern weapons, fighters, jets, war vehicles, drones, special tanks and more tools using robotics, AGVs and modern production lines, “Frank” asked “Shaw” about the place, “Shaw” replied “This place have been shut down officially since 1946, but it have always been operating and responsible for most of the military developments in the British and the French armies, Winston Churchill created this place to*

*make many different defence subsidiaries and develop their tech here, away from the American & Russian spies, here we use every useful idea and scientific theory and collect them all under one roof, OURS” “Frank” asked “This is dangerous you know that, why would you keep all these techs under ‘your’ roof?” “Shaw” continued “These right there, got some interesting technology, 8 Heli-Carriers set to network satellites, their repulsive engines allow them to fly in the air and never need to land, these jets there fly by programmed Ardupilots, their precision weapons can take down a thousand hostile in a minute with no need for a pilot to point them on targets, they’ll work automatically according to the satellites readings for the terrorists DNAs even before they think*

*of their next move, it's a necessary way to neutralize a lot of future threats before they even take place" "Frank" said "Punishments used to happen after crimes take place, not before them" "Shaw" replied "Look around you kid, threats are getting worse every day, technology is progressing around us and terrorists are seeking our death, besides to the Muslims continuous threats to innocent civilians that we should protect at all costs, we can't wait till the crime happens, we can't take the risk if you LOST" "Frank" said "Who's 'we'???" "Shaw" said "After what happened in Blackpool, a special council was made and took some decisions, including you and creating more like you" "Frank" said "More like me and posting guns on everyone and keep calling that protection!! This is*

*ridiculous, Shaw?” “Shaw” said “What about magic? Isn’t it dangerous enough to be used like that, raising the dead, teleporting from a place to another and even healing injuries, aren’t these gonna cause disturbance to those who believe in God’s existence and say many myths about the Christ’s first & second arrivals and these prophecies about the world’s annihilation and humans getting inquired by God and all these legends and illusions that we want people to believe in... Don’t you think that these are also ridiculous??”*

*“Frank” replied “Yeah you’re right about that, but these ridiculous myths give people hope, a sort of knowing what might happen after death, where they might go, a happy ending for those who deserve it and a fair punishment for those who deserve it too, it doesn’t*

matter if God exists or not but at least He's a theory that gives people peace and freedom from human sins and evils, our technology developments are great and amazing, but this is far away from peace or freedom, this is something I know very well, **THIS IS FEAR**" "Shaw" gave "Frank" his back and put his hands behind his back and said "We take the world as it is kid, not as people would like it to be, you should be knowing that after all what you've been through, Mark" "Frank" didn't reply... Later, "Frank" realized that no one of the team knew anything about that place or the weapons, not even "Ivy" & "Silver", that made "Frank" worried...

*“Rose” brought her father’s book to him, he moved his hand over it as if he removed a curse from it, when he did this, words and letters in the book changed from English to Hieroglyphic as if it was a new book, “Rose” was amazed but said nothing, after minutes of reading loudly in Hieroglyphic language, the compass shined and looked as if it was new, then its needle moved to a special direction and a heart shape appeared as a drawing on its base under the needle, “Victor” told “Rose” that he was going after the heart alone, she refused and told him that they should go together “No wait, we should stick together, you saw what happened when we worked together, we survived, YOU survived” she said to “Victor”, he didn’t reply for a while then he said*

*“You have something else to care about, the mercenary and the clown must be stopped, this won’t be easy, send mama & Mark my regards honey” then he tried to disappear but “Rumple” appeared and stopped him saying “Not so fast dearie, we had a deal, you forgot I think” “Victor” said “What are you doing here Rumple?” “Rumple” opened his hand then the compass appeared in his hand, “Victor” was surprised by that, he didn’t know that “Rumple” could do that trick, “Rumple” said “Okay, deal rules will change, the compass in return of her life, I’m a man of my word, dearie” then he disappeared, that made “Victor” angry... When the others knew, everyone was mad “All our effort in the Alps is gone, Rumple just took it so easily!” “Arrow” said in a sad tone, “Ivy” asked*

*“Victor” about his deal with “Rumple” and what was it, he had nothing to say but the truth, “Ivy” and the others refused the idea of killing “Viktoria”, although they needed the compass to find and secure whoever got the chosen organs, but “Victor” knew that without the compass they were out of the game and “Rumple” couldn’t be trusted..*

*“Rumple” used his magic taking the compass’s magic and transported it to his magical ball, it showed him a regular man and showed him where he was living, the man was a Swiss accountant in a bank, he was the man with the chosen heart, “Rumple” figured out where he was exactly using his magic, then he took his men and went there, they were somewhere in “Wales” with “Rumple” in case there*

*was a fight...After what happened in the "Alps", "Skeleton" lost his chance to get that compass and find the heart and brain, but "Martha" had an idea that might not need a very special heart, she decided to put 2 horses lungs and 2 horses hearts, besides to a tough CNS nervous system, the skin wouldn't be a problem because the creature wouldn't feel anything at all, but there had to be a very powerful source of electricity to make the fresh organs work again by a pulse, that wasn't a trouble for the "Skeleton", he solved it for her, they were in "London"...*

*Days later, the "Skeleton" and his men transported everything they had to a location where they could get a very high current intensity, there was a place seized by the "Skeleton's" thugs,*

*it was somewhere South-West "London" and it wasn't used anymore, it was the "Battersea Power Station", it was one of the biggest camps seized by the "Skeleton's" men, the place was shut down since 1983 when it was no longer needed, the place wasn't just a store or a hideout for the "Skeleton's" men, it was like a garage or a huge workshop, thugs were working in car modding, race cars, motorbikes, light-weapon manufacture and many other things, besides to this it was a store where excess drugs & weapons were kept, the place had a very strong power supply supplying hundreds of machines inside, it was enough, "Martha" made the surgery to the body as soon as the men brought her the fresh hearts and lungs, it took her and her assistants 7 hours of continuous work, then the*

power supply was prepared and everything was ready for the final stage of this unholy experiment... During the hours of the surgery, the "Sentinels" knew about the place, although the "Skeleton" was very careful but his "Lamborghini" was spotted by cameras in traffic lights, the "MI6" got cleverer spies than his men, the "Sentinels" were reported and they prepared themselves to move, "Victor" went with them, the crew was [Frank, Victor, Ivy, Silver, Hylaria, Rose, Floyd, Arrow, Twin, Sonya & Deadshot], "Twin" and "Frank's" suit were fixed and ready for deployment...

The "Sentinels" existence wasn't expected by the "Skeleton's" thugs, that made hunting them by "Deadshot" so easy, the "Sentinels" arrived when the

thugs were preparing the body to be excited by maximum power, using the detective vision "Frank" could notice that there was something going on, "Silver" made his way to the garage where he found the "Lamborghini" confirming "Skeleton's" existence in the place, but there was a chopper on the roof with security, the chopper had to be destroyed or the "Skeleton" would escape again like what happened in the "Alps", someone interfered in the operation unexpectedly but they appeared later in the fight, "Frank" thought of sneaking in this time, storming the place was gonna be a hell of a mistake, the police surrounded the place from a distance even the sewer tunnels were secured by cops the trouble was in launching war, a war where a lot of cops might die or maybe

some of the "Sentinels" could die too, "Victor" used his eye to check the place after a minute of silence "Victor" said nothing but "OH NO, THEY DID IT" then power was off and it seemed as if there was an electrical explosion in the place but no one was hurt or dead, the thugs seemed expecting what happened, no one of them went to check the power supply, the darkness was a good chance for "Frank" to get in, "Deadshot" covered him, "Victor" wasn't invited to joined "Frank" but he did it, suddenly shooting was heard from the inside and it looked like the thugs were scared, "Martha" added a voice detection sensor and programmed it with Arduino microcontroller to recognize the "Skeleton's" voice and obey his orders, the sensor took 3 minutes till it worked and the monster obeyed

*“Skeleton’s” orders to stop attacking his men, after he was in complete control of the monster, he ordered it to kill “Martha”, it killed her in a second, the monster was very strong and huge in size with big tough muscles and titanium skeleton structure, “Martha” put an oxygen regulator mask on its face to regulate oxygen getting in the lungs, “Martha” was killed by her own creation, she was the only one who knew anything about this ‘thing’ next to the “Skeleton” and he wasn’t in need for her anymore, he called his monster “The Earthquake”...*

*“Victor” & “Frank” got inside, they were surprised to see the place, then power was on and both men hid... At the outside, “Ivy” was surprised to meet an old friend, it was “Viktoria”, “Ivy”*

thought that she was there as a foe, but "Viktoria" assured to her that she was there to help them and told "Ivy" that they'd talk later, "Viktoria" wasn't alone she got her team, or whoever left of her team [Quiet, Bee & Tree], "Ivy" had to tell her team about that to avoid any misunderstanding during the fight... Suddenly and without expectations, mimes appeared on boats in the river and killed the cops who got boats on the river too, the mimes blew their boats with "RPGs" then passed to the "Battersea's" bank and started killing any thug they saw, "Deadshot" saw them but he wasn't ordered to shoot any of them yet, "Viktoria" ordered "Bee" to send his explosive bees to the thugs cars and chopper to prevent the "Skeleton" from escaping, it was a good move, the "Mime" entered the place

after him men, who were many in number, about 40+ mimes armed with "AK-47s", the "Skeleton's" thugs worked on defeating the mimes, giving "Frank" & "Victor" clearance to move then they heard a roar coming from behind a wall in front of them, "Frank" used his detective vision to see through the wall and he saw the monster running to crush the wall, he pushed "Victor" out of the way and he jumped aside, the wall's bricks flew in the air as if a tank hit the wall and a giant monster in shorts and oxygen mask came out and the "Skeleton" was behind it with some thugs, although the monster's strength, they put 2 sledges on a mechanism allowing the monster to punch harder to cause more damage, "Skeleton" saw "Victor" & "Frank" then he ordered his men to go

and help the others against the mimes, while his monster was ordered to kill the "Isaac" brothers, the monster's fast and aggressive reactions didn't allow "Victor" to use his magic on him, it punched "Victor" strongly enough to throw him through the firing engagement between the thugs and the mimes, "Victor" was shot but he was invincible and started to fire back at anyone shooting at him and teleported himself among both sides killing everyone, "Frank" and the "Earthquake" had a rough fight together, "Frank" tried to shoot it but it didn't work, it wasn't affected by bullets, then the "Skeleton" who was watching said "You can't kill someone twice" "Frank" was too busy to reply to his mocks, then help came from "Silver" who ordered the outside forces to engage,

when "Skeleton" knew that he ordered his men to pull back to the cars but that was useless, "Bee" blew up the cars and the chopper on the roof, then the "Skeleton" ordered his monster and any living thug to get to the 'workshop', he was preparing something for situations like that, "Victor" had an evil plan concerning "Viktoria", he thought of killing her and no one would notice because bullets were flying everywhere and she could have been shot by the thugs or the mimes, in fact this was his only chance, the government forces broke in, "Ivy" didn't leave "Viktoria's" side for any reason, "Viktoria" thought that she didn't trust her, but in fact she didn't trust "Victor" and knew that he would try to kill her in the chaos, the "Tree's" presence was a good ally and

*disturbing to the thugs and mimes, the fight didn't last for long, the "Skeleton" & "Earthquake" rode a small submarine with 4 seats to escape under the river's surface unseen, the "Mime" found them but he was late, "Skeleton" was already on the move, he wanted to look for a boat or something but "Floyd" got in his way, he didn't see what the "Mime" saw, "Floyd" took one of his electrical sticks out and got ready for a fight, a fight with the "Mime" wasn't easy at all, he was a very good fighter, ending with him shocking "Floyd" by his own stick then he jumped in the water when he felt that there were others coming, "Frank" & "Rose" found that place, they saw "Floyd" and he told them what happened, beating "Floyd" in a hand-to-hand fight meant that the "Mime" was a perfect*

*soldier or a former agent in any agency... "Electrocutioner" was following up by satellite imaging, he could notice the submarine and notified "Ivy", she told "Viktoria" to come with her and they jumped on a boat and followed them, but they weren't as fast as the "Skeleton's" submarine, "Ivy" was driving the boat, she stopped when she knew that they couldn't follow him, "Ivy" told "Viktoria" about what "Rumple" did and his deal with "Victor", "Viktoria" asked "Ivy" to give her 3 days to steal the compass and return it to them, "Ivy" agreed and dropped her on the river's bank then she returned back to the place, "Viktoria" called her men and they disappeared in the mess... "Victor" tried to find "Viktoria" but he couldn't, "Ivy" found him, she said "Looking for*

her, aren't you?" "Victor" tried to get out of that tight corner "Rose? Yeah, bullets were flying everywhere I'm worried about her" "Ivy" said "You know who I'm talking about, Victor" "Victor" didn't reply, then "Silver" called everyone and asked them to check the underground lab, there were too many fridges full of animal and human organs besides to a lot of equipment used for surgeries, this was explaining the monster's creation, finding "Martha" dead in the place was a surprise to everyone, she was reported dead in "Germany" 6 years ago but it looked like "Skeleton" faked her assassination in 2011, still there was something weird in all this, the "Mime's" involvement in the fight or attacking the "Skeleton's" place, this

*was a mystery to the "Sentinels" but not for long...*

### *{The Chosen Organs}*

*"Rumple" didn't waste time, he started hunting the chosen people with chosen organs, the organs were [Heart, Brain, Liver, Lungs & Spinal Cord], "Rumple" knew that if these organs were together in one dead body, life would return to that body and not only that, it would also give immortality to that dead body...*

*Using the compass, "Rumple" could get the people who owned the liver, lungs & spinal cord, he knew who got the brain, but he couldn't know where was the heart because the Swiss guy died in a car accident right before*

*“Rumple” could catch him, when he died, his heart died and its magic was gone to a little child, the guy with the strongest brain in the world was a surprise to “Rumple”, it was “FRANK” himself... When “Rumple” couldn’t know where was the child with the heart, he posted his focus on the brain, “Frank” became “Rumple’s” target once again but he got a deal with “Victor”, so he had to let someone else do this job, the best one was “Pinocchio”... “Rumple” knew where the “Sentinels” were, so he teleported himself and his men there, the “Sentinels” were in the “NATO” base in “London” it was impossible to attack them there, there had to be an idea to attract their attention, “Rumple” sent a crow to “Victor” telling him that he knew where was the “Skeleton” and*

wanted to meet him and "Frank" alone, "Victor"—for some reason—wasn't comfortable with that, he told "Ivy" and "Silver" and they prepared the team, "Victor" didn't think that "Rumple" was gonna trap him unless he was doing that with the "Skeleton's" alliance and if that was a trap then it might be the "Skeleton's" trick using "Rumple's" help, "Ivy" called "Viktoria" secretly and told her what was going on, "Viktoria" didn't tell "Ivy" that she was gonna involve herself in that but she intended to go alone, "Victor" & "Frank" went there a little late, "Rumple" was inside alone but "Victor" felt the existence of others inside, the "Sentinels" were surrounding the place from the outside unseen, the thermal imaging showed "Rumple's" men and their locations in

the place, "Silver" talked in the radio to "Frank" & "Victor" "Talk for as long as you can with the wizard, we located his men inside, we'll take them down quietly" they didn't reply to him of course, but "Rumple" was a powerful smart wizard, he knew that they didn't come alone, "Victor" asked him "What do you got Rumple?" "Rumple" replied "I don't know where he is now, but you know I can" "Frank" asked "What's keeping you?" "Rumple" said "I said 'I can', I didn't say 'I will', not yet at least" "Victor" said "No deal this time, I can find him on my own thanks Rumple" "Rumple" waved with his hand from down to up then "Skeleton" appeared in the place, "Rumple" said "Here he is..." then "Rumple" moved his hand from up to down and "Skeleton" disappeared "There he goes" he

continued, "Victor" & "Frank" looked at each other and to him then he said "You can use my help to finish a war without involving your family in a fight where one of them might die", [Silver, Floyd, Arrow & Hylaria] moved according to "Electrocutioner's" coordinates to them, "Hylaria" attacked "Black Skin" who knew that "Hylaria" was there from her smell, "Black Skin's" agility was higher than animals, then they fought, "Floyd" tried to attack the "Cobra" but he didn't know what "Cobra" was, seeing him shocked "Floyd", "Silver" tried to sneak behind "Pinocchio" but when he tried to catch him "Silver" thought that he was a puppet, then he was shocked to see that he was a man not a wooden statue, "Arrow" tried to attack "Chao" who got an extremely high

hearing power making him feel  
"Arrow's" existence, that noise caused  
intense between "Rumple" & the "Isaac"  
brothers, "Victor" & "Rumple" had  
their fight with magic, "Pinocchio"  
threw "Silver" away to the inside hall  
where "Rumple", "Victor" & "Frank"  
were, then all the fights transported to  
that hall, "Frank" attacked  
"Pinocchio", "Cobra" was spiting  
poisonous spits on "Floyd" he had to be  
careful and avoid them, "Rumple"  
surrounded the place with a protection  
spell preventing anyone from getting in  
or out, the rest of the "Sentinels" were  
stuck outside, "Floyd" beat "Cobra"  
using his electrical sticks, the high  
voltage shock prevented "Cobra" from  
moving, "Black Skin" was faster than  
"Hylaria" but she made a wrong move  
and broke her ankle despite her

*flexibility, "Hylaria" tied her and tried to help her man, "Pinocchio" and "Frank" had a very savage fight, "Frank" realized that he couldn't beat "Pinocchio" so he made a trick, he used his grapnel gun and tied its end to his arm then started to fight with "Pinocchio" every move "Frank" did he was tying "Pinocchio" and paralyzing his moves, because "Frank" was faster than him and "Hylaria" helped, this was very useful and finished their fight fast because "Pinocchio" was tied somehow he couldn't move to free himself or even to cut the rope, "Arrow" & "Chao" fought with knives, "Chao" was faster and his training was so well and was using a small samurai sword, he beat "Arrow" down injuring him, "Floyd" faced "Chao" to save "Arrow", "Victor"*

noticed that he got an injury on his team, although he was busy with "Rumple" who was very powerful but he waved with his hand and removed the protection spell allowing the others to get in, "Silver" tried his luck by shooting at "Rumple" but that was a mistake, "Rumple" stopped the bullets and reversed them to hit the "Sentinels", nothing happened to "Frank" or "Victor", but the others were all hurt except "Hylaria" who was standing behind "Frank" by chance, "Cobra" woke up and freed "Pinocchio", "Viktoria" got in another way and shot "Rumple" with a new revolver with special bullets, "Rumple" was immune against bullets but this bullets' job was to ban dark magic from any wizard, she shot him in the shoulder and at once his magic was

gone, "Victor" wanted to kill him but "Frank" stopped him, "Pinocchio" & "Cobra" tried to escape but they were caught by the "Sentinels" outside, "Ivy's" shotgun was strong enough to break "Pinocchio's" petrified wooden knee forcing him to give up, but for the bad luck "Chao" escaped somehow...

The place was controlled, "Rumple" used to travel with his dagger with him, "Victor" was his student and knew that he got it with him, it was with him for real, "Rumple" begged "Victor" not to kill him and "Victor" said that he wouldn't but he told him that he was gonna use him, then "Victor" used his magic to pull the bullet out of him and at once "Rumple" got his magic back, when the others noticed, "Frank" screamed "WHAT ARE YOU DOING??"

*“Victor” replied “He’s not a threat anymore, he’s our puppet now” and showed them the dagger, “Rumple” said “I’ll do whatever you’re gonna ask me to do, but I gotta warn you, use me wisely or you’re gonna cause more damage”, the “Sentinels” took “Rumple” and his men to the base and locked them with heavy security, “Frank” thought of transporting them to the “Frankenstein” prison as soon as possible, “Ivy” & “Silver” confirmed, “Arrow” and the others were healed by “Victor’s” magic before the medics interference, the rest of the team were okay...*

*“Victor” wanted to interrogate “Rumple” but that wasn’t official and was refused by “Silver”, anyway, “Frank” & “Victor” had a lot to talk*

about... "Frank" asked "Victor" about "Rumple" and what did he really want from raising him from death, "Victor" replied "He thought that I was the one with the chosen heart, he was wrong about that but he wouldn't lose anything if I'm the one or not, he wanted to recruit me again, he didn't wanna risk in the Himalayas, so he made you raise me, then his boy died, so he needed that compass, the best one for that job was me, Wang would have never gave him the map but he didn't know who to use, so he made me do that and let both of us go for the compass, the first wave was the Skeleton, then the cave and its monster, he wanted us to kill the Skeleton or us get killed by him, nothing of that happened but we brought the compass, I intended to use it and find the chosen ones myself but

*the Dark One was faster than me and appeared to Rose and me in your place and took the compass by magic and left”*  
*“Frank” asked “Why did he take it?”*  
*“Victor” said what he knew “He changed the deal, at first it was ‘I kill Viktoria and he leaves you and the others’, but the new deal was ‘I kill Viktoria and he return the compass back to us’ but that’s a lie, he wanted it for his son’s reincarnation, what I can’t understand is why can’t he just kill her, why hire me to kill her if he can just wave with his hand and she dies”*  
*“Frank” told him that they’d know in time...*

*The next day, “Viktoria” sent “Ivy” some interesting info about “Rumple’s” shop in “Russia”, her men found 3 dead bodies with missing organs in*

*everyone of them, this meant that the 3 dead bodies belonged to the chosen ones and the missing organs were the chosen organs when "Ivy" knew that the missing organs were lungs, liver & spinal cord, "Viktoria" knew that "Rumple" didn't find the heart or the brain, "Ivy" called "Frank" & "Victor" and told them what she knew, that was answering "Frank's" question about why did "Rumple" take the compass, it was easy for anyone to figure out "Rumple's" intention "He wanted to collect the organs and put them in his son's body, giving him immortal life, like I told you" "Victor" said to "Frank", "Viktoria" couldn't find the compass or "Rumple's" son in the shop, he had to be kept in a fridge to keep his body and the organs fresh...*

*“Silver” was in contact with his friends in “USA”, he told them to dig behind the “Mime” and sent them all the info he had, it wasn’t official but it was a way to gather some info about that ghost-clown, he found out who he was and everything about him, because one of “Silver’s” friends worked with him years ago then he disappeared in 2013, “Silver’s” man sent him everything he got about the “Mime” and “Silver” updated the crew with the updates... The “Mime” was working undercover for years in “Mexico”, he was after the “Skeleton” who was wanted by the “FBI”, “Skeleton” who was very powerful and got eyes and ears everywhere knew that “Mime” was a government agent and started hunting him, the “Mime” could survive in “Mexico” and made it back to “San*

Francisco' where he was hiding digging more behind the "Skeleton", at first, "Mime" knew that he was bribing some officials in "Mexico", later on he knew that he was working with the "Community", a "Rockefeller" family member was sending money to the "Skeleton" from and to classified accounts with fake names, as an Intelligence man he could know these info without being noticed, his mistake was that he trusted his officials and reported what he found, days later, "Mime" was reported mentally sick and was sent to a mental asylum, after 2 years he could escape and disappeared ever since... Wars never stopped between the "Skeleton" & the "Mime" everywhere in the world..

*“Victor” used magic to find the “Mime”, but no luck, the “Mime” was good in masquerading and hiding his identity, the eye of sight couldn’t find him, but he could find the “Skeleton”, he was in “San Antonio”-“Texas”, “Frank” thought of finding the “Mime” first was gonna make them know what they need to stop the “Skeleton” and his army, “Frank” thought of using some help from an old friend, “The Predator”, he was good in finding people and could be trusted, “Frank” met him and told him what he needed, “Predator” knew about the “Mime” and agreed to help...In 4 days, “Frank” was with his family in the mansion, “Silver” got something to do in “USA” and traveled for 2 days, “Predator” broke in the mansion and met “Frank” “I noticed that you didn’t tell anyone,*

*not even your mother in soul<sup>[8]</sup> so I broke in secretly, I found him" he said to "Frank", then he gave "Frank" the "Mime's" location in "Oxford", "Frank" thanked "Predator" and he left, "Frank" told "Ivy" who already knew about it and told "Frank" that calling him was good but embarrassing to the "NATO" that's why she didn't interfere in that call but she actually covered it well...*

## {Inferno #5}

*“Ivy” collected the team, but “Silver” wasn’t there, he asked them to wait for one night till he arrives but “Ivy” refused, the team was [Ivy, Frank, Rose, Floyd, Hylaria, Deadshot, Electrocutitioner, Sonya, Arrow & Twin], “Victor” didn’t go with them, he had something else to do, “Frank” & “Hylaria” took the “Chevy”, “Ivy” & “Arrow” were driving a modified Jeep, “Floyd” was on his bike, “Rose” & “Electrocutitioner” were together in her modified “Aston Martin”, “Sonya”, “Deadshot” & “Twin” were together in another modified Jeep, everyone was ready and the team took their way to “Oxford”... The “Mime” was in an old warehouse belonging to “Giffords Circus”, there was no show this night,*

every worker there was free and inside the place, "Frank" saw that telling them that they wanna catch someone in there was gonna give the "Mime" a chance to escape, "Hylaria" suggested letting her talk to them, "Ivy" agreed but "Frank" wasn't sure that this would work but he agreed too, the circus had freaks already, a Magician, a Powerhouse, a Knife Thrower, Clowns, Acrobats, Contortionists, a Fire-Eater, Lion Tamers, Flying Trapezes, an Escape Artist, besides to many animals inside [lions, tigers, bears, snakes, horses, monkeys & other animals] and many tricky stuff and equipment... "Hylaria's" tries were in vain, the circus' manager denied knowing the "Mime" and refused checking his men or looking for any intruder unless they got an official

warrant to search the place or interrogate his men, otherwise he wouldn't cooperate then he fired her out, that left the "Sentinels" no choice but to get in by force...

"Frank" & the "Twin" were gonna be the perfect distraction to the circus workers, while the rest of the team were gonna sneak inside and try to find the "Mime", "Electrocutioner" gave "Deadshot" a gun shooting electrical chips, he wanted "Deadshot" to shoot the chip near the electric power supply supplying the place with power, he took position and shot the power supply as he was ordered, then he gave everyone-except "Frank" & "Twin"-small electronic balls, their work was to transport a clear voice and sound from a spot to another through

*the radio signal used by the team, which meant that if these balls spread in many corners in the place they would be able to hear anyone talking within range and locate him according to his voice, the "Mime's" voice was recorded in the China Merchants Bank incident, "Electrocutioner" took the voice and got ready to find matches, then he made the electronic balls search for a matching voice, once they get a matching voice the balls would alarm "Electrocutioner" and show him which ball sent the alarm, that was gonna make locating him in the place easier for the "Sentinels", but they had to plant the balls inside first... "Frank" & "Twin" got in through the front gate, smashing it made the circus workers surprised, then "Frank" said loudly "ETHAN, I KNOW YOU ARE IN THERE,*

*GET OUT WILLINGLY OR SOMEONE IS GONNA GET HURT AND I WILL FIND YOU MYSELF” the circus manager ordered his workers to kill the intruders, “Frank’s” look was weird to them but they didn’t know what he could do, “Hylaria” contacted “Frank” and told him not to kill any of them as they were innocent and the “Twin” was ordered not to use his claws, just his bare hands, “Frank” didn’t reply and started beating whoever stood in his way, so did the “Twin”, then the Powerhouse took a big wooden box and threw it on “Frank” but “Frank” didn’t fall, he caught the box and threw it back on him taking him down, the Fire-Eater blew fire on “Twin” but it didn’t affect him, he was wearing a mask so his face wasn’t seen, when the “Twin” wasn’t hurt and didn’t even*

move, the Fire-Eater threw his fire sticks and ran away, seconds later, the fight stopped because the circus workers knew that they couldn't defeat "Frank" & "Twin", so the Lion Tamer released the lions and tigers on them, that was a harder fight because they were many and if one of them was shot the others would attack, then the circus workers hid in the building, "Electrocutioner" activated his electrical chip at the power supply, it disrupted it and cut the power off, then the others got in and planted the balls exactly like "Electrocutioner" said, then they hid inside without engaging with anyone till they see what "Electrocutioner" had for them...A voice matched the "Mime's" voice somewhere, "Electrocutioner" told them his location, "Floyd" & "Rose"

were close to that location “We’re in pursue” “Floyd” said, then they ran in some troubles with some clowns but the “Sentinels” agents could defeat them and kept going after the voice, “Electrocutioner” could keep following the voice source and kept “Floyd” & “Rose” updated with his movements, “Deadshot” confirmed having clear shots to all lions and tigers, “Ivy” gave him clearance to hunt them all, he did it in 2 seconds without fighting and the magician’s tricks didn’t help, “Hylaria” was so sensitive and kind, she felt so sorry for the poor animals and innocent workers, the circus manager said “Enough he’s inside, please the animals, workers and stuff are all we got for living have mercy with us, sir” to “Frank” & “Twin” “Frank” said “Help us seal the place

*and tell your men not to attack any of mine” the man agreed and ordered his men to do what “Frank” said, “Mime” was stuck and got nowhere to go, “Floyd” & “Rose” beat him easily due to darkness and reported that they caught him, the “Sentinels” expressed their apologies to the circus manager and workers for any damage but the lions and tigers were killed, “Hylaria” promised them a good payment later and she fulfilled her promise to them, the “Sentinels” left and took their prisoner with them to the base in “London”...*

*“Victor” went to “Monica” and asked her to do that same thing she did when she showed him what happened to “Rumple’s” son in “Moscow”, but this time he didn’t need a magical*

mirror, what he wanted this time was to see what happened to his daughter, "Naomi", he saw the Soul Collector taking her soul but he also saw the mark on her hand, he knew it because it was the mark of death, the same one on the gate in the "Himalayas" and its key, whoever opened the gate of hell and raised someone from death, the replacement happens, he figured out what happened but it was a shock to him, "Monica" said "What did you see? Why are you so shocked like that??" "Victor" said "I knew what happened to my girl, here's what happened, Rumple knew that the heart and the brain were needed for the Skeleton's experiment, he thought that he could use my help, but he couldn't open the gate himself, so he needed someone to do that job for him, my brother was the

*only one who could do that, but Mark is as coward as I've always known him, he took something of her DNA and made his clone open the gate, he wasn't human with a soul, so the DNA of a human was the thing that made the gate work, my brother made my girl replace me in hell without even being there, to Mark, he needed me to beat Rumple and ease his fight against the Skeleton, he really deserves to be the man with the chosen brain, I'm not the only monster on this planet" "Monica" was shocked with what she heard, she hugged "Victor" and said "Who knows without you being here what would have happened, maybe your second daughter could have died somehow, maybe it was time for the world to get rid of Rumplestiltskin once and for all" "Victor" teleported himself to "Rumple"*

who was in a solitary cell in the “Frankenstein” prison, he couldn’t teleport himself anywhere because “Victor” ordered him to stay in the prison using the magical dagger, “Rumple” got shocked to see “Victor” in his cell with evil on his face, “Victor’s” face changed and returned to its original look with his gold eye shining and said “You deceived my brother and made him kill my daughter to get yourself out of a tight corner with the Skeleton, now you’re useless without your bloody dagger” “Rumple” begged “Victor” not to kill him but “Victor” stabbed him in the heart with his own dagger, “Rumple” turned to ashes and disappeared with nothing left but his clothes, the dagger didn’t disappear, but “Rumple’s” name disappeared off the dagger, it became a normal blade

but "Victor" took it and teleported himself back to "Monica", she was scared to see his face "What did you do?" she said, "I finished my unfinished business in this time, thank you my dear" he replied, then he kissed her and disappeared...

In the "NATO's" base in "London", the "Mime" was held for interrogation, he didn't talk at all to anyone, not "Ivy" or "Shaw" or anyone else, "Silver" was on his way to "London", "Frank" suggested to let him talk to the "Mime", "Hylaria" was worried and didn't want "Frank" to talk to that psychopath because she saw that "Frank" dealt with enough psychopaths and that was twisting his mind, but he assured them that he won't lose control with the "Mime", the

interrogation room got dark suddenly then light came back and "Frank" was sitting in front of the "Mime", but the "Mime" shocked "Frank" by sitting on the table with his face too close to "Frank's" mask, "Frank" punched him in the face as a sudden movement, the "Mime" laughed "You couldn't keep you commitment agent, you LOST control" "Frank" asked him "What makes you think that I lost it, maybe I'll lose it soon" "Mime" stopped laughing and didn't reply, "Frank" said "Let us start with China, the manager of the China Merchants Bank, why did you kill him?" "Mime" replied "He wasn't so clean, he was a fraudster and used to live on financial embezzlement and other financial dirty jobs, he had to die to cause some disturbance to whoever he was working

with” “Frank” said “The Community”  
“Mime” looked at him and said  
“Careful man, this info destroyed a  
young man’s life before” “Frank” told  
him everything they knew about him,  
then the “Mime” told “Frank” what  
happened exactly that night “I got up to  
the roof through the ventilation system  
giant ducts in the hotel, then I got down  
with my own rope and cut the window  
glass with a special glass cutter and  
waited inside for him, I wasn’t  
expecting the bitch, when he and his  
girl came in, I was ready to shoot him,  
then a thug with black mask smashed  
the window and shot the target before  
me, then we fought, the fight ended by  
him on me trying to put his gun to my  
head unaware that I had mine to his  
stomach, then I shot him, the bullet  
penetrated him and hit the bitch

killing her at once..." "Frank" interrupted him "Your gun was a revolver?" "Mime" confirmed then continued "I noticed that the assailant used the window cleaning lift to get to the room, I used it and got to the roof and made my way out the same way I got in" "Frank" asked him about the men in black who went to the room after the crime, "Mime" didn't know anything about them, but he confirmed sending one of his men to plant a bomb in the crime scene to destroy evidence and cause disturbance while escaping from the bank, this meant that the men in black got rid of the assailant's body using the lift, "Frank" asked him about the "Skeleton" and what he knew about him, "Mime" said "I know about that maimed guy much more than you know, I heard he

*made his super soldier, whatever that thing is I don't think he'll lose that soldier or put himself in a 50-50 situation with you, if I were you, I'd care about those I love most and secure them, they're gonna be his next targets" then he smiled, "Frank" left him and said "Get ready to travel, we're going to Egypt, he's after my family there" to the others... The "Mime" was sent to the "Frankenstein" prison by orders from "Shaw", till they come back from their journey in "Egypt"... He asked to see "Ivy" before she goes to "Egypt" with them, there was no time so "Shaw" told "Silver" to fly to "Egypt" and "Ivy" would follow them later...*

## {Shokry}

*The team arrived with the Jet secretly, the team this time was [Frank, Silver, Rose, Floyd, Arrow, Deadshot, Electrocutitioner, Twin & Sonya], “Hylaria” didn’t go with them because her children were days apart from getting out of the womb chamber so she had to stay in “England”, “Ivy” was ordered to go after them only when she finished her meeting with “Shaw” and other Generals from different countries including “Russia” & “China”, that meeting changed the “Sentinels” position to a totally higher level...In “Egypt”, “Frank” had a friend, the only friend “Frank” had in “Egypt” who could be trusted and real dependable, he was educated and used to have a regular family, he was*

*graduated but he had to serve in his army force for 3 years, that made him good enough with weapons and driving, his name was "Shokry"...*

*"Frank" told "Shokry" to open his eyes well and keep his focus, "Shokry" and his fellow thugs were of no match to "Skeleton's" mercenaries, "Sonya" made her investigations around the "Skeleton's" existence in "Egypt" and it was confirmed, "Skeleton" was in "Egypt" for 2 days and he got his monster with him, street rats used to call that guy "The Masked Man", "Shokry" heard about the "Skeleton" and his masked man but he didn't care saying "Who you think I am? When I was a child, I was born in hell, forced from suffering, hardened by pain, I'm not a rich boy from the privilege, no*

*man is gonna hurt anyone I am responsible of protecting, NO ONE” to “Frank”, strong words, but “Frank” knew what he was up against... “Ivy” made it to “Egypt” the next day...*

*On March 13<sup>th</sup> 2017, the “Sentinels” have been trying to hunt the “Skeleton” through his men, but they were telling the “Sentinels” what the “Skeleton” wanted them to know, then the “Skeleton” started moving, he sent a car to attack “Judge”, they were told to make it look like an accident so no guns to be used unless “Judge” shot at them, “Shokry’s” friends were ready and they attacked the attackers after some driving and shooting “Shokry’s” friends could beat the “Skeleton’s” men making them crash... What happened made “Dr. Frank” & “Judge” think*

about what "Frank" was proposing seriously, as "Frank" have been trying to convince them to move from "Egypt" to "England" but they didn't agree in the beginning... When "Frank" and the "Sentinels" came from "England" "Dr. Frank" was told everything about the threat by his son, but "Dr. Frank" said "You're talking as if it's the first time, you'll handle it my boy, I believe in you", but what happened to "Judge" made "Dr. Frank" rethink about leaving again... "Ivy" knew that "Viktoria" was in "England" with "Quiet" & "Bee"...

"Skeleton" knew that he couldn't put his hands on "Frank" except by pulling him to a real fight, so he gathered all his men and hired other Egyptian thugs and got ready to attack

the hideout belonging to the "Sentinels", "Sonya" knew that info and told the others, "Ivy" called "Frank" who was at home, "Frank" saw the "Earthquake" and its strength, he knew that he might not survive a fight against that monster but there was no one else to stop him, he said good-byes to his parents and went to the hideout, "Shokry" refused to leave him and insisted on going with him saying "If you're going for your last fight, then I'll stick with you and make sure that it's my last fight too, I'm on your side and I'm going with you", they went but "Shokry" told his men to secure "Frank's" family and keep their eyes open just in case... The team didn't intend to wait for the "Skeleton's" thugs, the trouble wasn't in finding them but it was in the fighting

technique, "Cairo" was always busy all the time...In "Alexandria", there was a place where some thugs were stealing a container from the port and took it with a truck, that container was going to the "Skeleton's" place, it was an abandoned warehouse in the desert, the same one where the "Goblin" sent "Frank" to get his and "Rorschach's" cure when he poisoned them and by chance "Ivy" was the one who "Frank" met there years ago and she saved him there, "Shokry's" friends tipped "Shokry" and told him where the masked man was, "Shokry" told "Frank" who was with him in the car, "Frank" realized that "Skeleton" wasn't gonna attack them that night, it was a diversion to attract attention and keep the "Sentinels" focus on how to protect themselves and "Frank's"

family, "Frank" called "Ivy" and told her, she told "Frank" to come to the hideout and get ready to attack "Skeleton" there...

The crew was [Frank, Ivy, Silver, Arrow, Floyd, Rose, Sonya, Deadshot, Twin & Shokry] although "Silver" didn't trust him, but "Rose" assured him that he was clean and that she made her investigations around him, besides to "Frank" trusting him, "Electrocutioner" was gonna stay in the hideout and keep the team updated and use satellite imaging to watch the situation, the "Beast" truck wasn't with them in "Egypt", it wasn't gonna fit the Egyptian streets and it wasn't allowed for them to use such sensitive technology in the Middle-East, but there was a new car for "Frank", he

liked it, it was a "1973 Ford GT Falcon coupe", he didn't use the "Chevy" because it was seen more than once besides to the fact that the "Chevy" wasn't appropriate for asphalt and city roads but it was in the hideout with "Electrocutioner" who was ready to move anytime using the "Ram", the rest of the team were using 3 modified "Jeeps", "Frank" & "Shokry" were together in the "Ford", "Rose" & "Arrow" were in a Jeep, "Ivy" & "Deadshot" were together in another Jeep, "Sonya" & "Twin" were together in the final Jeep, "Floyd" & "Silver" were together on "Floyd's" bike, the "Jeeps" were modified and got some computerized systems like alarm, electronic suspensions and other electronic options, but the "Ford"

*didn't have any of that it was just like the "Chevy", old school muscle car...*

*"Shokry's" friends told him that the truck was moving with modified "Hummer" cars protecting it and each car had 4 mercenaries armed well, that was weird "We gotta stop that truck at all costs" "Frank" said, "Ivy" asked "Shokry" to make his men follow that convoy unseen, they did it and told "Shokry" where they were, this info made "Electrocutioner" find the convoy, when he confirmed following them by satellites, "Shokry" pulled his men back to avoid an unneeded conflicts with those mercenaries, it wasn't too long till the "Sentinels" caught up with the convoy then the fight began...*

## {Inferno #6}

There were 6 "Hummer" cars behind the truck, "Floyd" used his heavy mini-gun and shot one of the "Hummers" but the cars were bullet proof and their shields were very strong, "Ivy" gave him clearance to use his missiles, the mercenaries started shooting at the "Sentinels", "Frank" told them that shooting wasn't gonna help, they needed their skills with driving, cops started chasing the convoy and to shoot at everyone, the "Twin" told "Sonya" to get him close to the police cars, she didn't agree at first but she did it, he took his claws out and opened the window then he hit a cop car on its side, the hit was very strong to kill the officer driving then the car was out of control and rolled

over in the middle of the road making other police cars crash, he told "Sonya" to hit the gas and pass by one of the "Hummer" cars, she did it, while passing, "Twin" cut down the head of the thug shooting at them, then he penetrated the driver's door and cut the car's side to the engine, that mythical destruction to the car broke it and made it stop, "Silver" used his jetpack and landed on one of the "Hummer" cars and started fighting with them, "Frank" got rid of another car and made it hit a light post, then he got close to the truck's back-side then he told "Shokry" to jump on it, "Shokry" was scared at first but he tried, a "Hummer" car crashed "Frank's" car from behind, "Shokry" was hanged on the container's back ladder, "Frank" told him to hang on, "Ivy" helped "Frank"

by crashing the "Hummer's" back-side making the driver lose control and crash another "Hummer" car leaving 2 cars securing the truck, "Rose" & "Ivy" worked on them, then suddenly an off road modified "Buick Regal 1987" appeared from nowhere and crashed "Frank's" car, but didn't stop him, "Shokry" made it to the top of the container and watched what was happening to "Frank", the "Buick" was driven by the "Earthquake", he started crashing "Frank's" car and their battle started, "Ivy" told "Shokry" to seize control over the truck and keep driving, he did it successfully and hardly, up ahead he saw a cordon of police cars on the road to stop the convoy, "Shokry" told the team to lineup behind the truck, "Frank" crashed "Earthquake's" car and took him off the road in the

desert, "Ivy" yelled to "Frank" in the radio "WHAT ARE YOU DOING FRANK?" he replied "Ivy, stay with Shokry and the others", the "Skeleton's" "Lamborghini" appeared behind the convoy with 2 "Hummer" cars, then a thug came out of the "Lamborghini's" window with a 'Chip gun', its work was to shoot chip overrides to override the computerized electronic systems in modern cars and make them remotely controlled by the thug, he shot the 3 Jeeps but couldn't shoot the motorcycle because it was fast and "Floyd" was flexible, "Rose" thought of using the tricks and she opened the oil pipes but the "Skeleton" knew about the tricks and avoided the oil, then his turn started, the thug next to him activated the chips and suddenly the "Sentinels" lost control over their cars and crashed

badly, "Silver" already got rid of the "Hummer" car he attacked, on his way he saw what happened to the "Sentinels" leaving "Floyd" alone against them, "Floyd" realized that it was gonna be a risk to keep going so he stopped suddenly and the cars passed him without stopping, the 2 "Hummer" cars surrounded the truck and thugs were gonna climb on it, "Shokry" saw them in the mirrors and used the truck and crashed them on both sides throwing them off the road and out of control, only "Skeleton" was chasing the truck, "Shokry" reached the cordon but didn't stop, he went through it with top speed and full power destroying every car and throwing them away, "Silver" stopped to check on the team and "Floyd" drove back to them, "Sonya", "Arrow" & "Deadshot" were

hurt, the others injuries weren't so bad, "Silver" ordered "Electrocutioner" to move and get to them with the "Ram" as soon as possible, "Ivy" told "Silver" to find "Frank" and help him, "Electrocutioner" sent him "Frank's" coordinates, they got shocked to know that they were back on the asphalt road but they were after the police cordon, "Floyd" couldn't follow them, the team took their injured members and went to hide in the desert's darkness waiting for "Electrocutioner" who didn't go alone... "Frank" was surprised to see the "Earthquake" driving well, "Frank's" car was getting destroyed faster because "Earthquake's" car was prepared for crashing more than "Frank's", "Ivy" realized that all this was a plan saying "This is all an ambush, the Skeleton wasn't gonna

*attack us in our hideout, he did all this and knew that we were gonna know about the truck and attack his convoy”, 25 minutes later “Electrocutioner” arrived with the “Ram”, he wasn’t too far away from them and he wasn’t alone, “Viktoria” & “Quiet” were with him in the “Chevy”, that was shocking to the whole team except “Ivy” who told everyone to move fast, she wanted to go with “Viktoria” but “Viktoria” told her not to worry and to take care of the team, she drove the car fast and passed the destroyed cordon... “Shokry” couldn’t stop because “Skeleton” was after him, he thought that he could destroy the “Lamborghini” but the thug next to the “Skeleton” pressed a button and something under the truck got broken or dismantled, it was the*

thiel brakes, when it was dismantled the "Skeleton" stopped and reversed, on his way back he met "Frank" & "Earthquake" but he didn't engage with "Frank" he passed between both cars and "Frank" couldn't stop him because he was busy with the "Earthquake", it wasn't too long till he faced "Viktoria", she passed him and sped to help "Frank", "Silver" saw him and attacked his car, on the road, "Skeleton" was faced by the "Sentinels" but he couldn't avoid them due to distraction by "Silver", they crashed his "Lamborghini" with the "Ram" and caught him and his thug who died later because of his injury in that crash, the "Skeleton" wasn't dead but he was hurt and "Silver" jumped before the crash, "Viktoria" didn't crash the "Earthquake's" car, "Quiet"

shot his tires stopping him by force, "Frank" & "Viktoria" stopped, "Frank" got out of the car and said "Viktoria, get away from him" she said "Don't worry I got it in control" then "Earthquake" got out of its car without a gun in hand, when he saw "Frank" he walked to him ignoring "Viktoria" & "Quiet", "Viktoria's" attempts to stop him with words didn't work so she shot him in his leg, he didn't move a muscle or show any sign of affection, but when he was shot he looked at "Viktoria" and tried to attack her, "Quiet" shot him in the head but it didn't work too, "Frank" interfered and tossed his shield to hit him then he engaged with him in a brawler fight, "Shokry" called the others and told them that he can't stop the truck and got no brakes, he met another cordon but this time he didn't

go through it, he drifted with the truck although it was even harder to do that without brakes but he did it and drove back escaping from the cops, then he took a dust road, "Frank" told "Viktoria" & "Quiet" to go and help "Shokry", they didn't know him, but it was easy to find him because he was driving a truck fast on a dust road, "Viktoria's" new revolver wasn't regular, it got a grenade launcher, she pulled "Frank" back and shot the monster with the grenade in its chest, it made an explosion but the monster didn't get destroyed, it just fall down at a distance with no movement, they thought it died, "Frank" took advantage and took his car to follow "Shokry" who was followed by cops, "Viktoria" followed him then a "Zimmer Golden Spirit" classic car

appeared from nowhere and started destroying and crashing the police cars in a clever way, "Shokry" reported what was happening, "Frank" knew who was that and comforted "Shokry", "Frank" made it to "Shokry" and the "Zimmer" car, "Frank's" suspicion was right, it was "Victor", he came back to help his brother, but the trouble was how to stop the truck... There was no time, "Shokry" said "There's a cliff up ahead, Frank you gotta stop" "Frank" told "Shokry" to jump but he said "I can't, I'll die with them, there are kids in the container, Mark" that was shocking to everyone, "Shokry" knew that because while he was driving he heard them knocking and screaming for help, "Frank" told "Shokry" to hang on and told his brother and "Viktoria" to stop, "Viktoria" stopped,

but "Victor" didn't although "Frank" tried to crash his car to stop him, "Silver" heard what "Shokry" said and landed on the truck and said to "Shokry" "Use your full speed, you might make the jump" then "Shokry" noticed that there was a lower level where the truck might not crash or explode, "Shokry" did what "Silver" said and hit the gas, "Victor" saw the cliff so he looked at "Frank" who was driving side by side with him and "Frank" looked at him as if they were saying "We did all this, we deserve to die with them too, at least we'll die together" then the truck made the jump to the other lower side with no explosion or disastrous crash, its engine just stopped and for the good luck it got stuck in the thick sand, the "Isaac" brothers made the jump, their

landing wasn't safe but both of them weren't hurt, "Frank's" suit saved him and "Victor" couldn't be hurt, he was just stuck and "Frank" pulled him out, "Silver" was okay because he jumped using his jetpack before the jump, then he opened the container to free the kids, they were Asian boys and girls from "Indonesia", "Singapore" & "Malaysia", they were kidnapped and transported by a guy who was known later to be one of the Triads, he was trading in people and "Skeleton" bought them from him specially for that job, some of them were hurt because of the jump but no one of them died, the "Sentinels" had to leave to take care of their injuries and their prisoner, "Skeleton", but for everyone's shock, the monster "Earthquake" was nowhere in sight which was a serious

*trouble to the "Sentinels"... "Floyd" & "Viktoria" told the Egyptian authorities that they were hunting a terrorist and it was an Intelligence operation, no press, no media, no one should know about what happened that night...*

*Hours later, "Dr. Frank" called "Frank" and told him that "Venom" and her husband were kidnapped by thugs, "Judge" and his wife were with them and got shot but not dead, that made "Frank" angry and asked to see "Skeleton" as soon as possible, "Shokry's" friends told him what happened, "Ivy" was told by "Sonya" who got eyes and ears everywhere close to "Frank's" family, "Ivy" refused to let "Frank" talk to "Skeleton" while he was angry but he insisted, she agreed*

only in her presence inside, "Frank" asked him directly "Where are they?" "Skeleton" said "I don't know what you're talking about! I was chasing you and your men, who did you leave them with? Your men! Assuming that they're your men and not just hired killers... Does it depress you Frankenstein? Just to know how pathetic you really are..." "Frank" pulled him from his clothes and asked him again "I won't ask again, WHERE ARE THEY?" "Ivy" told "Frank" to calm down or they'd know nothing, "Victor" appeared in the room and asked "Frank" & "Ivy" to leave them, it wasn't accepted so "Victor" froze time to everyone except "Skeleton", "Victor" said "Now you gotta talk or you'll be sorry to mess with ME" "Skeleton" replied "You know what Vic?! We're

*just the same, we act like we dominate everything and everyone, while actually we're like dogs chasing cars, we don't know what are we gonna do when we catch one, we don't seek anything logical like money or power, that's why we can't be bought or bullied or even negotiated with, we exist to burn the world and watch it burning" "Victor" said "I know what I want you bloody freak... Earth has to die and start from the ashes, but I have been trying to avoid that for centuries but as long as people like him exists..." then pointed at "Frank" and continued "...there will always be a stopping to people like both of us despite our best efforts, regardless to the fact that WE are right and he's VERY wrong about everything" "Skeleton" didn't understand "So why do you keep*

helping him?! You can kill him in a blink” “Victor” used his telekinesis power and hanged “Skeleton” from his throat asking him about “Venom” & her husband, he replied “They’re safe but I gotta catch my plane with my men you caught, or you and them would be sorry to mess with ME” “Victor” asked him where was his plane and “Skeleton” told him where was the runway where the deal was gonna take place, the deal was leaving the “Skeleton” without chasing and his men would release the hostages on the same runway where he’d catch his plane, “Victor” released time and everyone was moving and aware again, “Victor” told “Ivy” & “Frank” what the “Skeleton” said, “Shaw” saw that if they let “Skeleton” go, there might be no chance to catch him again but he

couldn't tell "Frank" to forget about "Venom" and her husband, "Silver" who was senseless said "2 hostages won't change our policies, we do NOT negotiate with terrorists, we caught him and that was our task" everyone refused "Silver's" opinion, "Rose" said "That's your bloody task, but we're family, an attack on one is attack on all of us, I'm with Frank, this job isn't official, you are all free to make your own choices" to everyone, no one backed down and all the "Sentinels" members agreed to take place in this job including "Silver", "Skeleton" and his men were released and given cars, his men made sure that the cars had no trackers or explosives when they were ready to go, the "Skeleton" put on his hat and warned them from following him, then he rode the car and left,

*“Skeleton” had his things<sup>[9]</sup> and tried to make a call to his men on the cargo plane to kill the hostages and pick them up, but for some reason, he couldn’t make the call, “Bee” sent one of his electronic bees on the “Skeleton’s” car, its job was to block communications and radio signals from the vehicle, then the “Sentinels” moved after him... Everyone was alright because “Victor” used magic to heal their injuries and scars...*

## {Hell On Earth}

The team was [Frank, Victor, Rose, Floyd, Arrow, Ivy, Silver, Sonya, Deadshot, Electrocutioner, Twin, Viktoria & Quiet], "Bee" was in the base helping by any means, there were 2 more on the team but they joined the fight late... The crew followed the "Skeleton" using the bee on his car as a tracker, it wasn't too long till they caught up with them at the "Cairo's" airport, then the "Skeleton" and his men broke in to the airstrip, that was weird "What's he gonna do on the airstrip?!!" "Floyd" asked, then soon everyone understood, the plane was one of the biggest cargo planes on earth, it landed but it wasn't gonna stop, it opened its back and the "Skeleton" made it on board, "Silver" said "If the

*Skeleton and his men made it on this plane and it took off, he's good as dead"*  
*"Frank" said "Ain't gonna happen, we'll stop him"... The team was distributed on cars, "Frank" & "Rose" were together in the "Mitsubishi", "Victor" & "Ivy" were in "Victor's" "Zimmer"-after he fixed it with magic-"Silver" & "Arrow" were in a "Range Rover" belonging to the organization, "Twin", "Sonya" & "Electrocutioner" were together in the "Ram", "Deadshot" & "Floyd" were together in another "Range Rover", "Viktoria" & "Quiet" were using the "Chevy"... Another car of the "Skeleton's" men made it on the plane, there were 2 more cars, "Sonya" stopped one from getting on board and "Viktoria" stopped the other one, there were many armed thugs on board of the plane*

already, "Frank" hit the gas and got on board, "Victor" & "Ivy" got on board after him, "Frank's" entrance was fast, he hit 3 thugs and killed them with the car, "Victor" didn't kill anyone in his entrance, some thugs attacked the 2 cars and the "Sentinels" members, others covered the plane's back by shooting at the "Sentinels" cars outside, inside the plane there was a surprise, the "Earthquake" was on board, "Skeleton" activated him and ordered him to kill them, he had some help from the thugs, 4 more cars from regular thugs joined the fight from behind, they were hired by the "Skeleton", but they were easy targets for "Deadshot" & "Quiet" to shoot the drivers and tires stopping these cars, "Viktoria" got rid of the car she stopped from getting on board earlier...In the

plane, "Frank" had a savage fight with the "Earthquake", the thugs were good fighters too, but not better than "Victor" and the "Sentinels" members, "Skeleton" was ready for "Victor", he loaded his gun by a special bullet and shot "Victor" with it, at first "Victor" felt nothing, a second later, he started to feel bad and realized that he was poisoned somehow, "Rose" tried to help him but she was busy by the thugs, "Silver" used his jetpack and got on board to help the others, "Skeleton" told his men to make the pilots take off, they replied in Chinese "We're too heavy we can't take off, lose some weight" "Ivy" knew the language and told the team that the plane was taking off but they had to lose weight, the thugs tried to get rid of some cars of theirs, there were some well trained

thugs inside, they were good fighters and the "Sentinels" needed external help, later on they discovered that those thugs weren't the "Skeleton's" men, they were ninjas from the Chinese Triad, "Deadshot" dropped "Floyd" on the plane's wheels after taking the wheel then he made his way on board, the "Sentinels" couldn't drive behind the plane because the thugs were shooting at them, so they drove on the sides, "Viktoria" noticed that the plane was taking off so she told "Quiet" to shoot the engine with her m203 grenade launcher, she did it and destroyed the engine on their side, "Electrocutioner" shot the plane's tank, leaking fuel was gonna stop them for sure and they landed again for real, suddenly and out of the blue, a sports motorbike came from far away too fast

and shocked the thugs by getting on board fast, there were 2 passengers on the bike, the one behind the driver was the "Predator", he jumped off the bike and took care of the shooters with his bare hands, he was fast and powerful, the biker was a surprise, it was the "Mime", he kept going inside passing everyone to the front where the "Skeleton" was, he was secured with some of his men, "Mime" was a good fighter and got rid of them, then they faced each other, "Mime" didn't speak but "Skeleton" said "I could expect anything from you but I never expected that you're a government spook, AGAIN" then he got ready to fight him hand-to-hand, "Skeleton" was a good fighter too but getting old, "Victor's" condition was bad, "Ivy" took him in his car and got out of the plane, "Frank"

noticed that the only weak spot in "Earthquake" was his mask, so "Frank" shot him in the mask, that made him feel the pain for seconds then he lost control and started destroying the plane and any boxes or cars and killed anyone who fall in his hands then he started attacking "Frank", "Rose" throw her hammer on him taking him off balance, "Victor" told "Ivy" to go and help the others, he called his carriage and rode it, "Victor's" magic was to heal scars and injuries but not poisons, he told her that he'd go to "England" and find a cure for himself, she didn't wanna leave him but he told her that he didn't wanna lose his second daughter, then she drove behind them, "Shokry" was on his way after the plane but he saw "Victor" and his carriage flying which was amazing

to him, "Victor" didn't notice him, "Shokry" was told by "Frank" not to interfere in this fight for his safety, but he didn't listen, he got an old modified "Lada" and sped behind them, "Ivy" noticed him but didn't try to stop him, "Twin" jumped on "Arrow's" car and took the wheel, "Arrow" took his bow and an explosive arrow and shot the other engine destroying it, "Floyd", "Predator" & "Silver" took care of the thugs in the plane but "Frank" & "Rose" tried to contain the "Earthquake" as much as they could, then "Frank" jumped on his back and put an electric chip on the mask and activated it, the electrical shock made his Arduino microcontroller get damaged then "Rose" stabbed him in the heart with her knife, it felt the pain for a while then fall on the floor, "Mime" beat the

*“Skeleton” down, “Skeleton” said  
“Why are you helping them, they’ll  
hunt you later” “Mime” replied “Who  
cares?! The world took everything from  
me, now I burn it and laugh from the  
inside, like a mime, I won’t stain my  
clothes with your blood but I’ll watch  
you burn and laugh” then he laughed  
and left him then he freed the hostages  
and took them to the back of the plane,  
but the plane started to collapse, “Ivy”  
didn’t get on board but “Shokry” did  
and yelled to them “COME ON, WE  
GOTTA GO THE PLANE WILL CRASH  
SOON” “Floyd” & “Rose” rode with  
“Shokry” and so did the hostages, the  
“Mitsubishi” was broken and its tires  
were shot, “Frank” told “Silver” to  
jump with his jetpack but he told him  
that he won’t leave him, “Mime” &  
“Predator” said the same, they got to*

*the side door and got ready to jump on the "Ram", "Sonya" slowed down and kept the car steady, "Silver" jumped with his jetpack, then "Predator" jumped on the "Ram" successfully, "Mime" jumped too, "Earthquake" stopped "Frank" from jumping, it wasn't dead yet, then "Skeleton" said to "Frank" "We'll die together, Frankenstein, there's no place here for us" and "Frank" fought with "Earthquake" again, but this time it was tired and in pain, "Shokry" moved back with the "Lada" to the runway before the big boxes block the back door, "Rose" saw the "Ram" but didn't see "Frank" on it, then the plane's left engine fall on the ground and the high friction caused an explosion besides to the leaking fuel and the burning right engine, the plane became like 'Hell on*

*Earth' the "Sentinels" saw that and had to speed to the plane's front and run from it as fast as possible till it stopped then the cars stopped, behind the plane there was no room for driving or stopping, because the leakage of the fuel and fire made the area behind the plane like a volcanic lava, "Ivy" got out of the car and asked about "Frank" after hugging "Rose" strongly but no one answered, she wanted to run in the fire and get him out but "Silver" & "Viktoria" stopped her and "Floyd" held "Rose" strongly too, "Twin" ran fast and no one had a chance to stop him, he jumped in the fire and could find "Frank" who was breathing heavily and fainted, his suit was broken and its systems were sabotaged, the "Skeleton" didn't die at once, when he saw the "Twin" he said "Help me"*

hardly, the "Twin" lifted "Frank" on his shoulder then he looked at the "Skeleton" and said "I won't kill you, but I won't save you" and got out of the fire, that gave the others hope when they knew that he was breathing they were all thrilled that he was alive, the "Skeleton" died... The crew barely survived this time and they had some help from outsiders, but still the "Mime's" existence in "Egypt" and his help to them was a mystery to the "Sentinels", but "Ivy" & "Viktoria" knew the drill... When "Frank" had his consciousness back the next day in "Wales", everyone was around him and were very happy when he woke up, [Ivy, Paige, Jenny, Hylaria, Rose, Floyd, Arrow, Agent X, Electrocutioner, Deadshot, Cain, Sonya & Viktoria] were next to him, that made him feel

that thing he never felt before, the feeling of "Family", "Jenny" who was very emotional cried next to him and kissed him, he said to her "Don't worry my love, I'm a living legend, I don't even need a weapon to prove it" they confirmed his strong words... "Venom" & her husband found jobs in "Canada" and were said to immigrate there in May 2017, later on, "Frank" asked "Ivy" to manage ways and means to get good jobs for the rest of his relatives in different countries without being noticed that he's responsible, he didn't want his relatives to know how powerful he was, "Ivy" agreed...

"Victor" went to "Monica" who gave him a temporal cure, but the main cure for that poison was hidden for centuries in the "Bran" castle in

*“Romania”, also referred to as “Dracula’s” castle, so he had to go there and acquire it, no easy task...*

### *{Dracula’s Castle}*

*The poison “Victor” was shot with, was a very old magical compound, recreated by “Rumple” in the recent time, it was made of some natural old magical components, this poison was created for a special reason, it was made in 1246 AD as a way to kill wizards and immortals, dark magic wasn’t enough to cure that poison, but there was 1 cure for it in the mythical castle of “Bran”-“Romania”, it was a plant that never died or needed water to grow, only few people knew about that cure because nearly the poison wasn’t used except 3 or 4 times in*

history, one of them was on "Rumple", but "Rumple" used to know about it and was alright ever since because he acquired a branch from it to cure himself whenever he needed and kept it somewhere safe away from his shop in "Moscow", "Rumple" gave the poison in a bullet to "Skeleton" back in "Russia" when "Skeleton" asked for a way to kill "Victor", "Rumple" gave him that only way to beat "Victor" in return of a lot money, "Emma"- "Rumple's" daughter-took that amount of money and could never be found later...

"Victor" knew about that poison and its cure a long time ago, but he was so tired and dying, he needed that temporal cure till he could go there and get the plant, that journey wasn't

gonna be easy and the "Sentinels" were tired and weren't gonna help, he appreciated their help at the "Alps", this time he had to do it with some external help... He knew that his loyal student "Zof" was in the "Frankenstein" prison, he used his golden eye to find him inside, when he did, he appeared to him in his cell, once he appeared inside "Zof" said "Boss!! I thought you died, how..." "Victor" got no time to waste so he said "Are you ready to serve again boy?" "Zof" confirmed and told him that the others were in the same prison, "Victor" told him that they were not gonna need them, then both men disappeared from the cell and appeared in "Monica's" place, "Victor" told "Zof" that he was poisoned and that he was gonna need his help to get in the castle and beat the giant

*'Vampire Bat' and the 'Knight Guard' inside, "Zof" heard rumours about the creature and the knight, he was scared at first but he agreed... "Victor" & "Zof" flew together by the carriage to "Bran" after getting ready, in 3 hours they made it there, "Victor" & "Zof" got in regularly then they reached a secret door and "Victor" opened it by magic, but when they opened it, a knight with plate armour from the 14<sup>th</sup> century showed up, he was the 'Knight Guard' "Victor" talked about, when the door was opened the knight started moving, he had a sword and shield like "Victor" so they fought, at the end "Victor" cut his head off but he didn't die, he put his head back to its position and kept fighting, that was a surprise to "Victor" so he used magic and teleported the knight somewhere else in the castle*

then they got in, it wasn't too long till they faced some traps, then flying insects attacked them but "Victor" was ready and casted a spell fast killing the weird poisonous flies, they were getting down to a lower level like a cave, in 30 minutes, both men reached a huge underground cave full of hanging bats, their sizes were big but not as the big one, there was an exist through a river which was a tributary from the "Bran" river, the plant was exactly where the big bat was sleeping, "Zof" had a special shotgun with special bullets, "Victor" had to get there while the creature was asleep, bats sleep hanging from their legs, the plant was under it, "Victor" had to move in the dark and slowly, he tried but when he tried the other bats flew around the place fast and passed "Zof" making him move

and make noise, that made the creature wake up, it hit "Victor" and tried to kill him, but "Victor" hit it with his golden sword, the fight between "Victor" and the creature was massive, "Zof" shot some big bats then he shot the creature in its back making it attacked "Zof", "Victor" took the plant fast then he turned to "Zof" and the creature, he opened his hand and his golden spear appeared in his hand then he threw it on the creature's heart it was painful and the creature roared loudly, then it flew towards "Victor" and he jumped towards it with his sword and cut down its head then fall on the ground, when that happened, big bats started attacking both men, they hid between rocks and "Zof" asked "Victor" with fear in his voice "What are we gonna do? What are we

*gonna do now?!" then "Victor" called his crows which got in through the river's exist, "Zof" asked "Victor" about what was happening and "Victor" replied with one word "Backup", in the mess, a 500+ crows surrounded "Victor" & "Zof" then both men disappeared from the cave and the crows flew through the river's exist, the show "Victor" did was impressive to "Zof" but the adventure was terrifying and dangerous, "Zof" was a brave man... "Victor" returned back to "Monica" who helped him with the plant and made the cure for him, it was dangerous to leave "Zof" alive or free, "Victor" without talking sent "Zof" back to his cell in the prison after making "Monica" take his memories about what happened and "Victor" healed his injuries as if he never left*

*the prison and he would never remember what happened that night... When "Victor" became okay, it was time to pay his brother a visit...*

## {The Winds of Change}

*“Ivy” was told by “Borne” that “Rumple” disappeared from his cell, “Ivy” knew that “Victor” was behind this but she didn’t tell “Borne” anything and told him to keep that a secret... “Victor” healed “Frank’s” injuries and serious burns, then he told “Frank” that they got a lot to say in private so he froze time again and started talking “I know what you did to my daughter, bro” that was shocking to “Frank” “So you froze time to kill me silently, you got the upper hand here” he said, “Victor” replied “No, I won’t kill you, you welcome death, I’m gonna torture your soul, everyone will see this a gift, only you will know that it’s a curse” then he waved with his hand and a pulse hit the place, “Frank”*

asked "What did you do?!" "Victor" replied "Despite being almost petrified by fear, I managed to escape, I'm the worst person you'll ever meet, brother" then he released time and everything became normal, "Victor" said "You did what you had to do, but it doesn't mean that it was right, you gotta live with that alone" "Frank" replied "Sometimes what's right isn't exactly the good thing to be done, sometimes it's painful, we needed you and you needed to live again to finish your business, magic & science are opposite, I improvised and used both" "Hylaria" got in and noticed that there was something wrong, she asked "What's wrong?" "Victor" replied "Nothing, he's just mad because I'm leaving, I got a lot to do before I go hiding" "Hylaria" said "Why would you hide? We can live

here together as family now!" "Frank" said "That word 'family' wasn't created for people like him" "Victor" smiled and confirmed "Frank's" words, "Hylaria" noticed that her existence was not welcomed so she told them that she was gonna check on "Jenny" and left, "Frank" asked "Victor" about the pyramid and the weird things happening in the villa, "Victor" said "The pyramid is a gate of time, it takes whoever gets in to another dimension of time, back to the pharaohs era, whoever goes there never comes back, I used to have an immortal soul, I got reincarnated many times in different bodies so I thought of making someone immortal among time, to become one man and I did that using magic, then I started going back by time using all the known time gates, going everywhere in

*every time, changing dramatic and historical events all over the world”*  
*“Frank” asked “What events did you change?” “Victor” replied “More than I can remember, but I can tell you that I made the Rothschild’s glory and I was the first guy in their criminal road, actually I pulled them to criminality, Kennedy was not gonna die that day in Texas in November 22<sup>nd</sup> 1963, he was gonna die in 1966 in Washington DC and the Arab world was gonna take the blame, the early death disturbed everyone but they covered it well, many incidents in the WWI & WWII were not to happen like the world knows now, Hitler never killed himself, I finished him when I appeared in his office and shot him, they had to say that he killed himself to reduce their humiliation but he never intended to*

kill himself, if I didn't kill him that night, he would have been killed by his own army forces and it was gonna be a huge carnage in Berlin between the loyal supporters and the oppositions, the German army wasn't stopped because of gas shortage in Al-Alamen area, they were stopped by me and they surrendered to me personally, then I delivered them to the British and buried whoever I killed under the sand on boards with Libya using magic of course, the Egyptian president Nasir was gonna die in Manshia by the Muslim Brotherhood's bullets, but the country needed him and I liked him actually so I moved the bullet away from him that day, then he was poisoned because he was gonna lose the war and Cairo was gonna be invaded by USA & Israel in 1972, that

*was gonna destroy the Egyptians completely, Nixon was a good guy but someone didn't like him and his life was gonna end violently, so he had to leave the White House by a set-up I planned, I was behind the American's humiliating defeat in Vietnam because what they were gonna do if they won was gonna be so savage and cruel to the poor Asians, besides to the fact that I had a lot of friends in the Soviet Union, and so many other things since the pharaohs time and TILL NOW" "Frank" didn't know what he meant "I don't care much about all that, what about Rorschach? You have any idea what happened to him??" "Victor" said "I knew that he was with you in the pyramid, my wife gave you clearance to go back to this time, she usually doesn't do that, but you were lucky to wear my*

mask there” “Frank” was astonished  
“Your wife?!! The Queen was your wife?”  
“Victor” replied “Gods of Egypt were  
just magicians like me and Rumpel,  
the Egyptians worshiped us and made  
us Gods, but we were existing people  
not mythical creatures or invented  
ideas, my wife was Goddess Hathor<sup>[10]</sup>,  
not the Queen, I was God Anhur<sup>[11]</sup> and  
people used to call me ‘The Slayer of  
Enemies’, sometimes the drawings don’t  
reveal our real looks and legends are  
not all said or recorded, Rorschach was  
cursed and so were you, you could  
overcome it but he didn’t, she knew  
who you are when you left, she thought  
you were me all the time, I told her, but  
it was impossible to remove the curse,  
not even me could” “Frank” said “He  
could have overcame it, but he wasn’t  
given the chance” “Victor” didn’t

*understand and didn't seem to care, he said his final words to "Frank" "Ignore this now, it's past, I ask the toil of your brow that you might be better than me and teach people to do the right thing, no easy task brother, you'll feel all humankind's labors on your shoulders but the yoke of your burdens has the responsibility of your old and new family, which I put in YOUR hands, Frankenstein" then "Victor" froze time and froze "Frank" with everyone, he wrote a farewell letter to everyone then he put his letter in "Ivy's" room and fixed it with his golden dagger on a table, he kissed her then he disappeared and released time...*

*“Ivy” noticed the letter in her room, “Frank” went to check on his women and kids, “Ivy” called for everyone to gather at the palace’s meeting hall, everyone attended and “Ivy” told them that “Victor” left a letter for them, she read it loudly, it was supportive and positive to everyone... “Ivy” called “Silver” for an announcement, he wasn’t alone, [Predator, Viktoria, Quiet, Bee, Chen & Mime] were with him in a van, then “Ivy” said “There are some changes gonna happen in the team, there are new comers in the team and others are gonna leave us unfortunately, the Sentinels are no longer a NATO tactical team, we’re now an independent crew, called by any government in the world to do jobs and stop things the world can’t do or stop, WE the Sentinels, WE Rule the World”,*

*the members who left the crew left because they thought that they couldn't do this anymore and others who retired, [Paige, Jenny, Hylaria & Agent X] retired to take care of their kids and they wouldn't be official members anymore, [Deadshot, Ivy & Cain] decided to stop and retire, "Ivy" was gonna be the operations manager for the team and became a Major, she wasn't gonna share them the field like she used to do, leaving Major "Silver" to be the only field leader in the team, "Cain" decided to work for "England" as a technology developer, creating new weapons and tools in the place "Shaw" showed "Frank" earlier, "Deadshot" decided to retire from this job, he said that but in fact "Shaw" wanted him away from the team so that he can use him for special assassinations, the new*

comers were [Viktoria, Bee, Quiet, Predator, Chen & Mime] "Bee" wasn't a fighting member he was gonna work on technology development and electronic stuff from the base, but he was gonna create tools and stuff for the team mainly, "Quiet" became the new sniper of the crew after "Deadshot", "Viktoria" was added to the team and she was the Russian representative in the international team, she told them that the Russian chase to the "Sentinels" was over, "Chen" was the Chinese representative in the team, the "Predator" was a friend, the problem that everyone had was the "Mime", "Frank" wasn't sure that they could trust the "Mime" but "Ivy" told "Frank" that he was working undercover for a long time and he was put in the mental asylum by the "Community" while he

was okay, this was justice to him and a chance he wouldn't wanna miss, "Frank" agreed and welcomed the "Mime" in the crew, "Silver" said "We got a present for you, Frank" then he gave "Frank" a round thing with presents papers and told him to open it, he did it and was surprised with it, it was a new shield for "Frankenstein" instead of the "NATO's" one, "Frank" was upset because of that change but "Hylaria" told him that they would always be next to him and that they would be there for him anytime he needed, he was a little comforted because that change eliminated dangers from his beloved ones, except "Rose" who was still on the team but he trusted "Floyd's" existence was gonna help him to take care of her... Later on, the "Sentinels" made their own flag

*and put it in the mansion's garden to be a logo and a symbol for the kids to see when they grow up...*

*“Frank” didn’t believe that it was all, when he caught the letter left by “Victor”, something weird happened, as if there was a layer on the paper, it got burnt and the words on the paper changed once he touched it, “Frank” saw it and told “Ivy” & “Rose” to come with him in everyone’s amazement, “Victor” wrote that secret letter to “Frank”, “Ivy” & “Rose” specially and there was strange red logo on the letter’s top, he wrote “My dear brother, it’s gonna be hard to leave you, Rose & Ivy again but you know that I have to, I finished my unfinished business with you, Mark, there’s nothing left anymore in this time to be done, what*

*happened all this time is gonna be mythical and probably no man kind will know about us saving humanity from a certain freefall to the abyss of dark magic, it's good for them not to know or believe any of this for their own sake because man's reach exceeds his imagination, 'Heroes aren't heroes because their adventures are known, they are heroes because they do the RIGHT thing', I still have some things to do in different places in the world, but don't worry I'll keep my head down and cause no troubles I promise, your life is yours for now and I wish you luck with it, stay low and have some rest because when things get worse again, they'll call you out and I'll be there for you always as your ally, like I told you before, you already read that in my book, but I was wrong, I told you*

that I'm your only ally but in fact, your family are your real allies, I had a lot of students and trainees from all over the world but you are and will always be my greatest creation, YOUR BROTHER" when he finished reading the letter got burnt and turned to ashes, in "Rose's" room there was a skull ring, it was her father's gift for her to make her remember him always with a small note written on it "Remember me my dear", in "Frank's" room, "Victor" left his old coin for his bro, "Frank" thought that he lost it but it was "Victor" who took years ago with a note for "Frank" "Now you will never forget"... When "Frank" returned to "Egypt" he called "Shokry" and gave him his passports and money as "Frank" promised him, before both men leave, they shook hands and "Shokry" said

*"I'll miss you, Mark" "Frank" wished him luck in his life and left... On April 7<sup>th</sup> 2017, "Achilles" & "Eve" came to life healthy and beautiful, the first 'big' lunch the family had in the Mansion after "Achilles" & "Eve" were born, everyone from the family was there [Frank, Hylaria, Paige, Jenny, Ivy, Rose, Floyd, Arrow, Agent X, Electrocutitioner, Sonya & Cain] with the little kids and little "Mark", besides to "Arrow's" child who was called "Frank" too, little "Frank", when they sat "Frank" said "Before we eat, I want to make a family protocol, every time we sit on the table together, Arrow is gonna bless our table, starting from now" this was beautiful and had acceptance from everyone, they grabbed each others hands and "Arrow" blessed the table saying "Dear Lord,*

*thank you for gathering the friends and making family out of them, we give thanks to all the choices we made that made us who we are and what we represent in life, let us forever share the love to each other and to the deceased ones we lost in duty, thank you for our little angels Frank, Victor, Achilles, Ercole & Eve, the recent additions to our family and thank you for bringing us all home safely without loses, Amen'* they got touched by his words and clapped their hands...

*The curse "Victor" was talking about was cursing "Frank's" kids, he gave them abilities and powers like gifts, they were noticed and flourished by the years, little "Victor" had a Healing Factor and his nature was like wolves, his nails could get longer and shorter*

by will and they were very sharp and strong enough to carve in steel, besides to high agility and aggressive nature, later on he became a hunter and started hunting outlaw mutants and wizards, he wasn't officially an agent but he was called when there was something abnormal, "Ercole" had a genetic deformation that made his muscles solid and strong enough to bend steel or lift a truck/train without effort meaning that he got Super Strength, besides to immunity against poisons or any kind of weapons, "Achilles" had the power of Telekinesis and later he became an amazing magician and illusionist, "Eve" had the power of Mind Reading, Hypnotism and Intangibility then she became "Achilles's" ingenieur and tricks designer in the future... No one

*could notice these powers before but they were getting exposed by coincidences and chances, everyone saw that these were gifts and it was logic because "Frank" was the one with the chosen brain, maybe the kids inherited his weirdness in their genes, besides to the fact that little "Mark" got special powers of Metal Manipulation confirming that these were inherited powers from the family, but he knew that his kids were cursed and could never say anything to anyone, all he could do was to wait for whatever the future has for him and his family...*

*When "Frank" was alone with his 4 children one day, he looked at them and said "One day the 4 of you are gonna look for the secret behind this, but you won't find it of course, because*

*you will not look for real, you'll like it and will never wanna work it out, but you'll always be fooled by your uncle and me, stick together and you'll be 'The Eighth Wonder of The World' and no mankind would be able to stand in your way, I wish you'll ever forgive me for that, MOTHER FORGIVE ME" Little "Mark" heard him but he was too young to understand anything yet, for some reason he was touched by "Frank's" words and could never forget them...*

{Album}

*(Frank's new suit and shield)*

*(Floyd's electrical sticks)*
