

{Prologue}

The following events took place between November 2019 & November 2025, this is the 6th part of the “Markenstein Legend”...

When “Viktoria” left the “Sentinels” crew; because she turned 40 in 2019 and it was officially not allowed for any agent above 40 years old to be a member in the international crew; “Frank” & “Ivy” told “Viktoria” that they would be there for her whenever she asks for help, but “Viktoria” wasn’t that kind of people who asks for help even if she was in a tangle, but what happened to her and them during these years forced them to unite once again...

{Russia}

In November 2019, "Viktoria" packed her things in "USA" & "UK" and went back to her country, "Russia", where troubles were waiting her already...

"Russia" announced the reincarnation of the mighty "KGB" and making it manage all the intelligence operations in the Russian Federation... "Viktoria" was one of the first agents to join the new intelligence division, once she arrived "Moscow", the new head of the "KGB" welcomed her and gave her a file to be her new mission, a terrorist who was responsible of many attacks on the country and several assassinations happened because of him, the new

head of the "KGB" was a dangerous senseless man named "Vasily Sokolov", the terrorist's name was "Black Mask", it was the only name they knew for this guy...

"Black Mask" was preparing himself and his men for an attack, the metro network underground was very wide and used to be crowded always, if a hit happened there, hundreds of people will die in a second... The attack was a coverage on a special deal, the deal was for a special compound, the "Green Goo", the Russians found a way to make it, no one knew anything about the deal, but the Mob hired thugs to do this job as a distraction to the government, the "FSB's" special agents could successfully stop the threat and diffuse a bomb in the "Mayakovskaya" station, on the other

side, the deal was made between "Black Mask" and the Japanese "Yakuza" crime family, the "KGB's" spies knew the drill, "Viktoria" was told and she prepared herself to attack the deal, the info came as a footage of "Black Mask", "Viktoria" attacked alone and her input was devastating and destructive, but "Black Mask" escaped and the compound vanished...Whoever was caught by "Viktoria" had nothing much to say about anyone or anything, the thugs who she caught were Russians and Japanese, the "Yakuzas" had men in "Moscow" and they didn't like the government's move, so the "Yakuzas" sent some men to take down the police cars transporting the thugs from the crime scene to the "KGB's" headquarters, their attack was exact and caused damage, one of them was

very dangerous and he was leading the attack, the trick wasn't to save their men but to kill them, to prevent them from testifying about the deal or the compound, the Japanese guy was wanted in many countries, thugs and "Yakuzas" used to call him "Rogue"... "Viktoria" was very strong and tough enough to attract attention to her again...

"Russia" fall in corruption troubles, since the presidential elections in 2018, the new president was weak and his ministers were corrupted, that time "USA" was discussing the usage of a new weapon in the Congress with a scientist named "Allan Boyle", this project was a point of conflict between both countries "USA" & "Russia", because "Russia" saw that this might threaten their national security and

“USA” replied with aggression mentioning the chemical weapons and secret experiments in “Russia”, besides to the fact of selling weapons of mass destruction to “Iran” & “Syria”...The “Dmitry” brothers were members in the “KGB” that time...

“Viktoria” decided to look for the responsible of the attack on the escort taking those thugs she caught to the “KGB’s” headquarters, in 2 days, she was ordered by “Vasily” to keep digging behind “Black Mask” and forget the “Yakuza” gang, but no one was powerful enough to stop “Viktoria”...“Viktoria” knew that “Black Mask” was a member in the “Dark Shadows”, but when the organization fall on the hands of “Frankenstein”, a lot of the organization’s members disappeared,

some of them joined the Mob, others joined the Cartels in "Mexico", the rest joined several terrorist organizations around the globe using their skills and gifts...In early 2019, the Chinese Triad were limited and whoever managing their operations had to move to "USA" & "Russia", somehow the new government knew that they were posing a threat to the country and their president, so the hunt started in February and for months till late November of the same year when things got colder and safer in "China", the war against the triads costed the country too much...In "Japan", the country was split between 2 mighty crime families, they controlled everything in industry and technology in "Tokyo", the "Goto" family & the "Yakuza" family, the "Yakuza" family were more powerful and wildly

expanded their operations to many places around the world even "Russia" & "USA", "Rogue" wasn't a member of any family, but he was used by the "Yakuza" gang to do special jobs, he was more like a private assassin, the "Yakuza" family member and boss in "Russia", "Takada", ordered "Rogue" to kill "Viktoria" as a payback for what she did to his men...

"Viktoria" wasn't easy to be found, but easy to attract her attention using her mother and brother, her brother was a cop and he was younger than her, had a wife and 2 kids, "Rogue" knew all these info about "Viktoria" and decided to hunt her starting from that weak spot... "Black Mask" had a contact inside the "FSB" and used to know all the agency's moves and all the needed info about any agent in any agency,

but he couldn't know the info "Rogue" knew about "Viktoria"; but he didn't care much for her, he was hired for a big job, a seriously dangerous one...

{Voyna #1}

In "Samara" city, there was a military base with a special lab, there was a project to create a microchip able to disturb all external signals, even military and intelligence communication signals, meaning if at any moment during a warfare signals went off, soldiers will be easy targets to their enemies, specially that "Russia" got troops and army forces in many areas around the world, besides to the fact that even if this thing was used to hack civilian communications and internet, troubles won't be containable, hacking military and intelligence communications was the most dangerous thing "Russia" will ever face, specially the nuclear codes which could be overridden causing a

disaster...“Black Mask” and his men stole a military car and killed its soldiers, then 2 men changed into military uniforms and took the car and went to that base in “Samara”, the chip was inside and secured too well, the 2 thugs tried to steal the chip and managed getting in using swipe cards stolen from the soldiers they killed earlier, but it looks like they didn’t notice the CCTV cameras in the base, they got caught easily and they didn’t fight back, when they said that they were working for “Black Mask”, the base sent a detailed report to the “KGB” about what happened and “Vasily” ordered “Anton” & “Makar” to pick up these thugs, once they arrived, the General who was responsible of the base spoke to “Anton” asking “What are we gonna do? These guys were gonna steal the chip, the info is leaked and

who knows when will these thugs try again!” “Anton” replied “You follow the protocol, move the chip with special trusted security to a safe location, check your men well and make sure your security systems aren’t compromised” then they took the thugs and left the base, the General did what he was told, the protocol here was to transport anything highly sensitive in a TANK with a convoy to the closest secret base, in 1 hour the convoy was ready to move, but the tank was held in a transporting truck, in order not to cause disturbance to civilians, the “Dmitry” brothers were in “Samara” waiting a private jet to pick them up back to “Moscow”, they were all there; not only “Anton” & “Makar”...

The convoy moved in the morning, weather wasn't good, 4 Jeep army cars were securing the truck, 2 in the front and 2 behind it, suddenly 4 modified Jeeps appeared from nowhere and a thug came out of the roof of one of them and shot one of the army Jeeps with an "RPG" and blew it off, the others reported that they were under attack, then a modified Jeep hit the other army jeep and took it off the road and made it roll over, then 2 modified Jeeps drove in a line directly behind the truck, then "Black Mask" came out of one of the Jeeps and jumped on the truck getting on board with 3 other men, then he opened the container's roof and jumped inside with his men, the front army Jeeps tried to engage with the assailants, but not for long, the tank reversed and broke down the truck's back, when it touched ground,

the tank drove forward, "Black Mask" was driving the tank and seemed to know how to drive it...The "Dmitry" brothers were told what was happening, they took their cars and went after the convoy after sending the thugs to base to be secured, the "Dmitry" brothers had 5 cars, a car for each one of them, they were [Anton, Makar, Pavel, Vald & Dominika] on their way, "Anton" called "Viktoria" in case she could help or send some help but she confirmed her presence in "Samara" and she joined the fight later than the "Dmitry" brothers, once the brothers saw that the tank was seized by "Black Mask", they decided to keep their distance from it and this was wise but it had to be stopped, then without any expectations, "Black Mask" said "Let's have some fun, get the weapons hot, we'll use them soon" then he took the

tank to the other side of the road, where civilian cars were facing the tank and had nowhere to avoid it, streets were narrow and couldn't take much car chasing, the "Dmitry" brothers took down the assailant Jeeps, but the army Jeeps weren't so lucky to survive all that time, "Makar's" car got broken and stopped, "Black Mask" tried to get rid of the others then out of the blue, "Viktoria" was in front of the tank on foot with her M203 grenade launcher and a "SAM" rocket launcher on her shoulder then she pointed it at the tank, "Black Mask" prepared himself and shot her but for his shock, it was a huge mirror, this move made him lose his focus for a second, then the tank was shot with a special device from another side, its job was to stop the tank's control unit and as a result the engine and the weapons will stop

operating in seconds, "Viktoria" shot that device from the "SAM" rocket launcher she had, it was her weapon and she made some modifications on it, she was talented in modifying and assembling weapons and tools, the device was her project too, in 5 seconds the tank stopped and "Black Mask" didn't know why, "Viktoria" and the others caught him too easily, after 25 minutes of terror...When "Black Mask" and his men were caught, they were sent to the base and got locked there with special security from the "KGB's" agents, they were kept in a room locked by a voiceprint, the base's General voice, the 5 thugs were kept close to each other in nearby rooms, but "Black Mask" was kept in a safe room alone, weather got worse and it started snowing, "Viktoria" & the "Dmitry" brothers had to wait for one night in

“Samara” and travel back to “Moscow” the next morning, one of the thugs was more dangerous than he looked, he stood close to the door and close to the voice recognition device next to the door, although it was from the outside and a soldier was standing, but the thug somehow imitated the General’s voice from the inside, the soldier laughed at him, then suddenly the door was opened, the soldier tried to beat the thug but he couldn’t, the thug took the soldier inside the room—which had no cameras—and changed clothes with him after killing him, then the thug went to the chip as if he was one of the soldiers and could acquire it telling the securing soldiers that the “KGB” agents demanded delivering it and the General agreed, they didn’t check on his words and let him take it, it wasn’t too long till someone knew

that one of the thugs was free, "Black Mask" kept his mask on, because once they took it off, everyone saw how his face was maimed, it was too ugly to be looked at without the mask, he was cuffed and tied well in a metal chair, one of the other thugs had steel jaw with metal teeth, he convinced everyone that he was mute, he was cuffed too but his hands were in front of him not behind his back, he bit the cuffs chain and broke it, he knocked on the door hardly as if he was dying, the soldier securing him took his gun and got in to him, but the soldier wasn't so lucky too and the thug killed him and changed clothes with him too, the first thug made it to the outside with the chip and disappeared, the second thug was found but after some chase he gave up, "Black Mask" had 2 agents watching him inside his room

and "Black Mask" was cuffed with his hands behind his back, even his legs were cuffed too, the place was in red alert and they realized that the chip disappeared, "Viktoria" was on her way to the base, "Black Mask" said "You wanna see some magic?" to the agents, they didn't reply, then he said "Ok, I'll show you..." the agents pulled their pistols out and stood up then "Black Mask" suddenly turned to black smoke as if a chimney exploded in the place, they coughed very hard and fall down, "Black Mask" was nowhere on sight, "Viktoria" arrived and she was told what happened, the room where "Black Mask" was kept in had a camera, they saw what happened, no one understood what happened, "Anton" was there with "Viktoria", he whispered in her ear "You think it's HIM?" "Viktoria" didn't reply, "Anton"

was referring to "Rumple", "Viktoria" knew that he wasn't in the "Frankenstein" prison since 2017 but he wasn't seen anywhere, she doubted that he was behind all this, but she knew that "Black Mask" wasn't him, "Rumple" was a wizard, he could use "Black Mask" but won't do such acts, "Rumple" never wastes his time and element of surprise in thugs work, but maybe he used "Black Mask's" identity to get to that chip...The whole attack on "Samara" city was a diversion to get "Black Mask" and his men in the base instead of sneaking in, but why would "Rumple" need such a chip, unless he was gonna sell it to someone else...

"Viktoria" was terribly wrong about this, "Rumple" was dead that time, but it was magic for real, "Victor" was "Rumple's" student, but no one was

better than "Rumple", years ago; "Undertaker" & "Victor" built the "Dark Shadows" and in a short time they became a powerful gang, till "Frank" killed "Victor" & "Undertaker" in 2 separate wars, "Victor" taught some men how to use and perform magical tricks to help them in operations, he taught his close friends, "Black Mask" was one of them and was one of few who weren't caught after the "Undertaker's" death...

"Viktoria" created a new truck for herself, it was armored with tricks, she decided to use another technique, she decided to use magic, but this was a mistake...In "Iraq", there was an ancient place where "Babylon" was, there was an old temple there where the Babylonians used to avoid and fear, this was the place where 4 seals of the

7 known seals were in, the 4 seals were the 4 horsemen of the apocalypse, no man on Earth ever knew about this, the Babylonians didn't know too, but they just knew that this place was the place where their civilization would fall if they disrespected it... One of "Viktoria's" old friends was in "Iraq" in a secret mission, some Arab terrorists killed some civilians and burnt their homes there, after hours of continuous destruction, one of the terrorists found an old secret door by chance, he told his fellow terrorists and they broke in, thinking that there might be anything useful for them to steal, this was the lair to the ancient destructive horsemen, it wasn't too long till they met 4 weird caskets with a stable on the right, but the stable was empty, or so they thought, there were 4 things near every casket [bow, sword, balance

scales & spear] when one of the Arabs touched one of the caskets he got infected with plague and within seconds it took all over his body and another one was infected, there were 4 more left, one of them saw something moving in the shades, he shot the thing but didn't see anything dying or anyone afraid, the others told him that they should run but he took 2 steps toward the darkness then he was pulled strongly to the inside, the others rushed to the outside but they were hit by a weird spell, then suddenly they shot each other dead, then a weird evil voice said "Welcome to the apocalypse" in the old language of "Babylon", somehow the "KGB's" agent saw and heard everything from the outside, but he had to run when he noticed more men coming to the site, in 4 days, he finished whatever he was doing in

“Iraq” and traveled back home, once he arrived “Moscow”, he called “Viktoria” and asked to meet her, the agent’s name was “Boris”...

{The 4 Horsemen of The Apocalypse}

“Boris” knew that “Viktoria” got a wizard friend, but he had no idea about what happened 2 years earlier...When the Arabs were dead, the hidden place got bright then the stable had 4 horses glowing and looking evil, the caskets were opened and 4 members got out of it, they weren't the same and not all of them had human looks, they had symbolic names [Conquest, War, Famine & Death], “Conquest” looked like humans, he was a guy with a crown and acquired the bow, which was near his casket, “War” had red skin and a looked like demons from Hell then his eyes and hair glowed with red fire and grabbed his fire sword, “Famine” was thin and tanned,

he took his balance and looked amazed all the time, "Death" was a pale skeleton with a skull head, he grabbed his spear hardly as if it was the first time to move in centuries, then a shade appeared and turned to a human look on the ground and said to them "It's time of judgment" in a very old unknown language, they took their horses and got out to the world, thinking of the best way to destroy it, waiting for the "Lamb"^[1] to come and judge the world...When "Boris" told "Viktoria"; she knew that she needed help this time, an extraordinary help, she took a private jet and traveled to "Wales" to tell the "Sentinels", they just finished a job against some Mexican Cartels in "USA", "Ivy" didn't expect her to call them out again so soon which made her worried, "Viktoria" arrived and the "Sentinels" family

were having a party because it was "Frank's" birthday, January 3rd 2020, "Viktoria" told "Ivy" what happened in "Iraq" and asked her about "Rumple" & "Victor", "Ivy" said "Victor is nowhere we know since 2017, he told us that he killed Rumple in the prison, anyway, why would any of them raise the 4 horsemen?!! There's more to this" "Frank" came and welcomed "Viktoria" then both women told "Frank" what was happening, "Frank" said "Victor helped us in 2017, but that doesn't make him a crusader for good, he must be involved somehow, did you check his place in Moscow" "Viktoria" denied knowing the place, "Frank" told the crew and told them to get ready for a fly, but "Ivy" told him that this was too dangerous for the crew, so she told them to wait for her orders from "Moscow", "Frank"

took his suit with him and "Floyd" went with them and they used the jet and flew back to "Moscow" where a huge surprise was waiting "Viktoria"...

Once "Viktoria" traveled away, "Rogue" made his move, "Viktoria" was divorced and her husband was a corrupted agent in the former "SVR" and she was the one who arrested him and sent him to jail, the "Yakuza" gang had prisoners inside and bribed some guards to let them talk to "Viktoria's" ex-husband, it happened and "Viktoria's" ex hated her too much and told them all the info they needed to know about her, when "Rogue" knew more about her, he saw that he was dealing with a monster, an Iron Woman, the "Yakuzas" in the prison killed "Viktoria's" ex-husband and "Rogue" killed "Viktoria's" brother

and burnt his house while his wife and kids were tied and alive inside, these info fall like thunder on "Viktoria", for the first time "Ivy" saw "Viktoria" crying, "Frank" was touched and he said "The horsemen can wait, that guy needs to be punished" "Floyd" & "Ivy" confirmed, later the "Dmitry" brothers were filled in too..

After days of search, "Viktoria's" contacts in "Tokyo" told her that "Rogue" was with the "Yakuza" members preparing for a hit on the "Goto" family's warehouse in 2 days, in 7 hours, the "Sentinels" arrived "Tokyo" secretly, based on the info "Viktoria" had, the "Sentinels" arrived to that warehouse early, the "Goto" gang family were waiting for someone with guns, like there was a deal to be made, "Frank" said "The

Yakuza gang will screw the deal once the other party arrives, it will be a slaughter”, he was right, but the other party was a surprise to “Viktoria”, it was “Black Mask”, the “Sentinels” didn’t know him, “Black Mask” was stealing the chip from “Russia” to deliver it to the “Goto” gang family, but why?...

Minutes later, fire started, several “Yakuza” members ambushed the deal with heavy weapons, “Black Mask” and his men disappeared in smoke, “Viktoria” could get him and his men with her vehicle, the chip was still with him, “Anton” & “Pavel” followed her in their car, the “Sentinels” had to find “Rogue”, during the shooting “Frank” told “Floyd” and the rest of the “Dmitry” brothers to shoot down their cars tires and he went to take them

down, they weren't ready to fight with someone like "Frankenstein", when both sides saw him, they shot him first then they tried to run but their cars were broken and "Ivy" already reported what was happening to the authorities, "Frank" didn't kill anyone but he saw one of them running, he knew that he was "Rogue", he went after him and soon "Frank" caught him, "Viktoria" & "Anton" caught "Black Mask" again, but this time it wasn't expected by him to be caught, unlike what happened in "Russia"...The chip was back, "Black Mask" & "Rogue" were caught, but "Rogue" was more dangerous than he looked, he was transported in a police car to the Russian embassy, he was cuffed of course, he freed himself and attacked the cops in the car making them crash, then he escaped, this made

“Viktoria” mad... “Rogue” had his own plan from the beginning of this operation, he wanted to acquire this chip and kill “Black Mask” & “Takada”, he didn’t waste much time, he went to the “Yakuza” gang nightclub and got in like usual without anyone stopping him, when he was close enough to his office, “Takada” was with a whore, “Rogue” tied a bomb to one of “Takada’s” dogs and let the dog in to them, then he got out fast from the back door and a massive explosion happened killing most of those who were inside the club, “Takada’s” death made the “Yakuzas” sure that it was the “Goto” family who did this, “Rogue” knew where were the “Goto” family keeping their taboo and knew that they were kidnapping poor girls [in between 15 years old and 21 years old] and used to sell them to the Chinese Triad

as whores and the Triad used to send them to "USA" or "Russia" as Philippine maids, "Rogue" sent the info he had to "Viktoria" in a flash drive, then she was surprised with a call from him, he used a voice changer while talking "Agent Nikolay, you are looking for me and I think I know why" "Viktoria" waved to "Ivy" & "Frank" to come close then she replied "You murdered my brother, besides to the fact that you are a bloody terrorist, but it's far away from being official, it's personal now and believe me, you didn't wanna put yourself in a personal fight with me" "Rogue" said "Check the data I sent you in the flash drive, only then you'll know who's your friend and who's your foe" then he broke the phone to avoid being tracked, "Viktoria" checked the flash drive in a laptop and it had a lot of

documents, pictures and videos about "Black Mask" and the "Goto" family and many other officials from "Japan", "Russia", "USA" and other countries, one of those who were in relation with "Black Mask" and the gangs was "Viktoria's" brother, he used to leak info about cops and used to cover on their dirty work in "Russia", this was a HUGE shock to "Viktoria" enough to make her cry again, but she had nothing to do but to hand a copy of the flash drive to the Japanese authority and to every involved country in this huge corruption circle, including her country, "Russia"...

This opened a lot of corruption files in many countries in Asia, even some ministers were sent to inquiries because of these secrets, others were sent to death, "Frank" told "Viktoria" to

keep it together and focus on the main trouble they were there for...The horsemen took their way to "Baghdad" using their horses, the devil behind "Death", "Hades", saw people in the modern civilization and how they looked, so he used magic and made the horsemen look like civilized humans...Centuries ago, the old pharaohs knew about the horsemen and how mighty they were, these creatures were there since the beginning of time, "Amun" warned the Gods from the evil power coming from "Babel", that time there was no need to worry because the Gods could do anything, the God of War-"Anhur"-assured to "Amun" that the horsemen were locked by "Marduk" God of "Babylon", but when the Gods were murdered by the "Gods Slayer"- "Elohim"-the Egyptian King

“Seti I” ordered his priests and engineers to build a temple in “Abydos”, the priests created a magical papyrus, its job was to make the horsemen mortals and weak, the papyrus was hidden inside the temple and protected by magic...

To know more info about the horsemen, the crew had to travel to “Iraq” and investigate what happened in that weird place where the Arabs died, a journey like this was a black op and that time there were terrorists in “Iraq” and the country was in mess, the “Sentinels” had to be very careful while being there, “Anton” was expected to go with them but his brothers refused, they stayed in “Russia” and persuaded him to stay but he told them that he owed “Frank” & “Viktoria” and that he would

payback his debts, "Dom" insisted on going with them... "Ivy" called "Silver" and asked him to join them and to bring their special weapon with him, "The Twin"... "Viktoria" saw that going like this wasn't safe, they needed someone who know some magic, she had no one in mind but "Rumple's" favorite student after "Victor", the vampire "Jason"...

{Babel}

In 24 hours, "Silver" arrived with the "Twin" to "Baghdad", where "Frank" and the others welcomed them, "Silver" was told the whole story but he mocked them and told them that this was ridiculous, after some talking, "Silver" agreed to help just because he saw that being in "Iraq" needs someone who was there before, as an American soldier, he served for years in "Iraq" and had some contacts, "Jason" arrived "Iraq" 10 hours later, but of course he wasn't like government agents who could move freely... "Viktoria" introduced "Jason" to the team, he was a Vampire, one of "Rumple's" mutants, but he wasn't used by "Rumple" much, "Jason" was more serious than the others and "Rumple" saw that using

“Jason” against “Victor” was gonna be a risk because both men had an ugly history together...The “Sentinels” arrived to the scene, it was in mess, a lot of dead bodies and guns on the ground as if there was a battle there, Iraqi army personnel and terrorists, once they arrived “Jason” was excited to blood but he wasn’t used to human blood, he liked the animals blood because it was denser and more viscous, he also felt magic “There’s magic here” then he took a potion from his pocket and spread the dust in the air and said some words in an old language, then a voice of someone in pain was heard in the place loudly and shades appeared and went away fast, the spell pushed the evil souls away from the place, these were the evil souls left in the place by “Hades” to protect their lair, once the souls left, “Hades” felt it and

told the other horsemen, "Frank's" scanner detected heat and radiation activities, there was a tablet on the ground inside, there were weird writings on it about the apocalypse and the horsemen's role in this destruction, the 4 horsemen were 4 seals of the 7 known seals, "Frank" knew about them, the seals were mentioned in the Bible, but he didn't know about the pharaohs papyrus, "Jason" told them about it but not in details, but he knew that there was a way in "Abydos" temple to know more, then suddenly weather changed and it got dark, "Jason" said "Magic" then the 4 horsemen appeared as humans on their horses and stood face to face with the "Sentinels", the "Sentinels" were [Frank, Viktoria, Ivy, Silver, Anton, Dom, Jason & Twin] against the horsemen, "Hades" wasn't with them to fight hand-to-hand but

he was watching, the "Conquest" had his bow and could make arrows appear in his hands all the time, which means his arrows will never be out of stock, the arrows were powered and could inflict a lot of damage to one or many people, "War" pulled his sword and it turned to be a sword of fire, "Death" had his spear which was poisonous besides to his magic, "Famine" waved with his hand at the "Sentinels" and moved his hand on the balance then one of the balance's sides went down, then he said "No fair fight" "Frank" said "I noticed, we're more" "Famine" replied "I meant, not fair for YOU", then the 3 fighting horsemen attacked the "Sentinels", "Jason" had "Death", "Twin" stopped "War" from attacking "Viktoria" and fought with him, "Frank" was hit by one of "Conquest's" arrows and flew away,

“Ivy” shot him with her shotgun but he didn’t move a muscle and tried to shoot her with another arrow, but “Silver” used his jetpack and pulled “Conquest’s” leg and flew high with him, then he throw “Conquest” away for a distance on some wrecked cars, then he throw 4 grenades at him and he was blown, but nothing happened to him, which was impressive, “Twin’s” claws didn’t hurt “War”, but “War” noticed that “Twin” wasn’t getting hurt by his sword or magic, “Jason” wasn’t getting affected by “Death’s” magic and spear too, so he decided to make a distraction, he hit “Anton” with plague, “Frank” came back to the fight and shot “Conquest” with an electric chip, the electric shock made him shack for minutes but he was aware, “Frank” was mad of “Famine’s” look so he tossed his shield on his balance and

the shield broke it, this made the horsemen stop for a second and looked at "Frank" with anger then "Hades" appeared and said with anger "You dare to break down one of God's tools, now you're cursed forever" then "Hades" wanted to attack "Frank" with magic, but suddenly some people screamed "My Lord Jesus Christ, save your slaves from the curse of the 7 seals" this made a tornado around the horsemen and "Hades" then they disappeared, the guys who did this were 4 people on their knees, they looked very weird to the "Sentinels", "Dom" was holding her brother and "Ivy" was with her, "Frank" looked at them and said "We got a hit, can you help us?" one of them was a woman, she took some dust from the ground in her hand and throw it on "Anton" and prayed to "Christ" to heal him, in seconds, "Anton" started

to get better and within minutes he was 100% ok, the 4 members who saved the "Sentinels" were [Colossus, Rayne, Heat & Light], they used to be called "The 4 Horsemen of Peace" in the far future...

The "Sentinels" and the horsemen of peace had a long talk and what the horsemen of peace had to say was shocking to everyone, "Light" said "We're the Horsemen of Peace, we were created by God to stop the apocalyptic effect of the Horsemen of the Apocalypse and to close the 7 seals and seal the innocent from being cursed by the devil, and to stop special threats, in fact we're not from this world, we're from the very far future" "Frank" said "Which year in the future?" "Silver" interrupted "Why should we believe any of this?" "Rayne" replied "We're

from year 3000, Richard, you have a huge hole in you, let Jesus get in your life, you'll be better if you believe in Christ" "Silver" got shocked when she called him by his name and pulled his gun out, "Light" had light power and turned the gun to a white pigeon and it flew away, "Rayne" said "Your lack of belief will lead to your ending, Richard, what happened to your brother should have changed you by now" "Silver" asked with aggression "How did you know my name? And how did you know my brother??" "Frank" noticed something else "Year 3000!!! Will the world last all this time?!" "Rayne" replied to "Silver" "I have the blessing of healing and seeing history of anyone or anything, besides to the power of shape-shifting to any woman of my size, that's how I knew your history" then "Light" replied to

“Frank” “No, the world will fall in the 21st century but God’s interference saved those who deserved to live with him, those who kept believing even when the world lost its way” “Dom”, “Anton” & “Viktoria” were religious and used to fear God, so they believed the horsemen of peace easily, the others were worried and kept their caution, “Jason” was afraid because he was a demon, “Colossus” looked at him and said “Don’t be afraid creature, we do not kill unless you cause troubles, but your fear will prevent you from messing around” “Jason” didn’t reply but he looked afraid for real...

The “Sentinels” discussed the situation with the horsemen of peace, but the horsemen told the “Sentinels” that they can’t be killed and the horsemen of peace don’t kill, but they

were sent to the far past to cage the 4 horsemen of apocalypse back again because the time of Earth's undoing didn't come yet...The trouble was in the way to send them back to their lair, "Light" told them about the papyrus in "Abydos" temple, "Frank" said "Wait! You believe in the pharaohs magic??" "Light" explained the papyrus and its work, then he said "We can hold them, but we can't kill them or send them back to their lair on our own, the only one who can is Lord Jesus, we're just God's slaves", "Ivy" said "The temple was explored and most of its precious contents are in the Louvre now, tell me anything special in it and I'll handle bringing it to you" "Light" told her about some of its drawings then she made some calls then she confirmed the papyrus's existence in the French museum, the crew took their way to

“Paris” and “Ivy” prepared a hideout for them, then she went with “Floyd” and met her man who got the papyrus and returned back...There was something weird in the papyrus, if it was read, “Egypt” would be hit with the 10 plagues God hit it with when the pharaohs enslaved the Israelis and wanted to kill them, the papyrus was linked to the curse somehow, it was gonna guarantee sending the horsemen of the apocalypse back to their lair, but it will also unleash the plagues; not only on “Egypt” but on the whole world, the doomsday was gonna happen if this papyrus’s writings were read...

Among history and religion, no man ever heard of the horsemen of peace, “Jason” could feel their holy powers but he had to make sure of their words,

during the waiting in "Paris", "Jason" made it away from their sights, but he was found by the horsemen of apocalypse, "Hades" spoke to "Jason" "You're not like them, you're like us, why doom yourself with people like them?" "Jason" replied "I have my reasons" "Hades" said "How about asking for anything you need from me! I can make you rule this world if you want" "Jason" replied "I want my master back from death" "Hades" said "I thought Rumplestiltskin told you that magic can't raise the dead or bring love" "Jason" was shocked, "Hades" continued "I know that there's a way in the old mountain^[2] but it takes a sacrifice, you won't do that right!?" "Jason" said "If you can't do this then you have nothing to offer me with" "Hades" held "Jason" from his throat and said "Indeed and you're of no use

to me, give me a reason not to kill you now” “Jason” said “Because you don’t know where they are” he was right, “Hades” wanted to offer “Jason” anything in return of this info, “Jason” told him the info in return of his life this time, “Hades” accepted the deal and let him go then they disappeared, “Jason” used his master’s old trick of crows, he called a crow and hanged a paper in its leg and sent it back to them...“Viktoria” saw the crow and understood the drill, she warned the others, but they weren’t fast enough to move away from their location, on their way out, the horsemen of apocalypse were waiting them on their horses and ready for a fight...

On the other side, the “Sentinels” in “Wales” were ordered to go for a mission against a lunatic in “Berlin” – “Germany”, a sort of another clown who hired some thugs to aid him in his evil plans, the lunatic clown was named “Der Ferdy”...

{Germany}

In "Germany", things were steady till one of the "Community" families fell in troubles with an Austrian family, the "Habsburg" family, it was one of the greatest families in "Austria", they had business in a lot of countries including "Germany" & "England", when "Black Mask" fall in the Russians hands, the "Habsburg" family used to have some business with him and he had some info that mustn't be known, there was a hired thug for issues like these, "Der Ferdy" and his gang of goons, a "Habsburg" family member told him what they wanted in return of 5,000,000 €, "Ferdy" agreed... "Ferdy" had a lot of friends in "Russia", he made some calls and his men assured him that "Black Mask"

would be dead in 2 days max...The "Sentinels" made it to "Berlin", they were [Arrow, Rose, Electrocutitioner, Quiet, Mime, Chen & Sonya] and there was a German "BND" agent who joined the team to facilitate things for them, his name was "Berg"... "Arrow" was leading the team this time, "Berg" gave the "Sentinels" all the info they need about "Ferdy", he was very weird to them but he wasn't the worse to be faced... "Ferdy's" file was full of criminal acts, gang wars, drugs and weapon deals with the Russian Mafia and other terrorist organizations, including "The Skeleton's" clan, the former "Dark Shadows" and the Cartels, "Rose" asked "Berg" "Why nobody caught him before? He's just a terrorist!" "Berg" explained "This guy isn't like you think he is, he was a regular thug years ago, then he lost

sane when his girlfriend was imprisoned instead of him, we know this info but we did this to force him to give up or make a mistake, but this was very wrong, he changed his look and hid for years, but when he showed up again he was different, now he's putting a clown makeup and made his hair green and had some tattoos on his body, he made a huge gang and could convince them to follow his steps after stealing a lot of cash from an Ukrainian bank, when he became a gang leader, he used his men and his genius level intellect to do hundreds of assassinations and dirty jobs around the world, ever since he wasn't caught and his men became insanely loyal to him, enough that they commit suicide whenever they get caught by cops, this guy is the most dangerous man in Germany, his men call him Witzbold^[3]''

“Rose” said “The Joker!! How didn’t anyone notice this guy before?” she was referring to the German government or the “BND”, no one replied...

“Ferdy” was planning to free his girlfriend for years and kept his close contacts with some important people in the country, businessmen and politicians, he got his eyes and ears among cops too, the “Sentinels” existence in “Berlin” wasn’t a secret, so the info was leaked to “Ferdy”, he said “Oh, the Brits sent their freaks to be killed by the King” then he gathered his men and said “Get ready gentlemen, we’re up for our big party”...

In 2 days, “Black Mask” was murdered in his cell in “Russia” with words on the walls “Let the games begin” and a lot of “HAHAHA”, then a

triggered-bomb in a bag exploded in “Leipziger Platz” square, killing and injuring many people, then in hours, another bomb was found in a hospital, but this time cops could diffuse it, the “Sentinels” went to the hospital and checked the bomb and found out that it was in dark purple with a timer, “Electrocutioner” analyzed that the bomb was a pressure bomb, like an airbag only bigger, in minutes, a video was shared on media by “Ferdy”, he was in a warehouse wearing a dark purple coat with a purple cane in his hand and someone was tied behind him with a bag on his head, he said “Good evening Berlin, allow me to introduce myself, I’m a Joker, I do what I want to who I want at any time I want, now to my requests, I want Carey Adolf to be freed by tomorrow night, otherwise I’ll terror Berlin FOREVER,

starting by this man” then he removed the bag off the man’s head, he was a cop, “Ferdy” hit him in the head with his cane several times live on air till the cop died, this was horrifying and the city fell in terror and chaos...

“Ferdy’s” only request was his beloved “Carey”, negotiating wasn’t an option, the “Sentinels” hunt started, “Sonya” could dig behind him and his men, using her good looks and introducing herself as a stripper, “Ferdy’s” men used to go to a nightclub owned and managed by a Japanese guy, “Chen” knew him and told the others that he was a “Yakuza” member, which means they can’t break in or cause any troubles inside, otherwise there would be a warfare, the place was protected well by armed guards, so “Sonya” had to get to them as a stripper

girl, after sending them to sleep by a drug in their drinks, she took their cellphones and disappeared, using the cellphones and checking their recent calls were all “Electrocutioner” needed to locate “Ferdy’s” warehouse, but the calls sent them to many abandoned places around “Berlin”, an attack on any place will send a red alert to all the other places, “Chen” said “If we stroke any place and Joker isn’t there, we’ll risk another terrorist attack at anytime, we gonna need a full scale attack on all places simultaneously, which requires strike teams, backup” to “Berg”, he confirmed her words and guaranteed her a huge force to attack all places in the same time...The “Sentinels” decided to split up and join the forces attacking these places, they weren’t enough in number to cover all place but they went to the most

important hideouts they saw, "Electrocutioner" stayed in the hideout and watched the places using satellite imaging, "Arrow" wasn't ok with the split up, but he agreed when everyone agreed on this... The next night, everyone was ready to move and the attack started, when all units were in positions, "Berg" had orders to attack, the attacks on the places were like attacking enemies camps on a foreign soil, during the battles, "Ferdy" wasn't seen anywhere, then suddenly several explosions happened in the same time, then the police announced that the "Estrel" hotel had a big banner from its roof to its main gates with "HAHAHA" on it and several clowns drawings, the place was seized by "Ferdy's" clowns hours ago, this was the largest hotel in "Berlin" and had a lot of guests, who became hostages that time, then "Berg"

told all units to clear out of all warehouses when he found one of the hotel's waiters in the warehouse he was attacking, the "Sentinels" confirmed finding more members of the hotel's staff in the other warehouses, then they left their places and rushed to the hotel, "Ferdy" was on the roof laughing with a rocket launcher in hand and armed men around him, banning any chopper from coming close, during that time; something very bad happened...

{The 10 Plagues of Egypt}

In "Paris", the "Sentinels" members heard what was happening in "Berlin", they were out with "Dom", [the horsemen of peace, Anton & Viktoria] were attacked by the horsemen of the apocalypse, a fight like this couldn't to be ignored, "Anton" called "Dom" and she told the others, "Viktoria" was helpful but she had nothing much to do, "Rayne" said "Read the papyrus's codes I broke, it's the only way to end this without major casualties", sometime earlier, "Rayne" broke the hieroglyphic writings and wrote the words they mean on a piece of paper, reading this paper was said to send the horsemen of apocalypse back to their lair and send the horsemen of peace back to where they came from,

the future, "Viktoria" had to reach there first, "Hades" stood in her way, but for some reason, he couldn't catch or destroy the paper or the papyrus so the best he could do was to prevent anyone from reading it, the "Sentinels" arrived, but they didn't break in according to "Ivy's" instructions, "Frank" saw the situation with "Viktoria", using his mask, he could magnify the words on the paper and read them, he showed himself to "Viktoria" and told her to keep "Hades" distracted by waving, she understood and tried some moves and shooting, "Frank" read the paper loudly and he felt a huge power and an unusual feeling while reading, when he was done, no one had a chance to stop him, the horsemen of apocalypse went to their lair automatically, but something else happened, it brought

the 10 plagues of "Egypt" on the whole world and also released the "Black Fairy" from her prison in the underworld, she was more like an evil witch, with tattoos, pale skin and long black hair, she looked to be muddy but this was her look for real, but for everyone's shock, the horsemen of peace didn't go to the future as "Light" said which was shocking, "Heat" said "This means that it's not over yet, we're still needed here" "Rayne" confirmed...The plagues started, all rivers turned to blood suddenly, all over the world, which caused chaos around the planet...By this time the "Sentinels" in "Berlin" were at the "Estrel" hotel and cops were surrounding the area, the news came on everyone as a thunder strike, "Arrow" thought that it was one of "Ferdy's" tricks, but "Rose" said "No, it's the Christ's anger on Earth, all

countries reported that rivers turned to rivers of blood except the Nile in Egypt” they never knew why the “Nile” didn’t turn blood, but someone else knew in the future...In the hotel, “Ferdy” and his men made the place look like a circus, they were wearing like “SWAT” soldiers, it was the trick to let them in without troubles with the security; besides to using the staff’s uniforms and key codes, when they ruled the place, they changed their masks to be clowns and other funny masks, the hotel had a lot of precious stuff and money, they were all taken by the thugs and delivered to others underground in the sewers network, they took the cash and everything valuable and within minutes they were somewhere far away from the hotel, “Ferdy” used a speaker and said “Delivery time, handle me Carey and I promise you pigs, I will be

nice, if she's not at the hotel's entrance within 15 minutes, I'll start throwing people off the windows, HAHAAHA" then he gave one of his men the rocket launcher and he went down stairs, the "Sentinels" had to move fast... "Arrow" & "Chen" discussed the entering strategy, "Quiet" took her position with other government snipers on the surrounding buildings rooftops, "Mime" said "He's expecting us, getting in or killing any of his men is a huge risk" "Berg" said "He won't throw people off the windows like he said, isn't he?!" everyone looked at him without replying, "Mime" replied "As much as I know about him, he won't just throw them off the windows, he'll burn them alive and then throw them to us" "Rose" said "The hotel is SO wide, his men can't be everywhere" then she asked "Berg" to bring the hotel's blueprints

and allow them to check its exits, this talking and bringing the blueprints took 15 minutes, suddenly a man was thrown from one of the windows, "Quiet" reported what she saw but the man was in the air already, everyone on the ground saw him but the shock prevented anyone from doing anything, the guy hit the ground so strongly and died at once, he was tied and had a tape on his mouth with a smile drawing on it, but this wasn't all, he had a belt with 2 tons of explosives ready to be blown by a trigger, then a phone rang in the victim's pocket, "Mime" told them to make sure that it wasn't wired to the bomb, "Berg" did it and picked up, it was "Ferdy", he said "I think now you will take me seriously" then he pressed the trigger, but the bomb was fake, it just blew fireworks and joker cards, the "Sentinels" were

in shock, they never saw anything like this before, the victim's mouth was torn apart with no lips, looked like someone cut his mouth down with scissors, "Chen" reported what happened to "Ivy" and she felt that it was dangerous and needed "Frank's" input, but "Ivy" and the family were against the idea of leading another fight against lunatics, "Ivy" called "Paige" and asked her to follow up with the team's updates till she returns to "London"...After what happened in "Paris", the horsemen of peace, decided to find out how to break the curse of the 10 plagues, "Viktoria" was told what happened to "Black Mask" and "Ivy" was told what was going on in "Berlin", but "Silver" didn't trust the horsemen, and they saw that the "Sentinels" got troubles outside, "Light" told them to leave and gave them a way to contact them at any

time, "Floyd" spoke to "Frank" and expressed his worries about that thug in "Germany" and "Frank" confirmed his worries...

"Viktoria" made it to "Moscow", "Jason" was waiting her, he went to her home and waited her nearby, when he saw her coming, he appeared to her and asked to talk to her, she agreed...What "Jason" had to tell "Viktoria" was shocking, he told her that the papyrus they read in "Paris" had a phrase that shouldn't be read, a sentence that brings the "Black Fairy" to their world, she was a fairy from another dimension and was banned from crossing to the this dimension but after reading this sentence, her shackles got broken and she could propagate between the fairies world and the humans world with no

troubles, her power couldn't be contained by human weapons and tools, "Viktoria" asked him "Where do I come in all this?" "Jason" replied "You brought her to this world when you trusted those maniacs, now it's your responsibility to save what's left of your ugly world" then he jumped from the window and disappeared...

The "Black Fairy" appeared in "Peru", exactly in "Machu Picchu" district, it is an archaeological site 7972 ft above sea level, located in the "Cusco" region, she was in a horrible look, due to her imprisonment in the underworld, she used to have a brother, he was the "Black Magician of Chaos", both of them were feared and worshiped by the Incas, they were immortals but someone could beat them down and imprisoned them in

the underworld, she was engaged to the Egyptian papyrus because she used to teleport all over the world, she went to "Egypt" and knew about the Egyptian Gods, she saw that they can beat the Egyptians and take over their country and expand their empire, but their powers didn't stand a chance against "Osiris" and he shackled them underground with "Anubis" guarding and torturing them...

In "Berlin", "Berg" brought "Carey", she was locked in a mental asylum and she looked completely insane, "Berg" used a speaker and said "Ferdy, we got your girl, release the hostages" after a while, "Ferdy" came out from the main gate, wearing a purple shirt and a silver expensive jacket with 2 pistols in his hands and laughing slowly "My dear Carey, I missed you so much

honey” “Arrow” and everyone were posting their guns on “Ferdy”, but he didn’t seem to care, “Berg” told him that he can’t have “Carey” without delivering the hostages, “Ferdy” said “I have nothing for you officer unless she’s in my arms now” “Berg” didn’t like that but he told his men to untie her and let her go to him, she ran to him and hugged him strongly, then he took her and intended to get inside, “Arrow” said “Where are you going bloody fool?” then he walked slowly towards both of them, “Ferdy” turned to “Arrow” quickly and showed them his interior jacket, there were like 20 hand grenades all connected to one string, if he pulled that string everyone around them was gonna die with him “Let’s not do anything we all gonna regret in the next life” this forced “Arrow” and all the forces to retreat

and leave them, "Ferdy" & "Carey" got inside and prepared themselves to leave, they had a very wicked plan...

"Ivy", "Frank", "Twin", "Floyd" & "Silver" left the horsemen of peace to fix what they did, "Silver" was against the idea of leaving them but "Ivy" and the "Sentinels" were busy, so "Silver" had someone in mind to follow them, the "Predator", he was the best tracker the "NATO" ever known, "Frank" knew the situation in "Berlin" but he had no time to move to "Berlin", events were too fast and the rivers disaster left the world in chaos...

{Voyna #2}

“Ferdy” and his men worked on the escaping plan, thugs got to several windows in several floors and shot wires to the other buildings, the building was dark and the wires were black, no one noticed this, but “Quiet” noticed, she reported what she saw to the “Sentinels” and they moved, “Quiet” saw one wire, they moved to where it was, then an unexpected thing happened, bags started sliding from the hotel to the buildings, which made them notice that there were more than one wire, a lot of bags were sliding, “Berg” reported this to the forces and told them not to shoot any of them, when the bags reached the buildings, they reached to specified floors and windows, not on their rooftops which

was weird, 5 minutes later, "Berg" and the other officers intended to check the bags they saw on the wire "Quiet" reported, "Mime" said "It's a diversion, he's up to something, he needs to get out, this is a part of a plan", "Arrow" told the "Sentinels" not to join the cops forces checking the bags in the other buildings based on "Mime's" idea, he saw that they should keep their focus on the hotel, then everyone got shocked by a sudden explosion in a close building, then another one next to it, then a third one, all buildings around the hotel got explosions in certain floors, then the hotel's garage got opened and a "GMC" car came out with men shooting at the amazed cops and forces then a dark brown "Audi R8" rushed out and followed the "GMC", then 10 more Jeeps got out after them and all cars split up, each car had a

hostage, this prevented cops from shooting at them, but the "Audi" had "Ferdy" & "Carey" only, they weren't protected by any Jeep car, "Arrow" and the crew jumped in their cars and a chase started in the streets of "Berlin"...The "Audi" car was stolen, it belonged to one of the hotel's guests because the "Sentinels" saw carves on the car's body with smile faces, HAHA and "Joker" word all over the body and no one reported that they used a sports car during the attack on the hotel, this guy was more insane than any other clown the "Sentinels" ever faced...

The "Sentinels" cars were a modified Jeep, "Rose's" "Aston Martin 1977", the "Fiat 131", the "Nissan 240 RS" & the "Mitsubishi 2008", "Rose" was driving her car, "Arrow" was driving the "Jeep", "Chen" joined

the team in the "Mitsubishi", "Mime" jumped in the "Fiat", "Sonya" was driving the "Nissan" and the team chased the thugs in the streets, "Mime" said "Leave the Audi to me, it's Ferdy", the others' chases to "Ferdy's" cars ended with accidents to the thugs and the team could save the hostages, but "Chen's" car got broken and stopped, "Arrow" could stop the "GMC" car and killed the thugs to save the hostage, the chase between the "Mime" and "Ferdy" was too dangerous and aggressive, "Ferdy" & "Carey" were laughing, the cops input helped, then the driving took "Ferdy" near the "Spree" river, then both "Ferdy" & "Carey" looked at each other and laughed loudly, then they shocked everyone and jumped in the blood-water, "Mime" wasn't shocked, he stopped and jumped in the water looking for them, he found them,

“Ferdy” wasn’t hurt, “Carey” was hurt but not seriously, “Mime” caught both of them and the cops cuffed them both and took them to the police station, the others captured whoever they could and killed whoever resisted with the German police’s input...In the police station, “Berg” told the chief to pull his men back and avoid any physical contacts with the prisoners, he agreed and asked “Berg” to move those thugs away as soon as possible to avoid troubles with other prisoners, the “Sentinels” arrived with official documents to take “Der Ferdy” and consider him a “NATO” prisoner, which means the he was considered as an international terrorist not just a thug or a gang banger, “Berg” refused and asked to have clearance to interrogate him first to know if there were others of his men in the streets, the

“Sentinels” agreed till the “M16’s” special jet arrives...By that time, rivers were water again, not blood anymore, no one understood why, later, frogs started to get out of the rivers, all over the world, and the frogs started attacking people, they were SO many and started attacking people in their homes and offices, this was very weird and dangerous, the horsemen’s prayers didn’t work this time, the plagues were more powerful than in the pharaohs era, “Light” could feel the evil power coming from “South America”, so they went there and soon they found out that someone was controlling nature’s elements using Elemental magic, by that time, the “Black Fairy” started building her power and accumulating it and preparing it to explode, the explosion she wanted to make was gonna take down the whole world, her

brother—"Black Magician"—was there to protect her and secure her till the explosion, "Lima's" cops were reported hours ago and they tried to deal with the "Black Magician" but he was very powerful and killed hundreds of cops and army soldiers, "Black Fairy" needed more metals and biological objects—fresh dead bodies—to be added to her power in order to accelerate her power growth and to inflict more damage, "Brazil" & "Argentina" offered sending troops to deal with these 'terrorists' as they claimed, the horsemen used "Light's" power and flew on a cloud to "Machu Picchu" where they saw the fairy but the gen was fighting the humans, but she wasn't alone, she was surrounded by several persons, they were humans but she turned them to be her guardian soldiers, besides to a protection spell,

the horsemen needed a plan to attack them...

In "Berlin", the frogs' attack on the police station caused a lot of chaos inside, the mess gave "Ferdy" & "Carey" the chance to escape, but he didn't intend to escape that way, he already had an escaping plan from the police station, he found his stuff and guns, then he stood in the main hall of the place and started laughing and looking around himself with amazement, cops and agents were gonna shoot him, "Ferdy" shot at them and hit them, then he took 2 "MP5s" from 2 dead cops and started shooting at anyone he saw and kept laughing, "Mime" attacked him from behind and kicked him down, "Ferdy" dropped his guns, then they started talking "What would these bastards offer you to join their

forces!!?” “Mime” said “I’m a silent clown, but I had something to fight for, I had a target to hit, what are you after Ferdy? What do you want??” “Ferdy” replied after a while laughing slowly “I’m not a guy with a target, I’m more like a hound chasing cars, I don’t even know what am I gonna do if I got one, I am not a guy with an organized plan or an agent of organized crime like you, I’m an idea, I execute my will according to my state of mind and YOU should be knowing that already” then he waved with his hand and 2 knives appeared in his hands, he throw one on “Mime” and he avoided the knife hardly, when he looked at “Ferdy” again, he was gone...The others were struggling with the frogs and trying to contain the place and avoid panics in the streets around the police station, “Carey” made her way out too...

“Rose” was afraid and had a bad feeling about this guy, she saw that they were gonna need “Frank”, “Ivy” was against the idea but she had to send “Frank” for this job, “Ferdy” could be the most dangerous terrorist on Earth...Every scientist noted that the plagues took 24 hours, the blood rivers took 24 hours and the frogs stopped the next day, all countries worked together to handle the free frogs and invented ways to kill or hunt them, “Frank” made it to “Berlin” with “Floyd” & “Twin”, “Floyd” hugged “Rose” who seemed pale and afraid, “Frank” spoke with “Arrow” & “Berg” about what happened and about who was “Ferdy”, but “Frank” preferred talking to the “Mime”, “Mime” said “You remember what I did in 2017?” “Frank” replied “What’s the relation?” “Mime” said “It has the whole relation, this guy was

with me in the asylum I was kept in when I was in USA, I was there before him, in 2 days, he was sent to a solitary room, his room was close to mine, I was locked alone too, I never talked to him or even saw his face, but I have never forgot that way of laughing, that evil slow laugh, that one that plant fear in a brave heart, when I spoke to him in the police station, I knew him, in the asylum he was known to be German but no one knew a name for him, so they tagged his tags with one name, Witzbold' "Mime" seemed amazed that there was someone crazier than him, "Frank" didn't reply and looked at the whole team, they took a minute till they noticed that "Frank" was looking at them silently, then he said "We have to find that Joker before he commit anymore crimes, otherwise you'll lose your minds because of him" he was

right, the team wasn't the same since they took this job...

{Ghost Assassins}

In "Russia", the new head of the "Yakuza" gang in "Moscow" got killed in a savage way and his men were killed, but one of them survived hardly, "Anton" went to interrogate him, the "Yakuza" member refused to speak in Russian or English because he didn't know Russian or English, "Anton" was gonna ask for a translator but he was shocked to see "Viktoria" in the hospital, he told her what happened and she went to speak to the Japanese thug, she spoke to him in Japanese, she knew Chinese, Japanese & Korean, but what the thug said was useless, he said "Kill me before he

comes back and finishes the job”
“Viktoria” asked “What job? Who are you talking about??” he replied
“Killing us ALL” then he died,
“Viktoria” didn’t know who was he talking about for certain, but she knew that whoever he was, he was up to more killing and hunting, she doubted that the assailant was “Rogue”, she was right...“Viktoria” started her secret investigations by going to the “Yakuza” gang’s hood, they were in mess, she beat them all down and took one of them and asked him about their present boss but he didn’t talk, she shot him in the head in front of the others, the others were afraid so they talked, one of them told her what she needed, when she left, they killed that thug and prepared themselves to move from their location, but they were stopped by someone who killed them all, “Viktoria” made it to

the "Yakuza" gang boss, he was an important businessman in "Japan" & "China", he had a lot of companies all over "Asia", but no one ever knew that he was a "Yakuza", his name was "Li Akito, late at night, "Viktoria" went to him unofficially and crashed the main glass gates with her truck, then she got out with her "M203" in hand and shot the gates security, then his special security appeared with guns, "Viktoria" dealt with them by her tools and heavy gun, "Li" saw her in CCTV but he didn't know who she was, he was expecting someone else "Who is this? I thought the assassin Shaw sent was a man!" then suddenly he was shot in the head by a smart bullet, once it hit his head, it exploded inside his head, after a lot of effort, "Viktoria" made it to "Li" but he was dead, this was shocking to her, but she didn't analyze

this as a sniper shot, she saw that this was another assassin who was just faster than her, the smart bullet dived in the air from another building on another side where there was no shot, a bullet like this required a very smart weapon, "Viktoria" thought that it was "Rouge", but no man on Earth was capable of using such a gun with this high accuracy except one man, "Deadshot", "Li" had an info that "Shaw" sent a hitman to hunt him earlier... "Shaw" used to hire "Deadshot" for special assassinations in return of money and full cover, besides to any needed resources, "Shaw" had direct orders from the "NATO" council to eliminate "Li" because he was uncovered... During the investigations, a lot of dangerous papers and documents were found in "Li's" office which linked some famous important

members in the "Habsburg" family with the "Yakuza" gang and the Russian Mob; besides to a lot of corruption in "Russia" & "Germany", this was a huge trouble for the "Habsburg" family, the "Community" families liked the idea and decided to use these info anyway they can to screw their worldwide business... This all took place during the 4 hours after the frogs crisis control, then the 3rd plague started, lice attacked Earth in a wide scale, everyone was attacked by lice, insecticides and chemical compounds could contain them, a scientist named "Allan Boyle" warned humanity from this and told the American Congress about the plagues of "Egypt" some didn't believe him but most of the Congressmen agreed to set red alert on the whole country based on knowing the plagues of "Egypt" from the Bible

and preparing themselves to face them, it worked, but lice kept attacking people, the situation was contained in "USA" hardly; not in all states too, but there was a huge mess all over the world, the horsemen had to move... There was no time to make a perfect plan, "Light", "Heat" & "Colossus" were gonna attack the "Black Magician", "Rayne" had to find a way to stop the "Black Fairy" using her holy power, "Rayne" & "Light" took down all the freak guards the fairy made, then the real fight began, it wasn't too long till the fairy and the gen realized that they were fighting angels but they didn't retreat, the gen called evil gens to aid him but they were nothing to "Light", so he called the strongest gen after him, "The Dark Magician", he was too powerful and his magic wasn't containable by angels, he could beat the horsemen but

before being killed, "Light" used his power and blinded everyone, clearing the way for the horsemen to gather and escape...

After 24 hours of terror by the lice, the world had its resting hours, during these hours, "Russia" exposed the documents they found in "Li's" office, this made a huge confusion in "Germany", the "Habsburg" family in "Austria" made a huge meeting and discussed what happened and what should they do, the meeting ended with the agreement to leave their business in "Germany" & "Russia", then they'd look for the one responsible of this disaster, but this required someone special to do such thing, so they called the guy who got enough resources and men, "Shaw", the "NATO" council was managed and members

were chosen by the families ruling the world economically, including the "Community" families, that's why no one could accuse them of anything, because they run the world, no one thought that killing "Li" wasn't enough to cover their corruption...The "Habsburg" family members in "Berlin" were wanted for query in front of the German society, so they made their men prepare their things and took all their deposits and turned them to paper money and took them from the banks by recommendation of some corrupted officials and told their men to move them to "Austria"; this caused an economical crisis in "Germany" later on, on the other side, more men from the family's guards were there to welcome them, the money and precious stuff belonging to the family were about 14000,000,000 €, one of

“Ferdy’s” men knew about the secret move by the family’s thugs, so he spread the word and “Ferdy” knew about the issue, “Carey” was with him that time, his men found her and brought her back to “Ferdy’s” hideout, “Ferdy” thought of using this to make a huge hit and make a lot of money in one hit, so he led a huge force and ambushed the convoy, they were driving trucks towards “Austria’s” boards, “Ferdy’s” men took control over the convoy without killing anyone, then “Ferdy” came with his purple cane stick and wearing a dark purple coat and went to them when his men gathered the thugs in line next to each other, he said “We live in a cruel world, criminality isn’t like it used to be in the past, it became boring with one thing to run after, money or power, this isn’t fun anymore, this is corruption; not crime, that’s

why I'm here, I'm here for you my fellow criminals, to guide your road away from the rich who's using you for their own purposes, and you're just pawns in their hands, but no more slavery, so who's gonna join the CHAOS side against those scumbags?!” no one replied then one of them said “If we let you take this shipment and leave, they'll kill us” “Ferdy” said “Nobody mentioned anything about leaving, we got millions of Euros in these trucks, why can't we have fun with them?!” they looked at each other and agreed to join “Ferdy's” clan and who refused got killed...This was a massive disaster to the “Habsburg” family, they thought that the “Community” were behind this, so war started between both sides, the “Community” families thought that it was “Shaw”, but he denied knowing anything about this, so he

sent his man, "Deadshot", to investigate about it..

On the other side, there was one hour left for the 4th plague to hit the Earth, "Rayne" suggested using "Jason's" help, because he was with "Rumple" for a long time and knew a lot about dark magic, "Light" was against the idea, "Colossus" saw that "Jason" won't help them because he was a demon and threatening him might have worse consequences, "Heat" said "The plagues were made by God to make the Egyptians believe in Him and to release the chosen nation of God" "Rayne" said "So you wanna say that the solution comes from Egypt!!?" "Heat" confirmed, "Light" took them there on a cloud and they started looking for anything enchanted or cursed since the plagues in "Luxor", they didn't search

for too long, they found a small statue in a bazaar store which was enchanted, the bazaar owner didn't know of course, the horsemen felt its magic and took it when "Rayne" asked for it from the shop owner, she had the power to convince anyone to do what she wants, they didn't know how to activate it, but "Light" was sure that there was a soul trapped in it, "Colossus" took the statue and by mistake its head got broken in his Tin hand, this made a golden dust get out of the statue and land horizontally on the ground then a woman appeared, she was an ancient pharaoh witch who was trapped in that statue centuries ago, in minutes she woke up and was surprised to find herself free, she didn't know any other language but hieroglyphic, "Heat" could learn her language from her words and within seconds he could

talk to her, he had the power of information and languages absorption, after some talk, "Heat" told them that she was immortal and witnessed all the eras of ancient "Egypt" till the plagues, fighting the plagues with magic was the reason why she was trapped in that statue, she was told the situation and she admitted that there was a way but she was punished because she used it, the horsemen told her that she wouldn't be punished again if she helped in doing something good for humanity and she'd be free, the witch was called "Taya"... "Taya" made a potion and added some sand to it, turning the potion to a green dust, she breathed the dust and said some words in hieroglyphic, Earth was hit with a moderate magnitude^[4] earthquake, then evil shadows appeared to take "Taya" but "Light" hit them and they

escaped away in fear, this stopped the plagues but didn't stop the "Black Fairy" & the "Black Magician", they were still working on their destructive weapon, but this time "USA" proposed help and it was welcomed by "Peru", but it didn't help, the "Delta" team "USA" sent there didn't make it back, this made the Americans mad and sent troops and choppers to the site, but climbing the mountain was gonna take weeks... "Colossus" said "The fairy turn humans to demons following her orders, but this doesn't give them any abnormal powers" "Rayne" said "Then we might need some help with the army she's creating" "Taya" replied "I know someone who can take down thousands of fighters with his powers and spear" she was referring to "Victor", "Rayne" said "We're not talking about demons, we were thinking of those we

helped in Iraq' "Taya" said "I'm not talking about demons too, I'm referring to God Anhur, or the new Horus" the horsemen looked at each other and didn't reply, they knew him, "Taya" asked to go to the pyramids in "Giza", the horsemen discussed this and refused using a demon's help in fighting another evil, so they dropped her in "Giza" and went to their friends, the "Sentinels"...The horsemen noticed that the "Sentinels" were very busy, so they tried to find the woman who was with them there, "Viktoria" and the guy who didn't believe them, "Silver", they were easy to be found, the horsemen took both of them and told them what happened and asked for their help, "Silver" said "I gotta warn them, USA sent troops and choppers there, they'll be butchered there by these creatures like the Delta team sent

before” “Colossus” said “The creatures can be killed by a bullet in the head or cutting it down, what matters more is if the fairy decided to turn them to be like her army, we need some special fighters to help in holding her army and we’ll handle the fairy and her brother” “Light” said “We didn’t consider the Dark Magician, he’s so powerful”...“Taya” went to the pyramid but didn’t find anything useful there to do, searching where “Victor” was trapped didn’t help either, later she realized that the pyramids in “Giza” weren’t the same pyramids during the Gods era, the ancient times had enchanted pyramids exactly in the same places where the “Giza” pyramids were, the ancient Egyptian Kings built these pyramids to make themselves like Gods, thinking that the pyramids will guarantee their

immortality and connection to “Ra”, although the new pyramids got magic too; but they weren’t satisfying to her needs, so “Taya” used a teleportation spell to travel back to “Luxor”...

When the fight started to be harder near “Machu Picchu”, the “Black Magician” decided to take his sister somewhere where they can find more metals to accelerate her power growth, she agreed, so he called the “Dark Magician” -“Dark” -and asked him where to go, he advised them to go to “Egypt”, it was the only country in between the world where an explosion was gonna be equally spread in all directions, so they teleported there, it was a shock to the Americans and to the whole world which was following this issue, in minutes, the world knew their new location and saw the power and its

ability, in "Machu Picchu" there were no buildings or much metals and humans to be fused with the fairy's power, when they arrived, they were in "Cairo" and "Egypt" had 110,000,000 inhabitants, most of them were living in "Cairo", the fairy started gathering them all to her power, this took the world's attention more than before, "Russia" prepared its fighters and armies to move, all the neighboring countries tried to do their best but no one knew that none of this was gonna work, in hours, "France", "Italy", "Spain" & "Ireland" announced moving their armies to destroy this 'reactor' as they claimed, "England" wasn't ready to get involved, "USA" sent its ships, the "Sentinels" saw that "Ferdy" can wait, but this can't, they took the jet and flew to "Cairo", "Taya" teleported back to "Cairo", the

horsemen took "Viktoria" & "Silver" to "Egypt" when "Light" felt that the fairy's power was increasing rapidly, in hours, the "Sentinels" arrived... This time, the Americans were going there with a new weapon prototype, it was created based on the cryonics science, the new guns were called 'Cryoguns' by the soldiers, freezing everything was the only way to destroy everything without fighting back and more casualties...

{Voyna #3}

The horsemen knew that the "Sentinels" and a lot of armies from all over the world were near "Cairo", so "Light" appeared to the "Sentinels" and asked them to join the horsemen and share information to be more effective, "Frank" & "Arrow" agreed, "Frank" & "Floyd" knew the horsemen but the others didn't, "Frank" introduced the horsemen to them, the others were shocked to see "Viktoria" & "Silver" with the horsemen, "Chen" told "Frank" that this might be the end of the world and told him how much she loved him, "Frank" was worried about her and the others in "Wales", he wanted his kids to live and have a good life, despite his fears because of their powers or gifts, "Frank" said to his

friends “These demons must be stopped by any means necessary, this might be our last mission together, believe me when I tell you this, I love you all and it was a great honor to fight side by side with you, my dear brothers in arms” “Floyd” said “Don’t say that brother, we won’t fail tonight, we’ll stop these demons” everyone supported “Floyd’s” words...

The plan to attack the gens and their small army of creatures had to be exact, there was no time for another round, the world was gonna die if they failed that night...The horsemen weren’t that kind of people who move according to plans, they jumped on the creatures and attacked them, “Frank” got shocked then he jumped after them with the others after him, “Quiet” was in position, the “Sentinels” weapons

were helpful and the creatures were brittle and weak, "Frank's" input was important and he was so effective, "Viktoria" was doing well too, "Taya" was there watching, then "Dark" appeared and used his power to catch everyone of them, "Light" could fight him but "Dark" was enough powerful to fight while the others were still caught, "Taya" interfered and sent "Dark" to another dimension and locked him there, then the others were freed and kept fighting the creatures, during the fight, no one noticed "Taya", "Light" left the fight and tried to pass to the fairy, but her brother stopped him and they started fighting, the external world saw what was happening, "Ivy" confirmed that the men down there were hers, this kept the bombers from blowing the whole area, the American "Alpha" team arrived with their

cryoguns but they were ordered to stand down too, "Mime" left the fight and went to check on "Light", but he realized that this wasn't his fight, so he returned to the others and found "Heat", he told "Heat" to help "Light", "Heat" went to help him and "Mime" used the huge distraction to the "Black Magician" and went to the fairy with a hand grenade, he didn't show himself to her, then he throw the grenade on her and it exploded, but it didn't affect her or her power wave she was working on, she held him from his throat and intended to kill him, "Rose" rushed to that side after the grenade's explosion, when she saw the situation, she threw her hammer on the fairy and it hit her strongly, the hit didn't kill her but it knocked her down, when she fall down her energy stopped and the power generation stopped, what resulted was

a short tower of metals, the "Black Magician" left "Light" & "Heat" and went to check on his sister, he saw "Rose" & "Mime" with his sister down, he got mad and intended to attack them but "Frank" got between the "Black Magician" and them and stopped the gen's attack on them with his shield, the gen said "You're a very brave mortal!" "Frank" replied "And you're another monster I'm gonna send to Hell" then "Frank" moved and hit the gen's leg putting him down on one knee, then he held the gen's head with the shield and "Light" prevented him from moving using his light power, "Frank" told "Rose" to smash his head with the hammer and she did it, the "Black Fairy" woke up and saw her brother's head off his body and smashed, she was angry and said "You're not getting away with this"

then she hit them with her power but "Frank" stopped in front of her and told the others to do something, "Quiet's" attempts to shoot the fairy in the head were in vain, she wasn't affected by bullets, "Arrow" took a high position and shot her with an explosive arrow, the explosion was enough to tear her apart, the fairy's power almost tore "Frank" apart, "Rose" was trying to shoot the fairy, when the fairy was gone; "Frank" fainted and the other creatures vaporized, when this was over, the horsemen started to vanish in lights, before disappearing "Light" expressed his thanks to the "Sentinels", "Rayne" said "Tell your friend that he's the bravest mankind we have ever witnessed, he saved Earth and humanity, thank you from the future" then they disappeared returning back to their time...

In "Singapore", the head of the "Goto" family was there for business, their business was screwed because of what was revealed about them earlier; they were also mentioned in "Li's" documents and records, "Rogue" was there and seemed to have a bad intention, one night, the "Goto" family's boss was getting out of a restaurant with a girl and his men around him, he got shot in the head by a sniper rifle, in the chaos, "Rogue" could escape easily, this assassination screwed the whole family and made them fall within days, "Viktoria" made her way to "Moscow", she heard the news and knew that it was "Rogue", she saw that he was responsible of what happened to "Black Mask", later she discovered that she was wrong...

On the other side, 48 hours after the “Singapore” assassination, “Ferdy” was thinking of a way to move to “England”, someone paid him a visit in his warehouse, the visitor said “Are we ready?! We have been waiting for a very long time for this hit!” “Ferdy” replied “Indeed we are, you’ve been doing good in the east side, I hope you are as good as you claim” the visitor was someone unexpected...In March 2020, Muslims in “London” started to arrange protests and stands to say that the Brits were abusing them and forcing them to work severely with low wages, this was far away from being right, the peaceful protests lasted for 3 days then things started to be violent, the British Police contained the situation in many areas but it was still messy, the “Sentinels” were in “London” just in case...On March 17th 2020, “Ferdy” made it to

“London” with his men and girl, the visitor who met him in “Berlin” was in “London” already and told “Ferdy” about the protests, maybe they’d need to use this later, “Ferdy” had an idea depending on this event... Among the years, things haven’t been smooth between the Muslims and the west countries, Muslims used to practice terrorism against civilians all over “Europe” & “USA”, replies have always been bad and devastating, sometimes the “NATO’s” hits weren’t known by media because no official teams were doing them; like the “Sentinels”, sometimes the “NATO” used to use their hidden hitmen like “Deadshot”, or sometimes they were using missiles from a weapon in space, used to be called “Rods from God”... “Ferdy” made some men attack some shops owned by Muslims in “London” by torching them

with molotove cocktails or drive bys, doing this for a week made things worse, people thought that they were maniac Brits who wanted the Muslims to leave the country and attacking them and their shops was a way to make them leave, the Muslims replied back, this time they were called terrorists and the British Police and other agencies used lethal force against them, 2 days later, "Ferdy" resurfaced and being seen in "London" was a huge shock to everyone...

{Lunatics Revolution}

On April 1st 2020, "Chen" asked for a temporary vacation, "Ivy" didn't know why and she didn't ask "Chen" because she trusted her, "Chen" went to "Frank" and said goodbyes, "Frank" was against the idea of her leaving, he saw that they were gonna need her, but he couldn't convince her to stay, she didn't tell him any obvious reasons except having troubles in "China", "Frank" let her go but he was mad... That time, "Chen" felt that she was pregnant, she never made love with anyone but "Frank", this wasn't gonna be accepted by the family and specially "Jenny", so she left and intended to inform "Ivy" her retirement from "Beijing", "Ivy" knew this secret later but told no one, not

even "Frank", till "Rose" knew in the future from "Chen" herself...

The "Frankenstein" prison was still operating and secured well, the prison was attacked by "Ferdy" and his men, it started by getting rid of CCTV and motion sensors, "Ferdy" said to someone next to him "I can't wait to show you my new toys" and seemed happy and excited while talking, then he received a call from one of his men somewhere else telling him that everything was well and 'the stuff were in place', then drones and remotely controlled cars started moving towards one of the prison's fences, the sensors detected them and started shooting at them, in return, the automatic-computerized guns were shot by the thugs from far away, this hit cleared the way through this fence to get inside without huge

troubles, guards didn't understand because what they saw in CCTV was nothing, before attacking; "Ferdy's" men manipulated the CCTV remotely and hacked the radio communication signals, "Ferdy" had a lot of money enough to buy anyone and payed very well, 2 thugs cut down the electric wired fence and diffused it, then the men started getting inside, when this happened, thugs spread in the place and they were wearing like the guards and masks like them, "Ferdy" didn't get in with them but the guy he was talking to got in with the men, then a video was published on social media by an anonymous account, he was using a microphone and there were speakers behind him, he wanted the inmates and guards inside to hear him, he spoke in German and said "Heey, Joker is here, hear me well people,

behind me is the symbol of suppression where thousands of men and women were languished by the power of that thing calling himself Frankenstein, HA HA HA, what a name, what a symbol, the monster who was held up to you as a shining example of justice and law power, oh please, you've been supplied with the false idol, Frankenstein and his crew of lunatics are actually like me, they're dumb clowns with no smile, they're criminals with police badges..." then he started talking about many Muslim terrorists in the Middle East "Frank" have killed since late 2017 till late 2019, including "God's Eye", who was seated on a wheelchair and "Frank" killed him in cold blood, as "Ferdy" referred, but of course "Ferdy" didn't mention that they were terrorists, he mentioned them all as civilians or regular people, these info should be

classified but no one knew who told him, then he spoke about some dirty operations supervised by "Shaw" which put him in a delicate situation, later they knew how "Ferdy" knew all this, he continued "I am here tonight and every night to stop you guys from screwing things up, to stop you from tearing yourselves apart, you need me like a circus in need for a clown, take a look at my toys" then he moved to several detonators, the cameraman was his girlfriend "Carey", she was laughing all the time, every detonator had a sticker on it with a name, a street, square, facility, hotels, bridges, undergrounds, churches, hospitals or anywhere vital in the city, "Ivy" made calls and set red alert to go to everywhere mentioned on the stickers and start evacuation, but this wasn't gonna help, "Ferdy" said "Let's start

with that one, oh what a sweet thing here” then he pressed the trigger and a huge explosion happened in the “Blackwall” underground station and the “Blackwall” road tunnel collapsing them, when he was told in his earpiece what happened, he laughed and told “Carey” what happened and hugged her as if they were celebrating a victory and they looked very happy, “Frank” disappeared and went to his suit and decided to use the jet to get to the prison where “Ferdy” was, “Mime” joined him and told him that going there alone was insane, “Frank” didn’t listen to him, “Ivy” told them that “Frank” would be fine and she needed them in “London”, “Rose” was mad because of “Frank’s” action but she had nothing to do, the prison’s guards were fighting with “Ferdy’s” thugs but they were

struggling because of a special guy, someone with a samurai sword and looked Asian, it was "Rogue", he was the visitor to "Ferdy" in "Berlin" and he was the one who helped him with going to "London" secretly with his men and 'toys', although they had help from the inside... "Frank" & "Mime" arrived but he got a lot of men around him, "Mime" said "You can take them all down, but this distraction will give him time to escape, I can get him when he starts running" "Frank" agreed, "Frank" started by shooting at the thugs on the entrance, they already cut the power off the prison and the guards inside weren't ready for such a fight, "Ferdy's" men were armed and prepared well, then they started freeing the prisoners and giving them weapons to aid the clowns inside, others were enhanced criminals like "Cobra",

“Pinocchio”, “Black Skin” and other dangerous criminals, the prison was prepared with explosives to be used by the authorities whenever they needed to destroy the place when it's out of control, “Frank” told “Ivy” to blow the prison, but she didn't want to do so while he & “Mime” were there, “Ferdy” didn't run, he jumped on a truck's back where a mini-gun was and started shooting at “Frank” but “Frank's” suit saved him, “Frank” stood without moving and bullets didn't affect his suit, then he said “Give up now, you can't beat me” “Carey” appeared with a trigger behind “Ferdy” and pressed the trigger, this caused another explosion at the “Westminster” bridge, taking it down, “Frank” pulled his gun and tried to shoot “Carey” & “Ferdy”, but he didn't because someone hit “Frank” with a car from his side, “Frank”

wasn't hurt, but who hit him was a surprise, but "Frank" wasn't shocked for too long, it was the "Mime", he was "Ferdy's" eye in the government for a long time, "Rogue" was inside the prison and found who he was looking for, "Adrian" - "The Savagery" - was locked up inside a highly secured solitary cell, but of course nowhere inside was secured anymore, when "Frank" saw this, he blew a flash bomb and disappeared, "Ferdy" was mad because of that, the plan was to attract "Frank" and catch him then putting him in the prison and sealing it, besides to the chaos they caused in the city, "Mime" told "Ferdy" that this won't affect the plan, "Rogue" brought "Adrian" to them and "Adrian" knew them both, "What took you so long, pigs?" "Ferdy" said "Well, we were preparing things for a welcoming party

for our Savagery, join the team of lunatics to tear the world apart and to establish a new world order, welcome back old friend, let's get to work", they didn't know about the bombs inside the prison, "Frank" told "Ivy" that the place was out of control and gave her the green light to blow it, she did it and the explosion was massive, all prisoners, guards & thugs died except those who were outside, the 3 clowns were outside and had some injuries but they could move, cars came and everyone moved, to make things worse, "Ferdy" told "Carey" to blow another trigger, she pressed another one, but it didn't explode, because experts diffused that bomb, it was in "St. Paul's" Cathedral, other bombs were diffused in some places but other places weren't known yet...A war against those 3 clowns together was the worst war the

“Sentinels” could face, “Silver” arrived there with “Predator” and had a terrible news to tell everyone “Shaw wasn’t left to live for too long after what the clown said, it looks like a suicide, but I know Shaw well, he’s murdered” “Predator” said to the “Sentinels”; “Silver” confirmed his words, “Ivy” and the others were in shock, they didn’t believe what “Ferdie” said, but “Shaw’s” death in the same night proves everything, then a trigger the police and the “MI5” didn’t know about and couldn’t cover if they knew, the sewer tunnels and the underground rails, they were all full of C4 explosives, “Ferdie” used it and suddenly every sink and underground metro and station started to explode causing a huge destruction to “London’s” infrastructure...

{3 Clowns}

“Ferdy” sent a new video to media, he was threatening the government of making any step to attack him or his men, otherwise he was gonna attack the Kingdom’s palace with “RPGs” and showed them how close his men were from the palace, as if he didn’t care to make cops and agents know his thug’s positions around the palace, this made things more complicated to the “MI6”...The prison’s guards, inmates and assailants were all dead during the explosion except 2 inmates could escape the blast, both of them were mutants, one of them was “Black Skin” and the other was a powerhouse named “Brass”...

The "Sentinels" started working on street thugs, interrogations lead the "Sentinels" to the "Clowns" next target, they were after destroying everything governmental in "London", the police station was attacked but cops could hold them till army forces were spread in the streets and aided the poor police officers, in minutes, "London" became a war zone, "Ferdy's" men were so many, nearly every thug in "London" was "Ferdy's" thug, from all nationalities and he was good with convincing people to join his clan, "Frank" had an idea but it needed time and a lot of effort, he planned to attack "Ferdy's" men everywhere in the city as a way to plant fear in them, "Ivy" and the others were against the idea but they had no other plan...The "Sentinels" agreed to "Frank's" plan but they insisted to join him, they

weren't gonna attack together as a team, everyone was gonna check any soft targets or anywhere with no heavy security, "Ferdy's" men were wearing clowns masks and other mime masks...

Everyone spread up in "London" hunting clowns, "Frank's" hunt was more destructive and more obvious, the others were killing and destroying without much noise like "Frank", every time "Frank" caused damage, he used to create his logo using fire to make everyone see that he's after the "3 Clowns" and that he wasn't messing around...It wasn't too long till it was known to everyone that a wanted Pakistani terrorist named "Abd Al Rahman" was in "London" and met the clowns, his existence in "London" was a shock and meeting the clowns

revealed that there's more to this,
"Sonya" was the one who got the info...

The terrorist had his men in the field, he had his plan of destroying "London", he had special chemical weapons, their effects were destructive but not as usual weapons, the chemical compound was corrosive and one round of its rounds was enough to destroy a huge building, the compound turns to something very powerful and starts eating the building till the building disappears in seconds without a chance to do anything to stop the building's corrosion or whatever else is shot with that compound, it was something called "Nanomites"... "Abd Al Rahman" was like all Muslim terrorists, had nothing to run after but killing Christians, according to the "Clowns" opinion; "Ferdy" thought of

using him and buying these weapons, "Adrian" tried to make contacts with the "Community" families, he could have their blessings in return the clowns had to avoid destroying their business and companies or banks, "Adrian" agreed temporary, "Ferdy" asked for "Abd Al Rahman", "Mime" knew about "Abd Al Rahman's" weapons earlier using the "Sentinel's" resources, "Electrocutioner" told the others about that terrorist and his weapons, the compound and its projectiles were Russian, "Russia" used to have chemical weapons but no one knew how these weapons fall in the hands of terrorists, "Viktoria" knew later...

“Abd Al Rahman” used to be an arms dealer and used to sell heavy weapons to “Isis”, “Al Qaeda” and other organizations in “Afghanistan” and the “Middle East”, in late 2017, he had a family who died during one of the “NATO’s” attacks, “Frank” & the “Sentinels” were there and so many people died during this attack, “Abd Al Rahman’s” sources led him to “England” & “USA” but he never knew how to attack any of the 2 world’s most powerful capitals in the world, but he has always been seeking vengeance from the western countries, he was behind many terrorist attacks on many countries in “Europe” between 2017 & 2020 and he used to announce his responsibility of any attack ever since, when he knew about what was happening in “Berlin”, he found a way to contact “Ferdy” and they made

a deal together, "Rogue" helped "Ferdy" & "Abd Al Rahman" to get into "England"...When "Rogue" was known to be with the "Clowns", "Viktoria" was sent to "London" by "Vasily" to get him, "Vasily" knew that any dangerous info like the ones said by "Ferdy" earlier could not be known by anyone but "Rogue", he was afraid of what else he might know, "Viktoria" knew that "Vasily" wasn't clean but she had unfinished business with "Rogue"...

"Brass" & "Black Skin" made it somewhere where they can have some food and shelter for some time till they decide what to do or where to go, "Black Skin" heard that "Rumple" was dead but she had a friend in mind, "Jason", but she thought he was in "Russia" which needed special

preparations for traveling, "Brass" knew no one in "England", he was one of those who were transported from the "Cave" prison in "Siberia" to the "Frankenstein" prison, he was a teenager when he was imprisoned in the "Cave", so he has been in prison for too long to know anyone, they just had to keep moving...

"Viktoria" arrived "London" secretly, she was there officially to catch or kill "Abd Al Rahman" and "Rogue", many other countries sent agents secretly to "London", the "KGB", "DGSE"^[5] and the "CIA" were the most obvious agents in the field but the Brits had no time to check their intentions, the "Sentinels" attacks on the clowns had the outcome "Frank" was expecting, fear made some men hide and leave their positions and others

who were captured said a lot of info about "Abd Al Rahman's" weapons and "Ferdy's" role in this, "Viktoria" knew that her chances weren't that big during the chaos, so she kept her eye on the "Sentinels", the "Sentinels" knew the "Clowns" location, a huge force from the "SAS" and the "Sentinels" went to that location and started a tactical attack on the guards, "Electrocutioner" was there and "Viktoria" went after them...

{Voyna #4}

The "Sentinels" attack was known by the "Mime", he noticed the agents moves and told his friends, "Adrian" said "Prepare your men for a fight" to "Abd Al Rahman" and he ordered his men to get ready, "Arrow" told the others that "Abd Al Rahman's" men were around, "Quiet" was in position and confirmed the 3 Clowns' existence inside, it was a warehouse near "London's" limits, the place was close to where "Brass" & "Black Skin" were hiding, "Ferdy" used the radio and said "Hey guys, we got intruders and cops are trying to screw our party, let's have some fun" then he blew a nearby building which was under construction causing some distraction, "Viktoria" made it inside the

warehouse, but the others outside were surprised by drones and toy boxes coming out of the place towards all units outside, the drones stopped around the place creating a perimeter but the boxes moved forward, the agents were told to hold their fire then suddenly the boxes were opened and many tricks came out, fireworks, explosives, small flamethrowers, small mini-guns or decoys hitting the agents and soldiers, this made a huge disturbance and it changed the attacking plan, "Frank" knew that this was a diversion to allow them to escape, "Frank" attacked the place trying to pass the drones but one of the drones shot "Frank" with a missile, the missile didn't affect "Frank" but it threw him away for a distance, when the boxes were all opened or destroyed, the drones started shooting at the agents,

nearly all of them died, the "Sentinels" were told to pullback by "Arrow" when the boxes started exploding, when "Frank" was shot, "Rose" & "Floyd" took him away and "Quiet" covered them shooting the drones, but she wasn't the only one shooting at them, someone else was, they thought that it was the "SAS" snipers, but in fact it was "Deadshot", they were [the Clowns, Rogue, Abd Al Rahman & a weird guy wearing an armored suit with 2 special handguns and a rifle on his back] besides to other thugs, "Ferdy" was laughing loudly with "Carey" in his arms, the weird guy was wearing a mask covering all his head and was using a voice changer, he screamed loudly in a very evil voice "You all think that we're surrounded by you and your bloody troops, wake up, you are locked up in this city with US"

“Frank” tossed his shield towards him but everyone was shocked to see him catching the shield then he tossed it back towards “Frank”, it hit “Frank” so strongly enough to cause a crack in the mask, this was shocking, during their shock, the villains moved in trucks and started moving, they weren’t escaping they were driving with normal speed, cops tried to do something heroic but they faced the guy in the armored suit and he killed them all and blew their cars with grenades he had, “Viktoria” knew this guy, she saw him from the inside, his existence prevented her from engaging with them while she was in, “Deadshot” knew him too, he was a retired “MI”^[6] soldier, he was called “The Knight”...The “Sentinels” refused leaving them, they jumped in their cars and started chasing them, the

'Beast' truck was with the crew, "Frank" jumped in the truck with "Electrocutioner", "Floyd" had his bike, "Rose" rode her "Aston Martin", "Arrow" & "Twin" rode a modified Jeep, "Sonya" followed them later with "Quiet" in the "Fiat 131", it wasn't too long till they found the convoy, "Frank" used the truck's weapons and destroyed most cars of the villains' convoy, then thugs came out with "Nanomites" guns "Electrocutioner" said "Oh my God, that's Nanomite, all units pullover now" then he stopped the truck because he knew that "Frank" wasn't gonna stop, this made "Frank" mad but he was convinced later when he knew about the compound and what it could do... This left the British capital facing the threat of those lunatics without a chance for anyone to engage with them, they got the "Clown's" toys, the

“Knight’s” drones, “Abd Al Rahman’s” chemical weapons and 100s of thugs, this was the worse threat “England” has ever faced, “Ivy” had an idea, “There’s still a weapon we can use, a weapon that’s not scheduled in the NATO’s database yet and could be a surprise to them” she said, “Silver” said “The Cryogenic weapons!” she confirmed and no one could say anything, “Frank” was more interested in the “Knight” and his power...The “SAS” agents found “Brass” & “Black Skin” and they knew that they were inmates in the “Frankenstein” prison, catching them wasn’t easy too but they could handle them and delivered them to the “MI6’s” secret hideout, the agency’s headquarters was attacked earlier by thugs and keeping those 2 dangerous mutants there wasn’t right, “Frank” knew and told “Ivy” to be

careful and put trusted security on them "Make sure their security are trusted this time" he was referring to "Mime", it was "Ivy's" idea to add him to the team despite "Frank's" refusals in the past, this made an argument but "Rose" contained the situation and told them that they shouldn't fight in this delicate situation...

In 3 days, "Silver" & "Predator" found a way to get the Cryoguns in "London" without being noticed, "Frank" and every member of the "Sentinels" was given a gun, "Dr. Boyle" -the weapons inventor- was there too to guarantee that the guns were working properly and to apply any settings needed before usage...The "Buckingham" palace was the villains' hideout, they camped there obviously with banners having clowns faces and

HAHA, the "Sentinels" had to prepare a good plan to attack and avoid the "Nanomite" weapons, "Abd Al Rahman" didn't have a lot of "Nanomites", only 7 shots, but every shot was more destructive than a nuclear head, "Frank" thought of making a decoy attack till the "Nanomite" gunners appear then they shoot them with the Cryoguns, "Viktoria" appeared to them and told them that this won't work "This will be useless, there's a better way" then she told them that she know someone who can do this job next to her and "Frank", she was referring to "Brass", they didn't know his mutation but she knew him when he was caught, "Ivy" said "He won't help us without something in return; like his freedom, we won't commit that mistake again" "Frank" saw that releasing him was gonna be a

trouble but he saw that he could be handled, "Ivy" agreed...

"Brass" was told but what he asked for was very weird, he demanded freedom for "Black Skin" and all facilitates for curing her, about him; he asked to be locked up in the "Cave" prison again, this was very weird, "Viktoria" went to talk to him, she spoke to him in Russian because he didn't speak English, she said "I heard that you asked freedom for her and imprisonment for yourself, why?" "Brass" replied "Because I have nowhere else to go, she has a better chance than I can ever have" "Viktoria" said "Don't you wanna have a regular life with her?!" "Brass" said "A regular life is a weak spot, as long as I am alone, no one can make me do anything I don't wanna do" "Viktoria" said "You're not

forced to do anything, but we need your help” “Brass” said “Ok I’ll join you only when you promise me to do what I asked” “Viktoria” promised him but she knew that the Brits won’t leave “Black Skin”, but she had to promise him that..The next day, “Viktoria” arrived with “Brass”, more agents from the “SAS” and the “NATO” arrived and asked the “Sentinels” to join the fight, “Arrow” welcomed them and started studying the palace with them, “Frank” went close to “Brass” and warned him of betraying them “Listen fool, I don’t trust you and I won’t, if you thought of betraying us, I’ll make you beg me for death and I won’t kill you, I’ll enjoy torturing you” “Brass” didn’t understand English but he could notice “Frank’s” aggressive tone, “Frank” added “Twin” to the team, this made them 4 members sneaking in [Frank,

Viktoria, Twin & Brass], "Brass" was the only one who wasn't given any weapons, he didn't need them, and "Abd Al Rahman" won't use the "Nanomites" against 4 members, the plan was to find the "Nanomites" weapons and destroy them, then the others outside will launch a full scale attack, "Electrocutioner" used infrared scans and could locate the "Nanomites" weapons and sent the location to "Frank" & "Twin", all they had to do was to find the easiest way to reach them and destroy them, it wasn't too long till they reached the weapons, but there were several thugs with heavy guns, "Mime" knew that they were inside and told "Ferdy" & "Adrian", "Adrian" said "I know what they're after, they'll try to destroy the Nanomites and sabotage our adventure by a huge attack" "Mime" said "I'll

handle exchanging the real ones with the decoys” “Ferdy” said to some men “Get the fireworks ready, once we catch them, I want a wonderful welcoming party for the Monster”, the “Sentinels” went to where the weapons were kept, “Frank” took down the guarding thugs and waved to the others to move, they got in and suddenly lights went on and 10s of thugs surrounded the “Sentinels” with guns, “Rogue” & “Mime” were there, “Mime” said “Welcome old friend, we’ve been expecting you” “Frank” looked at him without replying, “Twin” analyzed that the liquid in the obvious weapons was fake “The weapons are fake” he said to the others, “Viktoria” said “They were expecting us!” “Frank” looked at “Brass” as if he wanted to tell him “Go ahead, prove yourself” then both men started attacking the thugs, “Viktoria” took

cover behind the table where the weapons were placed and started shooting back, "Twin" helped her, it wasn't too long till all thugs were killed, "Brass" did well, "Knight" appeared in front of "Frank", they didn't waste time and started fighting hand-to-hand, "Rogue" fought with "Viktoria" and he had a samurai sword in hand, "Mime" told his men to shoot "Twin" with electric shocks, "Brass" was a surprise to everyone, his strength was unstoppable by any thug, "Electrocutioner" could find the real weapons and reported what he found out to "Ivy", she told "Arrow" & "Sonya" to sneak inside and plant small explosives near them, "Silver" suggested watching over them, it happened, but getting in wasn't a trouble like before, everyone was busy with "Frank" and the others, in

minutes, "Arrow" & "Sonya" made it outside and blew the real weapons, once this happened, "Adrian" said "Oh no, they screwed us" then "Ivy" & "Silver" ordered all forces to attack the place with full force, it happened and it was a huge war that lasted for minutes because of the cryoguns, which was very helpful, "Knight" tried to escape but "Frank" didn't leave him, "Rogue" could escape from "Viktoria", "Twin" was ok and kept killing thugs violently, "Predator" met "Mime" and without talking they attacked each other, "Rose" found "Carey" and tried to catch her, but "Carey" had tricks and could escape from "Rose", but not for a long time, "Rose" threw her hammer and it hit "Carey" taking her down, "Floyd" had "Ferdy" and he didn't give "Ferdy" any chance to resist but something unexpected happened,

the place became dark, lights went off and within seconds the "Clowns", "Knight", "Rogue" & "Abd Al Rahman" disappeared, all their men fall, then all the thugs cars exploded one after the other causing disturbance to everyone, this gave the villains enough time to escape without being seen..The villains used the sewers to escape, it was an escaping way prepared by "Abd Al Rahman's" men for situations like this, on their way, they met something very weird, "Rogue" said "Wait, we're not alone, someone is here" they got alerted then one of "Ferdy's" men got pulled in the water suddenly, another one disappeared and blood spread in the water, "Abd Al Rahman" and his men started shooting the water with fear, "Adrian" looked ahead and saw something standing in their way with big teeth, heavy scales, crocodile's eyes

and huge in size, "Ferdy" & "Mime" saw it too, the 3 "Clowns" stood in front of the creature with amazement, "Abd Al Rahman" and his men started shooting at the creature and "Knight" joined them, but its heavy scales prevented bullets from hurting it, then the creature attacked "Abd Al Rahman" and his men and killed them all, "Knight" & "Rogue" disappeared, then the creature looked at the "Clowns" and got close to them, after a long gazing, "Ferdy" said "Hi there, we're the 3 Clowns, you are..." the creature replied hardly "I have no name" "Adrian" said "That's not a problem friend, you're the Lizard", "Ferdy" had a tattoo on his hand with a big smile, he put his hand on his mouth and laughed slowly, "Mime" kept gazing at the "Lizard" with a smile on his face...

After the attack on the “Buckingham” palace, “Silver” admired the cryoguns and their effect, their input was very helpful during the battle, many thugs were frozen and died out of coldness... “Dr. Boyle” had a visit by a young British engineer, he was a student in the “Oxford” university and later he became a teacher there, he knew about “Boyle” and his cryogenic project, the engineer had clearance to meet “Boyle” hardly and their meeting was long and profitable for both sides, the engineer’s name was “Alex Landon”...

{Shades From The Future}

In the far future, 2050, things were bad again, but this time things were more painful than bad...“Magnet” & “Grace” had a child in late 2041, a little girl, during these years, the world built itself and technology started to rise again...For some reason, after neutralizing a threat in 2049, humans started to demonstrate and protest being protected by mutants specially in “USA”, referring to the “Mark V” division, during this crisis in 2049; they got responsible of killing 10s of civilians by mistake; that’s why people started rejecting them, “Ivy” was dead that time and “Henley” was handling their operations and speaking for them officially in media, “Jenny” was sent to a hospital after a

diabetic coma in 2043, she wasn't expected to live for long, "Frank" was completely away from the scene, that time there was no "NATO" anymore, "Frank" got married to "Rose" officially in a Church in 2044 and had a baby boy from her the same year, they called him "Konrad", "Rose" loved "Frank" very much; despite everything between them...In 2049, "Magnet" decided to retire and live with his family and raise his child, he was living with his wife and girl in a house they bought in "Liverpool", "Magnet" & "Achilles" had a lot of misunderstandings among the years about many things; including if they were doing the right thing by protecting humans or not, so "Magnet" decided to leave the mansion because of him and "Wolf", in 2050, when troubles with mutants started again, "Magnet" was at

work, a gentleman went to "Grace" and her girl and could easily and violently kill "Grace" & her little girl, this guy was a demon, the worse one of them all, then he wrote on the wall with "Grace's" blood "No more mutants, freedom for humans, death for mutants" when "Magnet" came back home and saw this he knew that this was the act of humans rejecting mutants, although he never showed anyone what he could do and told no man about his mutation, this was weird but he was blinded by anger and couldn't think clearly, "Eve" felt that something was wrong with "Magnet", she tried to call him many times but he didn't reply...The 4 horsemen of peace left the "Sentinels" in 2020 and appeared in 2050, not in 3000, this was weird but they didn't feel that it was weird, they were recruited by an angel of God and he

told them that they'll face 7 dangers from 7 different eras around the planet, the 4 of them were chosen from different dimensions of time, which means that they weren't all from the same time but they didn't share this info with the "Sentinels", when they appeared in 2050, the angel appeared to them and told them that an evil demon was loose and had to be stopped, but the demon wasn't the problem, the trouble was bigger than this, the Greek Gods were real wizards too, like the Egyptian Gods, one of the 3 major ones of the "Olympians" was "Hades", he was loose when the horsemen of apocalypse were raised and when they were sent back to their long sleep, "Hades" was still loose, regardless to what happened to him in the past, but he kept corrupting humans' minds and fed their souls with hate and anger by

pushing the world to continuous wars and slaughters all over the world, the last thing he did was to give people reasons to hate mutants and start attacking them, he found out that the only obstacles he had to control Earth were mutants, God sent the horsemen of peace to stop the "Hades" and his demons on Earth and to unite humans and mutants against evil, the angel told them something else "There's something else that must be stopped before the time disturbance happen, someone will go back by time too far to change an event, if this event changes, the planet will be doomed in 2020" "Rayne" asked "How?" the angel said "Frankenstein, he'll work on changing time, Hades will corrupt his mind and give him a way to go back by time and change this delicate event" "Light" said "Frankenstein, this guy caused

enough damage to the world among the years' they knew the info but they didn't know how will "Frank" meet "Hades" or what was he gonna change in the past...

"Magnet" had an idea about somehow to return back by time without the need for technology, an ancient legend about a small sand clock that has a jewel which could be pressed, if it was pressed and the user thought of a specified moment in the past, the clock sends him to that moment, but only as far as the clock had sand, if the clock was emptied of sand and the user didn't reach his destination yet, he'll be lost between the past and the future forever, which means going too far in the past requires a lot of sand of the same kind, this kind of sand could only be found in "India";

as much as he knew, later he discovered that he was wrong...The clock was in "Italy" with a treasures thief, he risked a lot to acquire this clock and sell it, "Magnet" read about the clock and knew that it had relation with the Indian civilization, so he decided to travel there and look for it, he wanted to return back by time to this day when "Grace" and his daughter died and stop the assassination, the next day, "Cezar" knew what happened with "Magnet" and told the others, "Achilles" & "Wolf" didn't care, "Eve", "Ercole", "Ai" & "Angela" cared and told "Cezar" to prepare their jet to go to him but they were late, "Magnet" left already...

In 2020, "USA" knew what happened in "England" and saw that guy "Brass", this made the Americans admit the existence of mutants and welcomed them in the American society, days later, the whole world did the same as "USA" and mutants became declared and had their rights...In "London", "Frank" was tired of the "Clowns", whoever was captured from "Abd Al Rahman's" men or the clowns' thugs were interrogated by "Frank", he was nervous enough to kill those who didn't cooperate, in hours of squeezing the thugs, they spoke and told "Frank" all possible safe houses, warehouses and hideouts that the villains could use, "Silver" & "Ivy" gave orders to check these places and kill whoever stand in their way, "Carey" was completely useless to know anything valuable from her...One of the hideouts

had plans and blueprints of the secret "MI6's" hideout, the place where everyone was in with a paper stuck to it had nothing written on it but "HAHA", this indicated the next target for the villains, "Ivy" announced this news and told everyone to stay alert, "Frank" saw that they should look for them fast and attack them; not to wait for them, "Floyd" & "Rose" agreed to his opinion but "Silver" told them that they should barricade this place first because there were documents and stuff that shouldn't fall in the wrong hands, he was right, once he was done talking, alarms rang and soldiers reported that some kind of a human shaped crocodile was attacking them violently and wasn't affected by bullets, the "Clowns" were behind it with a lot of men holding flamethrowers and "RPGs", "Ferdy" had a speaker in

hand and kept saying "C'mon Frankenstein, do it, lock me up and I dare you, pull the plug, end this once and for ALL"...After hours of fighting, "Frank" fall in one-on-one fight with the "Lizard", the fight was massive and both of them fought strongly, "Frank" was too tired with it and got damages in his suit, but at some point, "Electrocutioner" used the beast truck and used its weapons to shoot the "Lizard" but everyone was shocked to see that it wasn't affected much, it was injured but not badly, "Lizard" tried to attack the truck, "Frank" had the explosive gel, he jumped on the "Lizard's" back and sprayed it on its head, the "Lizard" didn't know what this was and threw "Frank" away, when "Frank" was off its back, he blew the gel and the "Lizard's" head exploded to pieces, this was shocking to

the thugs and the "Clowns", "Adrian" said "You never cease to amaze me Frankie", most thugs gave up, "Mime" tried to escape, "Viktoria" saw him and caught him, "Frank" was completely exhausted but when he saw "Mime" cuffed, he went to speak to him, "Frank" asked "Mime" "Why?! Why did you betray us??" he didn't reply, "Frank" said "You were my friend Ethan, what were you thinking when you were leaking our secret info to Ferdy and his fiends?" "Mime" was smiling and laughing from the inside then he said "Interested, I've never faced anyone more foolish than you" "Viktoria" told "Frank" to go get some rest, "Frank's" weapons were out of bullets, he looked at her and said "I can't endure betrayal" then he pulled "Viktoria's" revolver from her waist and shot "Mime" in the head blowing it off, this was shocking

to everyone but no one could say or do anything to "Frankenstein", he had a license to kill any terrorist posing a threat to any country...

"Hades" changed his form to look like humans, he saw what happened in "London" and appeared there, he stood in the middle of destruction and said "That's what I am here for" a police officer saw him and said "Sir! Can I help you?" he looked back at the officer and waved with his hand, then the officer turned to ashes and he disappeared looking for the one he could use as his slave...

{Gods Of Greece}

“Zeus”, “Poseidon” & “Hades” are the 3 mythical major Gods of “Greece” and members of the 12 “Olympians”, they were thought to be myths but they were actually real like the Egyptian Gods, but both civilizations didn’t collide except once and they almost ended the world, it was the time when “Taya” raised “Victor” and gave him the way to use “Horus’s” eyes, since that war, both major Gods-“Amun” & “Poseidon”-made a deal not to fight in wars again, when the Gods of “Egypt” were killed by “Elohim”, the Gods of “Greece” were alerted and they discussed helping the Gods of “Egypt” but they agreed on letting them die, when “Hades” appeared on Earth again, the “Olympians” gathered in a

meeting and decided to do something to send him back to the underworld, the “Olympians” weren’t Gods on Earth only, but they were deities on other planets around the universe, humans stopped worshiping the “Olympians” but still they were Gods and didn’t wanna see any living planet suffering, “Hades” had a magical effect on humans making them do extremely bad things without thinking...

After catching “Ferdy” & “Adrian”, the world shifted its sight on technology and “Alex Landon” supported the idea by introducing his project of guardian robots, the “Hammer Drones” project, later on it was a destructive project to the world but that time no one knew...The “Knight” was still loose, “Hades” appeared to him and told him that

he'd need his help in return of making him immortal, "Knight" agreed and "Hades" cursed him with powers beyond humans and beyond "Frank's" abilities, "Brass" was locked up again and "Black Skin" was sent free in "Poland" with special surveillance hired by "Viktoria", "Frank" saw that this was a wrong move but "Viktoria" did it, in 2 days, the army, "SAS" & cops were in control of "London's" streets...

In 2050, the horsemen of peace started looking for "Frank" to tell him what they knew to make him stop whatever he was planning, in 2020, they met "Frank" -the father-but in the future he was "Frank" -the twin-which was gonna be harder to deal with, the father told the twin about them, but the twin never met

them and forgot about them by time...By that time, "Frank" had no one around but "Rose", "Konrad", "Ronda"; who was always lovely; and "Cathy" - "Frank's" artificial intelligence - besides to a Husky dog he bought 5 years ago, he called the dog after "Victor's" old dog which was with them in "Egypt" during the 90s; "Max"...The horsemen appeared in the outer hall of the mansion using "Light's" flying cloud, their existence made "Cathy" launch the alarm and weapons appeared from walls and ground, "Cathy" asked for their identities because she had no database for them, they told her that they were "Frank's" old friends, "Frank" went to check out the mess, he didn't know them and didn't remember them, once "Rayne" saw him she said "That's not him, that's not the man we met in

2020! He's a demon with completely different soul" "Frank" told "Cathy" to get them out or kill them, "Light" took them away and they started feeling that talking to "Frank" was useless, so they thought of talking to his kids who were on a journey to stop their relative "Magnet"...To know where they went to, the horsemen needed to ask someone close to them, "Rose" was the closest one to them as their former boss and relative, "Rayne" sneaked to her; but "Rose" told "Rayne" that all their data were with "Henley" and she was the only one who could track them, "Rose" gave "Rayne" her location and the horsemen went to "Henley", "Rayne" changed her form to be like a female soldier and got in looking for "Henley" till she found her, "Henley" didn't know her at first but when she turned to her original form, "Henley" knew

her because "Rose" told her that someone was gonna ask her for some info about the "Mark V" team, and told her that this one could shape-shift to anyone, then she said "I knew someone who could do something like this, but that was a very long time ago! During the Global War as I remember" "Rayne" didn't waste time and told her what the angel told them and that they should stop "Magnet" or "Frank" from using the 'Sand of Time', "Henley" said "I can't stop them, Frank isn't a trouble because he won't go anywhere away from his little boy, but Magnet is out of control and hunting him will be official soon, if there's someone who can stop a threat like this, it's gonna be Horus" "Rayne" didn't understand, "Henley" took an ancient horn and opened a window then she used it, "Rayne" said "What did you do?!"

then suddenly
“Horus” - “Victor” - appeared in the
place, his appearance made the
“Rayne” alerted but “Henley” calmed
her down, “Horus” looked at “Rayne”
and knew that she was a holy mutant
“I almost forgot that He^[7] got soldiers too,
why are you here??” “Rayne” &
“Henley” told him what happened and
told him that “Magnet” had to be
stopped, “Horus” said “I’ll find him;
but Hades can’t corrupt Frank’s mind,
he can’t beat Frank’s algorithm,
although I doubt that Hades is on Earth;
if he was somewhere I should have
known” “Henley” was astonished
“How’s that?! Frank is still human and
that devil can...” “Horus” interrupted
her “No he cannot, my brother got the
strongest mind on Earth, even Hades &
Zeus can’t bypass him” “Rayne” said
“The Olympians were mythical Gods!”

“Horus” didn’t reply, he waved with his hand and sent her out of the place back to her friends, she told them what happened and about “Horus”, “Light” knew that he’d use magic to find “Magnet” and follow him; so he suggested following “Horus”...The demon who killed “Grace” and “Magnet’s” daughter was the “Knight”...

The “Knight” went to “Frank” at the mansion, he was a gentleman and asked to meet him, despite “Frank’s” refusal to meet anyone, but he agreed to meet him, “Cathy” appeared in her 3D illusion form, the “Knight” said “I’d rather being alone with you!” “Frank” said “Even if you can’t see her, she’ll be there, just say whatever you have to say” “Knight” said “You blame yourself for everything after all these years of service, what have you achieved?”

Nothing but sickness and aging with a lot of kids who're not appreciating your hard work" "Frank" replied "Whatever you know kid; it's not all, I've been fighting criminality and magic all over the world even before you were born, I have nothing to regret" "Frank" knew by somehow that "Knight" was a demon, "Knight" said "Oh yes you have a lot to regret for, I'll remind you, the girl you used to call her Harley Quinn..." "Frank" got alerted and intense, "Cathy" felt that his vitals were getting worse and faster heartbeats, "Knight" continued "Your lovely Hylaria & Paige, if you agreed to send them to another location they wouldn't have been killed that day" "Frank" asked "How did you know this?!!" "Knight" said "It doesn't matter how, what matters is what I have to offer" "Frank" asked about what he has to

offer, "Knight" told "Frank" about the 'Sand of Time' and how to use it, "Frank" asked about that clock's location and "Knight" gave him a map to the location where the clock could be used and where the special sand was, it was in the "Babylon" fortress, a secret chamber with a cave below it, the cave had a tower of sand from the chamber's floor-the cave's ceiling-to miles down to the cave's bottom, if the clock was placed in the tower and got activated, it takes whoever holding it years back to where he's thinking, just sending the user's conscious to his younger body, his younger self..."Frank" thought of going back so far; back to that day when he shot the 2 thugs who shot at him in 2011, he wanted to set things right and take his chances with "Hylaria" another way, "Magnet" wanted to use the clock to get back by

time to that day his family died and stop the killers...The "Babylon" fortress was in "Egypt" at the ancient place by the name of "Coptic Egypt"..."Frank" & "Knight" had history together but "Frank" didn't know him without his mask, no one in all the past generation saw his face but "Viktoria", and he didn't actually age a day since he became a demon..."Frank" wasn't aging too, but he could make himself look older but in fact he was strong like he used to be, "Jenny" was reported dead; but in fact someone asked to take her to be used for medical experiments, although she was almost 70, but she was still in good shape and that experiment required someone who's gonna die and have no hope; "Jenny" was dying slowly, so "Rose" accepted the proposal of performing that experiment on her, but she demanded

the scientists and doctors to keep that a secret from everyone, the biological scientist who was supervising the experiment promised her to keep that classified, he was a man who changed the world by his discovery, his work wasn't new; but this was the first step to a new world order...

“Rose” refused going out to the outer world again, that time “Frank” was 56 years old and wasn't fit for fighting anymore; obviously, she was afraid of losing him, but about being fit, she wasn't right at all, that time in the future, scientists and doctors could develop medicines and drugs that made human cells age slowly, meaning that a 60 year old man was fit like a 40 year old man; average human life extended to 150 years old for some people and aging wasn't a reason for

death anymore like in the past, regardless to "Frank's" nature, but "Rose" had no power over "Frank's" decisions, "Cathy" advised him not to follow this guy's words but he saw that it was a risk he had to take, one last adventure... "Frank's" dog - "Max" - refused to leave him, "Max" felt that his friend was going for something dangerous and insisted to go with him, that time "Frank" had no jet but he made a small shuttle for situations like this, although it wasn't so powerful for long journeys, but "Frank" had a way to operate it well, when he's in the sky, the engines turn to blue fire and the shuttle's performance becomes 100s of times better, it was very weird but "Frank" never told "Rose" what he did to make it so powerful like that, it was his little secret... Going to "Egypt" wasn't easy at all, "Horus" built his army and

magic was everywhere, "Egypt" was exactly like it used to be during the pharaohs era, only a little bit modern, "Seshafi" was the Goddess of War and the second person after "Horus" in "Egypt", "Horus" had his magic everywhere in the country even "Nasir's" lake, in the lake; there was a giant crocodile living there but it was unlike any animal, when it felt "Horus's" power, it changed to be in human shape but its head was still a crocodile, "Horus" felt him and went to him, it was "Sobek", the God of the "Nile", army and all crocodiles, "Horus" brought him to his side in "Cairo" and made him the leader of all the armies, "Horus" had a lot of children from "Zena" and "Seshafi" too, they were both his wives, by that time, "Layla" was dead but her kids were teenagers, they were humans and

used to worshiped "Horus"... "Magnet" made it to "India" in days, he was told that the clock existed in "India" but the tower of sand was in the "Babylon" fortress in "Egypt", the Indians warned "Magnet" from using this clock for a reason they refused to reveal, when "Magnet" insisted they fought with him and he killed them all too easily, the "Mark V" brothers detected "Magnet's" power in "India" and followed the power source, "Horus" felt "Magnet's" power too but he was faster, he teleported himself to him directly, "Horus's" disappearance made the horsemen lose him, "Rose" called "Henley" and told her what "Frank" did, "Henley" tried to call "Frank" but he didn't respond, "Light" heard what "Rose" said to "Henley", using his power, he told the other horsemen and they knew where they'll go to...

God existed among time, every civilization had its own God of Gods and his students and messengers who spread his message among humans, major Gods like [Ra, Zeus, Jupiter, Jesus, Jade Emperor, Inti...] and many other major Gods were actually "Christ", He used to care for humans and to guide them to his way but sometimes things weren't so good for every civilization and people used to consider the students and messengers as Gods to be worshiped till "Christ" came and told humans that He's the lone God of the universe, but the devil was also immortal like [Set, Hades, Pluto, Satan Yama...] and many other names for the devil since the beginning of time... As long as good exists, evil exists...

{Hitmen}

In 2020, since the clowns were caught and "London" was controlled again, "Ferdy" & "Adrian" were sent to a highly secured mental facility and things have been calm for months, but "Russia" wasn't so calm... "Frank" had a new suit that time, it was a new project by "Rose", "Electrocutioner" & "Bee", flexible plates over a MR fluid armor layer, with the same abilities, strength and sensors, this new suit made "Frank" faster and more agile than before...

"Anton" called "Viktoria" and told her that "Rogue" resurfaced in "Moscow" and started by attacking members from the Chinese Triad and screwing their evening in the Chinese

hood in "Moscow", "Viktoria" asked "Anton" "How could you be sure that it's him?" "Anton" told her that "Rogue's" bullet-casings were found in the crime scene, he used to use titanium bullet casings; they were like his signature in every crime scene, this made "Viktoria" move to that crime scene as soon as possible...The triads were there for business with the Russian Mob, the Mafia men were found the next day dead somewhere near that crime scene, the Mafia had a lot of money from the "Romanov" family to be catalysts between themselves and the Chinese Triad, the "Romanov" family were not on the same page with the "Community" families, just like the "Habsburg" family in "Germany"... "Ferdy's" documents revealed a lot of corruption involving both families; "Romanov" &

“Habsburg”; so they intended to find these documents and destroy them before more damage occur, the “Community” families were banned from getting into “Russia” and their investments moved outside, this made them in need to deal with someone from the inside because “Rogue” was still free and had a lot of info and documents about their involvement in drug dealing and selling weapons to Pakistanis and Muslims illegally, this was gonna be too bad for the “Community’s” business around the globe; so they had to move, the “Romanov” family had to use the Chinese Triad and make them hunt “Rogue” with the Mafia because the Mafia refused chasing him for a reason they refused to reveal, so some Mafia men agreed to be a link between the “Romanov” family and the Chinese

Triad, the triads were hard to find and too hot to get close to, the "KGB's" spies were everywhere...

"Vasily" was the "Community's" man in "Russia", they contacted him and told him that a hitman was on his way to him to solve this situation, the hitman's target was "Rogue", a hitman hunting another hitman; which was gonna be a war of a special taste, the hitman sent by the "Community" was "Deadshot"... One night, "Vasily" wasn't expecting a visit but someone was there in his highly secured house, it was "Deadshot", he told "Vasily" that he's the hitman the "Community" hired to deal with their problem in "Moscow", "Vasily" gave "Deadshot" all the info they got about "Rogue"; regardless to the fact that they didn't know much about him; but "Deadshot"

was ordered to kill "Rogue" before the "KGB" could catch him...

"Viktoria" investigated about the dead Triads and found out many relations with a Chinese corporation which used to cover their dirty business in "Russia"... "Rogue" called "Viktoria" from a private number and told her that one of them was leaking info to the Mob and the "Community" families in parallel, "Viktoria" asked for evidence and he told her to send a force to check a warehouse belonging to the "Romanov" family's companies, the warehouse was full of "Californium" element, which was very expensive and rare, the families ruling the world were dealing in this element and other rare stones and elements bringing them Billions of Dollars, selling/buying them to/from

collectors and museums costed a lot of money and also used to bring a lot of money, these things also caused a lot of wars around the world in the future...The Triads could bring the materials and stones from several countries around the world specially "India", then they used to sell them to the Russian Mafia and the ruling families of the world, "Viktoria" went to the warehouse "Rogue" told her about with a huge force with the "Dmitry" brothers with her, they found nothing in the place but dead guards and "Rogue" was standing inside alone with no weapons, once they saw him, "Viktoria" and the agents raised their guns at him then "Viktoria" went to him slowly and they had some talking "Viktoria" said in Japanese "It was you, right? That call about this warehouse, the reports and

documents that fall in Der Ferdy's hands were actually your hard work, isn't it?! A thug like Ferdy can't get these info without a professional help, what are you? A government agent or a spy of some sort??" "Rogue" was standing still and she was walking around him in circle, he didn't reply to any of her questions, when they searched him they found a Japanese passport with him, checking it out revealed that it was fake of course, "Viktoria" continued "Do you have any idea how many people you killed?" he didn't answer, this made "Viktoria" yell at him saying "ANSWER ME YOU BLOODY FOOL" he replied calmly "The only thing you'll find in the past is gonna be only your pain, agent" she looked at him with amazement, he continued "You made sure of every info I sent you and you found out that they

were all true, you think you're a crusader for good but no you're not, I've been cleaning the mess using everything I had and everyone I know... You, Frankenstein and the Sentinels are fooled by war traders like Shaw & Sokolov, what do you know for real? Nothing, you just know what they want you to know, unlike me; I know what I wanna know and do what I wanna do, and your laws are too weak to stop me, you know that better than anyone" "Viktoria" tried to attack him but he managed to avoid her, despite that she was taller and bigger than him in size, but he was faster, "Anton" stopped "Viktoria" and told her that the place was clean and had nothing but the dead thugs; so they couldn't accuse the warehouse's owners of trading in anything illegal, but "Rogue" had to be caught for killing

these guards; even if there were no evidence linking him with all what happened in the past months, without this false call "Rogue" did, no one was gonna notice the family's dirty business, "Makar" & "Vald" gathered all possible info about the warehouse's renter and after more search and surveillance, the renter was arrested and faced smuggling accusations, "Rogue" passed several days in a cell inside the police department of "Moscow", "Rogue" couldn't be kept in that place for too long, it was the middle of winter and it started snowing, driving or flying in that weather was dangerous, the "KGB's" headquarters was at the city limits at an abandoned place; so "Viktoria" had clearance to lead an escort taking "Rogue" to the "KGB's" headquarters, the "Dmity" brothers were with her...The Chinese

Triad knew somehow through a weird phone call that "Rogue" was still in the police department and was gonna be transported the next day to the "KGB's" headquarters, the Triads wanted "Rogue's" head at all costs, the "Romanov" family had the info and they sent it to the Triads without revealing their identities, and they knew this serious info from "Vasily" who knew about this from the beginning because he gave "Viktoria" clearance to stay for a night in the police department, so he informed "Deadshot" and told him that this night was his only chance to get rid of "Rogue" before he says anything else to anyone...The Triads decided to do something crazy which was attacking the "Moscow" police department and breaking in to kill "Rogue", this was

completely insane and unexpected by anyone; not even "Rogue"...

{Voyna #5}

The Russian police department's attack started at 3:00 a.m., it started by cutting down power off the building, then shooting started from the outside for a minute, then smoke grenades were shot inside from the windows and thugs with oxygen masks and night vision goggles got in and started shooting the cops inside then they made their way to the cells but they didn't find "Rogue" inside, then suddenly those thugs who were searching the cells got shot dead, it was "Rogue", he could free himself and took a gun from one of the cops and killed them, the thugs were wearing

leather jackets, "Rogue" took a jacket off one of the dead thugs and took his oxygen mask and goggle too and joined the thugs as if he's one of them and told them that "Rogue" wasn't inside, this made them decide to leave and they left for real, on the way, cops took some cars and started chasing them and reported the thug's cars plates numbers and descriptions to every patrol cop in the streets of "Moscow", the Triad thugs took off their masks but "Rogue" didn't, one of the thugs spoke to him in Chinese "What's wrong?! Take off the mask" "Rogue" didn't reply or do any action, the others got alerted, the same thug repeated his words again with aggression and tried to hit "Rogue" but "Rogue" broke his wrist and the van became a fighting area, after seconds of fighting, the van got out of control and rolled over, "Viktoria" & the "Dmitry"

brothers were informed and they rushed to the van's location, cops were behind them, but there were more Triads in other cars with heavy guns stopping anyone from getting close to the van, 2 other Triads were shooting at the van with mini-guns, they didn't care for their fellow Triads; they just cared for killing "Rogue", "Viktor" & the "Dmitry" brothers arrived and dealt with the Triads, by that time, "Rogue" crawled to a sink and escaped, "Viktor" ordered all units to search for "Rogue" everywhere, she saw blood around the sink, she thought that he was injured and she was right but they didn't find him... "Rogue" made his way to safety but he was waited by someone, it was "Deadshot", "Rogue" didn't know him but he knew that "Deadshot" was hitman, "Deadshot" knew that if "Rogue" survived he'd be

injured and tired, "Deadshot" has been watching the whole situation since the police department attack till he crawled to the sink, following him for minutes made "Deadshot" know when was the right moment to attack him without attracting attention, "Rogue" hid in an old building's backyard to have some rest where he met "Deadshot", "Deadshot" said "Wu Mori, former agent in the Japanese Intelligence, a unique samurai and a perfect spy, I was impressed when I found out that you stood toe to toe with Viktoria Nikolay and I heard that you ran in some troubles with the Monster Frankenstein in Germany & England, quite impressive" "Rogue" didn't reply, "Deadshot" said "I think you know why am I here, right?!" "Rogue" said "Impressive, a little bit shocking, but for a thug who became the government's

hitman, I salute you' then he clapped his hands, after that, "Rogue" tore parts of his jacket and shirt and tied his injuries to stop the bleeding, then he got ready to fight hand-to-hand, "Deadshot" had a new pair of light machine guns tied to his forearms and an AR15 machine gun on his back, he took them off and got ready to fight hand-to-hand too, their fight was tiring but "Rogue" lost because he was already injured and shot, cops got involved and this involvement gave "Rogue" a chance to escape, "Deadshot" got rid of the cops and vanished, "Rogue's" disappearance made "Viktoria" mad...

The next day, "Russia" announced tracing the Chinese Triad everywhere in the country, later the same day, "Russia" stopped all flights from/to

“China” to prevent anyone from escaping besides to catching every Chinese citizen in “Moscow” for interrogation and as a way to hunt anyone who might be undercover, “Anton” & “Boris” were leading this move with other agents from the “KGB”, the Chinese government didn’t like what was happening but the Russians convinced them that it was an important protocol for their national security...

On the other side, in “England”, “Knight” was still loose, finding him became harder specially when he became a mutant, he found “Black Skin” who couldn’t move freely because of her skin color and weird look, he appeared to her and told her that he can help her to get her boyfriend out of prison and also to get

revenge on the "Sentinels", she liked the idea of vengeance and agreed to join him, when this happened, "Hades" appeared to them and "Knight" stood aside, "Hades" told her who he was, she asked him about "Rumple" and he told her that he was ok and he'd get him out of the underworld if she agreed to help them, she agreed, "Hades" took them away and to "Brass" to get him out, he was shocked to see them with him in his solitary cell, "Black Skin" calmed him down and told him that they were there to get him out, he was against the idea of breaking out but "Hades" convinced him that the humans will keep using and abusing him, soon he was convinced and agreed to go with them, when "Brass" was reported missing; the "Sentinels" knew that the "Knight" was behind this, but "Frank" saw that "Knight" wasn't that

powerful alone, someone was helping him using magic, he was referring to "Jason"...

The world started to be concerned by Artificial Intelligence and robotics, "Landon" proposed several robotic projects for all uses, public transport, home services, security, cooking and more, one day he found the algorithm to program a software for a complete humanoid robot without delays at all, making all the robot's actions resemble a human being's actions, this wasn't complete yet but he was working on it till one day he discovered that the Artificial Intelligence itself was learning and teaching itself how to act and to solve its own complications to reach its perfect form, "Landon" proposed his project to the British army, the idea was to create humanoid robots

for patrols and security of vital places without the need for human security guards who can be killed or bribed; and also to work as rescuing tools for civilians during disasters, the army wasn't sure of the need for this project, so they told him to leave the documents and files with them to be studied, the involvement of "Dr. Boyle" - who was American - made the army think seriously about the issue, they saw that they shouldn't commit the same mistake they did in the past when they refused "Leo Szilard's" atomic project, he was a physician and he was the one who conceived the nuclear chain reaction, when the Germans & the Brits refused his project, "USA" used it and hit "Japan" during WWII; the hit that stopped the war in months, so the "NATO" asked to adopt the project and asked "Landon" & "Boyle" to attend a

press conference in "Oxford" university to explain their theory and their project to a lot of ministers and officials from all countries of the "NATO" including the British Minister of defense that time and some other officials besides to representatives from "South Korea" & "Japan", "Ivy" was there... What was said by the 2 mad scientists was terrifying to some people, others saw that this was the safe future of Earth, the "NATO" asked for a week to revise what the scientists said and they'll reply to them, after 10 days, an official report was sent to them with acceptance to the project and demands to initiate working on that project as soon as possible, both scientists were very happy...

In the old legends, "Zeus" & "Hades" couldn't be seen by humans, unlike the other Gods, but "Poseidon" could go to Earth whenever he wanted, the Greek Gods left Earth when "Zeus" - "God" - ordered them to go to another planet and spread the message of "God" in the universe, the Roman Gods did the same, but "God" knew that "Hades" was on Earth and was loose, so "Zeus" sent his brother "Poseidon" with other Gods to beat "Hades" down and send him back to the underworld, the horsemen weren't gonna succeed alone in "God's" point of view, so "Poseidon" was sent with [Ares, Heracles, Artemis & Perseus]^[8] they were sent by "Zeus" to hunt "Hades" only, "Hades's" crew were to be hunted by the horsemen of peace later, "Black Skin" proposed adding an additional member to their clan, "Jason"... "Hades"

was getting his power through humans' fears and hatreds, he was getting more and more powerful when people kill each other and cause damage, his team of slaves became [Black Skin, Brass, Jason & Knight] his NEW horsemen of apocalypse, he saw that "Zeus" and the "Olympians" left Earth to face its destiny; so he saw that it's time for him to rule the world by his own way, he amplified his slaves' powers, "Black Skin" became capable of changing her body color to human as she wish, also her hair; she became in control of its color and even length as well as her eye colors, "Jason" wasn't getting hurt by the sun but in the morning; he loses all his powers and become a regular human, this wasn't gonna happen to him again, "Brass" had no problem but "Hades" gave him the ability to learn by touching things, knowledge

absorption, this gave him the advantage to speak in English and in any other language he hears, the "Knight" was perfect because he passed by "Hades" before the others, the new powers gave "Black Skin" & "Jason" good reasons not to think about "Rumple" anymore, they got who's stronger than him, a God instead of a Wizard...

{The Golden Skulls}

In 2050, "Horus" found "Magnet" and spoke to him but "Magnet" was aggressive and didn't seem to change his mind, "Seshafi" sent to "Horus" a message with a falcon and told him that "Frank" was in "Egypt" and asked to see him, he was astonished "What do you want now old brother?" then he teleported himself and "Magnet" back to "Egypt", once they disappeared; the "Mark V" crew noticed "Magnet's" disappearance, "Eve" said "You think he did it?" to the others, "Wolf" said "Or maybe someone got to him before us, try another magnetic field scan" to "Cezar"... "Horus" & "Magnet" met "Frank" & "Seshafi", "Frank" hugged "Magnet" and he cried on "Frank's" shoulder, then "Horus" took them to eat

something and have some talking, food was so delicious and good, enough to make "Magnet" comment "I've never eaten that much before, it's really good" "Horus" said "You and Frank will be the only ones who feel how good things are now" "Frank" asked "How? Why??" "Horus" replied "Because the 3 of us are original Egyptians", he took them to another hall and they started talking about the Sand of Time issue, "You 2 lost a lot, what both of you want to do will cause more damage than you think" "Magnet" was surprised and looked at "Frank" saying "You wanna go back by time too?! But why?" "Horus" interrupted "Frank" saying "It doesn't matter why, both of you got your reasons, what matters is what you're gonna do there" "Frank" said "Why do you care? You're immortal and will always be" "Horus" said "Changing

history isn't and will never be yours,
there are rules while changing events,
otherwise; chaos won't be contained;
besides to what you might do or say"
"Frank" said "How did you know
about this Victor? I didn't tell anyone
and of course he didn't, unless you
called Rose" "Horus" said "You're
talking to a God Mark, I know
everything and what you 2 wanna do
isn't good and will lead to
annihilation, I can't let you destroy my
kingdom now" "Magnet" said "You got
your wives and kids around you;
secured by armies of enchanted guards
and magic, what do I have! Nothing"
"Horus" said "Wrong my friend, you got
a family, Wolf, Eve, Achilles, Ercole,
Ai, Angela, Rose, Frank, Konrad, they
love you and they'll all die if you did
this" "Frank" said "What are you so
afraid of? Why don't you tell us about

it to avoid” “Horus” said “There’s no ‘us’ only one goes and the other won’t be there to go after him, Hades want you to do this mistake to allow himself to raise his slaves from the underworld and switch humans and creatures on surface with those from the underworld, those who won’t be switched, they’ll be hunted by the king with the 3 skulls” “Magnet” said “Wait wait, I don’t understand, Hades??” “Horus” said “The gentleman who came to you and him is Hades’s man, the closest one to him, he convinced you 2 to go back by time in the same time to create a collision between the 3 of us now” “Frank” said “Why will we collide?” “Horus” replied “Because you won’t believe me and he will insist on doing it and I won’t let my kingdom fall, so we’ll fight and Hades’s man will do it and change things on his own,

maybe to save his own master” “Magnet” said “If you know all this why don’t you stop it or change it??” by that time, the “Mark V” team arrived “Egypt” and “Seshafi” took them to “Horus”, “Frank” & “Magnet”, “Wolf” said “Oh no, it’s been a long time since a meeting like this happened” then the horsemen of peace arrived on a huge white cloud, the Egyptian guards got ready to fight but “Horus” told them to stand down, they came in and told the team that they got another problem, the clock disappeared and the Italian thief and his gang were killed violently, they expressed their worries about this, “Horus” said “Then it’s with Hades’s slave” then he told “Seshafi” to prepare the armies and to tell “Sobek” to get ready for a big war, she went to do that, “Eve” said “Why would a wizard want dad or Magnet to go back by time”

“Horus” said “For the necessary sacrifice, I gotta go somewhere now” he was going to “Babylon” fortress, hoping to find “Knight” before using the clock, then suddenly the weather got stormy and foggy, “Horus” said “It looks like we wasted a lot time talking and things changed already, I’ve always been worried that this might happen” then a huge demon appeared from the fog with a huge hooded coat and golden skulls on his belt sitting on board of the underworld’s guardian; the 3 headed hound-“Cerberus”-roaring loudly with fire of its eyes and mouths, it was the mythical soul-eater and the strongest creature of the underworld, the crew heard the roar but couldn’t see where it came from, “Horus” was the only one who could see him because of his sharp Godly sight, he told them that the demon was a creature from a

place in the underworld called "The Waste Ground" where legendary monsters and mythical creatures used to live in and the demon was sent there by the unknown 'Iconic Twins', the last thing humans wanted was to open a door for these monsters to Earth, opening a gate for them needs an immortal to be sacrificed with; by sending him to the "Waste Ground" in exchange of releasing these monsters, "Frank" looked to know something about that already but he said nothing, the exchange happened using an immortal demon who used to make deals with everyone but this time he had no role in this evil plan, the immortal demon was "Rumple", "Jason" was there when the "War of Destiny" was over; watching "Rumple" and looking for a chance to hunt him, that time, "Hades" and that legendary

demon were sent to the "Waste Ground" somehow in 2022, "Knight" was still alive with "Jason" and others, "Jason" told them about this and they agreed to hunt "Rumple" and use him, in 2045; "Rumple" was caught by them, it was too hard to find him and catch him alive, besides to the hard rituals and needs that took years to find and finish, the bargain happened while they were talking about the Sand of Time, "Knight" was looking forward to steal the clock and use it if they failed to perform the rituals again, he wanted to use it to save "Hades" and change all this, "Hades" had the plan to switch Earth's surface and humans with the underworld and its demons, this plan was stopped by "Frank" & the "Sentinels" somehow but "Hades's" men disappeared for a while and appeared again, soon aliens started

appearing on Earth as spies and explorers then in November 2025 the "Global War" started, after the war; no one remembered old cold cases... "Horus" explained this to them fast, "Frank" didn't seem surprised and he saw that it was time to reveal his tiny secret, to him, it was 'The Last Stand'...

In 2020, things were calm till October, the "M16" kept looking for "Brass" everywhere but couldn't find him, "Hades" was preparing himself to turn Earth to be the "Waste Ground" and send humans to the underworld, a switch like this needed a lot of preparations and sacrificing an immortal, that time, "Rumple" was dead, "Black Skin" told them that she used to know someone, a woman who used to live even before WWI and was cursed by being immortal, her name

was "Karen"... "Karen" was American and used to live in "USA" but she kept moving to avoid attracting attention to her... The "Sentinels" were digging behind "Knight" too, they couldn't know his identity, "Frank" started to doubt that "Deadshot" had a relation to all this, so he asked to see him, "Ivy" couldn't find him where he used to live, that time he had a wife and a little daughter, he used to have a girlfriend in 2016 and had a child from her, he took her and his little girl and hid them in a house in "Lincoln" - "England", after what happened in 2017; "Ivy" knew about them and told "Deadshot" that she'll keep her eye on them and that he can tell everyone about his family and she'll guarantee their protection, he liked the idea, specially that he was far away from retiring; due to his secret

work with "Shaw"; "Deadshot's" little girl was called "Julia", she was the girl "Achilles" & "Magnet" loved and couldn't save in 2040...When "Ivy" didn't find "Deadshot" in his apartment in "Lincoln", she told "Frank" and the others and "Frank" said that they should find him, "Floyd" said "He might be anywhere doing anything; we don't have any evidence that he's involved in anything" "Frank" said "If he's involved, we'll hunt him, if he's not, we'll use him again" "Ivy" said "Deadshot is the best hitman on Earth, if he's involved in this, he's gonna be so hard to find and catch, let's hope he's on our side" "Silver" came in and had some bad news, the mental facility where "Ferdy" & "Adrian" were kept in; went on fire and many doctors and inmates were hurt and

both clowns disappeared, this was dangerous...

“Sonya” could get info about “Brass’s” location, he was in “Hamilton” – “Bermuda”, which was too close to the “Bermuda” triangle and officially a British territory, the “MI6’s” men reported “Brass’s” existence in “Hamilton” with others, “Rose” asked “How in hell did they travel there without noticing?!” everyone looked at each other then “Frank” said “Magic”, then they prepared themselves and the jet to travel there as soon as possible and “Ivy” called her men there to welcome the “Sentinels” secretly... The crew went there with some new weapons and stuff, “Brass” was a mutant and needed ‘special care’ as “Frank” used to say, “Frank” had 2 new fixed guns on his forearms with

heavy cans, used to blow something huge and heavy like a crane and enough strong to blow a house, the guns had 2 cans each arm, besides to 4 pistols, a G36, tools and his shield, "Floyd" got his motorbike and shocking sticks, "Rose" got her hammer and her "MP5KA1", "Arrow" had new sets of arrows, more effective and powerful, "Electrocutioner" went with them and had "Bee's" special tool, his explosive bees and knew how to use them, some of them were gonna be used as drone cameras besides to his gloves in case he fall in a hand-to-hand fight, "Silver" had his 2 "MP7A1" and jetpack, "Quiet" had her "Heckler & Koch HK417" rifle, "Predator" was gonna use an "AG-C", "Sonya" used to use "MP5SD2" and brought her special shoes with knives heels, the crew was [Frank, Floyd, Rose, Arrow, Predator,

Silver, Sonya, Electrocutitioner, Quiet & Twin] "Bee" was following them from "London" by satellite imaging and radio, then they were shocked to see that "Paige" was gonna join the crew, "Frank" refused in the beginning but he was convinced to add her in return of not adding her to the field battle, she was gonna wait them in the base when they go which wasn't ok with her but she agreed in order to be with them...In 27 hours, the crew arrived, the distance wasn't only too far but the weather was very bad too, "Ivy's" men welcomed the "Sentinels" and they intended to move fast, "Sonya" went to gather more info about "Brass's" location and his friends, she wasn't away for long, she came back with shocking info about "Jason" and 2 unknown persons besides to "Brass" & "Black Skin", "Rose" saw that they

were more in number and could take care of them with the local police's help, "Frank" didn't intend to use the police...

"Hades" & "Knight" weren't known to the team; "Knight" was using a new mask made by "Hades" for him, "Hades" took his men to "Bermuda" for a reason, inside the triangle, there was an island where no man could reach, an island where ancient legendary creatures used to live in; most of them were monsters, on the island, there was a cave where an old demon used to live in, he was called "The Skull King", he used to have slaves of his own creation; monsters with skull heads, this island was the place where "Hades" could switch between both worlds, but getting to the island was the trouble, the triangle was a gate of time where it

takes people to different dimensions of time randomly and no magic could be used on the skull island, the "Skull King" had 3 enchanted golden skulls with horns which were needed for the special demonic ritual required for the switch, the first objective in front of "Hades's" eyes was getting to the island, the "Sentinels" on the other side were planning to attack "Hades" and his men...

{Voyna #6}

“Frank” saw that the 2 unknown persons must be mutants too and 1 of them could teleport, so he told the others that the priority was to hunt down those 2 persons first...“Hades” felt that someone was around, not the “Sentinels”, but someone else; then suddenly a tornado of water appeared out of nowhere and destroyed one side of the warehouse then the 5 members of the “Olympians” appeared, [Poseidon, Ares, Heracles, Artemis & Perseus], “Bee” noticed the existence of more persons in the place so he warned the others and they intended to hold and observe...“Hades” and his men got alerted and the 2 teams stood facing each other, [Hades, Knight, Jason, Brass & Black Skin], both major Gods

had a moment of silence then
“Poseidon” said “What are you doing here, Hades? You should be organizing the chaos down there!” “Hades” replied “Well, humans called me out, so I replied their call, you and our brother aren’t welcomed on this planet anymore, it’s MINE now” “Poseidon” said “Hades, you can’t rule here, there is good among them and you are full of bad and evil, even if we left this planet but we won’t let you destroy everything good here” then he changed his form to be a huge weird aquatic animal and attacked “Hades”, in return, “Hades” changed his form to be a huge demon of fire with wings and horns and took “Poseidon” to the outside of the building, the others inside fought together, “Ares” & “Knight” had a very unique fight, which shocked “Ares”, “Heracles” was attacked by “Brass” and

he was shocked by "Brass's" strength, "Black Skin" & "Artemis" had their fight, "Perseus" & "Jason" fought together and "Perseus" was in control, the "Sentinels" noticed that the monsters' fight was going to hurt civilians and it was too dangerous, they never saw anything like this before, when "Poseidon" threw "Hades" on another building destroying it, "Frank" told "Paige" to call the cops and tell them to evacuate the east side of the city, the others saw that they should interfere to stop this, "Frank" said "No interference, just me & Twin engaging with the beasts, you all keep watching their men and find the right time to attack them" then he took the "Twin" and went to the fighting monsters, "Frank" & "Twin" looked at each other and they understood each other, "Twin" moved and "Frank"

started shooting at both beasts, they weren't affected by bullets, so "Frank" left his G36 and held his shield, "Frank" noticed that both of them were hurting each other, the fire was affecting "Poseidon" and water was affecting "Hades"; this was the note "Frank" & "Twin" had, "Twin" told "Silver" to use his jetpack and attack the aquatic monster with a rocket launcher or a flamethrower, he went to the jet and brought a huge modified flamethrower and flew to them, "Hades" attacked "Frank" with a fire ball and threw him away for a distance but "Frank" was ok, "Poseidon" saw that he was ok, so he hit "Hades" with water and went to "Frank", but "Frank" considered him an enemy, so he tossed his shield to his face which hurt him for a moment, "Hades" burnt some wood next to him and held "Poseidon"

and threw him on the fire, then turned to "Frank" but he wasn't there, he was on a building next to "Hades" where a huge tank of water was there, the building was taller than "Hades" and he was standing in a position where the tank can fall on his head, "Frank" used the explosive gel at the tank's iron base and blew it, "Hades" looked up and was shocked to see the water tank falling on his head and got no time to avoid it, the water hurt him enough to fall down and turn to his human form without movement, "Poseidon" was hurt but he could move he saw what happened to "Hades" and saw "Frank" on the building's roof, "Twin" threw 2 electrical chips on "Poseidon", they hurt him and took his attention for a second, then the "Twin" attacked "Poseidon" and stabbed him with his claws and took him down, "Frank"

made it to ground level and looked at "Twin" and shook his head, "Silver" arrived, he saw what happened and got impressed, the others watched the exciting fight between the "Olympians" and "Hades's" men till they exhausted each other, then "Arrow" shot the ground with an electromagnetic wave arrow taking everyone down, the "Sentinels" tied them with special cuffs used to cuff mutants, the magnetic cuffs which were used in the "Frankenstein" prison with a little modification...When the "Olympians" woke up, "Ares" said to the "Sentinels" "How dare you tie us like slaves, fool mortals?" "Arrow" said "Who are you? Why are you here? And who are you working for??" "Poseidon" said "I am Poseidon, God of all seas and one of the major Gods of Greece" the "Sentinels" looked at each other and smiled then

“Frank” came in and said “The Greeks time is gone, you’re all wizards and mutants now” “Hades” replied calmly “Well, your smart move made you think that you are a sort of a God or something, but believe me kid, pouring water on me doesn’t give you any advantage over me, you’re still a mortal” then he tried to break the cuffs but he got shocked by electricity, when the cuffs are almost broken by any means, it shocks the prisoner and get tighter, this was shocking to all of them, “Heracles” tried too and got shocked, “Perseus” said “We’re not here to hurt you, we’re here to send him back to where he belongs” “Silver” said “Oh yeah, and where’s that? And why should we believe you? What’s your proof that you’re not bad?” “Perseus” said “You can’t be serious!! You saw him out there, he’s the demon Hades,

your world won't stand a chance against his evil!" "Frank" said "How are you gonna send him back to the underworld? By mess and chaos!? On human's dead bodies??" "Poseidon" replied "Of course not, mortal! Your ancestors used to worship us and you are as their grand-grandchildren we must help you when it comes to Hades; even if you don't worship us" "Rose" said "You didn't reply to his question yet" "Poseidon" told them about the skulls and the "Skull" island, after beating "Hades" and his men, they were gonna go to the island and acquire the skulls; using them to open a door to the underworld and throwing "Hades" there, afterwards; they'll close the door using the skulls and leave Earth, "Frank" said "How will you get the skulls without magic? You're nothing without it!" "Ares" stood up

suddenly and said aggressively “Who you think you are bloody mortal, I can beat you down with my hands behind my back” and tried to attack “Frank”, but “Frank” avoided him and kicked his knee from the back and put him in control, when he was down on one knee to “Frank”, he was mad and the “Olympians” were surprised as if they were insulted by “Frank”, “Poseidon” said “That’s enough, let us finish our job and leave, about how will we get the skulls, we’ll find a way in there; and you will be punished later” to “Frank”, “Frank” said “I can’t trust you but I can see that you are enemies, as a result, I’ll go with you and your friends will stay here with my men, if we didn’t come back, my men will kill your guys” “Paige” took “Frank” aside “Are you insane? Didn’t you hear what he said about that island??” he said “I

can't trust them and I can't say that they're lying, he looks too confident of what he's saying; that's why I'll go with him alone" "Poseidon" said "We can't go alone, I'm your only way in and out of the island, I must be off the island and you'll be lost there alone, take Goddess Artemis with you, she's a perfect tracker and the Goddess of Moon and Archery, she'll guide you there; and just in case; take some of your men with you" "Rose" & "Floyd" said that they'll go with them, "Arrow" was ready to go too, "Frank" had to choose, he chose [Arrow, Predator, Floyd & Twin] next to "Artemis" & "Perseus" according to "Frank's" will, "Rose" & "Paige" were very angry with that decision, they wanted to go with "Frank", "Poseidon" told "Frank" to release his friends and promised him that "Ares" won't be a trouble, "Frank"

refused releasing "Ares" but agreed on releasing "Heracles" to be a strong guard to "Hades" and his men, "Poseidon" used his power and an old shackle appeared on "Hades's" fists instead of the "Sentinels" cuffs, the others had shackles like "Hades", these shackles were enchanted and used to hold demons till their judgment time comes in front of "Zeus", "Quiet" asked to join them, "Silver" was the highest rank among them, he didn't see any necessity to add her to the team going to that island, there was no need for a sniper, "Frank" saw that "Quiet" was sad, he went to her and asked her about the reason why she wanna go with them, she said "Because I've never been in an important event in my life, I've always been a sniper, called when needed, always in the shadows, I might not be an angel but I can fight like a

monster too' he saw that she could be useful because she lived for a long time in mountain terrains in "Afghanistan", so he added her to the crew going to the island, "Silver" saw that "Frank" was breaking his orders but he knows that he can't shackle anyone to his orders anymore because he wasn't a member in the "Sentinels", this made the crew [Frank, Poseidon, Arrow, Floyd, Quiet, Perseus, Artemis, Predator & Twin]...

"Poseidon" was the one who was gonna take them from "Bermuda" island to the "Skull" island and wait in the ocean for 3 days and come back to pick them up, he could take them there without getting lost in time and covering them to pass the usual storm near the island's shores, he told the crew that there was a continuous storm

near the island's shores to prevent lizards on the "Skull" island from escaping to the outer world, the island wasn't on maps and no comms could be used there so the crew had to stick together all the time... "Silver" warned "Arrow" that this operation was a black op; so no governmental assistance was expected if things got worse on the island, "Arrow" didn't reply and seemed worried...

{The Skull Island}

“Poseidon” stood with the others on the “Bermuda” island’s shore and raised his hands, then a huge ship appeared in the sea, it looked legendary and too old, “Poseidon” took the crew on the ship and guided the ship towards the “Skull” island but he wasn’t with them on board, it took them 3 hours from “Bermuda” to the “Skull” island, the storms were very strong and weird sea creatures were seen by the crew but they didn’t hurt the ship because they knew that the ship belonged to the God of Seas, seeing these things made “Floyd” look amazed, “Perseus” told him that the creatures were ancient ones used by “Poseidon” to protect the lost city^[9] but now they are preventing anyone from passing to

the "Skull" island's shores, regardless to the storms that could drown any ship, but the sea creatures were needed too, "Artemis" said "That's just a simple example of what we'll see on the island, be ready for anything" to the crew...

The crew arrived safely and started to follow "Artemis" to the caves which was in the center of the island, the trip had a special road, using the woods was more dangerous but shorter, the island was so beautiful and natural views were impressive to the "Sentinels"...The first thing they ran into was a giant spider, they didn't notice it in the beginning, but "Frank's" vital scans detected the creature suddenly and warned the others, when they moved the creature started moving and attacking them, "Frank" told his friends to pullback and he stood to face

the creature with "Artemis" & "Perseus" this was brave, but the "Olympians" were traditional fighters, "Frank" was smarter, he used his shield to break the spider's legs, "Arrow" knew the drill; so he told "Quiet" to shoot the spider's legs, she had an M16 and shot 3 legs of the creature, "Frank" broke 2 others and it fall down, when this happened, "Floyd" and the others shot it in the head many times till it died...The crew kept moving and in hours, they felt tired and had some rest near a lake, "Artemis" told them to bring water and camp away from the lake because of huge snakes and lizards, they did it and camped away from the lake, this didn't save them from troubles, a lizard came out of the lake and sneaked to their camp, "Predator" & "Quiet" were the guard unit, they saw it and told the others, they woke up, it was thought to be a

regular lizard or crocodile, but they got shocked to see its size and look, bullets didn't affect it much, "Artemis" shot it in its head with her arrows and "Perseus" jumped on it with his sword and stabbed it in the head killing it...The next day, the crew kept moving, after hours of walking in hard terrains and facing low levels of danger, the crew reached an area where there were wooden creatures sleeping, they didn't know about them, but "Artemis" knew them and told the others that they should use another route and move slowly, the creatures looked like locusts but they couldn't fly, "Frank" couldn't find any vitals or heat signatures in their bodies but he told his friends to follow the "Olympians", "Quiet" stepped on a branch, this made the locusts wake up and start moving, they were fast, the "Olympians" told the

crew to start running, "Frank" saw that running won't be effective but he cared for his human friends, "Quiet" couldn't follow up with them, "Frank" lifted her and ran after the others, till they reached a special place where the locusts stopped and went away, "Artemis" said "Something is wrong, why did they stop and go away?!" "Frank" scanned the area and was shocked to see several heat signatures of humans around them, he said "Humans, hold your fire" then the humans around them pointed their spears and arrows towards them, the crew made a circle and a fight was expected, they were already tired of running, then a guy came from the inside and told them to wait, he was a man who got trapped on the island, for their shock; he was a naval officer in Admiral "Horatio Nelson's" naval fleet,

“Nelson” died in 1805, which was a huge shock to them, they asked him if he knew in what year he was but he said that he doesn’t care, he looked young, the same as he was 2 centuries ago, “Frank” said “This means that time doesn’t move on here, how will we meet Poseidon after the 3rd day??” to the “Olympians”, they looked at each other and didn’t reply, the British naval officer asked them which year they were in and the shock on his face was unbelievable, the “Predator” said “We got an objective now, let’s focus on it”, the naval officer was named “Howard”, he said “You’re not the only excavators or pirates who came here, hundreds of crews arrived decades ago and I know that no one of them survived at the caves or the west side of the island” “Frank” asked “Look at us, do we look like pirates?” “Howard”

said "No sir, but you look so naive"
"Predator" said "We want the 3 golden skulls, how can we get them?" "Howard" said "How did you know about the skulls?! No one ever came asking for them" no one replied, "Howard" continued "Alright, this village is sealed against the woods' monsters and the King's skeletons, but the other side is full of these skeletons, they're all slaves for the Skull King, his precious skulls got a magical power of some sort, whoever see them feel the greed of acquiring them for himself and any crew turn on each other and start killing each other for them, for fortune, there's actually no way for a human to beat the skulls' charm, but if these skulls leave the island, it will be freed from its curse, the Skull King will die and the triangle trap will be broken and probably the legendary Atlantis

will rise again..." "Perseus" interrupted him "Bastard Poseidon, he tapped us, he's not gonna send Hades back to the underworld, he want the skulls so that he can remove the curse and raise his lost city" "Frank" said "Damn it, the others on the other side are in danger now" "Predator" said "Relax he'll meet us there in time, he want the skulls; now we know why and he doesn't know that we knew so he got no reason to leave us here or hurt anyone on the other side" "Frank" told "Howard" that someone would meet them at the north shore behind the caves to get them off the island and told him to join them, "Howard" said "Sir; believe me, no man ever came out of these caves alive and even if you avoided the caves and used the mountain's way to the north or even the beach, you won't make it there"

“Frank” told him that at least they’d try to get out, after a while of thinking he told “Frank” that he’ll join them, this one was gonna be the best guide for them, the locals looked like Asian people but they were centuries older and had no relation to the civilized world, as if they were from the ancient times before “Christ”, “Howard” told them that these locals were silent and never speak, mutes of some sort...The crew had some water and supplies from the locals and started moving after 45 minutes of rest, on their way they met a huge bear with thick fur; it didn’t attack them but it looked very weird to them, a minute later after passing it, they heard the bear suffering as if it was attacked, “Howard” said “Hide there” and he pointed at a fallen tree, they jumped there but “Artemis” & “Perseus” stood to face whatever was

coming, "Frank" & "Twin" pulled them away to the tree, then a female human shaped cheetah lifting the huge deer and hardly reached somewhere where she could eat her prey, "Howard" knew her "That's someone I don't know but I think she has been here before I came by centuries, I don't know if she's human or not but the locals used to attack her whenever she came around because she hunted some of them years and years before I arrived, she was clever and smart enough to avoid being hunted, then she left them and went to the woods but as much as I know, she couldn't go further than the King's limits, she feared the skeletons and the King, I never heard her talking and I don't know if she can talk and certainly I don't know if she dies by shooting at her or not!" "Frank" said

“Maybe she doesn’t talk but she got reason” “Floyd” asked “How can you be so sure?” “Frank” told him that she wasn’t nude, which meant that she had humanity in her, if she was just an animal; she had to be nude like all animals, “Artemis” told them to wait and she went suddenly to talk to her, without former planning, “Artemis” still saw herself the Goddess of animals, the cheetah woman felt “Artemis” and the others already but she was waiting them to move, when “Artemis” moved, she left her prey and attacked “Artemis” faster than she could react, then “Frank” tossed his shield and hit her strongly, the hit didn’t kill her but she fell down unconscious, “Perseus” was gonna kill her with his sword, but “Frank” stopped him and told him that “Artemis” made a wrong move and warned him of attacking the animal

woman, "Arrow" told "Frank" that stopping till she wakes up wasn't gonna be right because they were actually running out of time, "Frank" said "We won't wait" then he tied her hands and legs and lifted her on his shoulder, "Quiet" didn't understand why did he take her with them, he told her that he'd find a way to heir her to protect them if things got worse in the caves in return of taking her with them to the civilized world, "Floyd" heard what he said and told "Frank" that this might be fatal mistake, "Predator" admired "Frank's" way of thinking without commenting, he said to himself "Everyday you prove to me that Frankenstein is beyond time; like HIM and the ones before him" he was referring to "Victor", "Dr. Frank" and the first "Frankenstein" monster; "Isaac", "Predator" studied "Frank's"

family very well...It wasn't too long till the cheetah woman woke up, "Frank" dropped her and caught her strongly paralyzing her movement then he said "Do you speak?" the girl didn't reply and kept trying to move, but when she couldn't she stopped and kept looking at "Frank's" mask, he said "You do understand me, I can see reason in your eyes" no one expected that she'd reply, "Arrow" said "Enough Frank, let her go, she's useless without understanding us" she looked at "Arrow" and looked back at "Frank" proving that she understand what she hears, "Frank" said "You're afraid, I can understand that, but we'll need your help, please" she replied in Arabic, not like the Egyptians accent but like old Arabian language; the accent used by Saudi Arabians in "KSA", "Frank" and the others were surprised and "Frank"

spoke to her in Arabic, she was surprised to know that he knew her language, he freed her and spoke to her asking about her life, she replied "I was born like this in the desert, humans came and attacked us near the sea and killed those who were like me but I survived at the oasis, after years of being lonely in the desert, I was seen by other humans and they hunted me, then I was sold to other humans speaking in different tongues, like the one you spoke with me earlier, I spent years in a cage till they found the new land^[10] and they decided to go there, after months; the ship faced this storm and sunk..." referring to the "Skull" island's storm; she continued "I survived with 2 sailors, but when lizards attacked us, they didn't attack me, they just attacked them and killed them, ever since; I became alone here

like all animals” “Frank” asked her “How long have you been here?” she said “I don’t know, but I was here when people like them were civilized people” referring to “Artemis” & “Perseus”, “Frank” said “She’s from the Middle-East somewhere, but she’s been here centuries ago; maybe before Islam; and it looks like she was born like this and probably she’s the last of her kind, but she says that there were Brits who bought her from the Arabs and at some point in time; they decided to go to the new land, what does she mean?”

“Predator” said “America!! The Brits knew about America for a longer time than we know!!” “Frank” said “She has been here when people used to look like the Greeks, if anyone knew about this; the history we know will change forever”, “Floyd” said “You mean we shouldn’t tell anyone!?””, “Frank”

confirmed, the cheetah woman had no name, but "Frank" called her an easy name, "Cheetah", her story was shocking to all of them, she didn't know any other language and didn't speak for a very long time, her existence was another proof that time on the island wasn't moving forward, "Cheetah" accepted helping them in return of helping her out of the island and the crew moved, she didn't know what the world looked like outside the island since she was trapped there...

The crew arrived at the caves after witnessing some wonders and weird things and peaceful animals, "Cheetah" said "This is the nice part of the island and it's not a huge area, from time to time it gets attacked by dinosaurs but now is the mating season so they won't be in our path, but from now on;

skeletons will be on our path” this made “Frank” think of something, he saw that he won’t need human inputs, so he thought of splitting up, a team to move to the caves and face the “Skull King”, the other team should go north and meet “Poseidon” and make him wait if they were late, so he told [Floyd, Arrow, Quiet & Howard] to go and meet “Poseidon”, while [Predator, Artemis, Perseus, Cheetah, Twin & himself] would keep going toward the caves, “Floyd” wasn’t ok with this and refused leaving “Frank” but he promised “Floyd” that he’d make it to them at the north coast, “Howard” could take them to the north coast but they had to pass some dangers and creatures on their way, the “Sentinels” had enough weapons and tech that saved them several times against Sabre tooth cats, Mammoths, giant Rhinos, huge wild

birds and more till they reached there
by the dawn of the 4th day... During the
3rd day when the crew was split,
“Frank” and his team had harder and
more dangerous adventures...

{The Skull Island 2}

“Frank” and the crew started facing skeletons, they were taller than usual and had regular bodies but with skull heads, they weren’t troubles to the team but the demonic creatures were hard to kill but “Cheetah’s” input was very helpful...One of the monsters was the symbolic underworld’s guardian known as the “Cerberus”, it was about 15 ft height and extremely huge in size and wide, it wasn’t scheduled to appear where they saw it, because “Frank” and the others were fighting with some skeletons and facing some traps in the first cave, then the skeletons heard the monster’s roaring and ran away through the walls, the monster killed some skeletons and other monsters and dinosaurs inside

and went to get the humans, he wanted to eat them and followed their scent from the west side of the woods to the caves, "Cheetah" knew it from its roar and told them to hide, "Artemis" & "Perseus" thought that the animal would stop when it sees them, because the animal was a mythical creature in the Greek mythology and they knew it, it stopped for real and got close to them by its heads and sat down according to "Artemis's" order, then she looked back to the others and told them that it was ok, but the creature fooled them and attacked them suddenly eating both members of the "Olympians", "Perseus" was "Zeus's" son and he felt his son's death, the monster didn't know the Goddess and "Perseus" without their magical effects and ate them, "Frank", "Cheetah", "Predator" & "Twin" were alone against that mighty beast, they

ran away and hid in a cliff where the “Cerberus” couldn’t fit in, it was time to use some tech, “Frank” threw a net on one of the heads’ mouth, an electric chip on another head and a sleeping gas can on the third head, the net could be torn easily but the electric chip was hard to get rid of and it was paining the animal, the gas didn’t make the third head sleep but it made it dizzy, “Cheetah” pulled “Frank’s” knife; bit it by her teeth then climbed the cliff fast and jumped on the awaking head, the one which tore the net; and started stabbing it with the knife, “Predator” took another position and shot at the dizzy head, then the “Twin” attacked the awakened head with his claws too, “Frank” threw another electrical chip on the head which was hit with the first chip, soon the 2 electrical chips made this head

faint, besides to the dizzy one falling too, this made the middle head can't hold the body's weight alone and fall down, "Predator" told them to pullback to threw grenades on it, "Twin" escaped, but "Cheetah" didn't understand, "Frank" jumped and took her away with his grapnel gun, "Predator's" grenades blew the creature's heads and killed it, or so they thought, then they continued walking, "Cheetah" started looking at "Frank" as a hero, while they were starting to move, "Artemis" tore the creature's stomach and got out, she was a Goddess and she was immortal, but "Perseus" wasn't a God and wasn't immortal like her so he died, she told them that "Poseidon" wouldn't be ok with that because "Zeus" would be mad...

In "Bermuda", things weren't ok at all, "Hades" was tied, but he somehow convinced "Heracles" to untie him and "Ares" because they were Gods and he had to follow their orders; specially that he wasn't ordered by "Poseidon" to keep them tied, he untied "Ares" only but "Ares" wasn't so good to be trusted by "Zeus", he beat "Heracles" down from behind and sent him to the planet they ruled outside the galaxy and he freed "Hades" and told him that he wanted a higher place in the new empire on Earth, "Hades" agreed because he saw that this was the first spark of the "Olympians" fall, "Poseidon" didn't know what happened, "Hades" could too easily beat the "Sentinels" but he kept them alive to make them witness their 'Hero's' death, referring to "Frank", he hated "Frank" the most because he saw that

“Frank” wasn’t like any other human, during fighting with “Poseidon” earlier; “Hades” lost his demonic wings, but he still had his powers and magic but he had to wait for “Poseidon” and the others to arrive, he freed his men to guard the “Sentinels” and help him anyway they can when the others arrive...

“Frank”, “Predator”, “Cheetah”, “Artemis” & “Twin” took their way through more creatures and traps, the “Twin’s” arm got broken and had some damages, “Predator” had to care for him, “Frank” had some damages too but not serious ones, they kept moving till they reached the “Skull King’s” lair and found him, but they didn’t show themselves to him once they arrived, “Frank” told them that facing him needed planning, “Artemis”

agreed on listening to "Frank", before talking to them, the "Skull King" appeared too close to them and pulled the rock they were hiding behind and suddenly they were face-to-face with him, he was a giant human with a skull head and had a crown on his head and a huge sledge hammer in his hand wearing an old armor like old warriors; and said "I was waiting for you" in a language no one of them understood except "Artemis" who knew all modern and ancient languages; like all Gods, then he hit "Frank" with his sledge but "Frank" was expecting the hit and stopped him with his shield, this was impressive to the "King", he caught "Frank" from his throat and throw him away, "Predator" shot at the "King's" head but he wasn't affected, "Cheetah" jumped on the "King's" back and tried to distract him,

“Artemis” shot the “King’s” body with her arrows but he wasn’t affected too, “Frank” realized that he wasn’t gonna be affected by anything but magic, he scanned the lair for anything magical and he found the skulls, he thought of using the skulls to threaten him, he broke a wall where the skulls were hidden behind it, once the “King” saw him, he yelled “WHAT ARE YOU DOING MORTAL! LEAVE THESE HEADS WHERE THEY ARE” and went to attack “Frank”, but “Cheetah” attacked the “King” bravely with all she got, he caught her and tried to crush her with the sledge but “Frank” used his weapon on his forearm, 2 cans took him off balance and gave him enough time to take the skulls, “Predator” saw “Frank” holding the skulls he told him to hand each skull to one of them to distract the “King”,

this was a good idea, he gave "Predator", "Artemis" & "Twin" the skulls and he jumped to help "Cheetah" who was extremely tired and couldn't move, the "King" stood up and realized that the skulls were with the intruders and they were running out of the lair with them, so he opened his mouth and flames came out turning the entrance to fire, the lair was the last cave of 4 caves to be passed, which means that even if they finished fighting with the "King" in his lair, they still got a lot to face while getting out too, the "King" went to attack them, "Predator" showed the "King" one of his skulls in his hand and showed him his intention to destroy it, the "King" said "NO DON'T BREAK IT" "Cheetah" woke up and said "The skulls are his source of power, destroy them and he dies" to "Frank", by that time, "Hades" could

hardly bring one of his old dragons from the underworld to transport him to the island because "Poseidon" and the others were late, so he went there and could pass the time pit and the storms by his magic and made his dragon take him to the "Skull King's" caves and landed there, "Poseidon" didn't know or notice "Hades's" existence on the island, there were a lot of demons there and the "King's" existence made evil hard to detect, "Hades" didn't face any trouble with the skeletons or the traps, but he knew that there was a fight inside, so he got in carefully, "Artemis" knew that killing the "King" will end all evil on the island; and even the time traveling curse will be broken, when all the skulls are broken, the skulls had horns too, if a horn was broken; everything would be gone, but also if one of them

got broken; they'd lose their magic and become useless for them to send "Hades" to the underworld, so she was confused, "Frank" wasn't because he saw that the island and the people living on it deserved a second chance, but for the bad luck, the skulls had the greedy effect on "Predator" as a human, but it didn't affect "Artemis"; because she was a Goddess; and it didn't affect "Twin" because he was a robot, "Frank" told the "Predator" to break it, but when he was gonna do so, he stopped and looked at the skull and dreamed of fortune and power, "Frank" got distracted fighting the "King", "Artemis" was still confused and tried to help "Frank" by shooting the "King" with arrows, "Twin" remembered what "Howard" told them earlier because he records everything, so he took his skull and tried to break it with his claws but

“Predator” took it from him fast,
“Cheetah” saw this and interfered,
“Twin” told “Predator” not to listen to
the evil voices in his head but he
wasn’t listening to him and shot “Twin”
in the head, it didn’t affect the “Twin”
but “Cheetah” interfered and killed
“Predator” and took the skulls from
him and worked on breaking them, she
wasn’t affected by the skulls’ curse,
“Artemis” saw her and tried to stop her
saying “If you did this we won’t be able
to send Hades back to the underworld”
in Arabic, “Cheetah” replied “I don’t
care what you say, my hero said destroy
it, then destroy it” then she lifted one
with her 2 hands and smashed it on a
rock, it wasn’t broken, she tried
another smash, but “Hades” stopped
her and beat “Artemis” down taking
her skull and took the other 2 skulls
with “Cheetah” and tried to leave, the

“King” saw this and got mad, specially that “Hades” was ok with fire, he left “Frank” and the others and went after “Hades” fast, it wasn’t too long till both beasts fall in a fair fight, the skulls fall from “Hades” to a lower level, “Frank” got some damages but he could stand, “Twin” reloaded his matrix and woke up, but the “Predator” was dead, “Cheetah” told “Frank” what he did and what she had to do, “Artemis” followed “Hades” & the “King” to where they were fighting, “Frank”, “Cheetah” & “Twin” followed them, “Artemis” said “Hades is here, we can now destroy any of the skulls and he will be sent directly to the underworld” she looked up and found a falcon standing very high, she gave the falcon orders to tell “Poseidon” what happened and to go to the others in “Bermuda”, they must be in trouble,

while she was doing this, "Frank" went down to the skulls and took one of them, "Artemis" thought that he'd be affected by the skulls charm like "Predator" but she was surprised that he wasn't, he wasn't affected because he caught the skulls by his metal hands of the suit, and broke one of the skull's horns, this event made a strong shake in the cave like an earthquake and suddenly, "Hades" & the "Skull King" turned to lava and melted, "Frank" took the others and escaped before the caves collapse or the lava hurts them, after a minute, sun rose clearly and the storm moved away and the sea became calm again, evil creatures faced the same fate like the "Skull King" & "Hades" and it appeared on map with wireless communications available, "Floyd" could get in contact with "Frank" and he told "Floyd" to hold his position

and that they were coming to them, it was very impressive and "Frank" was very happy that he did something good...On their way, they met the locals who used to live in the island, "Frank" said "I thought you people don't leave your camp" then one of them spoke "We couldn't move from the camp because of the King and his creatures, we couldn't even talk because we were also cursed, thanks to you we are all free now" in ancient Greek language and they bowed for "Frank" and said their goodbyes to him and his people, "Artemis" translated what they said to "Frank", later on, these people created a statue of "Frank" and worshiped him as their savior God, "Frank" and the others arrived to "Arrow" and the others on the shore, but they were shocked to see their condition and to know that they lost "Predator" &

“Perseus”, “Artemis” asked about “Poseidon” but “Floyd” said that a falcon came to him and ever since he didn’t make it back, “Frank” pressed a button on his arm operating the jet and making it come to his location, he knew that “Poseidon” was in danger too just like the others there in “Bermuda”...

In “Bermuda”, “Poseidon” saw the situation and attacked “Ares” who was surprised to see “Poseidon”, he tried to fightback but “Poseidon” was more powerful than him, “Hades’s” men disappeared from site when they saw “Poseidon” coming, he freed the “Sentinels” but didn’t go back to the others on the “Skull” island, he saw that they didn’t do what he needed and the skulls had no magic anymore, so he disappeared after looking at the

“Sentinels” with anger,
“Electrocutioner” told the others that
the jet was operated and gonna fly by
its autopilot to somewhere, “Rose”
knew that “Frank” called it to his
location, the jet arrived and the crew
went on board and returned to
“Bermuda” fast, when they arrived;
they were told what happened by
“Paige” and the others, they were
shocked to see “Cheetah” & “Howard”;
and felt sorry for their friend
“Predator”, “Frank” told them that the
“Skull” king killed him there,
“Artemis” told them that she was
honored to fight with them and on
“Frank’s” side specially, then she went
away...On the other planet-where the
“Olympians” ruled-“Poseidon” told
“Zeus” that he did what he was sent for
but humans were cursing the
“Olympians” and “Zeus” and saying

that the "Olympians" were myths, and he told "Zeus" that humans killed "Perseus" somehow too, this made "Zeus" mad and said "Humans think that they're Gods on Earth now, that they can rule their lives without us, this doesn't matter; but killing one of my sons has a big price" after a moment of silence, "Poseidon" said "Hades is stronger, he could manipulate Ares & Heracles, he's now where he belongs but I'm sure that he'll find another way out again, we gotta go back there and rule again" "Zeus" saw that "Poseidon's" words were logic and "Hades" shouldn't be left, he ordered him to prepare the new creatures of the new planet for a war and announced that he was going to Earth again, "Artemis" was there but she couldn't say anything or express any objection on anything, "Poseidon" wanted to

raise his lost city, he couldn't do that unless he was on Earth; and he couldn't do that without "Zeus's" permission; fueling his anger by "Perseus's" death, these were the aliens who attacked Earth in 2025 later on...The "Sentinels" took their jet and tools and flew back to "London" where troubles were waiting them there...

{France}

The crew didn't know what to do with "Cheetah", "Howard" asked for a house and a farm and to live peacefully, that wasn't a trouble, but "Frank" had plans for "Cheetah", she was powerful and was gonna be useful to them as a mutant, but "Frank" thought of giving her the choice to do whatever she wanted, she wanted to stay with him and be his slave because she considered him a God, "Frank" accepted the idea of making her a secret pawn to be used when "Brass" and his friends appear again...They were actually trying to find a way to get to the "Skull" island, "Jason" said that he might have a way to do what "Hades" wanted to do using dark magic but he had to be somewhere where a lot of

demons died or lived in, a place with nothing holy at all, they didn't know that "Howard" was there and he was Christian and used to pray there, which was gonna screw "Jason's" plan, but they found some way else...

Once the team arrived "London", "Ivy" told them the updates about "Ferdy" & "Adrian" who were seen in "Paris" with thugs, "Viktoria" was there because she had info from "Anton" that "Rogue" appeared there, he was there for real and was there to hunt "Ferdy" because he knew "Rogue's" identity somehow, so "Rogue" started hunting him to keep himself hidden from the Chinese Triad and the "KGB", "Deadshot" had some troubles with "Ivy" and had to answer her calls for him in "England", so he went to her and prepared some excuses for being

out of the country for weeks, "Viktoria" already fall in fights with "Rogue" the past days; but couldn't catch him... "Rogue" wasn't the trouble, "Ferdy" was preparing a surprise for the people of "Paris", a decoration of war...

"Rogue" could know where "Ferdy" and his clowns made camp from some street thugs, he killed them and prepared himself to shoot "Ferdy" down but soon he let this idea go, because he couldn't know "Ferdy" among his men because of the clowns masks, so he had to get in and slay him, this was a big mistake, "Ferdy" wanted to trap him and he did it, catching "Rogue" wasn't easy for "Ferdy's" men, but not so hard for the Triads, they hired "Ferdy" & "Adrian" to get "Rogue" to them; so they admitted

knowing his real identity while they knew nothing about him; but this was the only thing that will pull him out from the dark, after catching him, the Triads gave the "Clowns" 50,000,000 € in cash and took "Rogue" away, "Bee" could hack in a call between one of the Triads and another member in "China" mentioning "Rogue", he reported what he heard to "Viktoria"; who was concerned by "Rogue" more than the Brits, so she asked "Bee" to send her their coordinates and she took the "Dmitry" brothers and went after that convoy, they were heading to the airport...

"Ferdy" had nothing to do or to ask for except "Frankenstein", he wanted "Frank's" head at all costs and warned that everyday late; he'd blow up somewhere vital, like a hospital, a

school or whatever else, this was terrifying but the French kept that away from the press and media and asked for the "Sentinels" interference as a part of the "NATO" asking for the international team's input, in an hour, the "Sentinels" were in "Paris" on an official operation of eliminating "Ferdy" & "Adrian" whenever they got a chance, "Cheetah" had nowhere to go and "Ivy" refused the idea of keeping her anywhere close to civilians or in the mansion, so "Frank" took her with him, he gave her an attire around her arm with his logo, so if she ever needed his help, she just had to push the logo button and "Frank" would be able to find her anywhere she goes to, like a tracker, she liked it.. "Frank" wanted his existence in "Paris" to be known by everyone, on TV if possible, he wanted to send a message to the "Clowns" that

he was there to take them down, it wasn't too long till the "Sentinels" heard what was happening between the Russian agents and the Chinese Triads in the streets, it was a destructive car chase, "Frank" told the others to get the cars and they went to join that fight...

The Triads weren't prepared with heavy guns but they were driving good, "Viktoria" didn't use her truck because it wasn't gonna fit the French streets, "Frank" didn't use the beast truck either, the "Sentinels" didn't know who was fighting the other and whether there were good guys or are they all bad, this lack of information made everyone a target to the "Sentinels" till they see someone they know, the "Sentinels" modified jeeps destroyed 4 cars of the Triads, "Frank" destroyed 2

of them with the "Chevy", then he saw "Viktoria" and she followed another car of the Triads which went off the others' road, "Frank" told "Floyd" who was using his bike to follow them and help "Viktoria", he did it, after a while, everyone was shocked to see 2 container trucks, a trash truck & 2 buses full of clowns joining the party and shooting at everyone, this wasn't expected by anyone...

{Voyna #7}

“Frank” saw this a chance to hunt the “Clowns”, but “Ivy” was worried of that move, she saw that this might be a plan, but if it got screwed; then there must be another backup plan, so she called her friends in the “DGSE” and told them to evacuate and check every vital building in the city as soon as possible and to stop the news from talking or recording any live interviews from the streets; to prevent anyone watching from the clowns’ gang from taking any reaction once they see their bosses getting caught or killed, this was helpful later...“Silver” was in an Apache helicopter and watching the situation from above waiting for orders to engage, “Frank” told him to interfere and strike any of the trucks or

the buses, he stroke a bus and destroyed it but he wasn't so lucky, he got shot by an "RPG" from a rooftop, he survived using his jetpack but the other pilot who was with him in the chopper died, he followed the team with the jetpack and by a miracle he could control the trash truck and killed the clowns driving it, using the car's black smoke; "Frank" could make one of the trucks crash in a building, cops caught the surviving clowns later, suddenly; one of the container trucks shocked "Frank" by being in front of it and driving directly towards him, he pulled the handbrakes and drove backwards, the street was narrow, "Cheetah" was with "Frank" in the car, she got out and jumped on the truck, she looked terrifying to the clowns, "Adrian" was driving that truck, he took a shotgun and tried to shoot her but she avoided

him, "Silver" arrived and "Frank" told him to take the wheel from him, "Silver" didn't understand but he did it, it was payback time between "Frank" & "Adrian", "Frank" broke the front glass and jumped in the air, the motion of the car and the truck in the inverse direction of "Frank's" body made him crash into the truck's driver cabinet like a car crashing into a wall with full speed, this made "Adrian" lose control, "Frank" punched him in the face and controlled the truck, "Cheetah" killed the other clowns who where in the container behind, they were prepared to blow a bomb they got if they ever stopped for any reason, killing them prevented that explosion from happening, "Adrian" woke up and tried to shoot "Frank" again, but "Frank" pulled his gun fast and shot "Adrian" in the head blowing it up,

this adventure was on one side; another side; where "Rose", "Electrocutioner", "Sonya" & "Arrow" were stuck in a tangle between some Triads and the other bus, they called for help and "Floyd" was on his way, "Silver" flew to them too, "Frank" took "Cheetah" in the "Chevy" and followed them, "Ferdy" showed up in a third container truck but this time he and the other clowns were throwing bombs in the streets where they were driving, the French police tried to stop them but they failed, so a team of the French Commandos Marine worked on stopping them, but the clowns were prepared with heavy guns, "Frank" decided to follow "Ferdy" and he got his location using his map scanner in the mask's program, he went to a street where "Ferdy" was about to drive to its end and stood at the end of the road

waiting for him, "Ferdy" noticed him and intended to hit him, "Cheetah" didn't understand what he was doing but "Frank" had his remote grapnel in his hand and raised its gas pressure, then shot on a building next to him and the secondary claw shot in the inverse direction to the building on the other side, this made a strong stretched horizontal wire between "Frank" and the speeding truck, "Ferdy" didn't notice the wire and drove with top speed, "Frank" took 4 or 5 steps backwards and told "Cheetah" to stay where she was, then the truck hit the wire but it didn't cut the wire, the wire made the truck revolve and fall on its roof; jumping over "Frank's" head, while it was falling; "Frank" & "Ferdy" looked at each other during this moment then "Ferdy" fall injured and whoever still standing of the clowns

was shot by "Frank" but "Ferdy" was still alive, "Ferdy" said "You are no different than us, you're a killer, I WAS RIGHT HAHA" to "Frank", "Frank" replied "I am a killer, but I am no clown" then he punched "Ferdy" sending him to sleep, people were taking photos and videos of "Frank" and "Cheetah" and what happened as if they were looking at movie heroes, he took "Cheetah" & "Ferdy" in the "Chevy" and left, the others were ok after "Floyd" & "Silver" aided them, the French Marines helped too, "Rogue" got rid of the Triads who were catching him and could escape, "Viktoria" and the "Dmitry" brothers tried to find him with the Triads who were driving around the city but they couldn't find him and the triads refused to talk...

In 24 hours, the "Sentinels" and whoever left of "Ferdy's" clowns and "Ferdy" himself were prepared to be transported from "Paris" to "London" in an agency's plane with cells and preparations, besides to fighters around the plane, the "Sentinels" used their jet and flew behind the plane with the fighters, "SAS" sent a tactical team to be inside the plane guarding the prisoners, "Ivy" was gonna welcome them herself with a huge team from the "SAS" ready for any surprising attack, the clowns were dismissed in special transporting governmental trucks belonging to the "NATO" to their base, "Ferdy" came after them and at the plane's door, "Ferdy" laughed loudly and said "Hello London", then suddenly he got shot in the head and died, "Frank" scanned the area fast but couldn't find any shooters around any

roof, the place got messy and “Ivy” ordered the men to seal and search the airport but they couldn’t find anyone in relation with that assassination or any clue to the assassin’s identity, “Frank” thought that they were the Chinese Triad but he was wrong, it was “Deadshot”, “Ivy” couldn’t prove his involvement in any assassination since that mess started...

On the other side, “Hades’s” men failed to cast any spell using dark magic, raising the old demons didn’t work because “Jason” wasn’t a wizard; unlike “Rumple”; so they decided to talk to the locals and ask for their help or force them to help, “Knight” could know some info about magical pits where lizard creatures lived, one of the pits extended deep to the underworld; but getting there was impossible; the

old requirements were still needed except the skulls, one of the requirements was the immortal person, so they had to leave the island and look for the immortal "Black Skin" mentioned earlier - "Karen" - who was in "USA", but finding her took longer than they thought, because "Karen" used to move a lot in order to hide her identity...

Artificial Intelligence wasn't ready yet for military uses, the British government offered "Alex Landon" more help and more funding for his robotics project in return of creating Intelligent weapons as soon as possible, that time, in 2021, Earth started to receive anonymous messages from space, it was obvious that humans weren't alone in the universe... "Dr. Boyle's" cryoguns were ready and could be

manufactured but it needed money and a lot of resources, the "CIA" kidnapped him in "Oxford" and took him back to "USA"; giving him all facilitates for his weapons project, they saw that "Dr. Boyle's" project could be used in the near future and they were right, the cryoguns were needed to face the aliens' threat since 2025, but till 2025; both agencies-the "MI6" & "CIA"-kept the aliens issue a secret and kept gathering mutants and specialists, they kept it a secret for months in 2021 but they couldn't keep it hidden from the mighty "KGB" and they started working on their own special weapons too, "Egypt" was a member in the "BRICS" since 2017 and started to rise economically, "Russia", "China" & "Brazil" were engaged economically in the world's opinion, but to the intelligence and governments opinions,

they were creating a military engagement and they were gonna announce this anytime in the next few years, they were creating something mighty enough to stand toe-to-toe with the "NATO", "Egypt's" joining this group was to put a close eye to "Europe" and the "NATO", the Egyptian intelligence was tough that time in 2021, unlike before, thanks to the "KGB's" precious help of course... "Ivy" was promoted to a higher rank and became a Lieutenant Colonel, "Silver" was already a Lieutenant Colonel since 2019 and became a Colonel in March 2021... Things were calm for 4 months, "Viktoria" wasn't calm, she was looking for "Rogue" everywhere but he was gone and no one had any visual of him anywhere in "Asia" or "Europe"... "Deadshot" found him in "San Francisco" - "USA", he was in

“Chinatown” there, hiding with a Japanese woman, she was a Japanese Intelligence agent who was told everything “Rogue” has been through, she was the agent who was helping “Rogue” with information needed, she was with him step by step, “Deadshot” knew that “Rogue” was a governmental agent, because he saw that these info he knew couldn't be known by a regular assassin, so “Deadshot” took a close look at every Japanese and Chinese agent in “Europe” & “USA”, after months of digging, he found “Rogue” and that agent, he made his way there and could shoot “Rogue” and the female agent dead and took all documents and recordings they had and destroyed them, days later; “Viktoria” knew that “Rogue” was killed in “USA”...

{The Road to The War}

The "Sentinels" knew about the aliens messages from the space, "Ivy" told them, "Rose" saw that they should keep lay low and dig behind this, "Frank" said "If they're sending messages now, then they're expecting a respond; otherwise the messages aren't sent to us..." "Arrow" interrupted him saying "Sent to their spies here!!" "Frank" confirmed "Arrow's" words, this made everyone afraid and worried...

"Frank" knew why did "Chen" left the crew for months, she was pregnant and didn't wanna tell "Frank" about her baby, he saw that she might be afraid of something and maybe the baby wasn't his..."Frank" was digging

behind "Victor" and his disappearance, but he had another issue that was delayed for a long time, the living rocks in the Western desert in "Egypt" & "Spain", these moving rocks were hidden for years, no one ever believed anyone who mentioned anything about them, "Frank", "Hylaria", "Electrocutioner" & "Viktoria" were the only people who saw these things and engaged with them too, "Frank" intended to use "Cheetah's" help with that issue, but she shocked "Frank" that she knew about them, they were ancient creatures which lived on Earth even before man was created, like the creatures living on the "Skull" island, she explained "The planet was made in 5 days and man was created in the 6th day to see everything available to him and all creatures around him,

fearing and respecting him because humans looked like God, after centuries, species started to change and many kinds got extinct, like my kind of creatures and many others, these rocks were called the 'Desert Guards', they are slow and blind but react to motion and completely indestructible, forget about them because they're in every wide desert on Earth and they hate human voices, so they will never attack humans; unless humans go to them and start troubles' "Frank" didn't like the idea of leaving this issue, but he had nothing to do since these creatures were in every desert, he was amazed to know that "Cheetah" knew about God and the origins of creation; but he didn't ask her how did she knew...The "Knight" and his friends had another way to bring an immortal and use him, "Jason" thought of the gate in the

“Himalayas”, he used to know about it decades ago, but he also knew the dangers they might face there and the sacrifice problem, it wasn't a trouble to find someone to do so, a human guide in the mountain would be good enough to be sacrificed with in return of “Rumple” or any immortal demon they knew, “Black Skin” used to know an immortal who could be helpful and already from the underworld, he was the devil's favorite demon and used to appear to people to feed on their souls centuries ago; then he was sent to the underworld and was never raised before, using him for the rituals of raising “Hades” wasn't gonna be a trouble, because “Hades” was gonna raise the underworld and he would be raised again as well, but she was very wrong about this, the sacrificed one would live alone in the “Waste Ground”

with the humans of the surface; with no chance to rise upwards, so they headed to the "Himalayas"...On their way, they got lost and went to an area where "Yety" monsters used to live, that time there were no one of the "Sherpa" people living at the mountains, "Knight" wasn't comfortable to go up there without a guide but "Jason" told them that he can find the way using magic, at some point "Jason" felt that they were lost, he told them that they should retreat, then the monsters appeared, "Knight" told them not to move but "Brass" changed his form to be brass, this change made the monsters feel threatened and started attacking them, "Hades's" men did well against 4 monsters then they kept moving, after hours of walking, they camped in a cave to avoid an up coming storm, this cave wasn't empty, someone lived there

for centuries but he was away, "Black Skin" found a seat and some dead remaining of an animal, she told them that the place belonged to someone or some animal, then a thunder happened in the cave and a rock man appeared, "Brass" tried to attack him but he was stronger and held him from his throat and hit the others by thunder, "Knight" liked him and tried to contain his anger and told him that they needed shelter, he didn't understand their language but he knew what they needed, so he left them and kept his caution in case they attacked him, "Black Skin" tried to talk to him and could tell him that they were going to the 'Gate of the Dead' he told them the way, they had to pass a valley but this valley was a trap he prepared for whoever wanted to go to the Gate, once they moved down the

valley and walked to its middle, then the cave man hit the valley with thunder and made the snow fill the valley and bury them, he was the Gate's protector but the "Sentinels" didn't pass by him in 2017 because they used another route that time, that rock man used to be called the "Stone Watcher" by the "Sherpa" people, when he got close to them, they moved away from their houses because they used to fear him very much... "Knight" and his friends were buried in the snow for sometime...

In "Egypt", things were bad and the government was facing a high level of terrorism, Muslim terrorist organizations were growing stronger and the Egyptian government had forces and weapons to face them but the explosions and killing never stopped,

there was someone leading them and guiding their steps, he was "Abd Al Rahman's" brother "Amir", he wasn't in "Egypt" but the Americans knew where he was, but of course they didn't share such information with anyone, they were actually ok with what they were doing to the Egyptians, the Egyptian Intelligence was stronger than it used to be and knew "Frank's" secret identity, this gave them the courage to ask him for help but they needed to do this secretly of course...An Egyptian agent named "Mahmoud" with his assistant "Salma" payed "Frank" a visit in the mansion in "Wales", they said that they were sent by "Frank's" uncle-"Judge"-to tell him and "Dr. Frank" a very bad news, they knew many languages but they showed "Ronda" that they didn't know English, "Ronda" was the major maid

and was the one who welcome visitors, she told "Frank" & "Hylaria" that there were 2 Egyptians coming to meet "Frank" about a top secret topic, "Hylaria" had a body paint all over her body so she couldn't go to meet them with "Frank", "Dr. Frank" was out with the kids and "Paige" for fun, he was their grandfather and loved them so much, the agents asked "Frank" to talk to him privately, despite the fact that they were alone in the room, but they knew that the place was watched by cameras and microphones were everywhere recording everything, "Frank" didn't understand why would "Judge" send him anyone in "Wales" and not just call on the safe line, they handed "Frank" a file, it was his file, his identity and everything about him and his brother "Victor", "Dr. Frank" and his grandpa "Isaac" too, but

“Isaac’s” info weren’t much and weren’t all precised about his life, “Frank” realized that he was talking to governmental agents not regular people, they were speaking in Arabic of course and “Frank” started replying to them in Arabic when he realized that he’s exposed to them, they told him that “Egypt” needed his help, “Mahmoud” said “Mark Isaac, you can pretend to be whoever you think you are, but don’t forget who you really are” “Frank” said “What did Egypt do for me and my family?! Ever since we left Egypt things got better, all youth of my age are looking for an opportunity to leave this country, why would they do that? Because they’re poor, unemployed, ill without medicine, worse education on Earth, nearly the highest levels of pollution, sexual assaults, regardless to religious persecution and killing

Christians just for their religion, why should I stay in Egypt and refuse all this??” moving his hand showing them the place, referring to his position and all the facilitates he had for his children and for himself, “Salma” said “That’s where your life began and where it’s probably gonna end, don’t forget where you came from agent Frankenstein, we all work to serve our countries...” “Frank” interrupted her “Frankenstein isn’t for one country or organization, I successfully made something the whole world can be proud of, I can’t be corrupted or bullied by any agent from any country, unless your man is a global threat, I won’t move; and these info you got about me won’t be a threat to my life anymore” “Salma” said “Why should you wait till he become a worldwide threat? He’s already taking responsibility for

several terrorist events in different places in the world including USA and other European countries, will you wait till they attack London to make a move? Although it's not your country you won't leave it, but you'll leave your home country to face a threat like this, where's your honor?" "Frank" looked at her aggressively enough to make "Mahmoud" stand up, "Hylaria" came in and told "Frank" that she heard everything, the Egyptians were shocked to see her and her look, they didn't know anything about her and she didn't talk to them and they didn't know that she speaks Arabic, "Hylaria" told "Frank" to help them as much as he can, "Frank" told her that he can't do anything on his own, he was a soldier obeying orders, "Hylaria" said "You're more than being just a soldier, some men are just meant to be Gods, it's

a responsibility you can't run away from, you're Frankenstein, and we always support you" "Frank" agreed to help them and told them to leave and meet him in "Egypt" at his old home in 3 days, the Egyptians agreed and gave "Frank" a phone to contact him but he refused it and told them that he'd be there in 3 days and "Salma" trusted him for some reason and took "Mahmoud" and left... "Hylaria" informed "Ivy" what happened and "Ivy" tracked them and made sure that they were from the Egyptian government for real, it wasn't official and "Ivy" couldn't do things without permissions and orders, so she told them that she'll cover on them for a week and they must finish the job secretly as soon as possible, "Hylaria" thanked her and told "Frank" about this and he was happy for "Ivy's"

acceptance, she knew that it won't be easy for "Frank" to live with the fact that his home country was in danger and he can't do anything for it, "Frank" smiled and said to himself "Here we go again, another war in Egypt"...

{Voyna #8}

“Frank” chose who would join him in that war, “Hylaria” was surprised that she wasn’t chosen by “Frank” but he convinced her that her skin won’t bear the heat in “Egypt”, he was right, the crew were [Frank, Floyd, Paige, Sonya, Arrow, Quiet & Twin] but “Frank” saw that he was gonna need his old crew members, “Cain” & “Deadshot”, “Frank” called them and they agreed to join the party, that time “Deadshot” was in “England”, the crew met at the hideout in “Cairo” secretly, “Cain” gathered all info about “Amir” and his terrorists, he told them that he was “Abd Al Rahman’s” brother and was one of his men, but their location wasn’t known, “Frank” said “That’s not enough, we need to know more and

more personal data about him, where is he from? Who else of his family is alive and where? His wife, kids, parents, siblings, everything” “Paige” got an idea to know more about that guy “We can know more about him, if he’s in the NATO’s database; then the Americans must have more data about him in the International Criminal database” “Arrow” said “The Americans don’t share secret info in the International Criminal database, they’ll tell us what we already know” “Frank” looked at “Cain” without talking, “Cain” understood “No, you can’t be serious...” the others looked at him, he agreed to do it but he said that he was gonna need time, he was gonna hack into the American database, “Frank” told him that they got 7 days to finish the job and catch or kill this guy, “Cain” started working and the

others prepared themselves to meet the Egyptians with "Frank" but he insisted to meet them alone...

"Frank" met "Mahmoud" & "Salma" at his old home, "Salma" said "I knew you'd come" he replied "I'll help you with that one, but I want everything you've got on him, every data can be helpful to me, I also need your full trust, no secrets and no interference in how I manage things, are we clear?", "Mahmoud" gave "Frank" everything they've got about "Amir" but they insisted to join him and his crew because they were the Egyptian representatives in this operation, he accepted but he told them that he was the only link between his crew and them, the lack of trust wasn't right but "Frank" didn't have to trust them..."Sonya" knew some info about a

team of terrorists preparing themselves for an attack on a police station in "Al Arish" - "Sinai" during the next few hours, "Frank" told the Egyptian agents and they warned the army troops there, "Frank" took the crew and traveled to "Sinai" secretly and decided to attack the terrorists before they attack the place, satellite imaging showed their locations and numbers, they were many in numbers, "Frank" decided to attack them alone, the "Sentinels" weren't comfortable with this but he wanted to know something from them, the terrorists knew that the army surrounded the place with a lot of reinforcements, but they weren't expecting "Frank" at all, the attack happened on the place, cops and soldiers started engaging with them, then suddenly; the terrorists started screaming and yelling, it was weird to

the soldiers then they saw "Frank" shooting and killing the assailants, they hesitated and didn't know if they should shoot him or not, they got shocked that they can't contact any of their officials, because "Cain" blocked their signals because "Frank" didn't want them to tell anyone that he was there, he dealt with the assailants and killed many of them, the last 5 of them gave up and the soldiers caught them, "Frank" caught 2 of them and disappeared, the crew took "Frank" and the terrorists and went somewhere safe, interrogating them revealed more than the Egyptians could ever know from the 3 others, "Frank" recorded everything they said and delivered the records to "Mahmoud"; to his home, which was a shock to him of course, he had a wife and 3 kids, "Frank" wanted to tell him that he knows a lot about

“Mahmoud” & “Salma” too...“Amir” was told that “Frankenstein” was in “Egypt” and had the intention of hunting terrorism in “Sinai”...

“Amir” sent new heavier weapons to his men in “Egypt”, 2 days later, “Paige” knew that a shipment of heavy weapons was on its way from “Syria” passing by “Israel” & “Gaza” to “Sinai”, “Arrow” called some friends in “Israel” to stop the shipment, he didn’t tell them that it was on its way to “Egypt”, he told them that it was going to thugs in “Gaza” to perform an attack on them, this made the “Mossad” ambush the shipment and catch it, despite “Amir’s” precautions, this made “Amir” decide to go to “Egypt” himself...When “Amir” arrived, “Cain” said “Hey, the shark ate our bait, Amir is in Sharm El Sheikh, our satellites detected him just

now” “Frank” said “Let’s move” and the crew took their jet and traveled there as soon as possible, on their way, “Mahmoud” sent “Frank” the info and told him that there was a trouble in “Sharm EL Sheikh” and asked him to go there, “Frank” told “Mahmoud” that he was on his way there already, “Amir” arrived with a huge threat and it was considered to be the worst terrorist attack on the Egyptian soil... “Amir” and a lot of his men and other Arabs attacked the “Four Seasons Resort” which was one of the biggest and best resorts in “Sinai”, “Amir” took hundreds of tourists and Egyptians as hostages and demanded the Egyptians to admit that they failed and demanded the present government to resign “I want nothing but an official admittance by the Egyptian government that they failed to stop

God's work, I want the Muslims here to admit that they called the faithless nations of the west to fight against the faithful men of God and his Prophet, I WON, I beat this corrupted regime down enough to make them ask for foreigners to save them, forgetting that they are Muslims like us, I want the Egyptian president to admit that his men lost the war to us and he asked for the faithless Frankenstein to finish his work and I want his resignation to be public, if this isn't live on TV in 2 hours, I'll start killing people here and there are too many Christians here to be killed" his men published this video on social media and sent it to other funded channels by terrorist organizations, this made the "Sentinel's" existence in "Egypt" well known to everyone, "Frank" said "I've faced many terrorists and criminals in my life but this is

different, he crossed the line”
“Deadshot” said “That’s the price of being good, every act has a consequence even if that act is noble”, “Arrow” said “That’s not all, the regime’s fall and the governmental admittance of their failure won’t get him out of there in one piece” “Paige” said “You squeezed them, you hammered them to the point of desperation, in their desperation; they turned to do something insane that might get their man killed” to “Frank”, he said “Terrorists aren’t complicated, Paige, we gotta know what he’s after” “Deadshot” replied to him “Perhaps he’s a guy you don’t fully understand... Years ago, I was with a crew in Bangladesh in a top secret op, a black op actually, locals used to bribe a bandit to avoid his evil using peat stones and other iron ores as bribes, he demanded them to give him these

stones and small shares of their food as much as he needed, in return of peace and protection, he was actually wanted by the police, they asked for help from us to get rid of the bandit and we agreed, so we went looking for him in the Saka Haphong mountain; where they said that he used to live, it's near Myanmar, days later; we found where he hid but we never found any stones with him and in the same time we didn't know anyone who traded with him either, the next day I found one of the local's children playing with an ore and a stone, I spoke with the kid and he told me that he found the ore somewhere near the village, later we found more stones, the bandit was throwing them away" "Floyd" asked "Then why did he tell them to give him the stones and ores if he can't sell them?!" "Deadshot" replied "Because

he saw that it was fun and they had no one to stop him, or maybe he got nothing to do but to fight, and nothing to fight for but his own life", what "Deadshot" meant was that "Amir" wasn't looking for anything logical and can't be negotiated with, he was just a terrorist, "Salma" called "Frank" and told him that the president asked to see him, "Frank" wasn't advised to go, but he saw that the Egyptians needed him and won't hurt him, "Arrow" insisted to go with him but "Frank" refused strictly, he met "Mahmoud" & "Salma" and they took him to the president in "Suez", "Frank" was in his suit and mask with all his tools and equipment, "Mahmoud" told "Frank" that the president doesn't know his identity and he didn't care, all he cared about were the hostages in "Sharm EL Sheikh", it was the first and last time

“Frank” met the Egyptian president in his life, “Mahmoud” took “Frank” in a military chopper to “Suez” and waited for him to go back together, the president said “I see that you’re a unique soldier or agent, I never believed that you’re real, you might be someone else sent to me for negotiation but it’s ok I understand...” “Frank” replied “There’s one Frankenstein in this world, you’re looking at him, sir” the president started discussing the situation, “Frank” wanted to use the Egyptians help to prove to the world that the Egyptians were strong too, but “Frank” didn’t tell the president everything about what he intended to do and how was he gonna move, “Frank” promised the president that he’d finish this critical situation before any damages and without any life loss or civilian casualties, the

president promised him with complete cooperation of all Egyptian units, then "Frank" left with "Mahmoud" back to "Sharm El Sheikh"...The "Sentinels" were worried but "Frank" comforted them and asked what they got about the situation and they told "Frank" the updates...

The resort became a military camp, the "Sentinels" proposed sneaking in, "Frank" told them that they had no other way but letting him in and following his steps by satellites, "Quiet" & "Deadshot" took positions and took a look at the east and west side of the place, "Quiet's" notes were weird to everyone, she said "Something is wrong, masked thugs are securing the hotel but they're taking positions at wide windows without cover" "Floyd" said "Then get ready to hunt them down,

this distraction will give Frank the chance to move in” “Deadshot” said “It might be a trap”, “Arrow” used binoculars and took a look then said “Hold on a second, this is a shooting gallery, why would they do such thing”, “Mahmoud” said “When Frank give us the mark, snipers take them down, a strike team move in from the south side, during the chaos, the rest of the forces will shoot smoke grenades and launch a full scale attack covering all exits and roof” “Arrow” liked the idea, “Frank” said “No, it’s not that simple, with Amir it never is, I need 10 minutes inside alone” “Mahmoud” said “The world is watching, nothing is simple, every moment passes gets one of the hostages one step closer to death; we have no time, we MUST do it” he seemed very intense, he was warned that if any hostage died he’d face

serious consequences and probably he would be fired, it was 30 minutes left till "Amir's" time limit was over and he'd start killing tourists, "Frank" said "You wanna make it right, follow my lead" "Mahmoud" got angry "WHO YOU THINK YOU ARE? THERE'S NO TIME, WE'RE GOING IN; WE GOTTA SAVE THEM; I GOTTA SAVE THEM TO KEEP MY JOB, FRANKENSTEIN" and raised his gun to "Frank", the "Sentinels" got intense but "Frank" raised his hand telling them to stand down then he stood on the rooftop's edge and shot one side of the hotel with his remote grapnel and used the strong wire to slide from the rooftop he was standing on to the hotel through one of the windows where thugs were standing without cover, "Frank" hit one of them and took him off balance, the other 2 got hit and fall down then

“Frank” noticed that the thugs weren’t fighting back and heard them grunting, as if they couldn’t speak, “Frank” pulled the masks off their heads and realized the trick, they were the tourists, “Amir’s” men forced them to wear like the thugs with masks and tied them in front of exposed windows to make them soft targets to be shot by the police and the “Sentinels”, “Frank” had a private safe radio station between him and “Cain”, the “Sentinels” knew that later, when he saw that the thugs were actually the tourists, he contacted “Cain” and said “Cain, we’re hunting the wrong targets, the thugs are the tourists and they made the tourists dress like them” “Cain” said “Damn, you’ve got save them, they’re all on 3 floors, thugs & hostages, I’ll report now, OMG” “Mahmoud” launched the attack for

real and the "Sentinels" couldn't stop him, "Frank" noticed that and tried to keep the forces away from them after pulling more tourists away from the windows to save them from the shooters using his grapnel gun, soldiers reported that "Frank" was attacking them, "Cain" told the "Sentinels" using their safe radio station, when they knew they started helping "Frank" by stopping the soldiers and trying to contact "Mahmoud" or "Salma" telling them that the thugs in the hotel were actually the hostages but they weren't listening due to heavy shooting and the fact that most soldiers didn't speak English... "Deadshot" made his way in the place and shot some thugs who were inside and could know where "Amir" was sealing himself with his men and other hostages using the hotel's CCTV, he sent his location inside the hotel to

“Cain” and he sent it to “Frank”, “Floyd” and the others discovered bombs in the place, which made things worse, “Amir” intended to blow the hotel with everyone in, “Cain” blocked all radio signals from the place according to “Arrow’s” orders to avoid any remote detonating to the bombs, it wasn’t too long till “Frank” reached where “Amir” was, he saw “Deadshot” and they got each others thoughts, “Deadshot” identified the thugs’ locations in the hall and was good enough to shoot them all without hurting any civilian, “Frank” was gonna attack “Amir” and whoever protecting him and saving whoever could be saved, they did it and it was impressive, “Amir” tried to shoot back at “Frank” but it didn’t work and “Frank” caught him and killed his men, at some point, Egyptian cops and

soldiers realized that thugs were wearing like the tourists and they made the tourists wear their clothes, after the fight between "Frank" & "Amir", "Frank" caught him and tied him well, "Deadshot" wanted to kill him but "Frank" stopped him, they needed to know more about his clan, "Amir" said "You're making a mistake, you announced war on your countries, a war you can't afford and your technology won't save ANYONE", in minutes, the place was controlled by the "SEAL" army soldiers and most thugs were murdered or injured, the "Sentinels" involvement was extremely valuable and the Egyptians admitted this and thanked "Frank" and the "Sentinels", "Frank" asked to take "Amir" but his request was denied, this wasn't expected by the "Sentinels"... "Ivy" called "Deadshot"

privately and told him to shoot "Amir" if the "NATO" failed to take "Amir" from the Egyptians by negotiations, they didn't want the Egyptians to know too much because most of what the Egyptians know gets leaked to the Russians, the "Sentinels" stayed for 2 days in "Egypt" negotiating with the Egyptians, "Silver" arrived with "Rose" to lead the negotiations..The Egyptians decided to move "Amir" to a highly secured prison with a lot of security, on their way, the convoy was ambushed roughly by terrorists, "Cain" knew and reported this to the others and "Frank" decided to interfere, "Mahmoud" & "Salma" were in "Tur", when they knew, they decided to move in a chopper to where the attack was, "Amir" was gonna be transported to "Suez" where a military chopper was gonna transport him to that prison in "Cairo",

the "Sentinels" moved in their own cars, the crew was [Frank, Silver, Floyd, Rose, Deadshot, Sonya, Twin, Quiet, Arrow & Paige], "Frank" & "Paige" were together in the "Chevy", "Floyd" & "Rose" were together in the "Ram" with "Silver" in the back holding a mini-gun fixed to the car's roof, "Arrow" & "Quiet" were together in a modified Jeep, [Sonya, Deadshot & Twin] were together in another modified Jeep...Soon, the chase started...

{The Witch & The Monster}

“Amir” was expecting his men to save him, this wasn't expected by the Egyptians but “Amir” wasn't like regular terrorists and his clan wasn't like the Arab clans...

The assailant crew were 6 “GMC” Jeeps, each had 4 terrorists, 3 gunners and a driver, the convoy had several armored vehicles belonging to the army but they weren't enough against the new destructive weapon “Abd Al Rahman” was dealing with in “Germany” & “England”, the “Nanomites”, for the “Sentinels” good luck, the terrorists wasted all their rounds on the Egyptians and missing some shots, this made the fight normal again but nearly all the Egyptian

convoy were gone, "Deadshot's" existence was important, he shot 2 terrorist drivers in 2 cars making these cars lose control and crash, the others; he shot their tires stopping them and the fight became gun-to-gun, "Frank" stopped and told the others to take cover, he used his new cans on his forearms—he still got them and the team reloaded them for him—and shot the terrorists' cars, the explosion killed some of them and the rest of them were injured, without the "Sentinels" interference, "Amir" could have been freed, "Mahmoud" & "Salma" arrived and witnessed the scene, "Salma" looked really impressed...It didn't take much time from the Egyptians to realize that this was bigger than them, so they agreed to handle "Amir" to the "Sentinels", the foreign civilians from the "Four Seasons Resort" had planes to

take them back to their countries, they expressed their thanks to the guy who saved them and drew paintings of him and wrote on the paintings "Thank you, Frankenstein" and shared his pictures on social media, the Egyptian government sent its prime minister to say goodbyes to the "Sentinels" and express his and the country's appreciations for what they did, "Mahmoud" was rewarded by his officials later... "Cheetah" was in "Wales" with the family, "Hylaria" had a lot to teach her, she was watching "Frank" in the news, she didn't understand anything but seeing "Frank" was making her feel comfortable and relaxed... The "Sentinels" flew to "London" with their jet the next day to deliver "Amir" to the "MI6", "Ivy" welcomed them and her men took "Amir" away, after hours

of rest, "Ivy" asked "Frank" to talk privately, she asked him about "Cheetah" and her fate, "Ivy" saw that she belonged to a jungle or someplace where she can live away from humans who will fear and hate her, "Frank" refused the idea of giving up on her unless she wanted to leave, then "Ivy" spoke to "Frank" about "Rogue" and his death in "USA", she said that "Viktoria" was blaming them for killing him; in order to cover on some important people, "Frank" didn't reply because both of them know that someone killed him to prevent him from talking and exposing more officials...The crew returned home to "Wales", the internet was talking about what happened in "Egypt" and how "Frank" and the "Sentinels" saved those civilians, poor Egyptians all over the country used to call him 'The

Monster' and shared rumors that he was a gen or an angel, educated people doubted that he was a human; many people saw that he was a robot with special Artificial Intelligence, news about "Frank" spread more than celebrities and football players, "Frankenstein" became the number 1 topic on the internet for weeks...

In "Greece", there was a Chinese witch looking for something, she used to look like humans but she was a sort of a fairy or a very powerful witch, she was one of "Rumple's" friends in the far past but they never trusted each other...When "Hades" appeared on Earth, in "Iraq", she felt him and decided to track him, she tried for a long time but "Hades's" teleportation was making the trace harder for her, she knew that he was the devil himself,

she saw that he could be anyone but that wasn't gonna block her trace, when "Frank" broke the skull and sent "Hades" & the "Skull King" to hell, her trace to "Hades" stopped, but she started hunting the killer who was too easy to be traced, "Frankenstein"...She could never have a child from humans, demons or gens, although her hard efforts, but she created a portion that can make her pregnant with unique children but she needed a unique father for the process to be completed safely without troubles to the baby or to her, the required father must be either the devil himself; or the one who could beat the devil 3 times in a row, "Frank" beat the devil-"Hades"-2 times and beat him for the 3rd time when "Hades" tried his playing games with "Frank's" mind in the cave like what he did with the "Predator", it was a devil act,

besides to breaking the magical skulls, "Hades" failed to corrupt "Frank's" mind, this made it the 3rd time he beat the devil, since "Hades" was gone; "Frank" became the only one in that era to be the father of her child, she searched for someone like him for TOO long, the witch's human name was "Lucy Shu"...

"Lucy" made people see her so beautiful and VERY rich, with a lot of servants, the servants were her fellow gens, she was in "Greece" looking for a way to raise "Hades", but she focused on "Frank" and asked her gens and fairies about him and they told her what he did, they told her where he was and she didn't intend to waste time and teleported herself to "Wales" near the mansion and made a crow search for him inside, minutes later, the crow

came back, she used magic to transport what it saw to herself and could know "Frank", after some time she realized that "Frank" had an ancient soul, his ancient soul made him powerful enough to love 3 women and have kids from them and others without losing any of them, this ability of living like this was nothing modern, this power he had to convince them to accept the situation and keep loving him was very impressive to "Lucy" and made her feel that "Frank" was the only one suitable for her... "Frank" was very tired and slept for hours, "Jenny" was sleeping next to him, "Lucy" teleported herself inside the room and blocked "Jenny" away from the environment around her and lifted her upwards; clearing the area next to "Frank" on the bed and she slept with him, that time "Frank" was the twin not the father, that time

the twin wasn't sterile because in fact, he was "Wolf's" father, but since that night he became sterile because "Lucy" exhausted him sexually the way no man could ever endure, she got tired but she liked "Frank" very much enough that she cursed him to be stronger and endure anything, but at a certain moment his head turns to a skull with blue flames, only if he was hit by a Godly power or facing something his humanity can't endure; he turns to be the demon, this made his life get extended too, but he wasn't immortal, she didn't tell him or talk to him at all, this power made him 2 things with the same ancient soul, the human body; which was gonna die one day; and the demon inside him; which was immortal and had no reason, that's why the demon couldn't control or change him, "Lucy" didn't turn

“Frank” to a demon because she wanted his soul to remain the same, if she killed his humanity, his soul might get lost or corrupted, she intended to keep him like he was because she wanted him for herself like he was, not like she wanted...After they were done, “Lucy” returned everything in the room to its position and “Jenny” back beside “Frank” and left, “Frank” didn’t know what happened but he felt that he wasted a lot of his effort the past night, but “Jenny” told him that they didn’t do anything the past night which was weird to “Frank”; who felt that he was different...

“Lucy” went back to “China” with her pregnancy which was extremely fast, in 11 weeks, she gave birth to her baby boy who was a human-demon, she called him “Necromancer”,

because he got the dark power of collecting souls of his victims, he couldn't take anyone's soul, but if he killed anyone, the victim's soul goes automatically to him and he absorbs it, the existence depending on several souls in him was gonna make him immortal... "Lucy" didn't show up to "Frank" for weeks, but she was busy raising her demon son and training him how to use dark magic and how to kill using swords and all kinds of old weapons including Japanese swords, evolving his powers made him strong enough to go to any dimension and back to Earth, even the underworld... He was growing too fast too...

In October 12th 2021, the "KGB" spotted the "Skull" island and knew that it wasn't too hard to reach, besides to the fact that "Bermuda" triangle wasn't a dangerous area anymore, the "KGB" knew about the "Sentinels" journey to that island later, "Vasily" ordered "Anton" and his brothers to travel there and check out this island with scientists and geologists hired by the government, it wasn't officially a British or American island, the Russians saw that putting a hand on an island in the Atlantic ocean was gonna be a hit to "USA", "Viktoria" heard about this but didn't care...

{The Skull Island 3}

In the same time, "Lucy" saw that her boy was so strong enough to rule the underworld, so she told him to go where the devil fall recently and go to kill him where he last fall, killing the devil was gonna be impossible in the underworld where his slaves were everywhere, so he had to take him from there to Earth and kill him to earn his place as a King of the underworld and all demons everywhere in hell and on Earth, "Necromancer" went to the underworld and bowed for "Hades" and told him that he can propagate between both dimensions easily, this attracted "Hades's" attention and agreed to go with him, "Necromancer" took him from the underworld to the "Skull" island and in the cave where

the devil died, "Hades" was shocked that "Necromancer" took him to that place on Earth, "Lucy" was there and she casted a spell preventing any gen or fairy from interfering, "Hades" realized that he was trapped "You slaves dare to ambush your King?!" he said to "Necromancer" & "Lucy" then he changed his form to be a huge devil monster and "Necromancer" enlarged his body to be in his size and they started fighting in a unique brawl...Every time "Necromancer" was in a tangle or taking beating, "Frank" was feeling it like hits in his heart enough for the others to take him to a hospital, no one understood what happened to him and he didn't know too then he fainted for hours, during his long sleep, he had a dream of both demons fighting aggressively in a forest terrain, he knew that it was the "Skull"

island from the mountain then he woke up suddenly saying one thing "Take me to the Skull island now" "Rose" & "Hylaria" were close to him and heard him, "Paige" & "Jenny" came in the room to see him, "Rose" got out and spoke to "Floyd" telling him what "Frank" said, he was astonished saying "Why would he wanna go to that island now? He defeated Hades and the Skull king with the animal woman!! There's nothing precious there anymore", "Russia" sent geologists and scientists with the "KGB's" crew to the island...On the island, the Russians arrived to the east side of the island in a spy submarine and took a boat to the island's shores, the submarine sensed unknown activities on the island but they didn't see it weird; thinking that it might be animals or living locals fighting, once the crew reached there;

they felt that there was something wrong on the island and earth was shaking beneath their feet, they hesitated to move in but the scientists with them refused to go away with nothing in hand; so they moved in... On their way in the island, they started seeing weird animals and things, facing these animals made the "Dmitry" brothers afraid, "Dom" was with them, she told them that they should abort mission and return back but "Anton" couldn't leave the scientists and just go away, it was gonna be bad for the the brothers' position in the agency and no one would believe them, "Dom" knew that the "Sentinels" were on the island and exactly where they were, she found one of "Arrow's" arrows on the ground, it was an electric arrow he used when they were on their way north; besides to some bullet casings,

she told her brothers and they saw that they should follow the "Sentinels" tracks, the scientists kept taking samples from the soil and plants, then they were shocked by a wild plant closing its 'mouth' on one of the scientists' hands and cutting it down, shooting the plant revealed that the plant was more like a fixed creature in the ground, the crew heard roars coming from the caves and mountain, they decided to avoid going there, then they were shocked by a flock of giant wild buffaloes running in their direction, they crew got off the way but they noticed that the flock was running with fear; according to one of the scientists' note, the one who lost his hand died, because the plant took his hand and poisoned his blood too...Minutes later, the Russian crew saw both monsters and started taking

pictures like tourists, "Anton" ordered everyone to run, because "Necromancer" felt their existence and decided to kill them and take their souls; to strengthen himself more, the Russians ran and "Necromancer" threw "Hades" away for a distance and went after them, but they ran to a worse place, they took their way through a swamp, they didn't see anything weird in it, but the swamp had something living in it, the thing was more like a mobile-human-shaped plant, it wasn't obvious for the humans, but "Necromancer" & "Lucy" felt his existence and "Lucy" told him to focus on "Hades" and leave them to her, she turned herself to a Chinese dragon and started chasing the Russians with caution, then the "Swamp" creature got out of the swamp and attacked her, she was ready for him and fought with the

creature, but the creature's rise killed 2 more scientists, "Dom" sent a message to "Viktoria" by radio telling her that they were dying and sent their coordinates to her, "Viktoria" went to a wizard she knew in "Moscow" and forced him to teleport her to that island, he asked for money but "Viktoria" threatened him and he used to fear her, he wasn't as strong as "Rumple" but he could cast a teleportation spell and she knew the spell but didn't know how to perform it, when he did it, a purple smoke appeared in front of her, "Viktoria" left money for the wizard on his desk and went through the smoke with her guns and tools, before going she sent "Frank" and told him that there was something VERY wrong on that island, she didn't know that they were there before but she knew that the "Sentinels" were the best allies she got

when it comes to magic and monsters...“Frank” received “Viktoria’s” message and told the others, they got convinced when “Bee” confirmed the presence of a spy submarine belonging to “Russia” near the island, the crew prepared themselves as fast as they could, “Frank” was ok to join the team, the jet was prepared and the crew went on their way, “Ivy” said that she sent them on a highly classified operation to “Bermuda” island...The “Sentinels” crew were [Frank, Cheetah, Floyd, Rose, Quiet, Arrow, Sonya, Twin & Silver] “Electrocutioner” & “Bee” were following them by satellites...“Viktoria” saw “Necromancer” fighting “Hades” but the fight was at its end, “Necromancer” beat “Hades” down, regardless to the bad terrains and other monsters joining the fight sometimes, “Hades” turned to his human form

when he got weakened and “Necromancer” got smaller and caught him from his throat, “Viktorija” didn’t know who were these but she attacked “Necromancer” with her grenade launcher sending him away for a distance, “Hades” fall down and said “Help me, he’s too strong and must be stopped” to “Viktorija”, he needed help and knew that she was human, so he tried to manipulate her mind by showing her that “Necromancer” was bad and he was good, she told “Hades” to run in the woods and she went after “Necromancer” but she didn’t find him, then he attacked her from upwards and threw her gun away, “Viktorija” saw that she can take him down hand-to-hand and her power was impressive to him because he felt that she was human but he didn’t understand how could she be so

strong...“Hades” teleported himself away from the island but he was too weak as “Hades”, so he looked for another strong form of himself, he went to “Egypt” and raised “Set’s” tomb and transformed his consciousness to the dead mummy, within seconds, the Egyptian God “Set” was up..“Lucy” beat the “Swamp” creature down and went to aid her boy, she tied “Viktorija” with branches and got mad that “Hades” escaped, this would make “Hades” send his servants to hunt “Necromancer” & his mother “Lucy”, she intended to kill “Viktorija” but the “Dmitry” brothers shot them with smoke grenades blinding “Lucy” and her boy and taking “Viktorija” away to hide, when they were gone, “Necromancer” was gonna look for them, “Lucy” stopped him and told him that she would trap them on the island, then they

disappeared and the submarine got attacked by weird sea creatures destroying it...The Russians felt that they were in a tangle but at that time, the "Sentinels" arrived with their jet and picked up the Russian team away, "Viktoria" asked to drop them near "Vienna" where she got some contacts there, "Frank" agreed and dropped them where "Viktoria" said, on the way; she told them what happened on the island and what she saw, they were surprised but "Frank" wasn't, he saw that "Hades" would always find a way to rise, but he was wondering how did he do this that fast, and who was that monster fighting him? These were more questions he had next to his dream and his sudden tiredness when he was in "Wales"...

{War Machines}

In October 30th 2021, the civilized world started walking on the path of Artificial Intelligence and robotics...Using "Frankenstein's" suit idea in creating a similar suit to "Frank's" in "USA", it had higher abilities than "Frank's" but it was bigger in size and heavier, which was gonna make the user slower in movement, there were no many suits already; "USA" manufactured 5 suits only and started training soldiers to use them, "Britain" heard about the secret American project, so they asked their specialists and engineers to work on a new one for "Frankenstein", like a competition between both countries, it was already a subject on air but they had to finish it faster than they

planned...On the other side of the world, "China" & "Japan" worked on their own robots and weapons, "Russia" wasn't convinced with the robotics work and focused on fighters, destroyer ships, submarines, heavy weapons, tanks, drones & nukes, by the end of December 2021, "Frankenstein" had a new suit officially with higher agility and better performance...

Messages from space didn't stop; but they were more complicated, "Bee" worked with "Frank" on a new kind of programming language using the messages sent to Earth, after hard work; they could make their own Artificial Intelligence which could create a translation for the messages, the translations for all messages were the same because the messages were all one, "Prepare for war, mortals", these few

words took pages in the aliens' language, when the "Sentinels" could crack the language, they sent what they found out to "Ivy" and she sent it to the "M16" and the British government who made an urgent meeting in "New York" in January 30th 2022 to discuss this crisis, specially that there was nothing obvious in the space; according to "NASA" & "ESA"^[11], not yet at least... "Rose" has always been wondering where was her father from all this... The "M16" proposed the mutants file once more as a way to help; probably the mutants' powers joining the humans' tech would be a powerhouse in front of the unknown threat but the "United Nations" were against the idea of using mutants; thinking that they couldn't be trusted...

It wasn't too long till "Set" & "Necromancer" appeared again, but this time; they appeared among humans, both monsters hunted each other and "Set" could find "Necromancer" & "Lucy" somewhere in "China's" K2 mountain, he went to them looking for a fight with some of his demons on his side, "Lucy" was expecting that and could control the "Yety" monsters by her magic and made them join her and her son, then another fight happened between "Necromancer" & "Set" this time, he changed his look to a monster too, not as big as before, but his power was the same, "Necromancer" fed on some human souls during that time and evolved his magical skills, a fight like that was hard to avoid by the Chinese and impossible to be ignored by the mountains keeper, the one who

trapped "Knight" and his friends in the "Himalayas", the "Stone Watcher", he could teleport and appeared there but he didn't interfere, he felt that this was too powerful to him, waiting till the end was wise; but the Chinese sent drones to take footage of the radioactivity in the area, the footage they recorded and sent back to base were terrifying and required fast response, the military was alerted and they had direct orders from the president to shoot these 'things' by missiles, they thought that they were the aliens and that the war started, but they were very wrong, the missiles were stopped by "Lucy" and she diverted them all on "Set" and protected her boy by a protection spell, the hit was very strong on "Set" but didn't kill him, after the blast, "Necromancer" took advantage and hit "Set" with full

power of darkness he had, the hit vanished him from existence and "Necromancer" took "Set's" scepter in his hand and stood tall, all demons who came with "Set" started to kneel to him as the new King of hell and evil...

Time came for the twins "Frank" to take turns, the twin's turn came and the father had to hide, "Frank"-the father-wasn't close to "Cheetah" like his twin, she felt that and could realize that he wasn't the same man all the time, she told him and he didn't lie to her, but told her not to tell anyone and she agreed, "Cheetah" could differentiate between them from their hand touches and scent, the twin has always been attracted to tough women, but the father was more attracted to calm and soft women, that's why he

was attracted to "Quiet" since day one in the team...

In "England", "Landon" was interested in creating robotic arms aiding soldiers in the battle field, with cameras allowing them to see all directions, but this required arms with infinite DOF^[12] and a method to make these arms controlled by the human brain directly, because using a microcontroller was gonna be slow and risky, he had his time searching till he realized that he can make the arms using tentacles of steel, but the control method needed more time... "Dr. Boyle" finished his cryoguns making all kinds of weapons, heavy and light, he was working on adding his big cryogenic rounds to tanks and rocket launchers, the light guns were tested and used couple of times against some

terrorists in "Libya", all these were preparations for the upcoming war, humans didn't know about the aliens, governments didn't share this info with them to avoid panic...

In June 2022, "Peru" & "Chile" reported that they had some weird things happening like radiations, weird wreckage, unknown phenomenons happening and the most weird thing of them all; was a strange corpse that didn't seem to be human at all somewhere abandon in "Chile", the corpse didn't reveal anything logical or familiar which made "USA" send a special team of doctors and scientists to check what's happening there, but they found nothing useful, just more questions, they asked to take everything with them and the South American governments didn't

refuse...The only conclusion the Americans had was that these things and corpse belonged to the aliens, but no info about the existence of any alien anywhere yet, later they discovered that they were right, "USA" started to awake every spying satellite they got to scan Earth for anything like what they had from "South America", "Russia" did the same thing when they knew what happened in "South America", what both countries found out was terrifying...

"Frank" -the twin- was hiding somewhere, "Dr. Frank" knew the place and used to go to him from time to time, when he went to check on "Frank" there, he didn't find him, he thought that he was buying something from the next shop or something, but in fact he was affected by "Lucy's" curse and

realized that he was different, he wasn't allowed to move while his brother was out but he heard someone beating his girlfriend next door, he went to help her and fought with that guy then suddenly he felt extreme pain and his face and head turned to blue fire till his head became a burning skull, this was terrifying to them, the guy took a knife out of his pocket and tried to stab "Frank", but he caught his hand and squeezed it enough to turn it to powder of bones and his heat turned the man's skin to ashes, then "Frank" left him, after moments of pain, the guy ran away, "Frank" said to the girl "Leave, he'll call the cops now" with a very evil voice, the girl was afraid and fainted, "Frank" turned to his human shape hardly and took her away... "Dr. Frank" came earlier than the police's arrival and saw the place next door,

when he saw that he knew that "Frank" was involved somehow then he left, cops came later and found nothing but they took "Frank's" descriptions from the man who was hurt, looking for "Frank" didn't take a long time, he was found in his mansion in "Swansea", but interrogating him proved his existence in the mansion all the time, besides to the family's testimonies, but they had their suspicions that it could be a trick of some sort, or maybe the "Twin" was out on his own; but they made sure that he was where they leave him always, "Frank" knew that it was his twin brother because the accident took place in the apartment where they used to take turns together, the twin went somewhere where he could send a message to his twin bro without anyone noticing and he did it, "Frank"-the father-told "Dr. Frank" and told him

to go pick the twin up; and he told the others that he'd go out for some fresh air, "Rose" knew "Frank" well; so she went after him but he didn't do anything weird for real, he knew that he was gonna be followed by them, that's why he told his father to pick up his bro and he went out to attract attention to him while "Dr. Frank" moves freely, very clever...

{Monsters & Gods}

“Dr. Frank” went to “Frank” –the twin–where “Frank” –the father–told him and he found the twin for real, once he saw him; “Dr. Frank” said “What did you do? Where did you go?? Don’t you know that you should keep your head down!” “Frank” said “I know and I didn’t intend to hurt him that much, I don’t know what happened to me but I think that I’m a demon, are you sure that we are humans? Are you sure that Victor didn’t change anything in us when we were kids??” “Dr. Frank” denied knowing anything about this and took him away, after a long talking between them, they reached to a decision, the twin mustn’t be angry or lose his temper for any reason till he learns

how to control himself, which meant that he won't switch places with the father any sooner...

"Lucy" & "Necromancer" started looking for monsters and demons to create an empire near the "Heaven's Gate" at the "Tianmen" mountain in "China", the hole in the mountain was enchanted, it wasn't a passage to heaven directly, but it was a door to a place where all known holy characters were, every messenger for God from all civilizations were there, "Lucy" was intending to use the underworld to invade the heaven and by this way; controlling Earth will be much easier when they rule heaven and hell, but winning this war needed a lot of demons to be gathered and a huge army to be raised, "Necromancer" was up to this and he could recruit anyone by

his power of mind control, something he inherited from his human dad, but something like that needed time...“Lucy” worked so hard to find a way to activate the gate but she failed, so she looked for some help, she used to know an old wizard who used to live in “Tiksi” – “Russia”, it was so far north...“Frank” knew “Victor’s” friend “Monica” from “Viktoria” years earlier when he was looking for “Victor”, the twin remembered her and went to her, she was still living in “London” that time, so he went to “London” somehow on a cargo plane without telling anyone, this was worrying to “Frank” and “Dr. Frank” in “Wales” but they didn’t reveal their worries...

“Frank” made it to “London”, he needed “Monica’s” help because he felt that there was something he couldn’t remember but it’s stuck in his dreams, probably she could help, when he found her she knew him and welcomed him, but she didn’t know the fact that he had a twin somewhere else, he told her what happened to him and asked her to help him with his confused dream or memory, she did that and used her power of dream walking, showing him what happened that night with “Lucy”, he was mad and woke up, when he woke up, he shocked her by his look when his head turned to a burning skull, but he was aware and didn’t hurt her, she calmed him down and gave him a portion to help him calm down when he starts turning, this was a temporary solution he didn’t like; but he took the portion

and thanked her...“Deadshot” was in “London” and had an info that “Frank” was in “London” secretly, he thought that he might be looking for him or hunting him, so he did something bad, the last one who met “Monica” was “Frank”, so “Deadshot” sniped “Monica” while she was in her apartment using bullets like “Frank’s” and projected a bullet casing from his location to the apartment, this was so professional and had no loose ends...Soon, “Frank” became wanted, not as “Frankenstein” but as “Mark”, this was shocking to “Ivy” and everyone, specially that “Frank” was with them in “Wales” but they couldn’t say anything because a camera spotted him getting in and out of the block besides to the bullet casing, “Frank” was taken into custody and “Ivy” made some calls for special treatment for him, she told

them she'd manage finding the decoy, for the bad luck; the prison where "Frank" went to was the one where "Ferdy" was too, the twin knew what happened to his brother, he wasn't stupid, he knew that it was "Deadshot"; so he decided to hunt him down... "Frank" -the father- saw "Ferdy" in his cell, "Ferdy" knew him because he knew "Frankenstein's" identity but didn't tell anyone yet, their cells were next to each other, "Ferdy" said "How does it feel? To be behind bars after putting hundreds in cages, to be on the wanted poster, how does it feel to be on the other side?? This world is a funny place" "Frank" said "I'm here temporary, probably you're behind this; but I'll find a way out" "Ferdy" denied knowing anything about what happened to "Frank"... The next day, "Floyd" got imprisoned in the same

prison to keep an eye on "Frank", he was there without any known crime, "Frank" was against the idea but they didn't have time to argue, suddenly without expectations, "Frank's" cell got opened, doors were electronic, he was astonished at the beginning but later he looked at "Floyd" thinking that it was some kind of a plan, but he denied knowing, guards came to check it out, "Floyd" caught one from behind his cell's door and pulled his ID and opened the door from the outside, but this screwed the whole security system and all the cells were opened, "Ferdy" liked it saying "Oh yeah, you don't want me loose, aren't you?" then prisoners started fighting with the guards and "Frank" beat the ones who attacked him too, he was a good fighter and strong, "Floyd" joined him and told him that they should find a phone

or radio to contact the others but "Frank" followed "Ferdy", during the chase, both men ran in troubles with guards and prisoners till they met at the outside yard of the prison, "Floyd" was following them, they fought hand-to-hand and "Frank" was doing well till he beat "Ferdy", then reinforcements arrived and the prison was under control again with no breakouts... By the end of the week, "Ivy" could find evidence that "Frank" was in "Wales" during the murder and whoever did it was someone who looked like him or it was made frame him, when "Frank" & "Floyd" got out, "Frank" had nothing in mind but finding his brother; who was the decoy to the others...

The twin "Frank" went to a wizard who could use a special technique to find other mutants, "Frank" could differentiate between humans and mutants from their smell, that was an ability he had, by time his powers were evolving and he was getting introduced to his new self...The wizard knew about "Monica" because she was his friend and he tried to fight with "Frank" at the beginning, but "Frank" could contain him without changing his form or hurting him, the wizard agreed to help "Frank" when he felt that "Frank" wasn't lying, he could say when anyone was lying or not, he asked to know where was "Lucy" but the wizard told "Frank" that she was a very powerful witch and couldn't be traced, even gens and fairies fear her, but he knew about "Set" & "Necromancer's" fight, demons were

saying rumors about the "Heaven's Gate" and "Lucy's" obsession to break into heaven by force and pull God off his throne, it was her dream since she was young, with her mighty boy and her powers; she could take a shot, "Frank" thought of using his sense, maybe he'd feel his son's place or detect his location, but it wasn't too long till the father "Frank" found him, he appeared to the twin in his "Frankenstein" suit with the jet, the twin was worried that he might have told everyone but he comforted him saying "Don't worry, I told no one, just told one person" and "Cheetah" appeared, she looked at both of them and asked them "Why are you hiding this? You can be helpful together" the twin ignored her and said "Satan fall, there's a new king to the underworld now, someone very close to us, MY son" then he told them

everything he knew about “Lucy” and what she’s intending to do, “Cheetah” said “How will we stop them?” the father said “Together” the twin didn’t understand, the twins and “Cheetah” rode the jet and flew back to “Wales” where the father asked for a meeting with everyone and told “Rose” to call her mom too...

The crew and family met at the mansion, the twins didn’t intend to expose their secret yet, but they used the twin’s new look to add him as a new member in the team without exposing his identity, the twins and “Cheetah” arrived, the crew got shocked to see the twin in his demon form, “Frank” introduced him as “Death War”, he chose that name because according to what they saw when they fought the horsemen of

apocalypse, "War's" head was on fire always; and "Death" had a skull head, so he saw that this name was the best one for him as he was a part of "War" and a part of "Death"...The crew were shocked to see him, but "Frank" told them that he was gonna be very helpful, "Frank" told the crew what he knew about the new demon ruling the underworld and his presents on Earth, he didn't tell them that they should join them, but "Frank" told them that a demon's existence on Earth was a threat he couldn't ignore, they argued about this for minutes till "Ivy" got a phone call and came back with a job for the "Sentinels", "It was Vasily Sokolov, he got orders to call us for a job in Siberia, something extraordinary there, Viktoria will welcome you there and update you with more info" she said to the team, "Frank" & "Death

War” looked at each other without talking, as if they wanna say “It might be him”...In 2 hours, the team was ready, [Frank, Floyd, Rose, Arrow, Quiet, Twin, Sonya & Electrocutitioner] besides to “Cheetah” & “Death War”, it was “Lucy”, “Russia” had special radars for mutants detection, these radars were under experimentation by the Russians in special labs in “Siberia”, the radars detected unknown activities in “Tiksi”, they went to check it out but “Lucy” didn’t waste time talking, she killed them all, when this happened, the Russian military reported that something weird was up in “Tiksi” and the army reported this to the “KGB”, “Vasily” called “Viktoria” and told her to handle this, she traveled there and saw what “Lucy” did and the huge damage she caused, she could know when this

was caused by a mutant or a wizard, she sent her report to "Vasily" and advised him to call the "Sentinels" immediately, she had a feeling that this might be "Victor", everyone was worried of his weird disappearance, but everyone was expecting him at any moment...

The "Sentinels" arrived "Tiksi" and met "Viktoria", she showed them the crime scene and "Frank" scanned the place, they told "Viktoria" about "Cheetah" & "Death War" to prevent her from being shocked by their looks, "Death War" confirmed "Lucy's" involvement "This is dark magic, it's everywhere here, this was done by Lucy and she's still around", "Frank" briefed "Lucy's" identity to the others and told "Electrocutioner" to scan the area 10 miles radius, he did it and

found "Lucy" at a secret agency base, the place was a secret place belonging to the "KGB" where they were working on special spy submarines, she was looking for nukes according to the wizard's request, he told her that he needed a nuclear head in return of the magical spell needed to open the Gate of Heaven in "China", so she went to that base when she felt high power radiation coming from there, for the bad luck, the military sent a nuclear missile to that base to be fixed by the special engineers there instead of traveling to "Moscow" in that bad weather, the secret base called for help through the radio, "Viktoria" got informed and she told the "Sentinels" to get ready to go...

{Voyna #9}

“Death War” started to feel “Lucy’s” power getting closer, “Lucy” felt the same thing, she got alerted and sent to her boy asking for help, she didn’t know what “Death War” was capable of, she killed many agents and soldiers in the site, then the “Sentinels” arrived and in the same time, “Necromancer” arrived too; through a dimensional gate from a place to another, “Lucy” made it for him, she told her boy to kill the “Sentinels” while she take the nuclear head to the wizard in “Tiksi”, “Frank” was worried about his human friends but they insisted on helping...“Death War” pulled a chain which was on the ground, the chain turned to a fire-chain, “Frank” told the others to spread around and leave

the face to face fight with [Death War, Cheetah, Twin & himself] "Viktoria" refused to back down and stood to fight with them, "Quiet" took position on a surveillance tower, "Necromancer" attacked "Frank" and he was surprised to see how strong "Frank" was, "Death War" throw his chain and tied "Necromancer's" movement for a second, "Twin" jumped the stabbed him in the neck with his claws, "Necromancer" broke the chains and threw "Twin" away, "Viktoria" shot him with her grenade-revolver, the hit didn't kill him but she told them that he won't be able to hurt them with any power, it was a special thing she had for situations like that, the grenade worked and "Necromancer" couldn't hit them with his dark power, "Floyd" started shooting at his head it didn't work but it wasn't the plan, "Arrow"

shot him in the back with 2 electric arrows, they affected him but not badly, "Death War" kept attacking him with his chains of fire, "Rose" throw her hammer on him taking him down, "Quiet" saw some hanging steel directly above "Necromancer", she shot the chains lifting the steel bars and made them fall on him, after a while of silence, "Death War" said "Look out" then "Necromancer" rose suddenly and aggressively from the steel bars and got enlarged in size, then he used the steel bars to strike them, "Frank" & "Cheetah" were hit, "Death War" got hit by another swing, "Viktoria" shot him in the head attracting his attention, "Necromancer" tried to follow her, then "Twin" threw a gas barrel on him, he caught the barrel with one hand; but he didn't know what it was, "Quiet" saw that and shot

the barrel causing a huge explosion in his face, "Sonya" & "Electrocutioner" were ordered to look for the nuke and "Lucy", they found her, she was gonna transport the nuke through a dimensional gate to where the wizard was, but "Electrocutioner" stopped her by shooting her with an electric gun he developed when they hunted "Twin" years ago, the electromagnetic pulse was extremely strong enough to kill her, he didn't know that but they didn't care, the nuke was secured, "Necromancer" & "Death War" felt her death, "Necromancer" screamed loudly and fall on his knees, his fall caused a power disperse throwing everyone and everything away for a distance, the tower where "Quiet" was holding started to fall down but "Frank" saved her, "Death War" tried to hit "Necromancer" with his chains but

“Necromancer” caught his chains and pulled him, then he caught “Death War” from his throat and tried to kill him, “Frank” saw that and tossed his shield to hit “Necromancer’s” arm, the hit made him leave “Death War”, “Necromancer” looked at “Frank” and said “You made a terrible mistake mortals, I will crush you all and send you to permanent torture” then he jumped and tried to punch “Frank” but he pulled the shield to his hand and defended himself by it, “Cheetah” jumped on “Necromancer’s” back and started scratching his neck and face, “Twin” stabbed him in the stomach and waist with his claws, but “Necromancer” kicked him away and pulled “Cheetah” and threw her away, “Frank” punched him in the face strongly, “Necromancer” wasn’t affected and held “Frank” from his

throat but it didn't affect "Frank" too and he caught his hand and could take it off his throat in "Necromancer's" shock, "Death War" threw his chain to "Necromancer's" leg and pulled it taking him off balance and fall down, "Rose" took advantage and jumped off a truck with her hammer to crush his head but he breathed a very strong air current enough to throw "Rose" away, then he made a storm and disappeared in it, "Viktoria" said "He's so mad because his woman died, the nuke is safe" "Death War" replied "Lucy wasn't his woman, she was his MOTHER" and went to see her but her body already decomposed, "Lucy" was alive for a very long time..."Frank" told "Electrocutioner" to scan Earth for the highest power source, he saw that "Necromancer's" anger will make him easy to detect and he was right, he went

back to "China", at the rock mountain "Zhangjiajie National Park" somewhere among the rocks there...

"Rose" was fine, but "Floyd" had some injuries she took care of, "Death War" told "Frank" that he was going after "Necromancer" on his own, "Frank" was against the idea of leaving him but he told "Frank" that this was so dangerous for humans and till they report what happened to "Ivy" & "Vasily", things could get worse, besides he was worried about "Cheetah" and what might happen to her, as she was hurt too, "Frank" accepted the idea and told his brother that he'd catch up with him in "China" then "Death War" left, while he was leaving, "Rose" stopped him "Where are you going?" he replied "Away, you're slowing me down" she said "Slowing you down! I

can't remember that you did anything iconic during the fight, you really think you can stop him alone? I'm asking because I really doubt that!"

"Death War" looked at her and said "Look, this is dangerous to you and your human friends, you might die but I won't" "Rose" looked shocked for a moment and said "Your way of talking looks very familiar, have we met before?!" "Death War" rode a Jeep of the place's cars and told "Rose" to gather their strength and tools and follow him to "China" then he drove away, "Rose" was still astonished but she returned to the team and they went back to "Tiksi", "Viktoria" made some calls and told the others that a special jet will take them to "China" from "Novosibirsk" but they had to make it there with their own jet..."Death War" didn't go to "China" directly, he paid

someone a visit first, the wizard "Lucy" made the deal with, he wanted to know why did he want a nuke or who was he gonna sell it to, the wizard's name was "Vladimir Petrov"... "Death War" talked to "Petrov" and made "Petrov" tell him what "Lucy" was after and said what he was after too, "Petrov" wanted the nuke to sell it to the Russian Mafia because he knew that they were looking for a nuke to be given to someone he didn't know, the mafia wanted to sell the Russian nuke to a corrupted Colonel, who had his own unit of special soldiers and his own aims, "Death War" left "Petrov" and found a way to send the info to "Frank" who informed "Viktoria" and she reported what he told her to "Anton", he made his investigations and could find those who made the deal with "Petrov" and arrested them, that battle

stopped a Russian nuke from being sold illegally to that corrupted Colonel; but the Russians didn't know who was that Colonel and whether he was Russian or not, and the Mafia men refused to talk...

"Rose" had a strong feeling that "Death War" was someone she knew before, she talked to "Frank" & "Floyd" about this but "Frank" told her that "Death War" was a demon he met some time ago and asked him for help, "Floyd" didn't comment but he suspected that there was more behind that guy and "Frank" knew more, but he trusted his best friend...

The crew arrived "Novosibirsk" after 10 hours, and was welcomed by "Viktoria's" friends there, they were ready with the private jet and the

“Sentinels” didn’t waste time and went on board... “Death War” discovered that he could control any vehicle and make it work for him without the need for a driver, this control wasn’t normal; cars’ tires and engines turn to blue fire and becomes stronger and faster, he could do that to any other vehicle, so he rode a cargo plane moving to “Aykhal”, “Death War” got in secretly and used his power to operate it, he took the pilot’s seat and activated his power and the plane’s engines went on fire; but they worked stronger and better than usual, then he took the plane and flew to “China”, the Russians in the place were terrified and didn’t attempt to stop him when they saw him; but after he flew away, they reported that to the Russian air forces and they sent 2 “Mig-35s” after that plane, but when they tried to fly on both sides of the

plane; "Death War" broke the side windows of the plane by his power and breathed fire inside, the pressure was very high enough to spread out of the plane and hit the 2 fighters setting them on fire, when they got burnt, they fall down immediately, then he sped away...

"Deadshot" got new orders from the "Community" to shoot down someone else, "Ivy", she was troubling them and their business for years, it was time to eliminate her, "Deadshot" got shocked; he never thought that he'd shoot his best friend ever, "Ivy" was the one who brought "Deadshot" to aid "Frank" years ago and was the reason for every good thing he had, although he had a wife and kid to take care of; but he decided to admit everything to her and ask her to protect them, but admitting

to her was gonna be like admitting so many crimes, he had to think well...

{Returning To Plan A}

“Necromancer” thought about what he should do, he had an idea about what “Hades” was about to do before his existence and before “Hades’s” fall by “Frank”, but he didn’t know how to bring Hell on surface and bury the surface down, he saw that invading heaven and fighting God wasn’t gonna be wise, so to know more about “Hades’s” plan he needed the gens to tell him more info, they told him what he needed but couldn’t help him with tools and stuff and he couldn’t be everywhere in the same time, but they told him that “Hades” used to have 4 men helping him and when he beat

“Hades” down, they went looking for a way to raise him using the ‘Gate of the Dead’ in the “Himalayas”, they told him to use them, he asked the gens to bring them to him but they told him what the “Stone Watcher” did to them; and told him that he was a gens slayer, he asked about their location and went there to free them on his own...The “Sentinels” were close to the “Zhangjiajie Park” but suddenly “Electrocutioner” told them that the power source was gone, this was upsetting but they had to keep looking for him...

“Necromancer” went to the “Stone Watcher” at the location the gens gave him, but he didn’t find anyone, the “Watcher” left his cave and went to another place away, this gave “Necromancer” the chance to go to that

valley where "Knight" and the others were buried and raised them up, they were ok but frozen, he intended to wake them up by melting the ice they were in, but he was interrupted by a 32 ft woman, her skin was blue and her eyes were blue too, she was one of the ancient creatures known by the name of the "Ice Woman", she was thought to be a myth in the ancient times, a kind of a Nephilim, the woman had no reason and when she saw "Necromancer"; she attacked him and he enlarged himself and fought back, after a huge fight between the 2 monsters, "Necromancer" beat her down and broke her neck, then he melted the ice off "Knight", "Jason", "Brass" & "Black Skin" and told them that he was their new master and they would obey him or he'd kill them, they

agreed to be his men and the 5 of them left...

“Death War” arrived “China” but he didn’t find “Necromancer” or the “Sentinels”, he realized that something went wrong, there at the park, a fairy appeared to “Death War” and asked him if he was looking for “Necromancer” and he confirmed, the fairy told him that the new devil was gonna meet “Hades’s” old slaves in the “Himalayas” where they were frozen, “Death War” asked her about the reason and she told him that the new devil was looking for a way to raise the underworld on surface, this made him realize where he was going next, the “Skull” island, the fairy used to be called “Fiona”... “Necromancer” was told that he was gonna need the 3 magical skulls on the “Skull” island

and an immortal to be sacrificed with, the skulls were in the island and when "Lucy" was there with her boy fighting with "Hades", she fixed the broken skull that time, but the skulls needed to be activated and the only one who could activate them was the "Skull King", so "Necromancer" and his men had to find a way to activate them using magic, the only powerful magic was the pharaohs magic which could activate these skulls, "Jason" told "Necromancer" about that and he agreed to go to "Egypt" and find out what they can find...It was 2022 by that time...

"Necromancer" appeared with his men in "Cairo", somewhere abandoned, he told them to go and find out what they can find about the spell needed to activate the skulls, but

“Knight” told him that humans don’t worship the Egyptian Gods anymore and they actually didn’t have any useful info about the pharaohs, but he had another way, he used the internet and could know some valuable info about the Egyptian Gods, including “Horus”, he knew that “Osiris’s” spear was kept somewhere in the mountain of “Al Mokatam”; inside one of the Gods tombs there, it was needed for a war against the Greeks, that war when “Taya” had to raise “Victor”, “Osiris” wasn’t there; but his spear was in a special temple, “Victor” had the magic of “Horus” and helped whoever was standing against the Greeks and “Egypt” won the war, “Victor” found the spear of “Osiris” and used it during the fight, when it was over; he took the spear to “Osiris’s” tomb and kept it there, it wasn’t too long till “Sekhmet” was

discovered alive, she could hardly survive "Elohim's" mighty power, he thought that if he froze her and broke her down; she'd die, but he was wrong, priests could use the cold remains and built her again, after using "Osiris's" resurrection spell; they could resurrect her again, "Sekhmet" was one of the major Gods and the Goddess of "Memphis", when she was resurrected, she saw that she was the one who should inherit "Osiris's" magical stuff specially while "Horus" -the real one- was dead and all the other Gods were dead too, she wanted to be queen, she was later locked in the abandoned city where she couldn't get out, "Khandaq" city... This city was an abandoned city on the mountain known as "Al Mokatam", it had no much humans living there that time, "Egypt" started to have kings and

humans started ruling, after being rejected by the priests, she left to that city and took "Osiris's" spear to protect it from the human kings, and to protect herself from the mythical creatures of the mountain, after 20 years of living on the mountain, she could kill all creatures and built that city again after being abandoned, when the priests of "Amun" knew about this, they went there to see what the Goddess did and kneel to her, for some reason, they had a misunderstanding with her and she tried to kill them, one of them casted a spell making the whole city disappear forever and whoever in it could never leave, "Sekhmet" was immortal, but she died of hunger and thirst centuries ago, the spear was in that city near her throne...The spear had a special stone which was needed, it was one of the "Infinity Stones", these

stones were needed to activate the skulls, but they discovered that the stones were not belonging to 1 civilization, but they belonged to 5 civilizations including the pharaohs, so when they get the one in "Khandaq", they'll keep looking for 4 more stones to be able to use the 3 magical skulls, the stones were [Space, Mind, Reality, Power & Time] stones, every stone had its powers and abilities, the "Space" stone gave its user the ability to teleport from a place to another on the planet and even outside; sending anyone to anywhere in the universe, the "Mind" stone gave its user wisdom, higher intelligence intellect and a sort of mind control; to control anyone's intentions; powerful enough to make all humans on Earth change their faith and shift it to the stone's user, the "Reality" stone gave its user superpowers without a chance to

be stopped, the "Power" stone had even worse powers; it gave its user full control over elements and all kinds of magic and energy, the "Time" stone gave its user the power to travel through time; forwards or backwards according to will...

In "Al Mokatam", the spear of "Osiris" had one of the stones, the "Reality" stone, "Knight" told "Necromancer" to use the gens' knowledge about this to tell them where the spear was, the gens told "Necromancer" for real and they went to the coordinates they said, but they didn't find anything there, "Necromancer" said "There's magic here, I can feel it" then he went to a rock and punched it blowing it up, when it got broken; it turned to a broken statue, when this happened

“Jason” said “It’s a hidden place”
“Necromancer” wanted to remove the spell but “Black Skin” told him that they need to keep a low profile on themselves, so he took them behind a huge rock and used some magic that made the city appear to them for a wide distance, when they saw it “Jason” said “That’s Khandaq city, I thought that city was a myth, the Egyptian Goddess is alive somewhere and probably the spear is with her, let’s be careful” then they moved in, what “Necromancer” did made “Electrocutioner” detect his power source and told the others, they were in “Russia”, when they knew, “Frank” told them to prepare themselves for a travel to “Egypt” again, but knowing that he was in “Al Mokatam” district was very weird to them... “Death War” started to feel his son’s power and

decided to track this power, while the "Sentinels" were on their way to "Cairo" in their jet, they met some people they weren't expecting to meet at all...

{Khandaq}

During the flight to "Cairo", suddenly and out of nowhere; a weird jet appeared in front of the "Sentinels", the jet looked to be very modern and extremely fast, but they had no chance to know anything about it, the 2 jets were flying in opposite directions, "Frank" was flying the "Sentinels" jet and could avoid them by a miracle, but how the jet looked made "Arrow" tell "Frank" & "Electrocutioner" -as pilots- to follow that weird jet; "Floyd" said "It might be Russian or Chinese!" "Rose" didn't agree with him, "Electrocutioner" said "No need to follow them, they're following us now", then the jet went out of control and somehow stopped in air without movement, then the weird jet cruised

around them and a voice came from its microphone telling them to land and no harm will happen to them, "Frank" agreed and landed with them, the "Sentinels" came out of their jet with guns in hand, then "Frank" used their microphone telling the weird jet's pilots and passengers to identify themselves, whoever came out of that jet was a shock to the "Sentinels", the "Sentinels" existence was a shock to them too, they were the "Mark V" team, "Frank's" sons, no one knew them but "Frank" had a strong feeling towards them, he told his crew to hold their fire and went close to them and once he looked in their eyes, he knew them all and hugged them strongly, the "Mark V" team were [Achilles, Eve, Wolf, Ercole, Ai, Angela, Cezar, Archer & Angel] their jet was driven by "Cathy", but when they traveled by time she was

disconnected, "Frank" looked at them and asked about "Magnet" but they told him that it was a long story, "Arrow" & "Archer" knew each other too...

In 2050, when "Horus" saw the demon on the "Cerberus" creature, it was "Necromancer", in a new form and way more powerful than before, the "Mark V" crew and family got ready to fight, but they were shocked to see that everything has changed suddenly, the switch happened and the underworld was raised up to surface, except the Kingdom of "Egypt", so "Necromancer" went to take that kingdom down by war, "Horus" and his armies did their best but it wasn't enough, "Seshafi" & "Sobek" died, even "Frank" revealed his secret about being "Death War" and tried to help anyway he could but he

died, after months of war, "Magnet" died too and "Horus" was captured, the world became the underworld and ancient creatures started to appear hunting whoever left of humans, but somehow "Eve" could steal the "Time" stone from "Necromancer's" lair, it was a plan they had, "Wolf" could know some info about the demon and knew when it appeared and how did it rise after the "Iconic Brothers" put him down and thought of using the "Time" stone to go back by time and kill him while he's still weak and look for a way to shackle him down in the underworld, this way they'd save billions and billions of human lives, "Frank's" kids didn't know how to activate the stone but when they became followed because of it, "Ercole" was holding the stone and squeezed it strongly by mistake while they were in

the jet escaping, this strong squeeze activated it and it took them to where they wanted to go to exactly, the "Sentinels" were in complete shock while they were listening, "Frank" said "Ok then; we got more fighters on the team, you take care of him, we take care of anyone else in your way" "Eve" said "You're just the same, dad"... "Karen" & "Henley" were with "Rose" in the future protecting "Konrad" and hiding, "Ronda" was with them but she was injured and died later, "Frank's" kids had to succeed in their mission in the past, or the future will be no more...

The "Sentinels" told the "Mark V" what they were about to do, "Wolf" told the "Sentinels" to let them deal with "Necromancer", but "Frank" refused the idea of leaving them, he confirmed

that humans shouldn't interfere; but he wanted to be with them, that time they didn't know that their father had a twin, but they knew that he was a demon, they thought that "Frank" was 1 man, "Frank" didn't know what they knew but he didn't wanna risk talking about this, he called "Dr. Frank" and told him the situation and told him to tell his brother not to show up, "Dr. Frank" wasn't late and when "Death War" called him, he told his son everything and "Death War" understood that he wasn't needed, but "Dr. Frank" told him to switch turns with his brother because the guys from the future knew what he was, so "Death War" knew that they were going to "Al Mokatom" - "Cairo" where "Necromancer" was, so he went there before them and waited, "Dr. Frank" told "Frank" and he agreed to switch,

he had something in mind to do on his own...The 2 teams arrived "Cairo", but they needed cars to propagate with instead of their jets which was gonna be easy to spot, "Rose" called "Ivy" and her men managed fast cars for them and a special car for "Frank" who went away and came back shortly, the switch was made, the cars "Ivy" sent were [BMW i8, Bugatti Veyron, Chevrolet Camaro ZL1, Lamborghini LP710, Mercedes Benz G63 6x6, Nissan GT-R & Jeep] besides to "Frank's" special car, a completely modified "Dodge Challenger", it looked to be prepared for a war, it had hidden machine-guns, tricks, heavy armor, 2000 HP engine with Turbo, 2 N₂O cans, an electromagnetic pulse generator and bulletproof tires, this car was built for special tasks, "Ivy" knew that the team were on their way to

“Cairo” earlier so she sent these cars there to be used whenever needed, “Rose” didn’t tell her mother about the “Mark V” team, so they had to leave spaces for each other, to “Frank’s” kids; these cars were very old...When “Ercole” saw the “Dodge”, he said “You built something like it in the future” to his father, that time; “Frank” was a clever engineer but not enough to build car like that, unlike in the future...The teams arrived “Al Mokatam” and to the power source, but there was nothing, “Frank” knew the place because he went there years ago when he got troubles in “Egypt” in 2014 & 2015, it brought some memories to him, “Wolf” said “There’s magic here, a hiding spell, something hidden, or somewhere” then he took a sack from his pocket and spread the dust in the air, when air widened the dust, a statue appeared

then disappeared again when the dust passed, "Achilles" said "A hidden temple or tomb! But how can we move into somewhere we can't see??" "Frank" looked at "Ercole" and said "You can do it, punch the ground strongly" which was very weird to everyone, "Ai" said "If he did it, the mountain might collapse! He's very strong" "Frank" said "The shock will cause vibration disturbance and probably we'll find a door or something to use or catch" "Wolf" said "He's right, but we won't find an opening, we'll break down whatever appears, breaking something unseen will break the spell and the whole place will appear" so everyone took positions and got ready to break whatever appears, a statue, a pot or anything else, "Ercole" did it and punched the ground strongly and the earth shook for a second for real, then

a statue appeared behind "Angela" and "Frank" saw it, he tossed his shield to hit it before it disappears and could hit it and broke its head, then suddenly the city appeared; it was wide and looked abandoned for centuries, but when it appeared, "Wolf" said "He's here, but he's not alone, there are others", by that time, "Necromancer" gave "Sekhmet" meat to eat and drink and woke her up from her very long sleep, then he tried to make her tell him where was the spear of "Osiris" but she refused to say, after some torture, the hiding spell was broken and "Necromancer" and his men could see the sky; knowing that there was someone coming, "Necromancer" knew that it was "Frank" and the men who attacked him in "Siberia" and killed his mother, he casted a spell on a wall

having carves of people; then the carves started getting out of the wall and move, then they bowed for "Necromancer" as if he was "Osiris" and he ordered them to kill the intruders, the crew moved inside the city but "Electrocutioner" & "Sonya" were left with the cars and the rest of the team got in, "Electrocutioner" tried to get schematics for the city to help them with their directions but he needed some time, it wasn't too long till the team met the moving statues or carves, they weren't hard to be beaten down by "Frank's" boys, when "Necromancer" felt that there were mutants in the place, he told his men to go and secure the temple they were in while he kept torturing "Sekhmet" and searching for the spear, "Angela" grew plants and trees around the city and made her flowers spread smells to cover their own smells, because "Wolf" told

them that the statues were following their scents as living things, this helped them to move without troubles with the statues till they found the temple where "Sekhmet" was worshiped and lived in, "Necromancer" was inside and "Frank" confirmed that using his thermal scan and also located his men around the temple, everyone was shocked to see "Knight", "Jason", "Brass" & "Black Skin", but for some reason "Frank" was expecting to see them, he told the "Sentinels" to deal with them and surround the temple but this wasn't gonna be easy, so [Frank, Cheetah & Twin] decided to help at the outside fight while the "Mark V" team get inside the temple for a fight with the strongest demon ever known, "Frank" had no problem to fight with "Brass", "Rose" had her fight with the flexible "Black Skin",

“Cheetah” had “Knight” and “Twin” faced “Jason” and could beat him without effort, “Frank” took down “Brass” by sticking his electric chips to his back, the shocks took “Brass” down in seconds, “Knight” beat “Cheetah” and almost killed her, but “Rose” saved her by throwing her hammer on “Knight” taking him down for a moment, the “Mark V” got in and saw “Sekhmet” tied, “Necromancer” was at another place looking inside some caskets and among some mummies, “Eve” saw that “Sekhmet” could be helpful but “Ai” told her that she looked so tired, “Achilles” said “We’ll fight with him, you and Angela take Sekhmet out and try to know from her where the stone is, then get it and leave the city” to “Eve”, then they got in and stood behind “Necromancer”, [Achilles, Wolf, Ai & Ercole] were standing in

that order next to each other between him and "Sekhmet", then suddenly 2 hands appeared from inside the chair "Sekhmet" was tied on and pulled her down taking her away, "Necromancer" was shocked to see that and attacked them, "Angela" surrounded the temple with plants arms, "Eve" tried to help "Sekhmet" and asked her about the stone, but they were shocked to know that she didn't know anything about the stone, so "Cezar" changed the question and asked her about "Osiris's" spear, this made "Sekhmet" alerted but "Frank" told her that the spear had a stone that "Necromancer" wanted and if he had it, he'd destroy "Egypt" and all her worshipers, the others were astonished of what he was saying but after she heard that, she told them where the spear was, "Frank" told "Eve" to take "Cheetah" & "Arrow" to get it, it

was somewhere out of the temple, then "Frank" took "Twin" and decided to get in to aid his kids, [Archer, Cezar & Angel] tied "Knight" and his friends with special cuffs for demons and mutants after drugging them with "Archer's" special arrows, "Angela" opened a way for her father and the "Twin" to the inside, "Necromancer" was a mighty fighter and could fight the 4 of them but "Ai" & "Ercole" were hard to beat, "Frank" came in and tossed his shield to hit his head and it hit him strongly, "Achilles" hit "Necromancer" with his powered cards and threw him to the wall, "Eve" and the others came with the spear after some troubles with some statues and tricks, "Arrow" was hurt but he was gonna be ok, "Rose" took care of him, "Sekhmet" took the spear and decided to fight "Necromancer" herself, once

she grabbed it, its tip turned to fire and her injuries healed, she got in and "Necromancer" saw her with the spear, he hit the others by his power sending them away from him and went to attack "Sekhmet", she ran to attack him in return and she stabbed him with the spear in the heart area, as a demon, he shouldn't be affected, he caught the spear and hit "Sekhmet" with his leg and pulled the spear thinking that he wasn't affected, after a second, everyone stood looking at him with amazement in their eyes, his heart area had a hole and he was bleeding badly, he looked at himself and didn't understand then "Frank" said "That feeling, I know it, feels like DEATH" then he turned to cracked black rock, "Frank" tossed his shield to hit him and broke him down to pieces, this happened because "Necromancer"

had a human factor from his human father, when this happened; his human factor died; but his demon form didn't, "Frank" thanked "Sekhmet" and told her about the stone and she gave it to him, then he took his people and decided to leave, on their way, "Wolf" looked behind him with a shock and said "OH NO", he saw "Necromancer" stabbing "Sekhmet" from the back with his hand and holding her heart, then he crushed it in his hand and threw her away, this shocked everyone, "Achilles" said "He look..." "Wolf" said "Stronger like he is in our time, RUN" he was right, when he became totally a demon, he became stronger than before, he ran after them but "Achilles's" power was delaying him till they reached the cars and sped away, "Wolf" suggested getting rid of the prisoners-"Knight" and the

others-because he saw that "Necromancer" was gonna trace them and get to them easily, "Frank" agreed with him despite the others' refusals and they threw them off the cars... This meant that the team had 2 stones out of 5, they had to acquire the other 3 stones before that mighty demon could get them... When they left and "Necromancer" was alone, he felt his men were freed by them, he was gonna track them for real to get these stones, he casted a hiding spell on "Khandaq" again, then he took his men and woke them up; then he told them that he wouldn't leave them to go with the stones, he used some magic and suddenly, people started chasing and crashing the team's cars, they were all affected by "Necromancer's" spell and followed his orders to catch them... "Frank" said "That's him, split

up, he can't focus with all of us" "Floyd" asked "Where will we meet again?" "Arrow" said "That doesn't matter now we'll be in contact", the crew was distributed on cars as follows: [Frank & Cheetah] were together in the "Challenger", [Rose & Eve] were together in the "Bugatti", [Arrow, Ercole & Angela] were in the Jeep, [Electrocutioner, Wolf & Angel] were in the "Mercedes", [Sonya & Achilles] were in the "BMW", [Twin & Ai] were in the "Nissan", [Quiet & Cezar] were in the "Camaro", [Floyd & Archer] were in the "Lamborghini"...The crew split up in the streets, that time; "Cairo's" streets were better for fast driving, "Frank" had a plan; he wanted to drive back to "Necromancer" but first he needed to be shot by a "SAM" missile, his plan was to be traced by the missile till he reaches "Necromancer"

and make it hit him, "Cheetah" told him that going back wasn't wise because fire was getting him stronger, she was right, after a long chase and a lot of driving skills; and a lot of help from "Frank's" kids to the crew, help came; it was "Silver", he was sent to "Egypt" with the cars; but he didn't join them because he had a surprise to be secured only by him, he arrived in the jet and knew where was "Necromancer" and shot him with a special canister, not destructive, but it was a huge can of "Nanomites", this was very clever and effective; suddenly the "Nanomites" started eating "Necromancer" till he finally disappeared of existence, "Knight" and his friends were watching him but couldn't do anything to help, when he disappeared; the chase to the "Sentinels" stopped, people regained

their sense, although they almost killed "Sonya" & "Achilles", but his power saved them, "Cezar" & "Quiet" crashed but their injuries weren't too bad, all cars had damages but everyone survived...When "Necromancer" vanished, the crew gathered at a square with their cars and stopped, "Frank's" car had a lot of damage already, when they got out, the "Mark V" team started to disappear, before "Wolf's" disappearance he said "I never had enough time to talk to you when I was younger, try to fix that, dad" "Eve" was crying till she disappeared hugging "Rose", "Arrow" hugged his son "Archer" till he disappeared too, "Twin" said "When it comes to family, we have to stand together", "Rose" said "They finished their mission in our time, I hope things will be better after all this" "Frank" said "But our mission

isn't finished' "Arrow" said "What do you mean?!" "Frank" replied "The stones didn't go with them" and he showed them the 2 stones they had, the "Reality" & "Time" stones, then he continued "This means that the other 3 stones are somewhere on Earth and don't forget that Knight & Jason are free, I think they'll look for them and these stones too to cause troubles" "Floyd" agreed with "Frank's" opinion, the others had some arguments; some of them were blaming "Frank" for letting "Knight" and his friends go earlier, then "Silver" arrived and told them the news "We got a trouble, Deadshot's daughter got kidnapped and he's given the choice to kill Ivy and save his daughter or refuse and let his girl die" "Floyd" said "I'm not following, who is ordering him to kill Ivy and isn't he retired since 2017?!" "Frank" said

“Deadshot was working for Shaw as a secret assassin since 2017, killing Shaw was an order after Ferdy exposing several ministers and politicians in Europe & USA, I suppose that he’s behind a lot of assassinations around the world recently” “Rose” said “How did you know that?” he replied “I know Deadshot better than all of you”, in fact, “Deadshot” told “Frank” in December 2017, in case something happened to him; “Deadshot” needed someone he trusts to care for his girl, “Frank” kept the secret even from “Ivy”; or so he thought, “Arrow” said “All makes sense now, how are we gonna act?” “Frank” told them to work on “Deadshot’s” case and secure him and his wife till he manages the stones case with “Cheetah”, “Rose” refused to leave him but “Frank” insisted on being alone with “Cheetah” after the

stones, then everyone returned back to the hideout and flew with their jet back to "London"... "Frank" -the father-made it to "London" before the fight with "Necromancer" in "Egypt", he was looking for "Deadshot" and was sure that "Deadshot" was behind all assassinations, so he followed "Deadshot's" wife till he got him, "Frank" had the idea of sending "Deadshot" orders to kill "Ivy" and see his reaction, after what he did and after asking for his family's security; "Deadshot" disappeared, this proved "Frank's" doubts and planted these doubts inside "Ivy" & "Silver"... "Silver" had clearance to use the "Nanomites" when "Necromancer" was spotted alone by "Bee"... "Silver" never trusted "Deadshot" since he knew that he was a former assassin, "Frank" -the twin-knew that "Ivy's" assassination

assignment was a trick by his brother
but it was effective...It was time to send
"Deadshot" to retirement in the twins'
point of view...

{Voyna #10}

“Deadshot” knew that he cannot cover his tracks anymore, he didn’t wanna kill “Ivy” but in the same time he didn’t wanna risk his family lives, so he told “Ivy” to protect his family without mentioning any reasons then he disappeared, this made “Ivy” nearly sure that he was behind all those assassinations among the years from 2017 till 2022 but she said nothing, “Silver” led the crew to hunt “Deadshot” after reporting him to all divisions, he was wanted alive; according to “Ivy’s” orders, “Deadshot’s” daughter was found by the “M15” and was freed later, common thugs but they were sent by someone they never saw, someone on a phone with a voice changer; no one could track that line

later, "Frank" didn't join the team; but he took "Cheetah" and asked for "Bee's" help and started looking for the magical stones and he sent the stones they got to a highly secured place to be protected, he told "Paige" to be careful that "Knight" & "Jason" might try to steal the "Reality" & "Time" stones from there, "Paige" said "Don't worry, I got a plan for that", she hid both stones in 2 separate places not in the same place, both places had heavy security and trusted people...

After days of searching, "Electrocutioner" told the others about "Deadshot's" location, he was in "NYC", the crew prepared themselves and their old cars to travel, "Ivy" went with them this time... "Deadshot" had to keep moving, he was driving a modified "Plymouth GTX 1971", he was looking

for an old friend to help him, he was a smuggler and "Deadshot" needed his help to travel to "Cuba", the smuggler had a trouble and needed a driver for a race, he told "Deadshot" to win that race and he'd help him go to "Cuba", "Deadshot" agreed but told him that he won't pay him; the smuggler accepted his terms because he was gonna win a lot of money after winning the race, "Deadshot" used his car in the race and used a trick he had on the his competitor, he was checked not to have any weapons during the race, not with him and not in the car and of course no car tricks this time, he was ok with that and handed his weapons, but he had his surprise, he made 2 wrist magnum guns and tied them on his forearms and wore a jacket on them, he had the idea from "Frank's" new weapons on his suit's forearms, "Deadshot"

successfully won the race, but the thugs who lost didn't intend to pay and tried to fight with the smuggler saying that "Deadshot" cheated, "Deadshot" used his guns and killed them all, then he took his friend and left fast...

In 2 days, the smuggler prepared everything for traveling to "Cuba", then "Deadshot" was stopped by "Ivy" and he was shocked to see her and expected that he has fallen, but what "Ivy" said was shocking to him, it was the last thing he expected, "Ivy" was the one who used to send "Deadshot" his assignments; not "Shaw", in fact "Shaw" recruited him according to "Ivy's" recommendations and she was behind everything else, she was the "Community's" eye in the "MI6" and later inside the "NATO", adding "Mime" to the crew wasn't her idea

completely; the "Community" ordered her to do so in 2017, she was the shadow who was sending "Deadshot" all info about his targets and direct orders to assassinate anyone, he was shocked that she was behind everything "YOU!! You're the last one I expected to be involved in this! But why did you send me orders to kill you??" he said, "Ivy" replied "We all make mistakes, I had to keep my girl alive, but there's something here you said; I didn't send you orders to kill me at all, and I still have no idea who made this diversion or who kidnapped your girl, I'll know later but you should disappear now, the others are here looking for you" "Deadshot" said "Why would you help me now? You can easily shoot me and cover your tracks" "Ivy" said "No Deadshot, I can't kill you, you're not my thug, you're my

old friend and we've been through a lot”
“Deadshot” replied “I accepted Shaw’s proposition when he told me that I can have a family and I’ll have a lot of cash, now my family is in your hands, I’m broke and wanted, what are you gonna do to fix this?” “Ivy” said “I want you to do something else for me, not an assassination, but it’s a little bit harder, the Ukrainian prime minister is here to discuss their nuclear situation in the world, they got clearance to acquire nukes and the Americans helped them with that and prepared for the Ukrainians nuclear codes to be used when needed, the codes are theirs but the mechanism is new and weird to us, we need to take a look at this briefcase and maybe breaking these codes will help us remove the American mystery about the new nuclear weapons, these things they call mega-nuclear missiles

are worrying us and the French”
“Deadshot” replied “I’m wanted, how am I gonna do this secretly?” “Ivy” said “Sorry Deadshot, that’s your problem to deal with” then she left and he moved, he left a cellphone with his smuggler friend and told him to give him 3 days and he’d contact him to arrange his escape, the smuggler agreed to wait for him as a payback for saving him from the race thugs...

The “Sentinels” arrived to where “Electrocutioner” told them but they didn’t find “Deadshot” there, “Deadshot” saw that “Ivy” wanted him to do this job then she’d kill him later, or maybe she’d bargain with his family, so he intended to expose her but he didn’t know how yet, after watching the Ukrainian prime minister for 24 hours, “Deadshot”

knew that he took the briefcase with the nuclear codes from the American prime minister and he was gonna fly to his country the next morning, "Deadshot" had to attack that convoy and finish the job without stopping...When "Ivy" left, she called "Cain" and told him to help "Deadshot" with all info he needed without telling him his identity, "Cain" was one of the "Shaw's" pawns like "Ivy" and he knew the drill but he didn't refuse dirty work, he was getting payed well..."Cain" called "Deadshot" from a private number with a voice changer and told him that a mutual friend asked for his help, "Deadshot" had a while of thinking and said "Ok, I think you got a hacking program or satellite imaging, right Cain?" "Cain" was shocked but he didn't mention anything about his name and identity

but he confirmed having a hacker and satellite imaging, "Deadshot" told him to hack into every computerized program in every modern car and override it to help him take down the escort, this was a good plan but needed time, "Deadshot" took a shooting position and decided to shoot the drivers to stop the security but the prime minister's car was armored, "Deadshot" shot down the police and embassy cars' drivers in a second without giving them time to realize what's going on, "Cain" almost finished the override of the computerized cars, when the prime minister's limo stopped and shooting started, the guard with the prime minister told the driver to drive and he did it, "Deadshot" was waiting for that and chased them, "Cain" finished the override and asked "Deadshot" what

he want him to do, he told "Cain" to handle the cops and embassy's security cars, the guard in the limo took his "MP5" and started shooting at "Deadshot", then "Deadshot" shot him with his wrist magnum gun and hit him in the head, after that it wasn't too long till "Deadshot" made them crash, he got out of the car and went to the limo, another guard got out of the limo from the other side of it, "Deadshot" noticed him and there was a light post next to the guard, so "Deadshot" used it and shot at the post, then the bullet deflected to the guard's head killing him, the prime minister and his secretary thought that they were safe in the car, the driver was injured badly due to the crash, "Deadshot" had a small chainsaw he brought for this situation, he used it and broke the unbreakable glass, this made them

hand the briefcase to him in fear, he took it and ran to his car and sped away, he contacted "Cain" again and told him to follow him and tell him what to do and where to drive, "Cain" blocked every camera and hacked the police comms telling them wrong info about the assailant which was enough to send them away from him, but he was stopped by someone he wasn't expecting, the "Sentinels"...

The "Sentinels" were [Silver, Arrow, Floyd, Rose, Electrocutitioner, Sonya, Quiet, Twin & Ivy] in their cars in front of him forming a wall, "Ivy" appeared behind him with her car then "Floyd" appeared next to her, the crew's cars were [Fiat 131, Nissan 240 RS, Aston Martin 1977, Gurkha LAPV, Mitsubishi 2008 & Lexus LF-LC], "Arrow" was in the "Fiat", "Floyd" was

on his new bike, "Rose" was in her car; the "Aston Martin", "Electrocutioner" & "Quiet" were together in the "Nissan" but "Quiet" was driving, "Silver" was driving his "Gurkha LAPV", "Sonya" & "Twin" were in the "Mitsubishi", and "Ivy" had her special "Lexus"... "Cain" asked "Deadshot" "Why are you stopping here?" "Deadshot" replied "Sentinels on sight" "Cain" said "I can't hack their radio or override their cars computer systems, Electrocutioner will notice, you're on your own" "Deadshot" didn't reply; then he moved to one side away from "Quiet's" car, she instantly moved and opened an opening in the wall they were making, "Deadshot" drifted and went through that opening, they went behind him and a chase started in the streets of "NYC", "Cain" was with "Deadshot" to update him with traffic

status, "Silver" gave orders to hunt him, "Ivy" didn't say anything she took another route, "Floyd" didn't have clearance to shoot at him, "Deadshot" saw high ladders used for maintenance jobs at a nearby building, he hit the ladders and made them fall down blocking the crew's way, "Quiet" crashed in the ladders and stopped, "Silver" used his car's strength and went through the ladders opening a hole for the others, the crew had a surprise for "Deadshot", they surrounded him at a crossroads and shot ropes from their cars to his car paralyzing his movement, "Floyd" came and shot "Deadshot's" car tires but they were bulletproof, "Arrow" shot his rope to "Deadshot's" side hitting his car passenger's door, "Silver" was at driver's door side and shot him with his rope, "Sonya" was at the front,

“Rose” was behind him and shot her rope to the car’s trunk, “Ivy” didn’t hit him with her rope because he was tied from all sides, “Deadshot” had to manage, he launched his N₂O and drove backwards with all force, the “Mitsubishi” was lighter than the “Plymouth” in weight, so “Sonya” was pulled towards him, then “Deadshot” hit her car face to face, this made her mad and reversed fast in the same moment, “Deadshot” reversed fast too and the sudden tension to the rope made her car’s radiator and front bumper fly in the air breaking the car down, “Silver” was pulling strongly, so “Deadshot” hit the door with his elbow and this made “Silver” reverse fast hitting other civilian cars and due to his car’s height, the car went over 2 sedan civilian cars and fall on its side, then “Deadshot” jumped to the other

side and kicked the passenger's door with both feet, "Arrow" reversed fast and didn't hit anything but the car's door hit his front glass with high velocity, "Arrow" was lucky to get down fast before being hit or injured, "Floyd" tried to attack "Deadshot" taking advantage of the absence of the car doors, but "Deadshot" was expecting that and shot "Floyd" in the leg, this left "Rose" alone behind him pulling him with her rope, "Deadshot" used another can of N₂O he had and pulled her behind him and drove forward to "Sonya's" car radiator which was on the ground, then he avoided it, she didn't see it and crashed in it, this hit broke the rope gun at her front bumper and he pulled it behind him with "Sonya's" car front bumper too, "Twin" jumped on the car's roof and stuck his left hand's claws in the roof near

“Deadshot’s” head, then cops appeared ahead, “Deadshot” sped towards the cops; this made them afraid and avoided him, their avoiding caused some damage on the road, “Ivy” was behind him, “Twin” kept trying to hit him, but “Deadshot” hit the brakes and “Twin” flew forward to hit a parking van in front of him, when he lost him; he drove in an alleyway and stopped to get rid of the ropes and he did it fast, “Ivy” stopped for “Twin” on purpose; to give “Deadshot” this chance to cut the ropes and escape, it happened for real and he could escape due to “Cain’s” blocking the city’s cameras preventing anyone from spotting him besides to manipulating the radio signals and sending wrong messages and signals sending cops off “Deadshot’s” way, it wasn’t too long till “Ivy” met him with her car; they drove

side by side and told him to stop and handle her the briefcase, he hesitated then she said "Consider your daughter", then he threw the briefcase from his car while driving, she stopped and took the case and he sped away... "Cain" guided "Deadshot" to the harbor where the smuggler was waiting for him with a hydroplane ready to fly, it was the dawn of the third day "Deadshot" mentioned to the smuggler, he arrived to the harbor and drowned the car with the phone "Cain" was talking to "Deadshot" through and flew away with his friend... "Ivy" handed the briefcase to "Silver" when she went back to them, after taking some photographs of it from the inside using her cellphone and sent them to someone; later she deleted these photos...

What happened that day made "Russia" take advantage and say that the Americans did all this trick to find a reason to delay giving "Ukraine" these codes, which was gonna make the nuclear project in "Ukraine" useless and not functional, forcing "Ukraine" to use the Russians help instead of the Americans, "Russia" used this event to embarrass "USA" and take the advantage of making alliance with "Ukraine" again, besides to corrupting "USA's" image in the world... Later on, "Deadshot" never told "Frank" or anyone else anything about "Ivy", she knew that he won't tell anyone about this and that's why she revealed herself to him without fear because she knew that he was in 'secret' love with her...

{The Protected Stones}

“Frank” & “Death War” went to collect the rest of the stones with “Cheetah”, but they didn’t know where were them, so “Death War” had an idea, he thought of “Petrov”, the wizard he met in “Siberia”, “Death War” used his power in controlling vehicles and went together to “Siberia”, in 2 days, they arrived “Siberia”, “Viktoria” knew that they were there through her friend “Boris” who was there already investigating what happened there earlier, she told him to stand down and asked for a special jet to take her there...The twins & “Cheetah” found “Petrov” and he was terrified of “Death War” but “Frank” calmed him down and asked him about the stones, “Petrov” denied knowing anything

about any stones, but "Cheetah" beat him down and tortured him to talk, the twins were watching impressively then he said everything about the stones and gave them maps to get to them, but he warned them of the stones protectors, they took the maps and left, "Viktoria" arrived and asked "Pertov" about what they wanted and he couldn't lie to her because of her aggression and told her what they wanted, she never heard about the stones and didn't know what they wanted from these stones but the existence of a demon-"Death War"-with them made her interested...

2 stones were in 2 different ancient places around the world except the "Space" stone, it was somewhere in "Antarctica", at a special mountain; in a cave called the "Cave of Death", the

iceberg there looked like a skull; and no human being survived this place, legends say that the mountain was protected by weird snow creatures, besides to the fact that ice there wasn't stable due to the global warming and overheating... "Frank" told them if the "Space" stone was protected by creatures in the coldest place on Earth; then they don't need to risk getting it, but the other stones needed more protection, the "Mind" stone was in "Japan", the "Power" stone was in "Greece", the twins & "Cheetah" decided to go after the "Power" stone, but they were right about "Knight", "Black Skin" & "Jason", they went after the stones but for the bad luck; they went after the other stone; the "Mind" stone in "Japan", "Brass" left them and tried to talk to "Black Skin" but she refused going with him because

“Knight” promised her that he’d give her the “Power” stone to use and told her that she’d be unstoppable, that’s why she went with them, “Brass” disappeared ever since and no one saw him again...

The twins & “Cheetah” arrived “Athens” in a plane “Death War” controlled, that time “Frank” didn’t have his iron suit, he was wearing his tactical suit, it wasn’t as strong as the iron legion suit and it had no sensors but it kept “Frank’s” agile and strong the same as the iron suit, he just kept the mask and the shield with him, “Death War” had a long burning chain...The twins & “Cheetah” knew that the stone was somewhere inside the “Temple of Acropolis”; according to “Petrov’s” map, it was a citadel or a complex built on a high hill, the

meaning of "Acropolis" is "City in the Air", it was one of the most important ancient places in "Athens", the place was excavated and visited by many people but there was a secret chamber no one could see using their naked eyes, but the chamber was hidden by the magic of Goddess "Hecate"^[8], she was protecting that stone by magic, ghosts and the monstrous snake woman; "Medusa", the twins & "Cheetah" didn't know that but "Cheetah" had a bad feeling when they got in, according to "Petrov's" map; they found themselves in an open area, after searching for hours, "Death War" felt the magical power getting stronger near a special wall, he checked it out and pushed a rock; then suddenly a hidden opening appeared in that wall with stairs downwards, the twins looked at each other then went down, when they

went down there, the opening got shut behind them, "Cheetah" was alerted but "Frank" said "Don't worry, there must be another way to the outside" "Death War" replied "Just like the Pyramid!" "Frank" confirmed then they kept going...

"Viktoria" for some reason went to "Japan" to see what she can see about the stones issue, her contacts in "Tokyo" informed her that "Jason" & "Black Skin" were in "Himeji" - "Japan", she was looking for them anyway, so she went there in 10 hours looking for them, she knew that they were up to something with the "Knight", "Viktoria" analyzed that the woman was "Black Skin" but she didn't know that "Black Skin" could change her skin color; but she wasn't so sure, the absence of "Brass" was worrying her,

that's why she asked for her tools from "Moscow", her truck and weapons...

{Greece & Japan}

In "USA", the "Sentinels" couldn't find any evidences or traces leading to "Deadshot" there, "Ivy" & "Cain" covered him well and "Silver" saw that he might be out of "NYC" and he was completely right, "Deadshot" arrived "Havana" where he could contact "Cain" and told him to tell "Ivy" to stick to her side of the deal with him and hanged up before "Cain" could track him, "Cain" sent to "Ivy" privately and she wasn't late, she sent "Deadshot's" wife and daughter to "Havana" and left them with an old mutual friend, he was a Cuban drug dealer and used to send "Ivy" info

about drug dealing between “Cuba” and “Florida” – “USA”, so he was trusted by her, it wasn't too long till the drug dealer could find “Deadshot” and send his family to where he was, “Ivy” was old school; she gave the little girl a necklace with “England's” flag on it, the necklace had a tracker, “Deadshot” made his wife and girl get rid of all accessories and watches they had, before getting rid of that necklace; he took it close to his mouth and said “Are you watching closely?” and looked at the sky, but “Ivy” already made sure that he was in “Havana” for real which was all she needed to know, the tracker disappeared from the satellites then she said “Yeah, I am watching closely, I've always been and I will always be”...

In "Greece", "Death War" felt that this adventure was dangerous and "Cheetah" had no weapon or anything to defend herself with, so he told "Frank" to hand her his shield and he didn't refuse, after passing some tricks they met the demon ghosts, "Death War" wanted to try something when they realized that they cannot strike the ghosts or shoot them but his burning chains were hurting them, so he told "Frank" & "Cheetah" to get down then he used his chain and rotated it around himself and widened the striking radius, the chains' hit to the ghosts killed them for real, every time he hit a ghost and killed it, a female scream was heard by "Cheetah"; as if a woman was getting hurt when these ghosts died and "Death War" was done, they continued walking till they met the "Medusa" in her lair, the lair was

the last stage before facing "Hecate" who was protecting the "Power" stone, the "Medusa" was completely unlike what they used to know in legends, there was a chair with a naked woman sitting on it, her skin was green and her hair was snakes able to be stretched to catch someone away from her and the snakes were poisonous, even her saliva was a very powerful venom, she looked to be fit and perfect for a fight, not like "Sekhmet" in "Khandaq", she stood up with her tall and big sized body and looked at them for a second then her snakes got stretched to hit them, "Death War" caught her snake and started burning it, "Cheetah" & "Frank" avoided them and "Frank" shot at her, she wasn't affected by his bullets but she was affected by "Death War's" fire and jumped to attack him, she did this and distracted "Frank" & "Cheetah"

with the rest of her snakes in her head, but her snakes weren't as strong as her body, they were getting hurt from "Frank's" knife and "Cheetah's" nails, "Medusa" tried to spit her poisons on "Death War's" face but he breathed fire in her face pushing her away and burning her face, this pained her and she fall down in pain but not for too long, her snakes started spitting their poisons on her face and this was healing her, "Death War" said "Get inside there, the stone must be in there, I'll hold her till you get it" "Frank" didn't want to leave his brother but "Cheetah" told him that this was the only way, then they got inside, "Petrov" didn't tell them that the Goddess would be there to protect the stone like "Sekhmet", "Frank" & "Cheetah" got in and "Cheetah" told "Frank" that there was someone with them in the

room, "Frank" made a fast scan to the room and found "Hecate", once he saw her; he shot her with his pistols but she wasn't affected, she was in the same size of the "Medusa", "Frank" told "Cheetah" to take the stone; which was seen by them; and told her to leave, but "Hecate" stopped her and held "Frank" from his throat and told him that she knew what he did in "Egypt" with the "Reality" stone in English, "Frank" was shocked to hear her and know that she knew what happened in "Egypt", she stopped the "Medusa" and told the twins & "Cheetah" that anything happening to one of the stones' protectors; the rest of them know what happened and know who were the assailants and what were their intentions to do with the stones, "Frank" was shocked and expressed his apologies for what happened to

“Sekhmet”, “Death War” warned her of the “Knight” & “Jason” but she told them that she knew about them too and that they won’t survive in “Japan”, “Frank” asked her about the “Time” stone and she told him that it disappeared from where it should be in “Argentina” but the ancient creatures and Gods were ok with “Frankenstein” having them because they saw what he did at the “Skull” island and his brave fight with “Hades” & “Necromancer”; regardless that he was “Death War’s” son, but both brothers neutralized several threats even angels couldn’t handle, then “Hecate” handed the “Power” stone to “Frank” and told him to keep it safe and go to acquire the “Mind” & “Space” stones to be all protected by him and “Death War” and she called them “The Iconic Brothers”, then the “Medusa” took them to the

outside and expressed her admiration with "Death War" and they left..

In "Japan", [Knight, Jason & Black Skin] made it inside the "Himeji" castle, "Knight" was so powerful and could detect magic in the place, "Jason" could notice shades and told "Knight" that the place was protected, but he was so confident of his powers... There were 2 guardian ladies who used to be immortal and were created only to watch over that stone and prevent it from being robbed, the 2 guardians had no human names, but they were called "Lunar" & "Solar", both of them were also responsible of keeping the lunar and solar eclipses as harmless as possible over "Japan", they never left that castle for centuries but they were ok with their destiny... "Death War" & "Frank" noticed that all protectors of

the stones were females, "Frank" saw that they didn't meet except "Sekhmet" & "Hecate" as Goddesses, they didn't go to "Japan", "Argentina" or "Antarctica" and they got the "Time" stone which should have been in "Argentina", leaving 2 stones left, in "Japan" & "Antarctica", it was easier to go to "Japan"...The "Sentinels" started to get worried about "Frank" and what he was doing out there alone, "Rose" contacted him and asked him to meet them in "USA" because they couldn't catch "Deadshot", "Death War" told him to go and tell them that he and "Cheetah" would handle the stones, "Frank" argued with him a little then "Cheetah" told them what to do, she said "Enough fighting, Death War and I go to Japan, you go to your people and convince them that something important is happening and bring

them to Japan, in case we faced troubles with Hades's slaves' it was a good plan but "Knight" and his friends were so dangerous to the "Sentinels'" lives, no one knew about "Lunar" & "Solar" or "Viktoria's" existence there of course...

Going to "Japan" needed a lot of time, in "Himeji", "Jason" found a secret narrow passage somewhere inside where security were banning visitors from going in, killing the security wasn't a trouble but "Jason" & "Knight" saw that they should keep a low profile on themselves, so "Black Skin" changed her skin to be a very beautiful attractive woman, "Knight" & "Jason" used the distraction she made and could sneak inside, "Knight" could use his magic to manipulate the CCTV cameras not to see them, "Viktoria"

went to the "Himeji" castle and got confirmation by the security that "Knight" and his friends were around, she told them to quietly pull out the tourists and take her to any secret place in the castle or any place where there might be anything precious, she could speak to them in Japanese, it was 3:30 p.m. and the place was gonna be closed on 4:00 p.m. but the security did what she said and called the cops and started telling people that the castle would be closed early for maintenance, "Black Skin" looked like humans but the security members didn't know her and told her to get out like everyone else, she moved out but she worked on finding a way in again, other security members took "Viktoria" to different places around the castle but they didn't tell her anything about that passage but she noticed it, she asked about it but

the Japanese told her that this place was holy and they couldn't get in; only their priests could, they used to think that Goddess "Izanami-no-Mikoto" and her guardians were inside the castle to protect something that might be able to make humans realize the 'Absolute Truth' and acquire the wisdom of "Izanagi-no-Mikoto" and to protect the castle from invaders, "Viktoria" told them that these men weren't found anywhere around and the cameras didn't get them which meant that they must be inside this passage, they were afraid of getting inside to avoid the anger of the God & Goddess, although they weren't worshiping them but no man living around the castle could deny the magic existence in this place, "Viktoria" told them to let her in alone and stop anyone who tries get out except her,

they agreed to do that...“Viktoria” was big in size and her muscles were very big, she got in the passage hardly and could barely pass, once she reached the end of the passage, she heard someone fighting violently, she used her night vision goggles and moved slowly towards the voices with her special revolver in hand...

When “Viktoria” arrived the fight, she took cover behind a rock and saw “Knight” & “Jason” fighting 2 ladies; “Lunar” & “Solar”, she didn’t know them at first, “Viktoria” could also see the stone in a necklace around a female statue on the other side, she decided to wait till the fight ends, “Knight” was very strong and could beat “Solar” down and almost killed her, “Jason” was still fighting with “Lunar”, but before “Knight” breaking

her neck; "Viktoria" interfered and caught "Knight's" hand and threw him away in an impressive power, "Solar" was alerted but she didn't attack "Viktoria", "Viktoria" told her to wait and gather her strength while she tried to stop "Knight", he said "You again! You don't know how sorry I am for you" "Viktoria" replied "And you don't know what I am hiding specially for you" and both of them attacked each other hand-to-hand, "Solar" went to help her sister and they beat down "Jason", "Knight" was impressed to see how strong was "Viktoria", after a long fight, "Viktoria" held "Knight's" neck from behind and after a lot of effort, she broke his neck, "Solar" & "Lunar" weren't killers so they couldn't kill "Jason" in front of their Goddess and considered "Viktoria's" act a sin, "Viktoria" looked at them; then they

bowed in front of the statue, "Viktoria" didn't understand, but she was shocked that the rock statue moved and stood up and went close to the tired "Jason" and vaporized him, she was the Goddess of life and death, then she looked at "Viktoria" and told her that killing is a sin but she can't judge someone who doesn't worship her, she thanked her for helping her girls and told her that someone would come and release them by taking the stone to safety, "Viktoria" replied "You know what's good for you more than anyone else" then "Solar" & "Lunar" thanked her for her help, then the Goddess teleported her outside the castle...Outside the castle, cops and security caught "Black Skin" trying to break in, being a foreigner made them wait for "Viktoria" to come out, they weren't expecting her to get out but

when they found her suddenly coming from outside the castle; they got surprised, they told "Viktoria" about "Black Skin" and she told them that she'd take her to her embassy as a terrorist to be delivered to the Russian authorities and they went away...

2 days later, "Death War" & "Cheetah" arrived, but they noticed that something was wrong and the place was closed and security was heavy, they were there at 7:00 p.m., "Death War" got worried that they might be late, so he decided to observe and wait for the "Sentinels" who arrived the next day... "Frank" was there with [Rose, Floyd, Twin & Quiet] besides to a young talented student of "Silver's" specialists, she was a one of her kind; although her very young age, her name was "Henley Banks", she

wasn't added to the crew but "Silver" sent her to be the American representative there... "Floyd" asked about the situation as an official and the security couldn't say anything to them but the truth and what happened, when "Frank" knew, he called "Viktoria" and she told him what happened, while she was talking to him things got silent and time stopped suddenly for everyone except "Frank", that was weird to him, he never knew anyone who could do so but "Victor" & "Rumple", but his shock didn't last for too long, "Izanami" appeared to him with "Solar" & "Lunar" on her left and right, "Izanami" waved with her hand and "Death War" & "Cheetah" appeared on his right and left, they didn't understand what was going on too, but "Izanami" told them what happened and told "Frank" that they

were waiting for the 'Iconic Brothers' to release them by taking the "Mind" stone and take the responsibility of protecting it, only "Frank" & "Death War" could take the stone and it would be safe with them as new protectors and warriors, she gave "Frank" the stone and the regular Japanese gifts for soldiers or iconic warriors, a samurai sword; but not any kind of swords, it was enchanted and had Japanese words on its blade shining whenever there was magic, it was like a holy spell to protect the warrior using it, "Frank" took the stone and accepted the sword thanking them for their trust, then they disappeared in light and time was released again, everyone was shocked to see "Death War", "Cheetah", that sword and the stone with "Frank", no one understood but "Frank" told them that they were done in "Japan", "Rose"

asked him about what happened but "Frank" didn't tell her or anyone anything, "Death War" & "Cheetah" told "Frank" that they'd go on their own not with the team and "Frank" understood, "Death War" told "Cheetah" that if she wanted to return back to the "Skull" island where peace and quietness, he was ready to take her there, she told him that she'd ask him to take her there again but after getting the last stone, the "Space" stone...

"Death War" had the maps given to him by "Petrov", the map leading to the "Space" stone led to a mountain that looks like a skull, the mountain's only entrance was one of the skull's eyes, but it was somewhere where weather was very bad for flying, so the crew had to cut the distance with the jet to "Halley" research base, it was a

research station operated by the "BAS"^[13] and it was one of the British bases on the continent, the skull cave was in the mountain named "Vinson Massif" and it was far away from the base, but it required special vehicles to drive on the thick snow and ice for a long time, but the "Sentinels" prepared their cars tires with snow chains for snow driving, the Jeeps were prepared with winter tires, "Frank" asked to use the "Dodge Challenger" he used earlier in "Egypt", "Ivy" agreed...

{Antarctica}

The "Sentinels" were [Frank, Floyd, Rose, Arrow, Twin, Quiet, Death War, Cheetah, Electrocutitioner, Sonya & Henley], no one understood why should they go with all their tech and weapons as if they were going for a war but "Frank" insisted on doing this, "Death War" told "Frank" that being handed the "Mind" stone and a magical war sword means that looking for the last stone was gonna be hard, "Frank" got worried about his friends; that's why he told them to be ready just in case... "Electrocutitioner" waited with the jet at the base... "Arrow", "Sonya" & "Electrocutitioner" met the others in "Tokyo" bringing all needs then the crew flew to "Antarctica" the next day...

The "Sentinels" arrived at the mountain with their cars, "Arrow" told "Quiet" & "Henley" to wait with the cars and to be very careful, everyone else took their way up to the mountain looking for the skull shaped entrance...It took 48 hours till the crew arrived the entrance according to "Electrocutioner's" coordinates, "Death War" felt that there's evil inside and warned his brother, "Frank" pulled his sword and a pistol and said "Stay sharp" to the others, then they went inside...

After some walking inside, voices started to be heard; women screaming, "Cheetah" said "Someone is yelling for help!" "Death War" said "No, they're witches", they kept moving till they found 3 passages; screams were coming from all of them, "Frank" scanned the

3 of them but no heat signatures appeared and thermal scans showed nothing, "Arrow" thought of splitting up but "Frank" refused, "Rose" took a small drone she got in her bag and turned it on, then she sent the drone in one of the passages and took her phone and watched, the drone got a camera connected to her phone and the camera was for night vision too, a minute later, the footage showed them snow women about 7 ft tall and looked to be in pain, their pain came from the heat emission coming from the "Sentinels" bodies and cars outside but they knew that later, the women weren't human and had no reason, they saw the drone and tried to catch it but "Rose" flew it back to them, the others prepared themselves for a fight and the snow women came out of the passage but they screamed loudly and seemed to be afraid of

“Death War”, “Frank” understood “The heat! The heat hurts them” then “Death War” attacked them with his burning chains and killed 4 of them; they were 7, the 3 others ran inside the passage, “Rose” saw that this was good for them, but “Floyd” felt that the ice was melting “I don’t think so, don’t use your chains much or the cave will collapse on us” he said, “Frank” confirmed and “Death War” agreed to stand down, “Rose” sent the drone to other 2 passages and they saw the same females inside, at the 3rd passage, “Rose” blew the drone and the heat killed all snow women, but the footage they had didn’t show them the stone, “Frank” took [Death War, Cheetah & Arrow] and went inside the 3rd passage to see if there’s any secret door or something while the others were waiting them, suddenly a woman appeared from the

middle passage, she was about 5 ft tall like usual humans, but she was very pale and got a mohawk haircut; looked like her hair didn't grow except that way; and wearing strange clothes of ice, she was seen by "Twin" but he didn't know what she was, she was sitting on the ground and leaning her forehead on her knees, "Twin" couldn't read any heat signatures, he went inside to her to check her out, when he went in; she looked at him fast and said "You are a machine" in an ancient language, he couldn't analyze what language it was, then she kicked him strongly to the outside, "Floyd" threw a smoke grenade in the passage to force whoever inside to get out, she coughed a lot and got out hardly then she fainted outside, "Rose" told them not to shoot her, she went to check on her, the woman opened her eyes suddenly and kicked "Rose" away,

“Floyd” ran to “Rose”, “Twin” attacked the ice woman and she raised her hand at his face freezing him; then she hit his head with her elbow breaking the “Twin’s” head like an ice cube, “Floyd” shot her with his machine gun, the shooting made the others in the 3rd passage realize that something was wrong, they rushed to the outside, but the ice woman froze the entrance to prevent them from coming to help, but in a second; “Death War” hit the ice wall breaking it to pieces, then he got out to her, the ice woman shifted her attention to “Death War”, she wasn’t affected by “Floyd’s” bullets, “Rose” stood up and she was ok, in order to help; she threw her hammer to hit the ice woman, and the hit was strong, so she waved with her hand then “Floyd” & “Rose” were thrown on the wall and got tied in the wall by ice, she turned to

“Death War” but she was shocked by “Frank” attacking her with his sword, she raised her hand and got hit, the hit hurt her and she knew that the sword was enchanted and got terrified for a moment, then she raised her hands and several giant snow women started getting out of the ground and getting formed by snow and ice and others came from the 2 other passages, but they were all getting hurt from the heat emitted from “Death War” except the ice woman who was very strong and powerful, she created an ice sword and shield and prepared herself to fight “Frank”; telling her women to avoid attacking him and prevent anyone from helping him, she didn’t know that “Frank’s” suit was immune, she was a very good fighter but when she tried to hit “Frank’s” head with her sword, he met hers with his sword and

broke her ice sword, this made her stop for a moment, during that moment of shock, he attacked her with his sword and she defended herself with her shield which wasn't strong enough and the shield got broken to pieces of ice; then he pointed his sword to her neck and she gave up with fear, then she bowed before "Frank" and stopped her snow women from attacking the crew and made them disappear, "Frank" held her from her arm and asked her aggressively "The Space stone, where is it?" "Cheetah" pulled "Frank" away from her and the others took the ice woman to another corner trying to understand her language, "Death War" told them that this was a waste of time, if the ice woman was in control of all magic in the mountain; then killing her would make their mission like excavating a cave, "Frank" said "We're

the best crew in the world, but we are NOT killers” to “Death War”, “Rose” collected whatever left from the “Twin” but there was nothing valuable, “Frank” was very upset because of losing him...Minutes later, the ice woman understood what the crew wanted but she looked mad because of that and guarded herself with ice against them, “Frank” looked at “Death War” and moved his head, then “Death War” threw his burning chain breaking her ice in a second, then suddenly and without any expectations, “Electrocutioner” warned the others that a military escort was on its way to the mountain’s entrance where “Quiet” & “Henley” were camping, they weren’t gonna engage with anyone because they were military but talking to them wasn’t of any benefit, the escort was led by

Colonel "Dylan Moses", the corrupted Colonel who had dealings with the Russian Mob and was gonna buy a nuke from them, the ones who hired "Petrov" to get the nuke to them without a fight from that secret base in "Siberia", he had his own special unit and no one was standing in his way for some reason, he was hunting the stones but he went for the "Time" stone first in "Argentina" but he didn't find it, so he went to the closest stone to him, the "Space" stone, for his bad luck he clashed with the "Sentinels" and his men wanted to take the "Space" stone from them by force if necessary, but in fact even the "Sentinels" didn't get the stone yet and negotiating with the ice woman was on going, Colonel "Moses" went in with his men in 30 hours, "Floyd" & "Arrow" went to meet them outside the cave and to check on "Quiet"

& "Henley" but both men were shocked to see that "Moses's" soldiers pointed their guns at them and everyone went in, "Frank" tried to contact "Floyd" but he didn't reply which made him and "Death War" worried, "Moses" came in with his men behind him with "Floyd" & "Arrow" tied, "Frank" got alerted but "Rose" held his hand telling him to calm down, "Moses" said "Is that you?? Frankenstein, right? I never met you before and never thought that I will, straight to business, where's the stone?" "Frank" said "What stone, Dylan?" "Moses" said with aggression "It's Colonel to you kid" "Frank's" ID scanner identified "Moses" from the US military database, "Frank" said "That tone might goes effective with your troops but you're not looking closely at me..." then "Frank" moved with his mask close to "Moses's" face and

continued "I FRANKENSTEIN" after a moment of silence "Moses" said "How can we be sure that you and your men won't use the stones against us one day?" "Frank" said "You can't" then he looked at the soldiers and told them to untie "Floyd" & "Arrow", they looked at their Colonel waiting for orders, after a moment of silence, "Moses" told them to leave them and pulled back, this was so impressive to everyone; specially "Cheetah", "Frank" looked at the ice woman and said "The stone; NOW" she was looking at "Frank" with amazement and agreed to give him the stone, she moved her hand to him asking him to follow her alone, "Cheetah" refused to leave him but "Frank" convinced her to stay with the others in case other snow women attacked, she took him to a wide cave where ice was everywhere and several

frozen humans who looked to be from several intervals of time, even WWII and many years before it, she showed him the stone, it was on a flying rock where darkness was beneath it with no ground, "Frank" tried to know its depth by his computerized system but it didn't reveal anything, it looked like an infinite abyss, he looked at the ice woman but she moved her hands telling him that she doesn't know a way to reach it, he knew her trick, whoever beats her down; she takes him there and make him try to get there, later she takes advantage and try to kill him, so "Frank" put his shield behind his back and stabbed his sword in the ice ground breaking it, which pained the ice woman but she tried to hide this; then "Frank" took his grapnel gun from his waist and shot at the stone, the rope's tip had a gripper that hit the

stone and caught it and in a second the stone was in "Frank's" hand, the ice woman got shocked and tried to attack "Frank" with ice but he was expecting this, then he avoided her attack and pulled his sword and pointed it at her throat stopping her, then "Frank" moved back slowly to the cave's entrance, she closed the entrance with ice and seemed to be crying and begging him not to take it, "Frank's" feelings were hardened and hit the ice wall with his enchanted sword breaking it, the hit hurt her enough to scream, then "Frank" left fast to the others and told them that they should leave fast, the stone was a cube of ice with a blue stone inside, he gave it to "Rose" who had a bag and the crew went outside running, they took the distance in fewer hours because they were running and used some slides to get down fast,

then they jumped in their cars and
went away back to "Halley" base;
thinking that it was over but they were
very wrong, it was just the beginning...

{Voyna #11}

While the "Sentinels" were driving on the snow, they got shocked by about 20 military trucks loaded with missiles and weapons chasing them, it was "Moses" and his unit, he was waiting till the "Sentinels" get out with the stone then he'd attack them, "Frank" & "Death War" knew the drill and told the others to prepare for a chase, "Electrocutioner" tried to hack in the unit's communications but they were covered well and he needed time to hack them, later he couldn't, the "Sentinels" were distributed on their cars, "Frank" & "Cheetah" were together in the "Dodge", "Rose" was with "Arrow" in the "Ram", "Quiet" & "Sonya" rode a modified Jeep, "Death War" was with "Floyd" in a "Ripsaw

EV2” which was given to them at the base, the vehicle was armored and had a machine gun on its roof ready to shoot at all directions, “Henley” was alone in another modified Jeep, “Twin” was destroyed already, “Arrow” told “Henley” to drive to the front, she refused at the beginning thinking that could fight but “Arrow” told her that these were orders, she sped up and became at the front, the military escort started shooting at them, “Frank” said “Time to make them taste their own medicine Floyd” “Floyd” replied “Copy that” then he moved the canon machine gun to shoot backwards and shot at one of the trucks and destroyed it, then shot another one and broke its engine down to stop, the chase reached a wide area of ice, “Frank” used his driving skills and could destroy one of them, “Arrow” used his explosive

arrows and shot 2 cars destroying them, "Death War" noticed that there were 4 snowmobiles with 4 soldiers driving and shooting at them, he opened the car door and hit one of them with his chains turning him to ashes, then he jumped on the snowmobile and followed the convoy and started attacking the military vehicles and burning their cars, after some fighting and car chasing, both sides got shocked to see the ice plain turning to big sharp icicles getting out of the ground and following them till the military vehicles got hit by these icicles edges and got destroyed one by one till the car which "Moses" was in almost destroyed but he jumped out, for his bad luck; he jumped and fall on one of the icicles and died at once, his car was the last one of his escort, but the icicles didn't stop; they kept getting out of the ground

following the "Sentinels", it was the ice woman, she was hunting the team but she realized that they were faster than her magic, so she raised an ice wall in front of them, the crew got shocked, "Death War" yelled "DON'T STOP" then he sped up to the front and hit the wall with his chain and broke a hole to them to pass, behind the wall "Henley" was right behind him and saw the "Yety" monsters ahead, she reported that to the others, "Frank" said "Pullback, I'll take them down by the electromagnetic wave", "Death War" and the crew slowed down and "Frank" hit the gas and almost hit one of them, then he activated the electromagnetic wave and the wave put all the monsters down dead, their brains blew up, the crew crossed them fast, the ice woman fall on her knees and screamed loudly in pain, as if her son died or something,

her scream caused a collapse to some heavy snow on a hill on their 9 o'clock, they had to drive fast to avoid all this snow or they wouldn't be able to keep driving forward and stopping wasn't an option, so everyone launched their N₂O and hit the gas, "Arrow" closed his eyes and said to "Rose" who was driving "We'll never get out of here" she looked at him and didn't reply, "Floyd" looked at "Rose" without talking as if he wanted to tell her that he loved her, "Henley" looked afraid; so "Frank" slowed down and pushed her from the back, "Death War" wasn't as fast as them so he threw his chain and tied it to "Frank's" "Dodge" and pulled himself to catch up with them, "Sonya" said "At least I'll die among my friends, my family" "Quiet" said "It was an honor fighting by your side", all this took seconds, the crew passed the

collapse at the last moment but “Death War” didn’t make it, this stopped the “Dodge” suddenly but it was still working, the crew passed but they noticed that “Frank” stopped so they stopped and reversed to him, “Frank” used his car’s full power to pull him but he knew that he’d be cold and his face would be human, so he told them to drive fast because there was another collapse coming, “Rose” refused to leave and got out of the car “Arrow” hit her with a drug and took her back and drove fast, “Floyd” followed him but he was angry that he was leaving his friend, “Quiet” told “Frank” to break the chain and drive but “Frank” ordered her to leave too, “Henley” was shacking and couldn’t drive, so “Sonya” went to her and took the wheel from her, “Frank” used his car’s power and “Cheetah” got out to pull the chain

with her hands, she was strong, after strong pulling "Death War" got out alive, it was a miracle, he was cold but "Cheetah's" body was always warm due to her animal nature, so she hugged him for minutes then he looked at his brother and laughed; "Frank" laughed too, "Cheetah" didn't understand why were they laughing, "Death War" said "That was close" "Frank" replied "Yeah it was, looks like we shouldn't work together for too long, we caused a lot of damage already and one of us almost died" "Death War" said "We're icons in this world, it can't keep rounding with both of us on surface, we both know that better than anyone", they spoke in English; so "Cheetah" understood nothing, then they took the car and left, when they got close to the base; "Death War" & "Cheetah" left "Frank" and told him

that they got somewhere to go then "Death War" would call "Dr. Frank" later, "Frank" dropped them and kept driving to the base where he was met with hugs from his crew, when they asked about "Death War" & "Cheetah"; he told them that they pulled "Death War" out but he was frozen dead, "Cheetah" got mad and left him, that was what they had to know to cover on the old secret, later "Sonya" said "Cheetah's an animal, she'll find a way out of here to South America and settle in a forest or something; so relax, we'll find her later" to "Rose" who didn't seem to believe "Frank"...

"Death War" promised "Cheetah" her freedom at the island where she lived most of her life, the "Skull" island; which was called the "Guardian" island that time by the

island's inhabitants referring to "Frankenstein", it took them days to reach there...The "Sentinels" arrived "Swansea" - "Wales" after that adventure and after handing the stones to "Ivy" who hid them with "Paige's" knowledge in separate countries with trusted people and secured places, "Silver" admitted that Colonel "Moses" was corrupted but no one could prove anything, he was covering his tracks for years and had his own men doing whatever he wanted; some of them were former soldiers from different countries and others were just mercenaries, "Silver" told "Frank" that he did a huge thing without noticing, "Moses" was also covered by several agencies and officials, this was a huge hit to corruption... "Frank" put the katana with his suit and shield in the "Grave" under the mansion's ground level, he

felt that he was gonna use that sword again, he was right...That time, it was Christmas 2022 and the world was about to welcome a new year...By the beginning of 2023, "Vasily" became the Russian prime minister, when "Deadshot" saw that on TV, he laughed saying "Bloody fool, no fair on Earth"...

{A God Among Men}

“USA” spotted alien ships miles and miles away from Earth, they just passed “Jupiter”, the American president decided to share what they knew with the “NATO” countries and the “UN”^[14] to decide what to do, but the president’s consultants advised him to keep that info for themselves and start developing their firepower and war machines, “England” knew about the aliens movements too; but after the Americans, so they made the issue public and the world knew that there was an outer threat coming, Christian priests announced that as the doomsday and told people that “Christ” was coming back to judge everyone, Muslims saw that it was the Anti-Christ and the war of Gog and

Magog was gonna happen, others saw this as the end of the world by the dawn of this war, the war of "Armageddon"; where all major armies fell together in a war destroying everything standing, others saw that these were just claims and nothing to worry about, "Frank" saw that he was gonna be needed when the strike happens, so he decided to stay in the shadows and lay low, but that didn't happen...In "Spain", the "CNI" were following an Algerian terrorist crew and they could successfully catch some of them before committing any crime, the rest of them were killed during engagement with the "CNI's" agents and cops, but when they took the bodies; cops got shocked to see the corpses forms changing to be other weird creatures, the "CNI" kept that a secret from their people but they reported what

happened to the Americans, to the "CIA" specially who were looking for weird things in the world, checking the weird corpses indicated that they were exactly like the corpse they saw in "Chile" a year earlier, which meant that they were aliens, this discovery made everyone get shocked, because this indicated that there were alien spies on Earth and they could simulate their shapes into human shapes, "Ivy" knew from her friend "Anastasia" and she told "Ivy" to manage a way to distinguish between them and humans before chaos, "Ivy" told "Frank" and the others and they started working secretly on finding ways to mark them from humans according to the leaked samples from "Spain", "Ivy" told "Anastasia" to send her fibers, hair, blood samples, copies of every document and everything they got on

these aliens...“USA” refreshed the “Hammer Drones” project by “Alex Landon” with the British support and the “Rothschild” family’s funding, “France” knew what happened in “Spain” and decided to help anyway they could, “Landon” was using German scientists and engineers in his labs and workshops, this wasn’t accepted by the Germans for some reason and asked to interfere and have a role in this war industry as a country, “Landon” convinced “England” to accept the Germans input, it wasn’t a secret, [USA, England, France & Germany] were working on creating war machines and weapons of mass destruction, “Russia” & “China” couldn’t be so sure of the “NATO’s” words and saw that they could be using the aliens issue to attack them anytime or to give themselves the right to build

the "Hammer Drones" without any global objections, so they unified their efforts with the Japanese to build their own weapons and robots secretly...

In the "Alps" mountains, the "Sentinels" buried the ancient monster by the name of "Abomination" in 2017, Austrian explorers and geologists discovered it and reported about it to "Germany" because their government didn't care about it, the "BND" sent their men there; expecting that there's was an alien activity there...Exploding the rocks there made it clearer to get that 'thing' out, it was sleeping for years without movement, the "BND" made the old "Nazi" camp there their own research lab, the German scientists saw it as a dead ancient creature which died thousands of years ago but they

couldn't know anything about its origins, they analyzed that it was a creature not a statue of rocks because there was a dried green liquid everywhere close to it at the cave which was weird to them, and the rocks weren't like the mountain's rocks or any rock they ever saw anywhere on Earth, besides to the fact that the body had no broken rocks and could move without obvious joints, but the monster didn't stay sleeping for a long time, at night when everyone went to sleep, the creature woke up and moved, it wasn't too long till it was spotted and started killing everyone there and destroying everything, the "BND" didn't waste time, they called for the "Sentinels" help and they weren't late, "Frank" knew that it was the creature they buried in the mountains in 2017, he prepared himself and took his tools

and the sword too, the crew flew to the "Alps"; to that camp where the "Skeleton" was camping years ago creating his unholy creature with "Martha's" help...The crew was [Frank, Rose, Floyd, Arrow, Quiet, Sonya, Electrocutioner & Hylaria], the crew arrived after 4 hours of fast flying, "Berg" was waiting them at the camp, "Frank" fought with him telling him that they shouldn't mess with what they don't understand, "Hylaria" calmed him down, "Electrocutioner" started a scan to check motions in the woods around but he found nothing so he increased the radius of the scan till he caught a motion of something without vitals miles away, near "Davos" and they were somewhere on the "Bavarian Alps", which was far away but the jet could make it there fast, the

crew went there and "Berg" joined them...

The monster was lost, it was looking for its cave where it used to live, the "Sentinels" arrived to it and they saw it, "Frank" told them to land somewhere and get closer on foot, "Floyd" said "Let us shoot it with the jet's weapons" "Frank" said "Silver did this in 2017 but it's still healthy" so they had to hunt it down, "Frank" was gonna be the distraction and the others had to prepare an area where they'd use the electromagnetic shock weapon they used years ago to hunt the "Twin", the same one "Electrocutioner" killed "Lucy" with, "Frank" told him to prepare a place where they can use it against the monster without hurting civilians, [Quiet, Sonya, Hylaria & Electrocutioner] were up to this,

“Frank” went to attack the monster; and attracting its attention was devastating and looked to be a mistake, the monster was smarter than it looked, it remembered “Frank” and his friends and started attacking them and throwing rocks at them aggressively, “Arrow” used new arrows, smoke arrows, they were sleeping gas but they weren’t effective on it, the explosive ones were useful and hurt it, “Floyd” kept shooting at the monster’s head with “Berg”, “Frank” used all his electric chips and threw them on the monster’s back, the only place where the monster’s big hands couldn’t reach, the electricity was hurting it, “Electrocutioner” told “Frank” to guide the monster to a location he sent to him on GPS, the monster gathered its power and endured its pain and attacked “Frank”, he avoided it and ran away

attracting the monster to run after him, the monster was faster than "Frank" and caught him, the monster lifted "Frank" up and chokedslamed "Frank" and punched him in the ground 3 times, "Arrow" shot it with his arrows and the others shot at him, "Frank" fainted and the monster thought that he was dead, the suit got damages but "Frank" was ok, "Floyd" & "Arrow" took cover away from the monster, it kept looking for them, "Floyd" said "Frank is down, What are we gonna do? What are we gonna do now??" "Arrow" said "We will do the only thing we can do" while he was looking at the monster from behind the rock with a grenade in his hand, "Berg" said "Your explosive arrows didn't work on it, will a grenade do?!!" "Arrow" looked at him then he looked at "Floyd" and didn't reply, "Floyd" said "The grenade isn't

the trick, we'll lead it to the location, a 1 man job is gonna require 3 men to do, get ready to run" referring to "Frank" and them, "Electrocutioner" noticed that "Frank's" vitals were low, saying this loudly made "Hylaria" run to the scene on foot to get to "Frank", "Electrocutioner" reported that to the others there, then "Rose" followed her, "Arrow" threw the grenade somewhere away from the monster taking its attention, then "Floyd" shot at it and ran in the location's direction, "Berg" used a flare he had to attract the monster to follow him too, the monster did it and went after them, "Rose" took "Hylaria" away and hid till they passed, then they went to check on "Frank", "Rose" knew that he was alive, so she injected him with a "Digoxin" injection that woke him up in 2 seconds, "Hylaria" hugged him

while crying, he asked about the monster and "Rose" told him what happened, he stood up and took his sword and shield; then ran to help his friends, "Floyd" & "Berg" passed and told "Electrocutioner" to prepare the weapon to shoot, once the monster was on sight, "Electrocutioner" shot the wave on it, the hit was too strong on the monster but it didn't kill it, it fall on the ground but it was still moving, "Quiet" brought "RPG" from the jet and shot the monster in the head, "Frank" arrived, he got shocked like everyone when they saw that the electromagnetic gun and the "RPG" were of no use, "Frank" stood in front of it and while the monster was getting up, its head was broken and looked dizzy, "Frank" yelled "I FRANKENSTEIN, THE ONLY MONSTER ON EARTH AND I CONDEMN YOU TO DEATH" the

monster got focused and attacked "Frank" and he attacked the monster back, "Hylaria" was screaming with "NO", "Frank" stabbed the monster in the throat with the sword but the monster was heavier and took "Frank" down, then it stood up with the sword in its throat, it didn't notice this but in a second; its throat started to emit green liquid then its head blew up like a bomb and all its body turned to rocks and got broken to different sizes with a lot of green liquid around, "Frank" stood up and the others were looking at him with amazement, "Hylaria" ran to him and hugged him, "Berg" asked "Arrow" "Who is this guy?" "Arrow" said "That's Frankenstein, our monster Frankenstein", "Rose" said to herself "I never saw a man like Frankenstein, the Monster among Men, or maybe I can say; a God among Men", "Frank" kept

looking at the green liquid for a moment, then he told "Electrocutioner" to take a sample with them to be analyzed later, they knew what it was but they couldn't understand the relation between this liquid and that monster...When anyone on Earth mention God's name, "Zeus" used to hear them and know them, he was powerful enough to see every man on Earth, when "Rose" mentioned God in her words that moment, he knew and saw her history and knew "Frank" when he saw him in her memory and heart, he knew about "Frank" from "Poseidon" earlier, when she described "Frank" as "God Among Men" and when "Zeus" knew that the inhabitants at the "Guardian"-"Skull"-island were worshiping him already and he also knew what "Frank" did to "Hades" and

“Necromancer” later, this made “Zeus” keep an eye on “Frank” considering him a God or a son of a God, “No mortal has the strength to beat down Hades and this demon Skull king, or even that mighty Necromancer who was gonna cross to me here” he said to the “Olympians” in a meeting, “Eileithyia”^[8] was there although she wasn’t a major Goddess, she said “He’s Necromancer’s father, his brother is Anhur, the pharaoh God of War and the grandson of the first unholy artificial superhuman, he was born by choice to be what he is now” to “Zeus”, he didn’t reply back but he delayed the attack on humans for some time, “Poseidon” was already in the Earth’s oceans preparing his city and hidden forces to rise, when he knew that “Zeus” delayed the attack; he got mad but didn’t tell his big brother

anything...The crew left the "Abomination" and went away, a woman came and looked very old fashioned with long red hair; although she looked young; she looked like a witch, then she stood near the monster's broken rocks and said "Hello there, it looks like you survived for a very long time" and took some of the green liquid in a tube, she knew what it was; then 2 men came from behind her, one of them said "That's the Green Goo compound, the sword in the warrior's hand was the katana I mentioned, but the SIS^[15] never knew its location; neither did the Americans, your objective is to steal it, it's the only weapon to kill people like ME, any project of the Green Goo or the power serum will be in danger if that sword isn't in the Allies' possession" then they

disappeared and the woman went away, the other man didn't talk...

Since that night at the "Alps", the whole world knew that "Frankenstein" killed a monster of the aliens and this rumor spread like a virus, whenever a crime happen anywhere in the world they do it in the morning but that was rare and made catching human criminals easier, but they had to do so because "Frank" became a horrifying monster to all of them, this reduced crimes and terrorism in police and agencies' records to nearly more than half, many thugs hid or retired criminality, any terrorist, mafia or triad guy used to fear mentioning "Frank's" name in front of them during interrogations, when they hear his name coming; they admit everything and tell the authorities everything

they wanna know, which helped in reducing criminality and terrorism more and more, besides to the new weapons like the cryoguns and the Artificial Intelligence which was nearly watching every event on Earth for the "CIA" & "MI6", and for the "KGB" too...

For over 2 years things have been calm, few missions here and there but nothing so serious, during one of those missions in "Vienna", "Frank" used to bring the sword with him in case they faced anything abnormal, the sword fell on the ground and "Frank" was busy shooting; during these moments; the weird woman could switch swords and disappear fast before anyone could notice her, "Frank" didn't realize that the sword was a normal one and his enchanted one was gone, later on when

he realized that the sword wasn't enchanted; the twins thought that the sword lost its magic somehow, the twins agreed to hide "Death War" from sight forever based on "Dr. Frank's" advises... "Berg" & "Henley" were added officially to the "Sentinels" team that time... In November 2025, when suddenly satellites spotted the alien ships too close to the atmospheric air of Earth, "NASA" & the "ESA" were ordered to send shuttles to them to examine their intentions, the shuttles were driven by robots, 2 shuttles went there but the alien ships didn't give them much time and shot them down, which was a clear sign of WAR, it was globally known that the 'End of Days' had come; all armies all over the world got ready with all hands on deck, the scientists' researches didn't reveal any weak spots to kill them yet, they needed

more time, but Earth had no time, “Frank” put on his mask again and waited for the end, “You think it’s the end?” “Jenny” said to him, he replied “No, we’re too far away from the end” depending on seeing his kids in 2022 coming from the future and looked 30s and the horsemen of peace who were coming from year 3000, that gave him hope and strength but he didn’t tell his women anything about their kids from the future and told the others not to tell them, so “Jenny” asked him “What makes you so sure?” “Frank” replied “Because I Frankenstein, and I won’t allow Earth to fall under my watch”, when he was done talking to her, news reported thunders coming from the ships hitting several places on Earth, thunders of “Zeus”, some places were historic and others were just streets and buildings killing millions in 3 hours,

“Deadshot” took his wife and daughter and told them that they were gonna travel to “London”, he was gonna let “Ivy” protect them and he was gonna volunteer to service again, his wife was worried and asked him not to do so but he knew that he should go; telling her “This might be the last good thing I will ever do to write down my last chapter in this cruel world of war, I have to go”, “London” was hit too; a thunder took the “Scotland Yard” building to the ground, when “Deadshot” arrived, he saw the place and said “May God have mercy with us, it looks like a Global War will break out”, everyone else like [Agent X, Hylaria, Ronda, little Magnet, Dr. Frank, Judge, Chen and everyone who knew Frank] saw the ships in the skies and witnessed the heavy hits with a despair look in their eyes, like all humans on Earth, “Chen” was holding

her little girl and said with tears in her eyes "If Earth survived, we'll leave you a shattered planet, I hope your father can save the world; just for you, for your brothers and for every innocent life on Earth" to her child, "Ai"... "Frank" went to his twin brother and they discussed what they should do then "Death War" said "What about our ladies? There's no safe place on Earth anymore" "Frank" said "Ivy can handle their security, and hers of course" they looked at each other for a moment then "Frank" said "I know you're asking mainly to check on her, I love her too, we both shared half of a full life, but we couldn't share her love" "Death War" said "We're too young for her, she sees us as her younger brother or friend, but you're right, there are some things in this world we can't share, like love, our ladies must never

know anything..." "Frank" continued
"Or we'll lose them and our kids forever,
I understand"...

The scientist-who took
"Jenny"-had 100s of very sick and old
people to be experimented on in the
future but there was a problem, the
experiments went bad and results were
disappointing, till 2069; when the
face of the world changed forever and
humans had to face a past powerful
friend and a present mighty enemy...

{Notes}

1. For full understanding of this novel, the past 5 parts must be read...
2. All the 6 parts of the "Markenstein" Legend are written by one Author: Mark M. Isaac...
3. All mentioned names and events have no existence in real life and all 'future' events are from the Author's imagination...
4. The novels are all published on the official Facebook page "Novels from Nowhere" and on the official websites:

[1] www.markisaac010.webs.com
